Make it Look New Make it Waterproof

One coat of Goodyear Tyre and Auto Top Paint on your hood will make it look as lustrous as the finish of your car.

Goodyear Top Paint penetrates into the fabric of the canvas top thoroughly rubberizing it. It makes the hood absolutely waterproof and prevents it from rotting or cracking.

Why not try repainting your hood frequently with Goodyear Tyre and Auto Paint. It is easy to apply and dries in an instant. Then, too, the cost of a pint tin is small compared to the added appearance and protection it gives both auto wheels and spare tyres.

The report of the Roadsday Committee, which was held at the University of Edinburgh, was published by the Scotch Railways Association on the 26th inst. The report is so lengthy that it is impossible to give a full account of it in this article. It is, however, a most interesting and valuable document, and it is well worth the study of every one who is concerned with the subject of railways and harbours.

Give Brooke Bond tea

Fair Play

By brewing it properly—and you'll know with-out a doubt what really good tea it is.

Its fine flavour—it's appetizing aroma—these are the signs of highest quality.

Brooke Bond is good tea that is still good when you get it. The vacuum packing preserves all the flavour and all the strength. Unlike ordinary tea, it is not waled up with moist tropical air, so can't deteriorate.

Everybody prefers Brooke Bond. So will you.

You'll prefer Brooke Bond the good tea in the tin that keeps it good.

**THE COFFEE MARKET REVIEWED.**  
Home Consumption and Export Show an Increase.

**COFFEES LANDED IN LONDON SINCE 1919.**  
Reviewing the coffee market on January 9 last Messrs. John H. Hill and Co. state that in the case of Malabar coffee that arrived first before and since the outbreak of the war the demand has been rather slack and that the production and consequently the quality of the coffee have improved.

The full report is appended.

Continued interest has characterized our market since our last review, and for all coffees have been further appreciated. What amounts to an acute shortage of good quality malabar has arisen. In the home and export consumption and consequently the demand in connection with the home trade had resulted in a high price before the war. In the home market, Java (Colombian 21½), Brazilian (Arabica) 12½ and (Robusta) 10½, and the Indian (Arabica) 10½ and (Robusta) 10½. Prices for the home market rose to the same proportion though the present quotation of 74½ per cent shipment for January shows a second advance higher than three months ago.

The following figures will show, whilst receipts of mid coffee in London during the past year have been considerably less than during the two preceding years, home consumption and export both show an increase, with the fact that we start the new year with fewer stocks than for a great many years past.

Home consumption of coffee during 1920 and 1921 at 71,813 bags above a gratifying increase over the 1920 figure of 69,626 bags. (114,453 cwt. in London terms.)
