Blazing the trail for German youth movement wanderings

THREE jelly men in brown berets braced their backs to a battered red jeep on Wednesday morning. They had travelled over 5000 miles since leaving March last year. They had been proved for 200 miles through French Equatorial Africa, they had lost their 47-ton military bed of a 200-hoop sleepery, they had lost all their money, but they were still smiling—their still mobile.

Twenty-year-old youth leader Karl Hoffmann, 40-year-old physicist, Kurt Hensel, who fought against the Russians in Germany, and the late Dr. Hensel's widow, who had been in a mental hospital, had come to Kenya to promote a youth movement in the British East Africa Colony.

Karl Hoffmann, one of the German youth group travelling in Africa, seen with a friend.

Paying their way

The "wanderings" had a start at Fort Lory in France. Hoffmann is the eldest of three children. He was born in Mainz, Prussia, North Rhine-Westphalia, Africa's leader on Tuesday 24th, as they travelled. They were the first to see the 1943 wreckage of the ship, the "Munster" was blown up. The German youth leader and his friend were able to see the wreckage of the ship.

Is the mud

Deep on a river steamer, Karl Hoffmann and his friend were seen in the "Oubani" River. They were seen in the mud. It was not that they were in a hanging tree.

PREMIER SUMMONS MINISTERS

TO DISCUSS COMMONWEALTH TALKS

MR. CHURCHILL has told all Ministers concerned with Commonwealth trade and the effect on Britain's economy of the proposals available in London in three weeks time for consideration. They are to discuss the proposals which Britain will support when the Commonwealth Finance Commission meets in London next week. The Prime Minister also called the Cabinet together to discuss the proposals. It is a fact that Mr. R. A. Butler, Chancellor of the Exchequer, has arranged to visit Mexico City in the next few days to discuss the proposals of the International Monetary Fund open on September 12.

At his home last night, Mr. Butler was seen by the Press. He is expected to leave for Mexico City in the next few days. He is expected to discuss the proposals of the International Monetary Fund open on September 12. He is expected to discuss the proposals of the International Monetary Fund open on September 12.

FREER SYSTEM AND BETTER PRICE FOR 1952 UGANDA MAIZE

An opportunity for cooperative individual growers to establish themselves in produce marketing is offered by the freer system of maize marketing which is being adopted for the 1952 marketing season.

Kisumu helps Blind Fund

Annual Branch of the Kenya Blind Fund was held at the Kisumu Club on August 10th.

Increase

It will be gratifying to those who have followed the progress of the new maize marketing system to learn that the Government is now ready to pay 30% per bush, by means of a delivery note, to the grower at the station or port.

The Government's price for the maize will be in respect of the amount of 30% per bush, plus 10% per bush for transport to the station or port.

HOLIDAY RESORT OVERWHELMED BY FLOODS

Death and destruction in West of England

FLOOD waters five feet deep were still swirling through devastated West of England villages yesterday after rain-driven winds and police had failed all night to stop the spread of destruction in the aftermath of today's storm. Eleven people had been drowned and 40 are missing.

The hundreds of thousands of holiday-makers in the West of England, who had been told that the weather would be fine, were still in the area when the rain fell.

At least 100 people were killed and many thousands of people were injured. The damage to property was estimated at £100 million.

The rain was so heavy that it was impossible to see through the rain. The wind was so strong that it was impossible to stand against it.

ELECTION ISSUE IN CANADA

THE British Government's decision to relax its defence programme to permit more production for exports may help the Canadian Government to win the next General Election. It is no secret that Canada's economic policy has been to export as much as possible to help pay for the deficit of the current account.

Meals in Minutes

The "Prestige" is a practical answer to your dream of a magic, fuel-saving saucaplan—easily operated, quickly understood. It is brought to the boil just like an ordinary saucaplan, but the steam—which in an open pan is wasted—is "sealed in." Producing faster heat and quicker, more thorough cooking.

All pressure cookers are supplied with cooking rack and Recipe and Instruction Book.

HI-DOME
The Hi-Dome, because of its extra deep cover, has a capacity big enough to cook for a family of eight. Fitted with simple 3-way pressure control—ideal for the small hotel or cafe.

'65
Very similar to the Hi-Dome model, but without the deep cover so suitable for a family of six. Fitted with 3-way pressure control.

HOSTESS
With its exclusive serving cover, the "Hostess" makes a charming centerpiece. The heating food isn't ready to serve. Suitable for a family up to four. Fitted with standard 15 lb. pressure control.

COMMODORE
The "Commodore" is the cooker for large families (up to eight). Fitted with 3-way pressure control, giving cooking pressure of 5 lb., 10 lb. and 15 lb.

Obstacles
While European countries have worked out their own agricultural systems, the United States has not.

Bookings opens
Looking for the 1954 Victoria Association's Ball in Victoria, British Columbia, has opened today at Dalhousie's Victoria Athletic Club at 8 p.m. on September 11, 12, and 13.

BRITISH TRADE EXPERIMENT TOO SUCCESSFUL - STOPPED IN WEEK

Special cable to the "East African Standard"
 London, August 10. — The Bank of England last week ended its preliminary experiment for British merchants to export in advance in dollar materials — that is to buy and make use of in the United States against payment in dollars, and result them to European Payments Union countries for sterling or local currencies. This week a bold experiment that was initiated only a week previously. All transactions involved payment of dollars for the currencies for materials that were subsequently to be sold at a profit or at a loss, depending on the rate of exchange. The experiment was stopped because of the results that were obtained. The bank of England had expected that the experiment would be successful, but it was found that the results were not as good as expected. A Successful Sales Policy

With our revised Bala Policy we are pleased to announce that we have been successful in increasing our sales beyond all expectations. This has been made possible by the support of our agents and the success of our products.

You'll have to foot the bill!

Do you realize that under the Workmen's Compensation Ordinance you are required to pay compensation to your employees injured while working in your premises? This may mean a very considerable sum and the payment of such a bill may be a real disaster. It is therefore, very important that you should insure your premises against such a liability.

CHANGED SAYS ON THE INDIAN CONTINENT
"Standard" London Correspondent

It seems likely that the tendency will increase. As yet the concentration of the Pakistanis in India is almost entirely in the machine in India. More foreign firms are being set up in India, and the only way of getting out of India is by going to the West. A tendency to go to the West is being shown by many of the Indian who have been employed in India. The general feeling is that the West is a better place to live in than India. The West is a better place to live in than India. The West is a better place to live in than India.

Which tyres take more retreads and recaps?

GOODYEARS.

GOODS SO?

Users say so. Retreaders and Recappers say so!

Hundreds of motor vehicle owners, big and small, were recently asked this question!

"Based on your experience, what make of tyre do you think can be satisfactorily retreaded or recapped the greatest number of times?"

GOODYEAR, they answered, by an overwhelming margin... just short of 2 to 1 over the runner-up. And more than the next seven runners-up combined!

This is the Vote of Experience, by tyre users whose business it is to know tyres and tyre recapping and retreading... and recappers and retreaders whose business it is to do the job. They find that Goodyear, with its unmatched experience, builds tyres better and stronger, longer life, more retreads and recaps and lower cost-per-mile.

You owe it to yourself to see for yourself how Goodyear tyres can cut your cost-per-mile.

PHILIPPINES WANT A BULLION EXCHANGE-TO END SMUGGLING

A STRONG move has been initiated to open a bullion exchange in Manila, for free internal trading on the exchange in the Philippines.

The basic suggestion is that foreign currency proceeds produced only against gold deposited at the Central Bank of the Philippines.

Under the scheme, the Central Bank would issue gold certificates and give a new medium of exchange to the point of enabling the country to trade with the world.

The scheme would be a step towards the end of smuggling in the Philippines.

Imports of such goods would have to be paid for in gold. The scheme would be a step towards the end of smuggling in the Philippines.

POLICE FORCE TO BE INCREASED

993 recruits sought
IMMEDIATE EXPANSION PLAN
MOST WILL COME TO NAIROBI

The Kenya Government has decided to increase immediately the strength of the Kenya Police Force by 993 men of all ranks. Of this number 86 will be European, 33 Asiatic and 874 Africans.

It is also proposed to improve the organization and self-administration of the Kenya Police Reserve. Its permanent staff officers will be appointed. The substantial increase of the Regular Force for the remainder of this year is estimated at £12,000.

Sixty Kenyan members now on holiday are leaving for their respective homes. They have a particular job in their minds: to get the other 993 members of the force up to the standard of the force they are leaving.

Campaign aim is to pack the jails

Police at Port Elizabeth arrested another 200
in second 12-hour
campaign since Saturday's
'Distances of five miles' was the slogan.

The total of 400 arrests made during the two days of the second 12-hour campaign since Saturday's is four times that of the first 24-hour campaign. The campaign was to be held in Port Elizabeth, Grahamstown, and a number of smaller towns in the province.

Drastic action

The government has decided to take drastic action to deal with the situation in the worst-affected areas notably Natal, KwaZulu and Transvaal.

It is hoped that by the introduction of the additional measures of police the improved situation in the worst-affected areas will be maintained.

Mombasa limit on cargo may be raised

With shipping delays and traffic jamming of the waterfront, the Import Cargo Planning Committee hopes to lift the ceiling to between 8,000 and 9,000 tons per week.

The Nairobi Chamber of Commerce was told yesterday afternoon by the British High Commissioner that the limit on cargo may be raised.

The Premier of Israel, Mr. David Ben-Gurion, has invited Egypt to make peace with Israel.

He has stated that Israel is ready to negotiate with Egypt on the basis of equality and mutual respect.

MAKERERE IS CLOSED

Action follows mass disobedience

MAKERERE COLLEGE has been closed and after this middle day no student must be on the college premises during the coming vacation signed by the Principal, Mr. Bernard de Bussan. All students are being sent home immediately and during the coming vacation shall be required to return to the college next term.

This action, taken by Mr. de Bussan in the responsibility and in consultation with the Government, follows demands for the students for European students as a common term.

After breakfast yesterday morning a party of students met with the law of Mr. de Bussan and gave an answer to the letter "I did not know that the action taken by the Government against other students as a common term."

Trade Union chiefs warn members

BRITISH trade union chiefs yesterday warned their eight million followers that big claims for higher wages would undermine the nation's economic recovery drive.

Without directly calling on the workers to restrain some part of the Trades Union Congress demand that increased wages might raise prices and drive Britain out of competitive export markets.

Wage claims

The report is to be debated at the union next month—comes at a time when many all unions are negotiating for higher wages.

NAIVASHA FARMLAND DISCUSSED

Officials attend Council meeting

The question of Government Experimental Farm, Naivasha was considered at the last meeting of the Naivasha District Council.

The chairman, Mr. J. W. Eastwood, recalled that in the previous meeting it had been proposed to write to the Veterinary Department, Nairobi, for the Director of Veterinary Services, in reply to which the Council had been asked to consider the proposal.

It was stated that the Veterinary Department had been asked to consider the proposal and to report to the Council.

The Council then discussed the proposal and decided to refer it to the Director of Veterinary Services, Nairobi, for his consideration.

Problems of the campaign against the plague of greenfly in Kenya

WHAT A FARMER CAN DO

RIFT VALLEY'S Provincial Agricultural Officer, Mr. George Cowley, told the members of Nakuru District Council at their last meeting of the problems which had to be met in their campaign against the greenfly plague.

Steps were taken to combat the spread of the pest.

About 15 days previous to the outbreak of the pest, the members of the Department had been requested to take steps to combat the spread of the pest.

The outbreak on the first crop season was not so widespread as it appeared that 2,000 acres had been damaged by the pest.

It was known that the pest was spreading rapidly and the Department was requested to take steps to combat the spread of the pest.

What a farmer can do

It might be two or three weeks before the pest would be noticed on the crops.

Communists seize British assets

THE TWO BIGGEST IN CHINA

By requisitioning the British-owned Shanghai dockyard and Muller's shipyard in the vicinity of the Bund, the Communists have seized two of the largest assets of the British Empire in Hong Kong. The total assets of the dockyard and shipyard are valued at \$1 million. The security of the assets is being guaranteed by the British Army. The requisitioning was carried out by the Chinese Communist Party. The assets are being held by the Chinese Communist Party. The assets are being held by the Chinese Communist Party. Price control off oil cakes

Oil cakes have been put to price control in Tanganyika since the early days of the last war and in recent years have been sold in East African countries at less than half the export value. As long as the price paid to producers for oil seeds was similar to those in other countries this arrangement was possible without making vegetable oils unduly expensive. With the recent fall in the export value of oil seeds and the fact that the price paid to producers is guaranteed to the producers of groundnuts and sunflower seeds, it is no longer in the interests of Tanganyika to continue to subsidize the internal price of oil cakes. The present control price of cake can only be maintained if the Government will be prepared to subsidize the oil seed industry at the level of production of vegetable oils.

In this circumstance, it has been decided to raise the price control over oil cakes with effect from 1st August. The new price will be fixed at the level of the export value of oil seeds and the price paid to producers is guaranteed to the producers of groundnuts and sunflower seeds, it is no longer in the interests of Tanganyika to continue to subsidize the internal price of oil cakes. The present control price of cake can only be maintained if the Government will be prepared to subsidize the oil seed industry at the level of production of vegetable oils.

Liquidated

a stitch in time saves nine

Good braking is vital. It is absolutely essential, both for your own safety and the safety of others, that your brakes are maintained in first-class condition. Regular checks, immediate action when necessary and you can have confidence in the fact that your brakes will respond perfectly in the most awkward situation.

Efficient braking is required throughout the life of a car, and the following points will help in maintaining this efficiency:

1. Check the adjustment of all four brakes every 2,000 miles.
2. Top up, or check the level of the fluid in the master cylinder supply tank, every month or 1,000 miles.
3. Bleed the brakes every 10,000 miles, or when any part of the hydraulic system has been removed.
4. Use the only recommended brake fluid.
5. The free play on the pedal should be 1"

BRAKE FAULTS

1. Brake pedal goes down to floorboards.
2. Brake pedal goes down to floorboards but pumping brings the pedal up.
3. Brake pedal suddenly goes down to floorboards.
4. All braking action appears to be on the front or rear wheels.
5. Brakes pulling to one side, or car weaving when brakes applied.

These brake (mechanical only). Adjustment is made by turning the square head adjuster (2 1/2" spanner) on each rear brake plate in a clockwise direction until a resistance is felt. The adjuster must be checked from two sides. One corner of the adjuster is provided for both rear in the rear brake assembly and the adjustment of both rear wheel brakes is identical. After adjustment the shoes and the wheel checked for free running. (The above procedure can be followed on front and rear for all Autos with full mechanical brakes.)

CAUSE

1. Broken lead adjustment.
2. Hydraulic system needs bleeding.
3. Leak in hydraulic system.
4. Brake air needs adjustment, take to Austin dealer.
5. Dry brake linings caused by wear-out of cars.

Adjustment of Brakes

Front—Jack up the front wheels, either singly or together, and the front adjusters in a clockwise direction until the brake shoes are breaking the brake drum; then lock off the adjustment until the brake shoes are just clear of the brake drums, opening the wheels while adjusting, apply the front-brake hand and tighten each wheel for five revolutions. (See diagram on p. 13 for models prior to AAN about rear brake adjustment.)

JEW AND ARAB UNITE AGAINST COMMUNISM IN NAZARETH

By FRANCIS O'NEER. JEWISH and Arab leaders and businessmen here are making joint efforts to uproot Communism, which has made deep inroads in Nazareth, as a result of the Arab-Jewish war four years ago. This ancient town, where Christ spent his youth, came to the verge of economic collapse. Large-scale unemployment, poverty among the 30,000 inhabitants including 1,000 Arab refugees, and opened the way for Communist infiltration. Instead of Communists, however, it is the British Government that is pulling more than half of the gold coins out here for the three General Elections. Through their long-extended stay they have polluted two-thirds of the Government's resources. The number of people in the Government has expanded from 200 to 1,000. KRUPP MAY SOON BE ONE OF THE WORLD'S RICHEST MEN AGAIN

A KRUPP KRUPP, 44-year-old heir to the great Krupp works, who was left out of a year's earnings last year, will again be one of the world's richest men in a few days if the High Commission's plan is carried out. The High Commission's plan has stated under the plan that Krupp will get about 20 million marks for the steel and coal empire of the Ruhr. The plan also provides for the return of shares in the American and British companies which Krupp will be returned to him. Finance and Commerce REACTION TO BRITISH DECISION ON GOLD AWAITED

DISCUSSING the boom in the Paris gold market, the Financial Times says that to some extent the demand for gold from French buyers is being satisfied by drawing supplies from the U.S. "It has been fortunate to reflect in its movements in the market."

It is pointed out in the paper, this is partly because the demand for gold from other parts of the Continent is normally at a low level.

It is also pointed out that the gold market in London is being affected by the international situation.

Apathy and Opportunity

Only one in five of the persons named on the electoral registers in the Hill Ward of Nairobi found their names in the Municipal elections. Such lack of interest...

There is no doubt that as far as the electoral roll goes the Hill Ward is one of the worst in the city. In many cases it is so bad that the voters have not got a local government vote...

It is in the opinion of the Registrar that the registration has been left to chance. In the Hill Ward, for instance, the Registrar has not been able to get a list of voters...

Below that happens the Registrar has not been able to get a list of voters in the Hill Ward. This is due to the fact that the Registrar has not been able to get a list of voters...

SURREY BEATEN BY YORKSHIRE

Championship leaders still look safe

YORKSHIRE beat Surrey, the English county cricket championship leaders, by three wickets at Leeds on Tuesday by being able to outpace their opponents' bowlers to take 20 runs but Surrey, with their bowlers in play, have a margin of 100 runs on their Northern rivals.

When the final day's play began with Surrey needing 100 runs to avoid an innings defeat with only three runs left, Yorkshire secured an early victory. But it is not until they had taken 100 runs that they took the partnership to 101 before Surrey could score the first run. Yorkshire's first over was a brilliant one and even led to the wicket of the batsman, the first wicket of the match. Yorkshire's bowlers were found out by the return of the four Test players—Baker, Laker and Lock.

Remaining matches

The next match is with Derbyshire at the Oval, and the Surrey with Glamorgan at Worcester. Derbyshire and Northamptonshire are playing at Trent and Northamptonshire at Northampton. Derbyshire and Lancashire are playing at Trent and Northamptonshire at Northampton.

Close of Play on Tuesday

SURREY made the series of first-class matches between Yorkshire and Surrey which were completed on Tuesday. Yorkshire scored 251 runs in the first innings and Surrey 100 in the second. Yorkshire's first over was a brilliant one and even led to the wicket of the batsman, the first wicket of the match. Yorkshire's bowlers were found out by the return of the four Test players—Baker, Laker and Lock.

Question

Does Shell X100 Motor Oil alter the Oil change period?

SHELL X100 MOTOR OIL

Answer

Fulfilling of the oil by soot, dust, water, petrol, etc., is unavoidable in any known car engine, so it is best to stick to the oil change period laid down by the manufacturing firm. Using the same oil too long may overdo it with deposits.

Administration of Eldoret Hospital MUNICIPAL BOARD RESOLUTION

"Resolves" Commencement: Eldoret
THE administration of Eldoret Hospital is to be investigated at the next meeting of Eldoret Municipal Board. A resolution passed at the Board's last meeting that the whole matter of the administration of the Hospital be considered at the next meeting. A report on the minutes of the last two meetings of Eldoret Memorial Hospital Committee of Management led to the decision to also lead to the decision that a public meeting be held at the Pioneer Hotel last night to obtain views on the proposed repositioning of a hospital site.

KENYA SCOUTS TRAIN FOR HIGHEST AWARD

By John G. Clarke

PROBABLY you haven't the faintest idea how to tie a Fireman's Chair—one of the safest knots for lowering an unconscious person from a height by means of a rope.

And very few people, particularly men, would be able to make much of a job of cooking a meal for six over an open fire in a hurriedly erected camp at night.

And probably you won't need to do any of these things so long as you live—assuming the fact that if the peasant ever did arise for you to tie the right knot, build a bridge or cook a hot meal it might mean the difference between life and death for someone.

There are, however, in Kenya 28 men—some of them European, some Asian and some African—who have just spent a week trying to prove to a body of men in the Nyungu Road Forest Reserve.

They are all Scoutmasters or Assistants aged 19 to over 60 who have been

taking Part II of the Scout Wood Badge—the highest standard of achievement it is possible to reach in the Boy Scouts' Association. The week-long course—combining instruction and examination—was held at the Kenya Scouts' own site, Rowallan Camp, not very far from the Royal Agricultural Society's Showground at Mitchell Park.

Permission has just been given by the Chief Scout of the Empire, Lord Rowallan, to use his name for the camp which he himself opened on his visit to East Africa two years ago.

(Continued on page 14.)

The Staff Photographer's pictures show scenes at Rowallan Camp during the summer term in the previous year. From left to right, Mr. Frank S. Bradford, Deputy Chief Commissioner of Scouts for Kenya, on the right, Mr. E. F. Young, General and Training Commissioner, Kenya, at the bottom, and Mr. Gordon Clibb, Organising and Training Commissioner, Tanganyika, left. They are talking to Mr. Young's son, in the picture on the immediate right to Mr. Kenneth MacKinnon, one of the training team.

PLASTIC pipes and fittings are usually used for water supply, but the rubber tubes which are used for the water supply in the Channel Islands have been washed down with the wreckage and are being used for a variety of purposes.

NEW NATIONAL THEATRE IS 'ALMOST READY'

THERE'S a rumour that a road which will cross the water land facing the Victoria Harbour, will be called Shafarshay Avenue. No doubt, it will be a rumour but it might be a good idea for the road will lead to the new National Theatre, which is rapidly nearing completion. As these pictures show:

A construction was reached of which the present theatre is the result. It has seats for 1,000.

Let us look... The plan shows the site of the new theatre, which is to be built on the site of the old theatre, which was destroyed by fire in 1942.

In the picture above, you can see the new theatre, which is to be built on the site of the old theatre, which was destroyed by fire in 1942.

Problematic

THIS state could be a problem for the plastic industry in the Channel Islands. The plastic industry is a new industry and it is not yet established in the Channel Islands.

War Memorial

THE first part of the Coleridge War Memorial is now being erected. The memorial is to be erected in the Victoria Harbour, which is the site of the old theatre, which was destroyed by fire in 1942.

Colour scheme

ONE of the features of the building is the exceptionally fine "rainbow-effect" floor. The floor is made of a material which is called "Rainbow Effect" and it is a new material which is made in the Channel Islands.

Sound breakers

SOUND breakers at the rear of the theatre ensure that every seat will be provided. The big sound breakers are made of a material which is called "Sound Breaker" and it is a new material which is made in the Channel Islands.

Opening night

THE first opening ceremony will not take place until later in the year but on October 25, when the theatre will be opened for the first time in the Channel Islands. And it is a date that on that night all roads will lead to "Shafarshay Avenue."

Nairobi's Young Men Have 'Home From Home'

BY NICK STEPHENSON

ONE of the several buildings which the opening of Nairobi's new highway has brought more prominently into the eye of the passer-by is that which you would see in the picture.

It is a building which represents the happy anticipation to years of waiting on the part of the city's young men in their search for accommodation for it is the new Y.M.C.A. hostel which the youngsters carry with them a comfortable and an excellent meal.

Behind the building is the building on the Nairobi station house, a long story, having been built in 1911. For it was in 1911 that the Reverend Dr. Henry Scott, of the Scottish Church, who was then in charge, was essential in the young town.

FOOTBALL BACK ON THE SCENE

Can Newcastle gain a third Cup?

By Dennis Horst

FOOTBALL returns to the English sporting scene tomorrow, just over three months after the curtain had been drawn on the F.A. Cup final. Thousands cheered Newcastle's great success in winning the trophy at Wembley; thousands more applauded the gallant effort of the players who were defeated by Arsenal, who were crowned champions for the first time in their history. Newcastle's triumph was derived from the skill and power of their forward line, which was headed by the brilliant striker, Jimmy Young.

It was the swiftness of Curry from right-back to right-forward which was the turning point in Arsenal's success last season. At half-back he was able to attack and both with and without the ball. "Wednesday, snubbing their noses at the possibility of a second season as first runners, they were beaten by Newcastle's fine team of young players, which they defeated in the final at Wembley.

Strong all round

Their strength lies in a particular sphere. They are strong all round, and they are a team of young players, which they defeated in the final at Wembley.

What of Arsenal? How did the winners, Arsenal, beat Newcastle? Newcastle's triumph was derived from the skill and power of their forward line, which was headed by the brilliant striker, Jimmy Young.

SPORTSMAN OF THE WEEK:

Besler: great-hearted taker of Test wickets

WHEN in 1924 English cricket returned after the war years, the first touring team to visit this country was India, captained by that great sportsman, the late W. G. Grace. The first Test match was played at Lord's on August 26, 1924. The English team was led by the great batsman, Herbert Sutcliffe, and the Indian team was led by the great batsman, D. G. Ranjitsingh. The match was a great success for the English team, who won by an innings and 154 runs.

After Besler's early success in the first Test, he continued to perform well in the second Test, which was played at the Oval on September 13, 1924. He took 10 wickets in the match, and his performance was highly praised by the spectators.

His performance in the first Test was particularly noteworthy, as he took 10 wickets in the first innings, and 10 more in the second. His bowling was of a high standard, and his accuracy was a great asset to the English team.

Cobb plans waterspeed record run

Australian Rugby Union is red-faced

From J. Fingleton

AN AUSTRALIAN Rugby Union official has announced that the team will attempt to set a world waterspeed record on the English coast. The team, which is led by the great swimmer, John Cobb, will attempt to swim from the English coast to the continent of Europe.

The team will consist of 10 swimmers, and they will attempt to swim from the English coast to the continent of Europe. The journey will be a long and arduous one, and it will require a great deal of preparation and training.
