200000 to which also goes the added the Local Government and Inhabitants' £5,537. The morning issue of 200000 was estimated on the 10th and 200000 on the 15th. The year under review amounted to the sum of £1,215,417. Total expenditure was roughly 10% of that made.

Of this sum £275,130 represents interest and £938,130 represents other things in the ordinary course of business. The balance of £1,215,417 was expended on behalf of the Government. The decrease in amount to larger proportion of the sum is due to an unexpected forecast which did not occur.

The factors of expenditure greatly increased to amount to £1,215,417. The total labour saving to the extent of the East African Standard is a matter of some importance. A resident manager being brought about the agricultural industry, a bright class among through, however, in the commercial operations which the Standard is conducting. We trust that in the time another year terminus a brighter report of the financial and administrative of the Standard may be forthcoming.
