Turning Night into  
Day  
WITH A LIGHT  
AS WHITE AS DAYLIGHT.

**JACOBS**  
LONDON

### DEPENDABLE AS DAYLIGHT.

The pale yellowish  
glow of ordinary artificial  
light is really uncomfor-  
table. It tends to distort  
the eye and give false im-  
pressions of colors, etc.

In marked contrast to  
the above is the soft, rich  
glow of The Diamond  
Light that is as white as  
Daylight, making it pos-  
sible to distinguish colors  
as easily as by day.

The Diamond Light  
does not merely light one  
little spot but throws its  
brilliancy in every direc-  
tion, so that it illuminates  
the entire room. It has  
no flicker when the light is  
glowed, every part of the  
room is thoroughly illu-  
minated.

The Most Illumination  
for Homes, Offices,  
Stores, Public Auditor-  
iums, Workshops, Rest-  
rooms, Cottages, Camps,  
Bathrooms and Outdoor  
Lamps and Fountains with  
and hundreds of other  
places where a brilliant,  
glowing light is needed  
and appreciated.

DR SAMUEL JOHNSON

"A HARDENED SHAMELESS TEA-DRINKER!"

Dr. Samuel Johnson, who lived to a very ripe old age, drank tea, morning, noon and night.

He called himself "a hardened and shameless tea-drinker, who for twenty years diluted his meals with only the infusion of this fascinating plant, whose kettle had scarcely time to cool; who with tea amused the evening, with tea enhanced the night, and with tea welcomed the morning."

What would he have cared about so-called scientific methods of packing or fancy labels! DON'T LET THEM INFLUENCE YOU.

To all persons who believe themselves as coming under the influence of a revolving cherub, you must always follow the method of addressing the cherub in the following manner: "Dear Mr. Snow, I have been troubled by a revolving cherub since I was a child, and I have been unable to get rid of it. Please help me." This is the only way to get rid of the cherub. The cherub will then appear to you in the form of a cherub, and you will be able to see it. The cherub will then tell you what you should do to get rid of it. The cherub will then tell you that you should go to the office of Mr. Snow, and that you should see him. The cherub will then tell you that you should go to the office of Mr. Snow, and that you should see him. The cherub will then tell you that you should go to the office of Mr. Snow, and that you should see him.

"K. M. Q." Lime Chicken Grit 60 lbs. for the 9/-

From Principal Growers and KEVIA MARBLE QUARRIES Co., Ltd. 101, 102, Hastings Road, Tsimba 104, NAIROBI.

## GRIT FOR FOWLS.

Quarries sent to a sample of lime grit to try the suitability as a grit for poultry. I was having some trouble with soft-shelled eggs as the hens as it was a good opportunity to try the efficiency of the grit. I find birds in place take the grit readily whether given by hand or mixed with feed, etc. The birds on free range are naturally not so keen for it, but I find they pick it out from the mixture placed in their pig houses. I have had no soft-shelled eggs for some considerable time, and attribute this to the addition of the lime grit to the diet. At a very reasonable price at which the grit is offered it should come as a valuable addition to the poultry farmer's. A. B. B.

### HISTORY OF THE INDUSTRIAL.

Development insufficient to Justify any Prophecy.

(By an Expert Correspondent.)

(Article II.) Having described in a previous issue the extent of the mining area, a brief survey of the possibilities of the new discovery will be attempted. At the outset it may be said that the discovery is very fine, and that the same future will be open to it as to any other gold-bearing area in the country.

The history of the discovery, as far as the public is concerned, is that the gold was first discovered by Mr. C. H. K. in 1905, and that the discovery was made in the course of a search for water.

The discovery of the gold was made in the course of a search for water, and the discovery was made in the course of a search for water.

Sanatogen: the dawn of a better tomorrow.

In the dark hours of evening strength... have you ever watched for the light of hope? In the midst of worry and trouble with their attendant ills—depression, poor digestion, weakened application to the responsibilities of life—have you sought a way out?—have you perhaps used makeshift ways—any food that your nerves refuse to be guided into doing their duty. In such a case, Sanatogen comes as a veritable restorer—an upholder of that which has been worn down, a feeder of starved nerves—a joy bringer to the additional system. Its natural force and tonic food is eagerly assimilated by the weary tissues of your strength—it quickens, cheers, and sustains your vitality, bringing buoyancy where you have felt the drag of dejection.
