REVENUE FINANCE.

The very rapid recovery which has been made by Kenya during the present year, in the face of great depression, is a fact which is being recognized by the public and the Government alike. It is not only that the country has recovered from the depression, but that it has done so in a manner which is a credit to the Government and the people.

THE ROYAL MAIL

Under the Kenya Colon Office the Government is now offering for sale the surplus of 1922 which was estimated at £107,250 which was actually £110,844. Today the Treasury is able to report that this is likely to be a surplus on the year's working of £175,222 which will reduce the floating debt to approximately £18,000. The Government of the report discloses the fact that the largely increased revenue from Customs comes not derived by the duty on wine, spirits and beer, tobacco, vehicles, matches and textile manufactures. Apparently the European community in Kenya is doing well, and the fact that the Government is able to report that the surplus of 1922 was £110,844 is a credit to the Government and the people.

HOW COLONIES WILL BENEFIT BY PREFERENCE MEASURE.
Important Statement by Premier.
1,000,000 ANNUALLY TO BE SPENT ON EMPIRE TRADE DEVELOPMENT.

Preference Benefits to the Dominions.
PROSELYTIC THAT PROTECTION WILL NOT BE USED AS THE TRIP END OF THE WEDGE.

THE PREMIER'S ADDRESS.
London, Dec. 17
Mr. Baldwin said in the House of Commons that he had not mentioned commercial proposals dealing with the Empire, but had developed a broad scheme of trade and preference, which would be the basis of a new policy, to increase the output of the Empire, to improve its living standards, and to secure employment.

MR. BALDWIN
After paying a tribute to Mr. J. Thomas' high maintenance of Empire interests, Mr. Baldwin said that he was not independent of his duties. He would be appointed in the summer and would be in the Dominion upon which the Dominion had been invited to nominate someone whom he had to consider the possibility of improving the methods of preparing and marketing within the Dominion the food products of the Empire, with a view to increasing consumption thereof in the Dominion and in other parts of the Empire to promote the interests both of producers and consumers.

A PLEDGE RENewed
Mr. Baldwin said the Government intended to recommend to the House all the resolutions of the Dominion which were in force. He stated to the House that the Government would be prepared to consider the Dominion's proposals in the spirit of freedom, but preference would be used in the spirit of the wedge in the spirit of freedom.

ECONOMIC COMMITTEE.
The Premier thought that the establishment of an Economic Committee would be a step towards the Dominion's economic development. He stated that the Committee would be composed of representatives of the Dominion and the Government.

THE NEW BILL.
After paying a tribute to Mr. J. Thomas' high maintenance of Empire interests, Mr. Baldwin said that he was not independent of his duties. LIBERAL CRITICISM.
Mr. Lloyd George interrupted Mr. Baldwin's statement in regard to the preference resolution as meaning that no preference duties would be granted the Dominion and Colonies on food and that any existing preference would refer to existing duties and not the creation of new duties. He stated that the Government would be prepared to consider the Dominion's proposals in the spirit of freedom, but preference would be used in the spirit of the wedge in the spirit of freedom.

ADDRESS AGREED TO.
Mr. Winston Churchill said the proposal was a step towards the Dominion's economic development. He stated that the Committee would be composed of representatives of the Dominion and the Government.

RECORDED DEBTAL IN THE ESTIMATES

The Commissioner of Lands was asked to estimate the loss due to the same during the debate on revised estimates in the Legislative Council on Monday.

He was asked for particulars for the sum of £975 for an embanking machine, complete equipment and repairs, when Lord Delamater enquired to ask who was responsible for the constant operations of this item in the draft estimates.

The Commissioner of Lands explained that it was true the money had been voted on previous estimates, but the machine did not arrive for a long time and certain necessary material had not yet arrived.

The Commissioner has been formally proposed Capt. Omer as a candidate for the Commission.
