on Old-Boys' ties? As for regimental stripes, they are too obviously imperialistic to need any warning.

The American branch of the Anglo-Saxon race is not immune. Their best creation must surely be the Red Indian style, being two thick boottaces clipped together by a metal badge. The English, with their special knack for inventing a lie to suit every situation, have one for unapopular hubbands. Any gentleman who is berated by his wife for getting home late after a drink with the boys can sport the Dogbox its Its sinister coat-of-arms depicts the husband's feet protruding from his kennel.

kennel.

The Caterpillar tie, somewhat faded with the passing years, is worn by pilots who have baled out more than three times. Contrary as the Island Race are, they are about the only nation not to wear ties blazoned with national colours. At least, they never sport the red, white and blue outside Little Encland.

England.

By contrast, the East African countries have adopted the custom and produced some very attractive designs out of their national colours, and insignia. What with ties, given to blood donors, the Wildlife Society's, the Safari, E.A. Airways and so on, the East African countries are getting sent with the tie fewer, one most favoured by tourists is the Big Five, which has the heads of the clephant, rhino, buffalo, lion and leopard embroidered in gold. oidered in gold.

Many people make an enchanting hobby out of collecting its bearing strange devices. The French cabaret singer, Patachou, has the coy little custion of saipping a piece of any gentleman's tie "she does not have", which she happens to spot as she sings around the tables.

In Nairobi, Mr. Chris, Malavu is proud of his collection of about 60, obtained from different parts of the world. He thinks a tie is the best souvenir of any country or city he visit. Of the ties in national colours, he puts the Zambian No. 1, with Lesotho runner-up.

As he will tell you, ties can be useful "sign-boards". A couple of years ago, he was given a Quantas tie by a friend returning from Australias Some time later, being asked to meet an Australian visitor to Nairobi whom he had never seen, Chrissported his Quantas tie.

When the stranger looked around the crowd waiting at the airport, he spotted the tie and walked straight over, sasing "Hello, cobber!"

As you see, ties have their uses. The ultimate is the hempen variety, worn on Execution Day to be hoist with one's own petand by the hangman, 'Mind my ruff,' Mary Queen of Scots pleaded with the executioner, meaning the frilly thing she wore round her neck instead of a soart.

As the Nixon Government is taking steps to disengage from victnam, this is significant. The long, nightmarisis war has taken seasy toll not only of U.S. resources but of the nation's prestige, hibiting it as a mediator in other international issues and its soler to use its great wealth to better the tot of the words' corer peoples.

There has been gloomy talk lately that the U.S. was turning a back on Africa, and has decided the continent forms no part A merica's vital interests. Mr. Rogens' our has been described a more public relations esercise.

In doing so it has made many tragic mistakes, but the basic policy of preventing South-east Asia from falling to Communism, with the risk of a chain reaction through Africa and Europe, was a sound one. The way it has been carried out lass often proved disastrous, and costly. At last the break-up of the former monolithic front of the Communist nations has made it possible for the U.S. to begin a partial disengagement.

In the Sixtles too, largely as a result of the Vietnam war—
and also because of Negro discontent in which Africa's Uluru

The U.S. cannot afford to regard Africa as outside its vitasi interests, either, especially with the Russians and the Chinese moving into the Indian Ocean. But it is reassuring to hear from Mr. Rogers that the U.S. is not seeking political influence in Africa, and that he has re-stated his nation's commitment to the principles of self-determination and majority rule; future by how this pledge is honoured.

As for material aid, America is the major supplier of finance for the World Bank and the United Nations. Aid from these sources it generally preferable to bilateral agreements, since it carries less suspicion of "atrings" and is subject to more control. The U.S. also provides assistance through private investment, and by its increasing tourist interest in Africa.
