GOODYEAR BELT'S Save Money for Kerslake Thomas & Co., Ltd.

Goodyear Belts Specified: Several months ago Kerslake Thomas & Co. Ltd. of Tanganyika installed Goodyear Belts on their steel machinery.

Severe Drives: Some of the belts on these installations were constantly soaked in a spray of water and acid, the drives and operating conditions being so severe that belts formerly used were a constant source of trouble and expense.

Goodyear Belts Prove Themselves: These Goodyear belts have never been operating on this machinery for several months and despite the severe and unusual conditions under which they have been constantly running they look as good as new and show no signs whatever of being injured by the acid or water.

Belt Dressing Never Used: Furthermore, these Goodyear belts have never slipped, and no belt dressing has ever been used.

Big Saving Made: Kerslake Thomas & Co. Ltd. have found that the use of these Goodyear belts is substantial and that important savings in operating expenses. No other belt they have tried has ever given them a service comparable to that rendered by Goodyear belts.

The Trained Engineer Knows: Competent Engineers and Factory Superintendents know how the trouble free operation and long life of better low cost production. That is why you will find the best equipped and managed Factories and Estates now using Goodyear Belting.

GOODYEAR Gilfillan & Company, Ltd., Agents.

Summing-up: The ordinary driver-driver is not only for one feature, making the sport more fun, but also for its ability to give you a better ride, to be found in the 'home-made' type. But of the 'home-made' type...

FLAX MARKET REPORT.

Mr. A. H. Tol, representing Wm. F. Malcolm and Co. of London forwards the following report dated London July 18:

The market in this country and on the Continent continues in a state of complete stagnation...

On the surface sales of Russian and Baltic flax seem to maintain their former prices, but private indications are already showing a slight decline...

At the present 20,000 tons of flax is expected to be available for export between the end of November 1925 and end of October 1926...

At the moment 20,000 tons of flax is expected to be available for export between the end of November 1925 and end of October 1926...

Under these circumstances it is probable that the price of flax generally will be affected to a considerable extent...

Flax generally will be affected to a considerable extent...

Medicinal Central Dew, 5/25; Superior Baltic Flax, top 5/10; Superior Baltic Flax, top 5/10...

EXPORTS.

Below is the Customs shipping returns showing exports for the month ended August 4:

Table with columns for destination (Brazil and West India, Canada, Australia, etc.) and amount in tons.

At the time of my visit 1000 acres were being cultivated...

On the whole the future of the flax industry in this district is promising...

It is to be hoped that the flax industry in this district will be able to meet the demand...

FACTS. FOR THE WISE

(1) The total quantity of wheat flour and meal, local and imported, consumed in this country (excluding Uganda and the territories) is now at the rate of about 22,000 bags per annum, requiring about 65,000 of wheat.

(2) The quantity of wheat available for milling this year was estimated to be about 100,000 bags. It is hoped that next year there may be about 85,000 bags.

(3) The quantity of wheat flour consumed in this country is about 22,000 bags per annum, and there are two other mills in use at present in the country. The total capacity of all other mills is 20 per cent. in excess of the total consumption.

(4) In the United Kingdom the milling capacity is 50 per cent. in excess of requirements, and the surplus is being used in a large number of ways.

HORTICULTURE IN KENYA. STRONG SUPPORT FOR AN INDEPENDENT SOCIETY.

Proceedings at a Meeting on Monday. LADY MURIEL JEX-BLAKE OUTLINES THE POSITION.

A meeting of horticulturists was held in the New Hotel on Monday evening in order to discuss the proposed bill to organize a horticultural society...

It was explained that the first step in the formation of the Horticultural and Horticultural Societies in Kenya was to elect a committee...

The alternative was to start an independent horticultural society to be affiliated with the Royal Horticultural Society in England...

The other side of the bill is the one of the Agricultural Society of Kenya which would be affiliated with the Royal Horticultural Society in England...

It was pointed out that the bill would be a great advantage to the horticultural section attached to the Agricultural Society...

It was pointed out that the bill would be a great advantage to the horticultural section attached to the Agricultural Society...

NATIVE DRUNKENNESS.
Control of Sugar and Sugar Juices.

The East African National Congress has addressed the following resolution to the Government: PROPOSED ORDINANCE TO REGULATE THE SALE OF SUGAR AND SUGAR JUICES IN THE PROTECTED TERRITORIES OF THE EAST AFRICAN COLONY.

POLITICAL ASSOCIATION.

Resolutions to Convention Meeting.

THE DELIBERATE.

The usual monthly meeting of the Political Association was held on Monday night at the Nairobi Club. The meeting was presided over by a fairly large number of members.

THE TUGGINGS.

By this Convention has been approved the following resolutions: That the Government be urged to take steps to improve the conditions of the Legislative Council.

By Mr. L. W. Leach, seconded by Mr. Turner.

That this Convention respectfully invites the Government to make a statement of its policy in regard to the conditions of the Legislative Council.

By Mr. L. W. Leach, seconded by Mr. Turner.

That this Convention desires to see the resolutions passed by the Association of E. A. Chambers of Commerce in July last to the following effect: "That Government should be urged to take steps to improve the conditions of the Legislative Council."

By Mr. L. W. Leach, seconded by Mr. Turner.

That this Convention desires to see the resolutions passed by the Association of E. A. Chambers of Commerce in July last to the following effect: "That Government should be urged to take steps to improve the conditions of the Legislative Council."

By Mr. L. W. Leach, seconded by Mr. Turner.

BUREAUCRACY RUN ROOT.

Troubad "Times" Article on E. African Methods.

EXAMPLES IN TANZANIA.

The London Times in a leading article headed "Bureaucracy Run Root" has written a long and interesting article on the "bureaucracy" in the E. African colonies.

There is no doubt in the mandate to regard the abolition of tribal courts as one of the most important of the duties of the administrator.

It is to be noted that the clause four of the mandate stipulates that the administrator shall take measures from such and measure of trade and from by his careful supervision.

The "official" policy is, in fact, to give the native the right to be a partner in the country.

It is to be noted that the clause four of the mandate stipulates that the administrator shall take measures from such and measure of trade and from by his careful supervision.

THE RAILWAY.

In the matter of the V.V. Kaka railway line, the official policy has been to let the V.V. Kaka railway line to be a partner in the country.

The most urgent need of East Africa is a better system of transport.

FORD OWNERS

Have you Studied your Manual?

If so you will find the Following Words of Advice

QUESTION (Page 51)

WHAT KIND OF OIL SHOULD BE USED?

ANSWER No. 104.

"We recommend only light high grade gas engine oil for use in the model T motor. A light grade of oil is preferred as it will naturally reach the bearings with greater ease and consequently less heat will develop on account of friction. The oil should however have sufficient body so that the pressure between the two bearing surfaces will not force the oil out and allow the metal to come in actual contact. Heavy and inferior oils have a tendency to carbonise quickly, also 'gun up' the piston rings, valve stems and bearings. A light grade oil having a low viscosity is absolutely essential for a motor which is subject to short or irregular use as it will have a tendency to short circuit the magneto.

SOCONY SPECIAL H.H.

COMPLIES EXACTLY TO THE ABOVE REQUIREMENTS

CLEAN. SOONY MOTOR OIL IS CLEAR.

Clean means pure, pure means fully refined. Complete refinement means perfect lubrication which in turn means an engine more responsive, more enduring, more economical, more dependable.

FULL BODIED

Although SOONY SPECIAL H.H. is a Light Bodied Oil Manufactured Specially to comply with the Ford Specifications it possesses those wonderful Lubricating Properties at all temperatures and increases the efficiency of your car.

Save Money for Kerlake Thomas & Co., Ltd. The Diner... At 10 to 12 o'clock...

Goodyear Belts Specified: Several months ago Kerlake Thomas & Co. Ltd. of Tanga installed Goodyear Belts on their steel machinery...

Severe Drives: Some of the belts on these installations were continually soaked in a spray of water and acid, the drives and operating conditions being so severe that belts formerly used were a constant source of trouble and expense.

Goodyear Belts Prove Themselves: These Goodyear belts have now been operating on this machinery for several months and despite the severe and unusual conditions under which they have been constantly running they look as good as new and show no signs whatever of being injured by the acid or water.

Belts Dressing Never Used: Furthermore, these Goodyear belts have never slipped, and no belt dressing has ever been used.

Big Saving Made: Kerlake Thomas & Co. Ltd. have found that the use of these Goodyear belts has resulted in substantial and important savings in operating expenses. No other belt they have tried has ever given them a service comparable to that rendered by Goodyear belts.

The Trained Engineer Knows: Competent Engineers and Factory Superintendents know how the trouble free operation and long life of belting lower costs of production. That is why you will find the best equipped and managed Factories and Estates now using Goodyear Belting.

OLD STANLEY HOTEL. On and from the 1st September the prices charged at this hotel will be Daily 15/-, Breakfast 6/-, Lunch 2/6, Dinner 3/- and 7/-.

THE GIROUARD CUP

RAILWAY AND CALEONIANS MEET IN THE SEMI-FINAL.

Good Game Ends in Goalless Draw. CIVIL SERVICE* DEFEATS PAULINGS AT MOMBASA.

The football game between the Railway and the Caleonians, which was held at Mombasa on Saturday, ended in a goalless draw. The Railway team, captained by Paulings, and the Caleonians, captained by the Civil Service, played a very hard-fought game. The Railway team was the better of the two, but they were unable to score. The Caleonians were also unable to score, and the game ended in a draw.

INDISPENSABLE.
That fine old British Sauce, Lea & Perrins', is of the greatest possible assistance in cooking. It is the simplest, most economical and easily controlled of all seasoning agents, for you add it drop by drop till the flavour is "just right." Every dish into which it is introduced gains in piquancy of flavour.

EXCITING BULLFIGHT IN LUMBWA.

Big Buffalo on the Warpath with His Mate Invades a Farm.

DAKING NATIVE TORNADES WON VICTORY

From Our Own Correspondent.

Lumbwa, Aug. 25.—Yesterday was a brilliant scene at the very picturesque Kaparua Falls, where last night there took place the first bullfight of the season. The bull was the mate of the Lumbwa's great bull. The bull was a white Lumbwa bull, with a white head and neck, and a white tail.

The bull was a white Lumbwa bull, with a white head and neck, and a white tail. It was a very powerful animal, and it was very much excited when it was brought out to the arena. The bull was fought by a native Lumbwa fighter, who was very much skilled in the art of bullfighting.

A FORTUNATE LESSON.

Danger in Carrying Troops by Aeroplane.

THE AIR-BORN SOLDIERS.

A serious lesson was learned by the British troops who were transported by aeroplane from the island of Heligoland to the mainland. The troops were transported by aeroplane, and they were very much surprised when they were transported to the mainland.

The troops were transported by aeroplane, and they were very much surprised when they were transported to the mainland. The troops were transported by aeroplane, and they were very much surprised when they were transported to the mainland.

The troops were transported by aeroplane, and they were very much surprised when they were transported to the mainland. The troops were transported by aeroplane, and they were very much surprised when they were transported to the mainland.

CONSIDER THE COST.

The first cost of a belt is one thing and its ultimate cost is quite another.

"FIN" cost can only be expressed in terms of SERVICE.

"CHEAP" Beltings have a short life and eat up the time of skilled labour—all of which must be added to first cost.

The United States Rubber Co.'s "RAINBOW" Belting is a high grade belt manufactured by experts.

The first cost is the last cost as it DOESN'T WEAR OUT.

LAMBERTS, Ltd., BELTING SPECIALISTS NAIROBI.

LAND PACT FOR KENYA.

In the House of Commons Lord Curzon's speech on the Kenya Land Bill was a landmark event. The bill was introduced by the Government, and it was very much discussed in the House of Commons.

BRITAIN'S KENYA TRUST.

Keeping Promise to the Fore in Parliament.

The question of the Kenya Trust was discussed in the House of Commons. The Government expressed its intention to keep its promise to the natives of Kenya.

KENNEL NOTES by Margaret Collyer.

Miss O'Leary, she and Kild Barry responsible for the perpetration of statements made in these notes...

I shall think a good many people who have just returned to my shores in England, have got the idea that I am a member...

Anyhow, he will give a very good race, and who will take the lead...

To say of thinking an Albatross should be built on the same lines as a dog, which you can't do.

The outline of this dog, as well as a good many others, should be put on, then is shown, shouder...

The dog, which picture I give in illustration, is the best line of the dog, which picture I give in illustration...

FACTS. FOR THE WISE

(1) The total quantity of wheat flour and meal, local and imported consumed in the country (including Uganda and the hinterland) is now at the rate of about 42,000 bags per annum, requiring about 60,000 of wheat.

(2) The quantity of wheat available for milling this year was estimated to be about 25,000 bags. It is hoped that next year there may be about 35,000 bags.

(3) The capacity of Unga Ltd. Mill exceeds 60,000 bags of wheat per annum, and there are two other roller mills now at work in the country. The total capacity of all roller mills is 80 per cent. in excess of the total consumption.

(4) In the United Kingdom the milling capacity is 80 per cent. in excess of requirements and the millers all say they are running at a loss. British millers probably know as much about milling as any millers in the world, and wheat is cheaper in England than it is in Kenya Colony, yet American, Canadian and Australian flour is being imported into England.
