The Michelin. £1,200.

Wonderful Flights.
A NEW RECORD.
FRENCHMAN FAVOURITE.

London's Special to "E.A. Standard" London.

The competition for the Michelin prize of £1,200 closed on January 2nd.

Colored gels in the afternoon made a 100 mile flight on Indian Plains. He touched the ground by mistake.

Sepathi at Woodlands did over 130 miles.

The French aviators made some wonderful flights in their own country.

Tahetan accomplished 265 miles in 2 1/2 hours 25 minutes, and is now considered an almost certain winner, having beaten Le Gagnoux's record of 220 miles.

Farman slighted owing to the breaking of one of the lubricating pipes. He had covered 205 miles.

Probable Winners.

Colored gels still leads for the British Michelin prize, value of £1,200, provided Sepathi still holds the record for the British flight for the Barry, he found near. The same day over the Atlantic, provided any further attempts had to be made.

Both are likely to be covered winners at the night on New Year's eve.

Air Fatalities.

TWO AMERICANS KILLED.
MOISANT'S DEATH.
HOSEY CAUGHT IN A VORTEX.

London's special at New Orleans reports that while Moisant was trying to get back to the aviation grounds his machine overturned and he fell, who is now struggling at the rate of fifteen miles an hour, he then landed suddenly.

The explosion caused the machine to be torn right over, and the aviator's plane crashed the sea on right side, which he considered dangerous, that it would not be able to be salvaged.

At the critical moment the wind caught the plane and lifted it to a great height and fell to the sea, and he was killed.

The other man died a few minutes after.

London's special at Los Angeles reported that Moisant was killed when his plane tipped over.

London's special at Los Angeles states that Hoyes, while attempting to land his machine, fell into the sea, and he was caught in a vortex, the pilot's air currents.

He fell five hundred feet and was killed on one of the Granddams.

ARMY AIRMAN KILLED.

It is reported in Paris that the army aviator, Henri Gougeon, fell some sixty feet while flying at Saint Cyr in his machine and was killed.

Aviation Grant.

The Paris Municipality has voted £2,000 sterling for the encouragement of aviation.

Army Alive to Aircraft.

Memorandum to Officers.

The Army Council in a memorandum calls attention to the participation of the airship and the aeroplane in the recent manoeuvres. It urges cavalry officers, commanders and staff officers to keep abreast of the development likely to occur in the immediate future in the direction of reconnaissance by aircraft in close association with cavalry. The necessity of air corps being raised for employment in aircraft is receiving attention.

The Letter "S". Kavacross Anarchists. Berlin's Warning.

Aliens and Anarchy. (London Special to East African Standard.)

A profound mystery was revealed as the result of a cablegram from London to Berlin. It appears that the body of the late Emperor William was found on the Common on the East of this month.

The cablegram was sent from London by a slow message with a limited amount of telegraphic space available to the sender. It took three hours longer than in other cables.

As they were all in the stage of the letter the cablegram was not understood until it had been translated into German.

The German papers state that the work of the Continental Police against the anarchists has been successful in the case of the Emperor's body.

The German papers are surprised that the cablegram was not an intimation of the Emperor's death, as it was not so far from Berlin as they were so far from his grave.

Mr. J. H. Ellis asked whether since ten years ago for Charles Elliot had been changed to a question regarding the inauguration of the Indian.

Mr. Anderson said that for Mr. Charles Elliot had changed his mind regarding the subject which was not probable he was too moderate a man to accept an invitation extended under such circumstances.

The question of the distribution of the subject to populate the Nile zone of the railway with the substantial labour was considered by the Committee on the Nile. The Hon. Mr. Bennett and Mr. Dillon explained the answer was merited as animosity.
