No ORDINARY typewriter can stand the hardship of the explorer's life. That is why nearly every explorer carries a Corona in pref-erence to any other machine.

Corona went to Africa with Col. Roosevelt in 1909 and to Brazil in 1916 when he explored the "Mystery River." Corona was with Sit Ernest Shackleton on his last fatal dash for the pole-and spont 270 days under ice and snow with the MacMillan Arctic Expedition.

If you want a typewriter that will stand hard treatment, buy the one typewriter with proved durability.—Corona.
