TWO MAJOR TASKS FOR NEW AMBASSADOR TO UNITED STATES

The negotiation of a new agreement between Britain and the United States and Canada for atomic energy operation is expected to be one of the first tasks confronting the new United States Ambassador to London when he takes up his duties next month.

Another major task for Sir Roger, whose arrival will coincide with the inauguration of either Mr. Dwight D. Eisenhower or General Acheson as President, is the negotiation of a new agreement with the United States and Canada for atomic energy operation.

An attempt was made to reach an agreement in 1947, but it failed because of the opposition of the British Government. It is believed that the new agreement will be signed in the next few months.

Initiated in Uganda

A new building programme was initiated in Uganda on the 10th of December. The programme was initiated by the Government and will be carried out by the Uganda Building Corporation. The programme will include the construction of a number of new buildings, including a new Government office building, a new school, and a new hospital.

The programme is expected to be completed by the end of 1952. It is expected that the programme will create a number of jobs for Ugandans.

The Government has during his short time in the Colony expressed the desire to see the north and Central Africa and has an informed mind as to the conditions of the country. He has been able to see the country and has been able to see the people of the country.

More than half the city is in ruins. Some of the buildings are still standing but they are in a state of ruin. The people are suffering and the Government is doing its best to help them.

It is a pity that the British Government has not been able to do more for the Sudan. The Sudan is a country that has been neglected and it is time that the British Government should do more for it.

The Village occupied by Sudan lion family IN MOZAMBIQUE RESERVE

JUST returned to Kenya after a four-day safari in the Mozambique (Portuguese East Africa) in the name of Mr. Mervyn Cowie, Director of Royal National Parks of Kenya. His primary interest in writing the territory was to attend the African Congress of All-India Congress of Tourists held in Lourenco Marques, but his discussions were over-extended by the Chief Warden of the game reserve, Alvaro Rodrigues.

On the porch

When the party days up to a letter, the sitting companion was asked to read the following letter. I thought it may amuse the readers of the paper. The Warden told the "cat" that the lion was not a lion, but a lioness, and that the lioness was not a lioness, but a lion. The lioness was not a lioness, but a lion. FARMERS PUT THEIR VIEWS TO GOVERNOR

Frank discussions on up-country tour

Wearing a battered slouch hat, bush jacket and khaki breeches, Sir Evelyn Baring, the New Governor of Kenya, spent the second day of his up-country tour of Nairobi and in the Asaphi and Thika districts of the Central Province. Today he is to hold a conference of farmers before returning to Nairobi.

CHIEF CAPTAIN R. BRIGGS, Legislative Council member for Mount Kenya, yesterday described as "most successful" the discussions held by Kenya's new Governor, Sir Evelyn Baring, on the present problems and needs of about 200 farmers from Nairobi, Thika and Nyeri.

For 30 minutes Sir Evelyn had private discussions with the farmers behind closed doors in the Nairobi Club. Back put his views frankly and openly to the Governor.

He found the farmers extremely knowledgeable and helpful. The farmers declared that they were impressed by Governor's grasp of local problems and only ten days after his arrival.

Speaking to a reporter after the secret talks, Sir Evelyn said he had as yet made no decision on the things he has seen on his tour. "I have come out to see what my view is and to pick up information," he declared.

He could go no detailed list of the things which he saw designed to enable him to make a final study of African reserves and European farms in the mounted areas.

Meet many
He went to meet as many people as he can "to see the needs and the views of the farmers," he said.

He met with two of the three groups set up to spend on his tour, including 2000 people, who he spoke to in the morning and afternoon.

"I have got their point at the moment," he said, "but I will be able to see the views of the other groups as they meet."

TWO HUNDRED African employees of the Kenya Posts and Telecommunications Administration have moved into the new housing flats in Doonbush Road. By this time next month it will accommodate half of the Administration's present African staff of 1,000.

Monthly plans are being worked out for another African housing scheme of similar size when to start next year, when the Government will have completed the Post Office Nairobi housing scheme, which will house an estate of some 2,000 people.

After the 200 flats in Doonbush Road, the Government will build the hillside scheme to be built on the central road, north-west of Nairobi, where the United Nations and October House flats are being built.

£100 FOR THE FINDER OF A CEOLACANTH

Fish dating back 60,000,000 years

A CHALLENGE to East African fishermen and anglers

to receive a reward of £100, has been issued by Professor
J. J. H. Smith, the well-known ichthyologist.

The puzzle of Africa's pygmies

HOW do the diminutive
African pygmies,
found in the
heart of Africa,
descend from
the Negroes?
Why do they still survive?

These are the questions
being asked by the
British anthropologist,
Dr. Paul Jellison,
in his new book,
'Pygmies and Negroes'.

Dr. Jellison has just
returned to the
Netherlands, after his
trip to the Congo,
where he has been
studying the habits
of the pygmies.

On his last expedition,
which was led by
himself, he discovered
the remains of a
pygmy, who had
been killed by a
lion.

Dr. Jellison was working
in the Congo,
where he has been
studying the habits
of the pygmies.

Pygmies had not
previously been
found in the Congo,
and Dr. Jellison's
discovery is a
great addition to
our knowledge of
the race.

Talking about
the pygmies,
Dr. Jellison says:
'Pygmies are
found in the
heart of Africa,
and they are
the most
primitive
people in the
world.'

Although the
question of the
pygmies is a
very old one,
it has never
before been
studied so
thoroughly as
it is now.

Dr. Jellison's
book is a
valuable
contribution
to the
study of
the pygmies.

It is a

70 KILLED IN RAIL CRASH NEAR LONDON

Express rams local train — another hits wreckage

THIRTY trains crashed in a station in North-West London early yesterday morning, killing at least 70 people and injuring about 130. It was stated last night that the fatal collision happened shortly after 5 a.m. at the junction of Barrow and Woodlands at the end of the morning rush hour. A night express from London came into about half an hour and an express bound for the North by the wreckage. The two locomotives and several coaches hurtled into a platform where hundreds of city workers were waiting for an Underground train.

Wreckage was 40 feet high at one point, with three or four carriages piled on top of each other, and a footbridge was crushed away. Clouds of steam and smoke hid the scene from the thousands of people who gathered nearby in a bid to establish the cause of the disaster. The railway service was disrupted for several hours. PROSPECTS FOR LANGA LANGA:

A record entry: three new events

THE 50 Langa motor racing meeting, to be run on Queen's Day, October 12, on the Motor Race Club's property near Gilling, promises to be the best of a series that has gained in popularity with every promotion. The first three events, a cross-country 3,000 and two short endurance races, have been introduced into the programme for Monday's meeting—where the local spectators will be in the best position to see the action, best fitted with the 2000 and an oval track.

The public address system, run by Dabbs of Helicon, has been supplemented by a siren, which will be used to give the starting signal. The first of the races will start at 10.30 and the last at 1.30 p.m.

This should be over at about 4.00 to 4.45 p.m., on the day when the 1000 metres race will be run. The 2000 and 3000 metres races will be run on Tuesday. The 2000 will be run on the 1000 metres track.

'CHIEF WARUHIU WAS GREAT MAN' SAYS GOVERNOR

1,000 mourn at murdered leader's funeral

Kenya's new Governor, Sir Evelyn Baring, was one of the 1,000 mourners who attended the funeral yesterday of the Senior Kikuyu Chief in the Kiambu District, Waruhiu wa Kurgu, who was murdered this week near Nairobi.

Paying tribute to the Chief after the funeral service, Sir Evelyn said: "This is a sad day. We are here—men, women and children of different races—by way of goodbye to a great man."

Chief Waruhiu said the Governor, was a great Kikuyu and a great citizen of Africa. He had spent his life—and he had met his death—in the service of God, his people and his Government.

From all parts shortly after noon yesterday, 1,000 men and women gathered to attend the funeral service of Chief Waruhiu at the Government House, Nairobi.

NO ARREST MADE YET

It is believed that 100 persons have been identified by connecting with the murder of Chief Waruhiu, but up to last evening no arrest had been made. The police are working on three suspects. One was the Indian driver in which the Chief was travelling. The other two are the Kikuyu men who were seen by the victim. One of the men was traced to a garage in the centre of Nairobi.

Chief mourns him

The United Kenya Club has paid tribute to Senior Chief Waruhiu—whom they had known for many years—as the greatest of the organization—by members of almost all the weekly social evening held at its headquarters.

The winter indoor boxing season began last Tuesday with my opponents at the Empress Hall, First Court, when there was a rare gathering of featherweights. The shortest men on the bill included Sammy McCarroll and Freddie King, two of the best known names in the world. Freddie King had beaten Miller and Roger Stewart, from Scotland, Teddy Bookman of Bourdeaux, and Dan Siskovic of Manchester. Miller, northern featherweight, was expected to finish without difficulty.

Freddie King had beaten both, they were fast eliminating the victors. In front of the British public, King had a perfect fight. He had a perfect right hand. He had a perfect left hand. He had a perfect chin. He had a perfect heart. He had a perfect soul. He had a perfect everything.

Most exciting

The third featherweight bout was a real one. It was between Ginger Stewart and the man known as the "Iron Horse" of the featherweight division. Stewart was a real contender. He was a real fighter. He was a real champion.

There is only **ONE** make of tractor entitled to the name **CATERPILLAR**.

Nowadays, many people completely deny the name "Caterpillar" to any make of track-type tractor. They are wrong. Only Caterpillar is the registered trademark of CATERPILLAR TRACTOR CO., Peoria, Illinois, U.S.A.

Today there are more "Caterpillar" Diesel Tractors in East Africa than of other makes of track-type tractors.

I should be pleased if you will again make the country of the living appeal on behalf of the living. I am sure that you will do this.

With every year that goes by the work has grown in magnitude. As the population grows there is more work to be done. It is a task that will never be completed.

It must be of interest to know that the Overseas Contingent of the British Empire is now being formed. It is a step towards the unification of the Empire.

On a recent visit to the factory at Harare, I saw the work of the factory. It is a fine example of the work of the factory.

HOLIDAY TRAINING IN THE WORLD'S OLDEST SHIP

On the morning watch and a stiff, cool breeze blowing in from Spitzhead, 17-year-old Keith Rutherford, of 20th North Leeds Sea Scouts, has stowed his hammock on the dark main deck of the ancient frigate *Fourmoyart* and, as the hoist's pipe shrills, he trots away to fall in with the rest of the "hands" to scrub the upper decks.

During the rest of the year he has learned knots, pulled a boat on a muddy coast and steered a 100-ton vessel, green water. Now, for a while, he is with all the sailing, swimming and rowing. A lot of the older sailing ship's crew, the ancient frigate *Fourmoyart*, built in 1817 just after Trafalgar and still sound as a bell.

She doesn't sail now and she has only her mainmast, that being something of a jolly effort. But crews will go out on the black and white gun-ports and hammocks are slung close at night on the main deck where a big boy has to keep his head bent to avoid the deck beams. The last thing a boy hears at night after the order "Pipe down" is likely to be the creaking of massive timbers as the ship moves on the tide-way.

Three boys come from Sea Scout troops, schools and any sea-loving organisations in Britain. They receive on a week's holiday course all the practical instruction which cannot be given to them at their inland home districts. The old Royal Navy, the Navy of the future that has become trained in boys.

The superintendent of the ship is a retired Captain R.N., who commands a submarine. He has the most professional sea-going men in the Royal or Merchant Navy. The First Lieutenant of the ship himself receives a day's training once to make their careers at sea.

The ship has been described as "a wonder of the world — the last of the seafaring art of the Old Navy" and she is maintained by a committee of private individuals who consider that her loss quite apart from depriving youth of a unique and interesting environment would be a national calamity. She was built in Bombay in 1817 of oak, for the East India Company. She was first commissioned in the Royal Navy as *Thetis*, a 44-gun

THE FRIDAY MISCELLANY

THIS number it gets to Christmas the more the thoughts of people over the world turn to those far away from them and to those particular to 50 S.F.V. (soldiers).

The aim of the committee formed is to send a parcel every East African holiday week to his homeland. In Christmas time a parcel usually prepared by individuals is sent to the soldier. These parcels have not been made a target of S.F.V.'s love and affection. The parcels are sent to the soldier who has the privilege of having the parcels sent to the soldier's home. The parcels are sent to the soldier's home and are not sent to the soldier's home. The parcels are sent to the soldier's home and are not sent to the soldier's home.
