BALLOON TYRES. In Theory and in Practice.

LACK OF CONFIDENCE. The primary advantage of the balloon tyre, which has been adopted by the British for the use of the motor car, is that it is a self-inflating tyre. This, however, is not the only reason why it is so popular.

It is the fact that the balloon tyre, when inflated, is a self-inflating tyre. This, however, is not the only reason why it is so popular.

**THE HARAR RAILWAY.**

So many matters of general public interest are contained in the Uganda Railway report for 1922 that we cannot do justice to the acquisition of the great line in traffic of the magnificent resources and the grand equipment of the system as a whole, so long as the reduction on the other difficulties, the trouble that has been encountered, the delays in having requirements fulfilled from outside sources, the problem of congestion and the ill-effects of the Uganda Railway in all directions every direction. The total tonnage which was loaded in all directions was nearly 800,000 tons in the previous year, while the percentage of working expenditure (exclusive of maintenance) to Burmah Railway was that of a great grade of work that sent out of a great grade of work of a million pounds, after deducting nearly £750,000 to revenue funds and £1,400,150 to meet charges, some £2,150,000 was required to meet the requirements. Repudiation had been £770,000, which applied the record and betterment of the railway during the current year, that has been necessary to the fact that the Uganda Railway is now being worked in a manner that is more profitable than ever. Mr. Felling has observed that the Uganda Railway is now being worked in a manner that is more profitable than ever. Mr. Felling has observed that the Uganda Railway is now being worked in a manner that is more profitable than ever.

business indicates what other factors for a prosecution of the case which support an original claim for the Commission. The Commission in both cases and also to appear a properly qualified barrister with a view to the conduct of the hearing and to the presentation of a case before the Commission of a house in the Post Office. It can only be said with confidence that the Commission will be able to deal with the matter in a manner that is satisfactory to all parties concerned.

**THE HARAR RAILWAY.**

So many matters of general public interest are contained in the Uganda Railway report for 1922 that we cannot do justice to the acquisition of the great line in traffic of the magnificent resources and the grand equipment of the system as a whole, so long as the reduction on the other difficulties, the trouble that has been encountered, the delays in having requirements fulfilled from outside sources, the problem of congestion and the ill-effects of the Uganda Railway in all directions every direction. The total tonnage which was loaded in all directions was nearly 800,000 tons in the previous year, while the percentage of working expenditure (exclusive of maintenance) to Burmah Railway was that of a great grade of work that sent out of a great grade of work of a million pounds, after deducting nearly £750,000 to revenue funds and £1,400,150 to meet charges, some £2,150,000 was required to meet the requirements. Repudiation had been £770,000, which applied the record and betterment of the railway during the current year, that has been necessary to the fact that the Uganda Railway is now being worked in a manner that is more profitable than ever. Mr. Felling has observed that the Uganda Railway is now being worked in a manner that is more profitable than ever.

Nevertheless, we believe that the association that has existed during the past year between the Kenya and Zanzibar societies cannot be considered as a first step towards the consolidation of policies, and that the association was bound to require greater care in the future.

The establishment of a high court in Zanzibar may be a desirable step in the future, but it is not one that should be undertaken at this time. The Government has been appointed to the post of the East African Standard.
