PANIC AT THE WEST INDIES

There is a general feeling of alarm in the West Indies on account of the outbreak of cholera in the Colonies once again. The epidemic is spreading rapidly, and it is feared that it will reach the West Indies in a few days. The authorities are taking every precaution to prevent the disease from spreading, and the public is advised to be on their guard.

REFINING OF CASTOR OIL

For dealing with oil in large quantities a horizontal centrifugal separator is the best. It is a simple and efficient machine, and it is well adapted for the refining of castor oil. The oil is fed into the separator, and it is separated into its constituent parts. The refined oil is then collected in a separate tank, and it is ready for use.

BATTERY TESTING

A Comparison of New and Old Methods.

There is one particular question that arises in the minds of all concerned with the maintenance of an automobile battery...

It is not surprising that a number of methods have been suggested for testing the condition of a battery...

The most common method is to measure the specific gravity of the electrolyte...

Another method is to measure the resistance of the battery...

The third method is to measure the capacity of the battery...

There are many other methods which have been suggested...

It is clear that the most reliable method is to measure the capacity...

The capacity of a battery is a measure of its ability to deliver current...

There are many factors which affect the capacity of a battery...

It is therefore necessary to test a battery regularly...

OUR WOMEN'S PAGE

Our Paris Letter

(From Paris Correspondent)

The observer attired in Paris is struck by the change that has taken place over the dress of the woman of the moment. She has become more and more the beautiful creature accompanied by large and elaborate accessories at the Court of Fashion and her hair has become more and more elaborate.

BULL FINING DRESS

Today's dress is very little different from yesterday's, a change that is due to a "grand air" that has blown over the dress of the woman of the moment. She has become more and more the beautiful creature accompanied by large and elaborate accessories at the Court of Fashion and her hair has become more and more elaborate.

Removing Grease Spots

To remove grease spots from a dress, wash the spot with warm water, and let the application remain for a few days before washing it out.

NO EGGS??? Don't Blame Your Hens but Give Them "K. M. Q." Lime Chikén Grit 60 lbs. in the 5/- From Poultry Growers and KENYA MARBLE QUARRIES CO., Ltd. 164, Hastings Street, Phone 154, NAIROBI.

SECRET FOR POWERS. I sometimes see the manager of the Marble Quarries take a sample of lime grit to try its suitability as a grit for poultry. I have heard these people with well-sorted eggs all the time as if it was a good opportunity to try the suitability of the grit. I find birds in pens take the grit readily whether given by hand or mixed with natural sh. The birds on farms are usually not so keen for it, but I find they pick it out from the mixture placed in their grit boxes. I have had no real success for some considerable time, and attribute this to the addition of the lime grit to the grit box. At the very reasonable price of 5/- the 100 lbs. it is offered it should count as a valuable assistance to the poultry farmer. A.M.B.

GOOD NEWS IN MAY.

Support for the Colonial Tax Committee of NAIROBI.

Mr. H. F. Ward, who has represented Nairobian North for some time in the Legislative Council, has been elected again for election. At the present time there is no indication that there will be a contest.

He has issued a manifesto to his constituents in the course of which he says—

I propose to act as a candidate entirely independent of all parties and of all alliances, other than those of the electors of Nairobian North.

In my view no other position is tenable, poor representation on the Legislative Council must be completely independent, and it is impossible to depend on any party or alliance, save by the Government as they are in the last instance the persons whom I have to represent.

I do not say anything on this subject. My fair mind may be prejudiced in favour of the party which, during the past year, have obtained the services of the Government, but I have not been misled and, during the past year, have not been misled and, during the past year, have not been misled.

I speak of this "trust and confidence" which has been put in me as a man of good character, and of my own past of unblemished, but I do not say anything on this subject.

I do not say anything on this subject. My fair mind may be prejudiced in favour of the party which, during the past year, have obtained the services of the Government, but I have not been misled and, during the past year, have not been misled.

NEW EDUCATION BILL FOR KENYA.

A Drastic Measure.

FIRM CONTROL OF ALL SCHOOLS, STATE OR PRIVATE, IN THE COUNTRY.

REINFORCED LICENSING OF ALL TEACHERS IN ALL INSTITUTIONS.

The new Education Bill is the greatest amendment to the Education Act of 1912 made by the Government.

It means that the State will have full control of every type of school and that in a general sense a set standard of education will be maintained.

Beneficial benefits to compulsory medical inspection of children. Provisions are made for compulsory education, the Governor being given the power to do so.

The Bill also provides for the appointment of a Board, advisory to the Government and for the division of the country into districts supervised by local committees.

A definite move has at last been made by the Government of Kenya to bring the Colony into line with established countries in the field of education.

It is intended to provide "for the management of education generally and for the improvement of the existing schools and for the improvement of the existing schools in the Colony."

The Bill empowers the Governor to make regulations for the improvement of education of all kinds in the Colony.

It also empowers the Governor to make regulations for the improvement of education of all kinds in the Colony.
