STRANGER than FICTION

No ordinary typewriter can stand the hardship of the explorer's life. This is why nearly every explorer carries a Corona in preference to any other machine. Corona went to Africa with Col. Roosevelt in 1902 and to Brazil in 1910 when he discovered the "Mystery River." Corona was with Sir Ernest Shackleton on his last day's dash for the pole and spent 270 days under ice and snow with the MacMillan Arctic Expedition. If you want a typewriter that will stand hard treatment, buy the one typewriter with proved durability - Corona.
