DOMINICA FATALITIES.

Discretionary Income.

MANAGERIAL DOUBTS.

I do not think the method of assessment by which the Dominion Income Tax is levied is a fair one. It is a method which is based on the total income of the taxpayer, and not on the disposable income. It is a method which is based on the total income of the taxpayer, and not on the disposable income. It is a method which is based on the total income of the taxpayer, and not on the disposable income.

In my view, it would be better to base the tax on the disposable income of the taxpayer. This would be a fairer method of assessment, and it would be more equitable. It would be a method which is based on the total income of the taxpayer, and not on the disposable income.

IS DOMINICA PROTECTED?

It may be asked, how is the Dominion of Dominica protected? It is protected by the British Government, and by the British Navy. It is protected by the British Government, and by the British Navy. It is protected by the British Government, and by the British Navy.

The Dominion of Dominica is a small island in the Caribbean Sea. It is a British colony, and it is protected by the British Government. It is a small island in the Caribbean Sea, and it is a British colony.

NOT PARTICULARLY CARE.

The report appears to have been based on the fact that the Dominion of Dominica is a small island in the Caribbean Sea. It is a British colony, and it is protected by the British Government. It is a small island in the Caribbean Sea, and it is a British colony.

COMMISSIONER'S REPORT.

Chapter on Uganda.

Uganda.

Railway Developments.

SHORTAGE IN LABOUR SUPPLY.

Area (land area) 34,000 square miles. Population 1,200,000. The shortage of labour supply is a serious problem for the Uganda Railway. The Commission's report details the impact of this shortage on railway operations and suggests measures to be taken.

INTERNAL TRANSPORT.

The internal transport system in Uganda is a complex one, involving the movement of goods and passengers between various districts. The report discusses the challenges of this system and the need for improvement.

NEW ALIGNMENT.

The new alignment for the Uganda Railway is a significant development. It will provide a more direct route between Nairobi and Kampala, reducing travel time and increasing efficiency.
