Think when you drink

How many people drink tea twice a day, year in and year out, without even thinking if there is a really worth drinking or not?

If you are one of them just give Brocade Boudier a trial. As you've if it gives you as much of a richer flavour and a more relaxing aroma than any other tea.

ENGINE VIBRATION

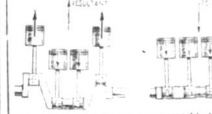

Interesting Investigation of a Problem.

MANKER AND HANSON

Engine vibration is a problem which has been given a wide range of attention in the past few years.

VARIATION IN SPEED

It is well known that the speed of a machine varies during its operation.

Three diagrams which show the motion started by the rapidly moving piston of a four-cylinder engine.

that they serve to balance one another. The effect of the balancing is to reduce the vibration.

Another interesting feature is the fact that the vibration of the engine is not uniform.

It is also noted that the vibration of the engine is affected by the load.

NATAL

The Secession Move.

RECENT HISTORY.

Some light on the recent history of the Natal Government, from the time of the secession of Natal from the Union of South Africa to the present day. The Natal Government was established in 1912, and since that time has been a constant source of controversy. CRUELTY TO ANIMALS

A Mombasa Complaint

[How our own commissioner]

Acting upon information received, I made official enquiries regarding the condition in which a consignment of cattle was landed at Kilifi from the Italian steamer the other day. The Port Authority Officer informed me that they have written to the veterinary officer with a view to getting expert advice on the subject. It is the Italian Consul who is understood to have dispatched a message to the veterinary officer, who is then to report on the condition of the cattle.

Several of them were seen to be in a state of distress, and it is believed that they were not properly cared for. The Italian Consul is expected to take steps to ensure that the animals are properly cared for in the future.

LORD DAVIES' MOTION.

The debate on the motion that the Government should take steps to secure the abolition of the tariff on the importation of motor cars from the United Kingdom to the East African Protectorates was opened by Lord Davies on Tuesday, June 14, 1932. The debate was held in the House of Commons in London.

Lord Davies' motion was that the Government should take steps to secure the abolition of the tariff on the importation of motor cars from the United Kingdom to the East African Protectorates. He stated that the tariff was a serious obstacle to the development of the Protectorates and that it was necessary for the Government to take steps to secure its abolition.

The debate was continued on Wednesday, June 15, 1932, when Lord Davies moved the adjournment of the debate. The debate was adjourned until the next meeting of the House of Commons.
