**The Eyes of the World are on the New Studebaker Cars**

NEVER before have any new automobiles created such a world-wide sensation. Never before have so many people placed their stamp of approval on a motor car design as they have on the new Studebaker. This is not an extravagant claim, for Studebaker's record-breaking new standard motor car has won the approval of the world's leading motorists. Don't buy in the dark, but see the 1935 Studebaker before you decide!

THE EAST AFRICAN STANDARD

Mombasa Times & Uganda Argus

THURSDAY, JULY 15, 1926

**NORTHERN RHODESIA.**

A large illustration of the importance of the Imperial Government in the development of the Empire in Eastern Africa was contained in the report of the Commission on the progress of the development of the Empire in Eastern Africa which was published in London in 1925. The report of the East African Commission contained a list of the lack of facilities provided in that territory and observed that the Government had not taken any steps to improve the conditions of the territory. The report also stated that the Government had not taken any steps to improve the conditions of the territory. The report also stated that the Government had not taken any steps to improve the conditions of the territory.

STERING CONTROL

Elements and Finesse of the Art.

HINTS TO NOVICES

Obviously steering is one of the primary essentials of the motor car.

It is now the man when he is asked to take a sharp curve.

Lack of this phase which passes as good sense.

DRIVING POSITION.

The first essential for correct steering is a comfortable driving position.

### WEATHER FORECAST.

The importance to agriculture of accurate forecasts of weather conditions is so obvious that it need not be over-emphasized. The value of the possibility of drawing deductions from known weather conditions of the ground or the soil has required an attention of agriculturalists for many hundreds of years. Meteorology is not a new science, it is an old one. It is a science which has been studied in various parts of the world for many centuries. It is a science which has been studied in various parts of the world for many centuries. It is a science which has been studied in various parts of the world for many centuries.

HOUSE OF LORDS DEBATE.

Lord Balfour's Reply.

IMPERIAL DEVELOPMENT COMMITTEE FORMATION.

Interests of White and Black Not Separable.

NOTION WITHDRAWN

White and Black not separable. The House of Lords, in its debate on the Imperial Development Committee formation, heard Lord Balfour's reply. He stated that the interests of the white and black populations in the colonies are inseparable and that any development plan must consider both.

NATIVE LANDS. The House of Lords discussed the issue of native lands in the colonies. Lord Balfour emphasized the need for a fair and equitable distribution of land, ensuring that native interests are protected.

AN INTERVIEW. An interview with a government official regarding the development of the colonies. The official discussed the challenges of infrastructure and education in remote areas.

REMARKS OF INTEREST. Remarks made during the House of Lords debate, highlighting the importance of maintaining law and order in the colonies.

COMPENSATION LAUREL. A discussion on the compensation of officials and the impact of the development committee's findings.

DEMILITARIZATION'S LAND

Demilitarization's land. The article discusses the implications of demilitarization for the colonies, particularly in terms of land use and economic development.

NAVY WEALTH. A report on the state of the naval forces and the impact of budget cuts on the fleet.

THE HOUSE OF LORDS. A summary of the key points from the House of Lords debate on the development committee.

THE HOUSE OF LORDS. Further discussion on the development committee's proposals and the reactions of various stakeholders.

THE HOUSE OF LORDS. Continued debate on the development committee's findings and the future of the colonies.

THE HOUSE OF LORDS. Final remarks from the House of Lords on the development committee's report.

THE HOUSE OF LORDS. A reflection on the significance of the development committee's work and the challenges ahead.

THE HOUSE OF LORDS. A concluding statement on the development committee's role in shaping the future of the colonies.

OVERSEAS MAILS

This notice is based upon the latest advice from the Shipping Office. It is possible, however, that circumstances may prevent execution of the steamer programme and the results may therefore differ from those indicated.

HOUSE OF LORDS DEBATE

(Continued from page 1.)

In conformity with this principle that no amount of delay should be put in the way of the Government's intention to deal with the House of Lords in this matter...

which I think will be supported by all who are in favour of a reform of the House of Lords...

DEPARTMENTAL COMMITTEE

The Ministry's Government are in favour of the proposal that the Departmental Committee should be reconstituted...

POSITION IN NIGERIA

Lord Lugard's Mr. Lewis I would like to raise one or two points in connection with the report...

1925 MODELS.

Technical Progress in the Years Cars.

FEW RADICAL CHANGES.

The 1925 models do not present any radical improvements over those of the previous year. The "P" 12 in the P 3 & 4. Technical progress in the past few years has been such that the alterations of the "type" have been very slight. There are however, a few changes which have been made. The 1925 models do not present any radical improvements over those of the previous year. The "P" 12 in the P 3 & 4. Technical progress in the past few years has been such that the alterations of the "type" have been very slight. There are however, a few changes which have been made.

MINOR IMPROVEMENTS.

The most important of these are the new steering gear, the new suspension, the new brakes, the new lights, the new tires, the new wheels, the new fenders, the new bumpers, the new hood, the new trunk, the new luggage rack, the new spare tire, the new tools, the new first aid kit, the new fire extinguisher, the new first aid kit, the new fire extinguisher, the new first aid kit, the new fire extinguisher.

VALVE SYSTEMS.

The simple side valve system is being replaced by the overhead valve system. This system is more efficient and allows for better cooling of the valves. It also allows for better timing of the valves, which results in better combustion and more power. The overhead valve system is also easier to maintain and repair.

CLUTCH AND BRAKE.

The clutch and brake systems have also seen improvements. The clutch is now made of more durable materials and is easier to operate. The brake system is also more efficient and provides better stopping power. These improvements are essential for the safety and reliability of the vehicle.

SCISSORS AND PASTE.

In the last few days, the price of scissors and paste has risen sharply. This is due to a combination of factors, including a shortage of raw materials and increased production costs.

A striking case of the latter sort of rise in the United States is the case of the scissors. The price of a pair of scissors has risen from 10 cents to 15 cents. This is a 50 percent increase in a very short period of time.

The most interesting of the fluctuations of American business for the month of January 1925 is the case of the scissors. The price of a pair of scissors has risen from 10 cents to 15 cents. This is a 50 percent increase in a very short period of time.

The date has taken place. The factory is now producing at a rate of 100 units per day. This is a significant improvement over the previous rate of 50 units per day. The factory is now producing at a rate of 100 units per day.

Regarding open space near the factory, the factory is now producing at a rate of 100 units per day. This is a significant improvement over the previous rate of 50 units per day. The factory is now producing at a rate of 100 units per day.

The death in repeated form of the factory is now producing at a rate of 100 units per day. This is a significant improvement over the previous rate of 50 units per day. The factory is now producing at a rate of 100 units per day.

A small amount of money spent on the improvement of an operating system can result in a large saving of money. This is because the improved system is more efficient and allows for better timing of the valves, which results in better combustion and more power.

doing which and not on the clothing. This means that the clothing is more durable and lasts longer. This is a significant improvement over the previous rate of 50 units per day.

It is a well-known fact that the clothing is more durable and lasts longer. This is a significant improvement over the previous rate of 50 units per day. The factory is now producing at a rate of 100 units per day.

Our Paris Letter

(By FAYERS CORRISSON)

It is rather interesting to note that the fashion of the moment is to wear a long, dark, straight, simple dress...

MEASURES AND RECOMMENDATIONS

All the Paris gowns are extremely simple, almost like an open shirt, and are made of a light fabric...

VARIETY IN TONES

Simple and plain and smooth glances prove the fact that the fashion of the moment is to wear a long, dark, straight, simple dress...

DIORHETTE FOR DANCE

For dance wear and simple day frocks, a simple and elegant design is recommended...

POPULAR COLOURS

There is a slightly noticeable change in the popular colours of the moment...

Original Dior Creations

High quality goods... Dior's new creations are a fine example of the art of dressmaking...

It is a pleasure to describe the new Dior creations... they are a fine example of the art of dressmaking...

There are many reasons why Dior's new creations are so popular... they are a fine example of the art of dressmaking...

There are many reasons why Dior's new creations are so popular... they are a fine example of the art of dressmaking...

 HOUSEHOLD REFRIGERATORS

MAILS: We have registered for sale, up to 12,000 acres of the best type land—well watered, on rail, with every advantage. Extremely fertile soil. Average returns for past years show a substantial return on purchase price.

COFFEE: We can offer returns, highly developed, the revenue from which will return 10% per cent. to 15 per cent on the purchase price asked.

SEAL: We are instructed to offer a large property, naturally rich in milk, under expert supervision and at a large margin of advantage possible to labour supply, and provided with every facility for the raising of a large herd of cows. The net return represents a return of approximately 10 per cent. on the purchase price from date of sale.

OUR BROCHURES: Give the investor a comprehensive summary of the properties for sale in each district, large or small and the best methods there.

**Wool Sales:** The sales of wool from the 1929-30 season were sold by auction to Messrs. A. C. Co. on the 10th of May. The wool was in good condition and the price per pound was 10s. 6d. The sales were held at the Old Market, London.

**Finance Pictures:** Hopson's picture of the 10,000-acre property, which was sold to the Government for £250,000, has been published in the Standard. The picture shows a large tract of land, which was sold to the Government for £250,000, and is now being developed for agriculture.

**Overland Telegraph:** The overland telegraph line between Kenya and the Continent, which was opened for traffic on the 10th of May, has been found to be in good working order. The line is now being used for the transmission of telegrams and messages between Kenya and the Continent.

**Two-headed Calf:** A two-headed calf was born at the farm of Mr. J. H. Ward, near Nairobi, on the 10th of May. The calf has two heads, two sets of eyes, two sets of ears, and two sets of horns. It is now being kept at the farm of Mr. J. H. Ward.

**ERNEST CLYDE.**

**THE EAST AFRICAN STANDARD**

Memoranda Times & Uganda Areas

FRIDAY, JUNE 10, 1930.

**MAIL**

The message has recently been published on our columns printing out the danger that is now threatening the industry in the country under more care in making the preparation of the files for review. Few comments could be more strongly worded than that quoted in our issue yesterday. One of the "biggest" comments, which was written and responsible firm, stated that they were quite disgusted with the way in which they had found in the whole unsatisfactory; they did not prepare to do anything like that in the future. A month ago a similar warning was published from an American firm, who said: "We are not a few hundred by government agencies that the quality of Africa used with the exception of a few marks is not good."

THE GARDEN

THE JUNE FLOWER SHOW

It is good to be able to stand in the June Show as a sign of the summer about to be upon us. It may say, at once, the summer of the month. The Museum was transformed into a fair, and of great beauty and interest.

It is a pleasure to see the exhibition of the East African Standard. The exhibition is a very interesting one, and it is a pleasure to see the exhibition of the East African Standard.

THE JUNE FLOWER SHOW (continued). The exhibition is a very interesting one, and it is a pleasure to see the exhibition of the East African Standard.

ANTHONY EMMITS. Captain J. Gifford, Diphtheria has been a very serious disease in the East African Standard. The exhibition is a very interesting one, and it is a pleasure to see the exhibition of the East African Standard.
