Sir Evelyn's dispatch to British Government

THE Governor of Kenya, Sir Evelyn Baring, in his dispatch on the report of the East African Royal Commission on Land and Population, said that the report suggested followed a coherent and consistent line. Although there may be divergencies of view on certain points, on the whole the Commission's findings are of immense value as an aid and guide to economic policy as a work of reference for future planning. The Governor said, the Kenya Government accepted the findings of the Commission. Any disagreements with its recommendations were done in most cases as a result of one of two reasons.

First, the Government did not accept the Commission's recommendations in so far as the basic case was concerned, because it was not necessary in economic terms, or because the Government considered that the probable developmental consequences of the recommendations were not justified. Second, the Government did not accept the Commission's recommendations in so far as the basic case was concerned, because it was not necessary in economic terms, or because the Government considered that the probable developmental consequences of the recommendations were not justified.

New citrus crop record predicted SEVERE LOSS BY SPAIN

THE United States Agriculture Department has predicted that despite a loss of almost 20,000,000 boxes of lemons in Spain due to last winter's severe weather, world citrus production for 1925-26 would reach a new record of more than 1 billion 350,000,000 boxes.

"New plantings in all new citrus areas are continuing at a rate never before in the world," the Department's Director in Foreign Crops and Markets, L. H. Knapp, says. "The Department estimates that production of lemons for the world for 1925-26 will be about 1,350,000,000 boxes."

RACIAL TENSION CAUSED BY ECONOMICS

Colour discrimination not the greatest factor

The Commission's report on the economic situation in the colonies, published last week, has drawn attention to the fact that racial tension is often caused by economic factors rather than by colour discrimination. It states that the main cause of racial tension is the competition for jobs and land between different racial groups. This competition is often intensified by the fact that the dominant race usually has more resources and is better able to compete for these resources. The Commission recommends that the government should take steps to ensure that all races have an equal opportunity to compete for jobs and land. It also recommends that the government should take steps to improve the economic situation in the colonies, so that there is less competition for jobs and land.

Tony Lock in fine form on eve of Test

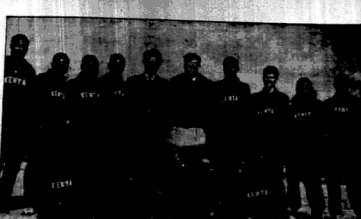

Middlesex wicketkeeper in stubborn stand for draw

FROM SIR LEN HUTTON, London

ON the eve of the fourth Test against Australia beginning at Old Trafford today, England's batsman Tony Lock bowled Surrey to a Sheffield on Tuesday. Middlesex's first day was a complete success in the last 100 minutes of the day. Lock bowled 122 overs for 120 runs, and he has the distinction of being the only batsman to have the wicket in hand when the day was over. He was out for 100 runs, but he was not out when the day was over. He was out for 100 runs, but he was not out when the day was over.

RAY LINDWALL's spirited attempt to lead the Australia cricket tourists to their second win over a country which he joined at Lord's today. At the close Middlesex had finished 100 runs for the loss of five wickets in Murray's match ended in a draw. The two sides were tied at 100 runs and four wickets down. Lindwall was out for 100 runs, but he was not out when the day was over.

Egypt Seizes Suez Canal

CALL FOR FIRM ATTITUDE

Britain should get ready and firm attitude in answer to Egyptian ultimatum. The Canal was made in 1859 and is now owned by a British company. The Egyptian Government has seized the Canal and is demanding compensation. The British Government is offering to buy the Canal back for £100 million. The Egyptian Government is demanding £200 million. The British Government is offering to buy the Canal back for £100 million. The Egyptian Government is demanding £200 million.

EGYPT SEIZES SUEZ CANAL: CABINET MEETS IN LONDON

Premier hints at blocking balances

COL. NASSER'S MOVE TO PAY FOR ASWAN DAM

EGYPT has seized the Suez Canal—Britain's lifeline with the Commonwealth. In a statement to a crowded House of Commons yesterday the Prime Minister, Sir Anthony Eden, said the Government was considering what steps to take to counter Egypt's action.

Egypt's President Col. Nasser, announced the nationalisation of the Suez Canal Company to thousands of cheering people in Alexandria. He said Egypt would use the revenue from the canal—\$100,000,000 a year—to build the Aswan High Dam. He said with the revenue from the canal over the next five years "we will not look to Britain and the United States for their grants." This offer, which amounted to £20,000,000, was withdrawn last week.

Three-hour talks

The Suez Canal Company, with headquarters in Paris, is an Egyptian-registered company but with a majority of foreign shareholders, of which the British Government is the largest. The concession which under the terms of the canal would revert to Egypt. The governing body is composed of 16 French directors, nine British, five Egyptian, one American and one Dutch.

After Sir Anthony heard the news, he conferred for three hours with French and American envoys and British Secretaries of State. Yesterday, replying to a Commons question, he hinted that consideration was being given to blocking Egypt's earnings from the Canal. He said that the Government was considering what steps to take to counter Egypt's action.

Ministry feared COUNCIL TOLD TO OBJECT

NAIROBI CITY Council, at its meeting next Tuesday, will be asked to register its strong objection to clauses in the Government's White Paper on the finding of the Commission of Enquiry. The clauses refer to proposals that the Ministry of Transport should have powers arbitrarily to suspend licences as a condition of its registration. It is suggested that the Government should have powers to suspend licences as a condition of its registration.

State responsible

In the opinion of the General Council, which has now constituted its party of the Commission's report, the White Paper and the recommendations to improve road transport should not be taken into consideration without first being discussed with the Ministry of Transport. It is suggested that the Government should have powers to suspend licences as a condition of its registration.

Burdens intolerable

"That the Minister in giving the powers called for in these clauses, he will have the right to release Central Government revenue from the tax on the responsibility of the Government, is intolerable," said Sir Anthony Eden. He said that the Government was considering what steps to take to counter Egypt's action.

Employer's offer

There were strong hopes in industrial quarters that three days' work would be enough to secure the necessary agreement. The Government is offering to buy the Canal back for £100 million. The Egyptian Government is demanding £200 million.

Independents rebuke Maj. Roberts

RACIAL VIEW MISREPRESENTED GROUP Capt. T. R. BRIGGS leader of the Independent Group of European Members in Kenya Legislative Council rebuked an assertion by Maj. B. P. Roberts, president of the Federal Independence Party, that the Group was "willing to compromise on constitutional issues" and that it really supported the principles of the Lyttelton Plan.

The claims were made in the Independent Group but the disabuse was with FIP members.

The Group's published statement of policy makes it clear that we do not accept the multi-racial principle inherent in the Lyttelton Plan... We advocate non-attachment of multi-raciality.

Deeply approach from the Group's policy statement... The relevant extract from the Group's policy statement reads: "The multi-racial principle, as exemplified by the Lyttelton Plan, implies flouting places for representatives of each race in view of responsibility by a system of quota, regarding relative merit and ability to be between them. We reject that approach as both divisive and disastrous."

Group Capt. Briggs said it was clear that "we should like to see the Lyttelton Plan suggested... but we do not believe it justifiable to have such a system of quota... we have considered this matter in connection of our policy, and we are not prepared to be seen to support it."

NEW FRUIT SHIPS FOR CAPE RUN

Orders placed by Union-Castle

The Union-Castle Steamship Co. announced yesterday that it was ordering three new refrigerated ships to carry fruit exports from South Africa. They will be built at Greenock on the Clyde.

The ships are to be developed from the Rumburgh Castle, an 8,550-ton vessel built by Harland and Wolff.

The decision to place the order was taken after consultations with the Union-Castle Export Control Board.

Rail freight rates to be studied

Exports subsidy claimed

DAR ES SALAM Chamber of Commerce, at its Thursday meeting, approved the setting up of a sub-committee to study the railway freight rates and make recommendations to the Chamber as to whether any revision was necessary. The matter was raised in the presence of Mr. Alibhai Jhina, who said that exporting freight was now higher than it should carry a higher rate.

Imports were carrying a much higher rate than exports, which meant that the products of the Territory were being put at a disadvantage.

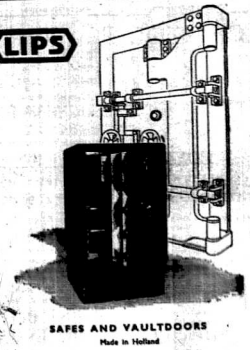

The decision to place the order was taken after consultations with the Union-Castle Export Control Board.

Record rise in Pakistan exports

Pakistan's exports showed a record rise in the first quarter of this year and stood at Rs. 615,00,000 (246,015,000), representing an increase of Rs. 141,700,000 (£10,602,500) over the last quarter of 1955.

The total value of exports during the quarter amounted to Rs. 615,00,000 (246,015,000), representing an increase of Rs. 141,700,000 (£10,602,500) over the last quarter of 1955.

Coffee growers praised for record crop

BIG CONTRIBUTION TO KENYA'S WEALTH

KENYA coffee planters were congratulated by the Minister for Agriculture, Mr. Michael Blundell, yesterday on producing a record crop. Last season's crop which was worth more than £11,000,000 and which satisfied internal demands as well as 20 per cent of the national total exports.

Speaking at the annual coffee conference held in Nairobi, Mr. Blundell said the coffee industry had made a considerable debt of gratitude to Kenya's 600 coffee planters who had continued so largely to the national wealth. The industry had carried on its working during the year with the minimum of disturbance and with its resumed political outlook had set a fine example to other industries.

The record crop was due to improved husbandry, which had increased the value of resources, the mechanization of processes and the increased use of insecticides, said Mr. Blundell.

He was able to make an encouraging statement to the industry regarding the industry's response to the Government's coffee research, but the Government has been requested to consider the proposals in which the Colony did not contribute enough to the research, but that people did appreciate how very little was spent on research compared with some agricultural export production.

Future expansion

There was also room for an improvement of quality in the Colony. The quality of African coffee had been consistently maintained, and the Government passed legislation a motion from Nairobi to investigate the possibility of establishing a coffee school in Kenya similar to the one in the United Kingdom.

American campaign

Increased publicity for Kenya coffee in America and other foreign markets was urged. This planter and the Board was urged to continue its campaign for the industry to maintain its position as the leading coffee producer in the world.

Mr. Blundell said he hoped to see the industry's export on coffee would make a contribution to the national wealth and to the improvement of the industry.

Time for thanks

Mr. Blundell said a tremendous debt of gratitude was owed to the industry for the expansion of the industry in Kenya. The industry had made a tremendous contribution to the national wealth and to the improvement of the industry.

Bird sanctuary proposal put to County Council

A suggestion that should be considered by the County Council was that a bird sanctuary be established in the area of the Nairobi Municipal Council. The idea, which was proposed by Mr. Blundell, had already received the support of the Nairobi Municipal Council.

COTTON PLANTING IN UGANDA UP 50 p.c.

High figures despite lack of rain

ALTHOUGH the weather in nearly all districts was unfavourable for cotton planting, the average planting of this crop in Uganda by the end of June was 50 per cent higher than at the same time last year. The cotton report of the Department of Agriculture states that 137,000 acres had been planted by the end of June, compared with 91,000 acres last year.

'Rewarding evening' for actors at the Drama Festival

MEMBERS OF THE KENYA DRAMA FESTIVAL AUDIENCE ON THURSDAY EVENING ENJOYED THE HIGHER STANDARD OF ACTING BY THE ACTORS WHO PARTICIPATED IN THE DRAMA FESTIVAL.

INDIAN SOCIETY LEADERS TASK ENDED

Dr. R. K. Yanki, joint secretary of the Indian Society, said that the task of the society was now ended. He said that the society had been successful in its efforts to improve the educational standards of the Indian community in Kenya.

Practiced the acting

He said that many of the actors had practiced the acting in the months leading up to the festival. The actors had been given the opportunity to perform in a variety of roles, and this had helped them to develop their skills as actors.

AUSTRALIAN BATSMEN IN SENSATIONAL COLLAPSE

Laker skittles out whole tourist side for 84 runs

ENGLAND batsmen were evidently given orders to go for runs when they resumed their first innings on the overnight total of 207 for three on the second day of the fourth Test at Old Trafford yesterday. They did so to such good effect that when they were all out shortly after lunch the total was 504 and Australia were left with only 24 runs to face with the task of getting 110 to avoid the follow-on.

England resumed their first innings from the overnight total of 207 for three on the second day of the fourth Test at Old Trafford yesterday. They did so to such good effect that when they were all out shortly after lunch the total was 504 and Australia were left with only 24 runs to face with the task of getting 110 to avoid the follow-on.

Thursday's history was John Laker's brilliant bowling. Varying his pace, and hitting severely, he got some nine for 10. He and Bernard Lee, who bowled in the first innings, were the only bowlers who bowled in the second. After Sheppart and Blore had been getting in difficult runs, Laker was in the lead.

The pitch was a help to the English bowlers. The ball from the Australian batsmen was slow and the English bowlers, who were in the lead, were able to hit the ball hard.

England's batting in the first innings was a failure. Only six runs had been added to England's total when they were all out. The batsmen were out for 84 runs in 110 minutes.

Sheppart gets his 100

Sheppart's century was a milestone in his career. He was the first Australian to score a century in a Test match.

ASSER THREATENS

FOR FORCE

Talks opened in London yesterday between Britain, France and the United States in action against Col. Nasser after the Suez Canal.

The Under-Secretary of State, Mr. Robert Lloyd Garrison, arrived here from Washington and London to announce that the Egyptian Government had taken over the Suez Canal.

Mr. Garrison said that the Egyptian Government had taken over the Suez Canal on July 26, 1956, and that the British and French Governments were determined to oppose this move.

He said that the British and French Governments were determined to oppose this move, and that they were prepared to use force if necessary.

PARIS CALL FOR RAPID ACTION

Col. Nasser and Hitler compared

PARIS, July 29.—(AP)—The French Government today called for rapid action to deal with the Egyptian seizure of the Suez Canal.

Prime Minister Guy Mollet said that the Egyptian seizure of the Suez Canal was a "provocative act" and that the French Government was determined to oppose it.

He said that the French Government was prepared to use force if necessary, and that it was determined to stand with the British Government in this regard.

BRITAIN VIOLENCE

The Westminster Post suggests that Egypt's action had cast serious doubts on the Egyptian Government's ability to handle the situation.

Fierce gales in English Channel

SHIP LOST BEFORE CREW COULD LAUNCH BOATS

HEAVY rain with gale-force winds swept across the Southern England during Saturday night. Storms in the English Channel were described as the fiercest in memory. The Torbay and Ermouth lifeboats both went ashore during the early darkness. The Torbay lifeboat was forced to return to port. The 1,366-ton British motor tug (Torbay) was engulfed in heavy seas and sank before the could launch her lifeboats. A British tanker was reported to have picked up six men and a dog from the wrecked motor tug.

Five other lifeboats along the southern Cornish and Devon coasts were launched yesterday morning to help ships in trouble. The Falmouth lifeboat went out to a small pleasure boat carrying a crew mostly of boys. The Covecote-Fowey and Plymouth lifeboats were also out. The Torbay lifeboat answered a call from a small motor tug which had applied for assistance. The lifeboat crew were unable to launch their lifeboats because of the heavy seas. The lifeboat crew were rescued by the Falmouth lifeboat.

UK REJECTS ONE-POWER CONTROL OF CANAL

Premier's statement to Commons SHIPMENTS OF ALL WAR MATERIALS STOPPED

SIR ANTHONY EDEN told the House of Commons yesterday that Britain could accept no arrangements for the future of the Suez Canal which would leave it under the control of a single power who could exploit it for national purposes which Britain took on Saturday in control of the canal.

The Prime Minister outlined to the House the steps which would be taken for the future of the canal. He said: "The arrangement for the future of the canal which would leave it under the control of a single power who could exploit it for national purposes which Britain took on Saturday in control of the canal."

London talks resumed

It was announced that he had ordered a ban on further shipments of war material to Egypt. It is believed that the "Big Three" Western Powers will call on President Nasser to agree to a new international authority to run the Suez Canal instead of the Egyptian State economy.

Diplomatic observers reported that as the British and French Foreign Ministers and a senior Egyptian official who met for five hours on Sunday night—signed there a conference yesterday on what would be the nationalization of the vital waterway, Mr. Selwyn Lloyd, Under-Secretary of State in the State Department, is expected to leave Washington.

Copper rises 20 a ton

London, July 31.—Copper prices rose 20s a ton to 115s 10d on the London Metal Exchange today. The rise was due to a shortage of supply from the United States and to a strengthening of the dollar.

The price of tin rose 10s to 115s 10d. Lead rose 5s to 115s 10d. Zinc rose 10s to 115s 10d. Aluminium rose 10s to 115s 10d.

Nine die during coastal storms

YACHTS BATTLE WITH 25-ft. CHANNEL WAVES

At least nine people lost their lives in the storms which lashed the English Channel during the weekend and night of Sunday, August 1. A man and his son were drowned after being swept from the wrecked 120-ton British motor yacht 'Tosswold' by falling from the boat in a heavy sea. Another man was killed when he was blown off a ladder in London. A Royal Navy yacht, the Sea Hawk, was reported missing yesterday on her way from South Wales to Plymouth. Aircraft took off to search for her. On Sunday night about 30 men and women were swept from the yacht 'Tosswold' by falling from the boat in a heavy sea. Aircraft took off to search for her. On Sunday night about 30 men and women were swept from the yacht 'Tosswold' by falling from the boat in a heavy sea.

RAILMEN STRIKE

Goods banned

BRITISH railwaymen decided yesterday to support the car strike at Newport the Maritime by refusing to handle its goods. This will mean that goods from the car will not be carried by rail. The railwaymen are also striking against the car strike. This will mean that goods from the car will not be carried by rail. The railwaymen are also striking against the car strike.

ALLEGED FRAUD BY RAIL CLERK

Nairobi C.I.D. called in

RAILWAY officials have called in the C.I.D. in an effort to unravel an alleged swindle that may involve many thousands of pounds. Rumours have put the figure as high as £100,000, but this is not substantiated by initial inquiries. The allegations were taken by a C.I.D. officer yesterday at the Nairobi headquarters of the East African Railway and Harbours Administration.

It is understood that the alleged fraud was committed by a clerk in the Nairobi office of the East African Railway and Harbours Administration. The clerk is alleged to have stolen money from the railway's accounts. The amount of the fraud is alleged to be in the region of £100,000. The C.I.D. is currently investigating the case.

Troopships ordered: Avoid Suez Canal

EGYPTIANS PREPARED TO MEET 'ANY ACTION'

East African troops are expected to be sent to Kenya from the Suez Canal and from the Mediterranean Sea.

CHIPPING companies in Britain have been warned by the Minister of Transport, Mr. Watkinson, that they must be ready, if necessary, to send cargo and passenger ships round the Cape instead of through the Suez Canal.

It was announced yesterday that Britain has ordered four troopships sailing to and from the Far East via the Suez by steaming the extra 4,000 miles round the Cape. Sir Anthony Eden is expected to make a statement to the House of Commons today on the talks he has been having in London with representatives of France and the United States on moves to counter Egypt's seizure of the Suez Canal. Yesterday, he refused to comment when Mr. Reza Khan (Labour) said that his statement on the control of Egypt's sterling assets "has only created confusion."

'Big Three' end talks

The Egyptian Government is awaiting the outcome of the Western tripartite talks in London on the Suez Canal and has made preparations to meet any action of the Western Powers might take an Egyptian Foreign Ministry spokesman said yesterday. He said that in the morning there was no change in the running of the canal or the payment of transit dues, which the Secretary of State, Mr. Dulles, to London to confer with Britain and France on Egypt's act, the White House announced yesterday.

Bombay allegations anger Indian Premier

'Prestige lost' by Britain: Kariba award criticisms

CRITICISM AND counter-accusations have been rife in India since the Federation of Rhodesia and Nyasaland following the award of the major contract for the Kariba hydro-electric power scheme to a private British firm.

Mr. Nehru intervened in the debate on the People's Republic of China, and the Premier said he did not know where Mr. Lushchinsky was at the moment. He has considered the situation and will say that decisions were made absolutely and irrevocably after consultation with the representatives of the Cabinet and the Government of the United Kingdom.

'Bit of a mess'

"It is perfectly true that we have needed all of it in all of our responsibility," Mr. Nehru said. "In the Government of India, I am at least partly responsible for the way in which it has been run."

Mr. Nehru said that the programme had progressed in the past stage when the Government was in a position to make a decision on the particular matter in respect of the Kariba scheme. He said that the Government had to make a decision on the Kariba scheme in the past stage when the Government was in a position to make a decision on the particular matter in respect of the Kariba scheme.

Adversely affected

Mr. Nehru said: "The prestige of the Indian Government has been adversely affected and this is a part of the world and this is a part of the world and this is a part of the world."

Subotage alleged

The Federal Minister for the Interior, Mr. D. D. Menon, said that the Government was in a position to make a decision on the Kariba scheme in the past stage when the Government was in a position to make a decision on the particular matter in respect of the Kariba scheme.

RESCUE DRAMA IN THE HIMALAYAS

When Hillary risked his life for a Colleague
SIR EDMUND HILLARY, the New Zealand conqueror of Everest, has just disclosed the full circumstances of how, while on a subsequent expedition to the Himalayas, he risked his life to rescue a fellow climber himself injured. As a result of a fall from a high ledge, he was rescued by a Sherpa, who was himself injured. Hillary's rescue of the climber was a heroic deed which has earned him a place in the history of the world.

THE DANGER THAT LURKS IN THE MOUTH

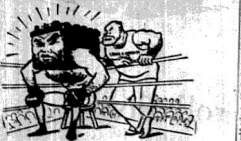

PYORRHOEA!

Pyorrhoea lurks in the mouth, a dead stone which can spread silently and invisibly. Don't let it take root in you if you notice any of the features of this disease or if you feel any of the symptoms of this disease. It may be too late!

A lot of people are prone to Pyorrhoea. Make sure that you are not one of them. **PURIFY YOUR TEETH AND GUMS** with this most famous medicine which purges and cleans the mouth.

You'll lose back, increasing Pyorrhoea that keeps you from smiling. Don't let it take root in you. **FORHANS** TOOTH-PASTE is the answer. Don't let it take root in you.

FORHANS TOOTH-PASTE
 Good for Mouth, Good for You

Fighting It!

A house or estate, like your battery, has to be kept fighting fit—ready to accept any demands that are made on their strength. Besides the battery, electricity, water, heating, gas, and many other things, you must keep your body fit. Behind your battery stands our Kelvin Department and its staff. We'll help you with all your electrical needs. For fighting fitness in your battery, make sure that your "battery" and its "cells" are kept at the very top of the form.

England win by innings and 170 runs to retain The Ashes

BIRMINGHAM here won The Ashes for the third time in 100 years. This is the first time they have done since 1889, and was mainly due to the bowling by Len Baker, who took 10 wickets for 50 runs in the first innings, and the only over he bowled in the second innings in Test history. He bowled 11 in the first and 10 in the second, his first ball being a hat-trick.

For The Children

How The Smallest Broomstick Got His Wish

THREE birds happened to be in a wood-cutter's cottage and talked of what they would like to do and the people they hoped would buy them. The biggest broomstick, fat and fluffy, wanted to stand outside a farmhouse (door for wipers) to wipe their muddy feet against his wall.

"The wall will tell me of the fables it came from and what story there. I shall have to be wiser to know all that is going on about the fables."

"How can I tell you that?" said the smallest broomstick. "I have a garden broom, sweeping the steps. I will tell you a story."

"I have a garden broom, sweeping the steps. I will tell you a story."

- 1 A ship-stacker chain weighing many tons is hauled in a loop by two or more heavy CAT Diesel Tractors. Heavy timber can be logged or, in some cases, felled by a "Dredger" backing up the chain.
- 2 Trees and undergrowth felled by the chain are piled by tractors equipped with bulldozers, or with giant rakes for ailing the soil.
- 3 After the debris is collected for dyked and burning, heavy tillage discs are drawn over the field in several directions to make a seed bed.

Kenya Is Now Training Its Own Nurses

By LESLEY CLAY

Annual enthusiastic done by parents of school children will probably result in an impressive number of scholars leaving Kenya's secondary schools to follow a career or go on to university in Britain. Of these, many are girls.

Of economic stress and strain, it is not surprising that many young people will have to leave their homes to find a better in a certain direction from their parents, and others who have fairly open views on their future careers might be influenced by the latter view.

Kenya's girls, on the other hand, are not so much influenced by the future, but are more interested in the present. They are not so much interested in the future, but are more interested in the present. They are not so much interested in the future, but are more interested in the present.

No handicap

So it will be seen that training in Kenya is no handicap to a nursing career, if one is determined to follow it. Although it is naturally hoped that local girls who take to nursing will be able to practice what they learn, for the future just finished, a room in the Kenya House was used for lectures and a patients' bookie room converted into a "practice" room where Sister Turner, Miss M. E. Campbell, instructed those Kenya girls and few Australian nurses, some of taking up nursing, in the preliminary training.

When the next course opens in January, it is hoped that the following conditions will be met: a complete hospital, a complete laboratory, office, second office, and a practical room divided into two sections for sterilizing, including treatment of anaesthetics for another 27 nurses is

Good Nurse

Good Nurse, Kenya has started work, helps to make the "patient" comfortable in the practical work, especially by those who are in the hospital.

Recruiting

RECRUITING for the January course has been undertaken by the newspapers of the Kenya House, and by posters in various schools. Some of the girls who have been interviewed are: Miss Campbell, who has been interviewed in 1934, and Miss Turner, who has been interviewed in 1934, and Miss Turner, who has been interviewed in 1934.

FROM THIS NEW HIGH CAPACITY PORTABLE 'DEMINOR'

The portable 'Deminor' plant is the perfect substitute for a full 'QUALIFRACION' water of any equal cost of your compressed filtered water AT ONLY A SMALL FRACTION OF THE COST. When treating typical tap water, just as the kitchen supply, the new Mark 4 Portable produces from 120 to 180 gallons daily, without using heat or power, merely in the turn of a tap.

Consider these other advantages:

- Production of portable 'Deminors' has been increased to meet the growing demand.
- Each model has more than the valuable new tool in industry.
- They are easy to use and full technical details.

WORLD COULD WIN WAR ON MALARIA IN FIVE YEARS

MALARIA can and must be wiped from the face of the earth within the next five years because the present opportunity may never occur again. This is the theme which the United Nations World Health Organization is stressing over and over again in an effort to get every country to declare a total war to end wars on the malarial-bearing mosquito.

Reports are estimated that it is possible to eradicate malaria which attacks some 500,000,000 people every year and some 2,500,000 of them, if available medicines are used for that purpose. They mean that medicines need to be supplied in quantity for a few years; but not necessarily to keep the mosquitoes under control.

The mosquitoes are developing stiffer and stronger legs. Dr. T. S. D. Williams, Director of D.T. Within five years, the insects may become too deadly even for the most efficient of pesticides. The mosquitoes are also developing a resistance to all insecticides. This is particularly true of DDT. In any case, the experts now predict that the malarial mosquito within five years, at least in the present relatively low level of control, will be able to declare a total war on the mosquito.
