Glass, 300 CANDLE  
POWER. Shs. 52/60

There are dozens of  
plans about the form  
where a good light makes  
the work, a great deal  
easier. Any farmer who  
will not The Diamond  
Light. Because it will  
quickly give him an  
unexcelled view of ap-  
proval. Instead of stum-  
bling around in uncer-  
tain darkness to do his work,  
every step, and perfect so-  
ciousness because of the  
wonderful brilliancy of  
The Diamond Light.

### CONVENIENT AS ELECTRICITY.

The turning of an  
electric button appeals  
to everyone as being the  
ideal method of lighting.  
The operation of The  
Diamond Light is almost  
equal in convenience and  
the result is far more  
satisfactory.

No electric light made  
for ordinary use can  
begin to compare with  
the brilliancy of The  
Diamond Light.

It gives a greater  
volume of light at less  
cost than any other  
known method of light-  
ing.

### A LAMP AND LANTERN SHALL GIVE 200 CANDLEPOWER 6/10W

The ordinary wall lamp  
gives from 3 to 4 candle-  
power, an ordinary elec-  
tric bulb gives 16 candle-  
power, while the same  
ordinary bulb with trans-  
lucent globe gives 30 to  
50 candle power.

The Diamond Light is  
almost a "white-out" in  
visibility" for it sheds a  
glow equal to 500 candle  
power—greater than any  
other portable light.

Turning Night into Day  
WITH A LIGHT  
As White as Daylight.

### DEPENDABLE AS DAYLIGHT.

The pale, yellowish  
glare of ordinary artificial  
light is easily noticeable.  
It tends to distort  
the eye and give false im-  
pressions of colors, etc.  
In marked contrast to  
the above is the soft, rich  
glow of The Diamond  
Light that is as white as  
Daylight, making it pos-  
sible to distinguish colors  
so easily as by day.

The Diamond Light  
does not merely light, but  
fills the room with light.  
Its brilliancy in every direc-  
tion until it turns dark-  
ness into daylight. No  
matter where the light is  
placed, every part of the  
room is thoroughly illu-  
minated.

glowing light is needed

# LABOUR RULES IN GREAT BRITAIN

## THE NEW PAIR'S MINISTERS' CABINET

Mr. J. H. Thomas, M.P., as Secretary for the Colonies.

## CONSERVATIVE FEEL IN LABOUR RANKS.

Colonel Josiah Wedgwood Goes to Duty of Lancaster.

For the first time in history a Labour Government ruled in Great Britain. The new Premier had no time in submitting the details of his Government to the King and the members of Congress to the important officials of the Ministry who have only a few days to go before they will be sworn in.

The formation of a new party is still awaiting a Congress to be held in the near future. The Labour Party has been formed in several instances but has made from the ranks of the old Government an effort to determine to carry on the old and recent duty of Government with the very best of the labour of the Government.

Expert Knowledge

To know how to blend tea as well as nine out of ten, is to stay in the crowd. It is that "teach" man who wins out—Specialists with expert knowledge of tea blending.

LIPTON'S TEA is blended by "teach" men only, and the result is a successful FINE QUALITY tea blending.

Some try short cuts to success by doomed methods—such as fancy labels, unusual kinds of packing and loud shouting.

QUALITY AND QUALITY ALONE SUCCEEDS.

You will be assured of a refreshing cup of Fine Quality Tea, if you ask for LIPTON'S—proved by the largest sale in the world over.

TO BE HAD IN SQUARE OR ROUND TINS OF ALL GRADES AND DESSERTS.

No. 1. Really good tea ought not to be a matter for congratulation; it should be taken for granted. Nevertheless it is the competitor's race. The climate spoils the freshness of even the best tea before it gets to you.

UNLESS (and this is the point) I want to rush it, unless you get vacuum-packed tea, and take the trouble to heat it made properly.

Vacuum packing is the only way to preserve tea in the tropics. Only Brooke Bond tea is vacuum-packed.
