Draft Estimates 1914-15
Provincial Administration

You dep. 236. page 8 - full explanation will follow by mail but in meantime request authority to act on draft estimates which are satisfied full justifiable - unless authorized to make necessary transfers provisions appl. without further delay, efficiency of civil administration will be adversely affected.

For Read.

I have marked on page 3 of the annexed print of our despatch the portion which corresponds to p. 8 of the typewritten form. It is obvious that the reference is to the new 17 Provincial Clubs (evenly European). Considering that we are increasing our District Commissioners by 8 & (gradually) our A.S.C.'s by 22, some considerable increase in the clerical staff was inevitable.

[These figures are as compared with the 1913-14 Est. There have been changes during the year]

Sir,

I have the honour to refer to my Confidential despatch No. 28 of the 16th of February, and to request that early arrangements may be made to fill the post of Matron at the European Hospital, Nairobi, rendered vacant through Miss Stollard's retirement.

2. The selection should be made from those candidates who have served in the capacity of Acting Matron or Assistant Matron in one of the larger London Hospitals, and the lady appointed should not only be thoroughly conversant with all branches of nursing work, but be possessed of tact and the disciplinary firmness necessary to control with success a staff of Nursing Sisters.

3. The Principal Medical Officer does not consider it advisable for this senior appointment to be made from the ranks of the Colonial Nursing Sisters, who have given practically their whole life's work to hospitals

The Yacow for rather (the 1910) evidently finds
that nurses who serve long in the hospitals get
out of touch with modern developments in hospital
work. That is one of the objections to putting
nurses on the pensionable establishment without
taking special measures to ensure their
being periodically brought up to date.

Mr Macnaghten should see.
