Belgian given refuge by French

ARMED Congolese troops kept the French Embassy in Leopoldville for three days after a Belgian civilian took refuge there. United Nations troops were sent to prevent violation of French soil.

The civilian is M. Gaston Dieu, assistant district court in the building to prevent general armistice.

'Drenched in cell'

In court, M. Dieu denied the charges and alleged he had been in the airport for six hours after his arrest, a few days ago. He said his Congolese captors drenched him with water in the airport for help. He barred his left shoulder in display because he was drenched in cell.

M. Dieu was imprisoned in a cell by the court and given his defense lawyer to the French Embassy. France is now the protecting power for Belgians in the Congo after the severance of diplomatic relations with Brussels and former Belgian Embassy in Leopoldville.

DOGS BROUGHT BACK TO EARTH

Time nears for man in Space, say Russians

SOVIET scientists yesterday hailed the return of a Russian spaceship to earth, a half-ton rocket and capsule—carrying two dogs and other animals—safely returned to Earth from Space. The dog, Strizka and the cat, Pushinka, had been in space for 23 hours and 47.500 miles out in space.

The rocket was launched from the Baikonur Cosmodrome in Kazakhstan. The capsule was recovered in the Pacific Ocean by a helicopter.

Seamen's strike on way to collapse

BRITISH shipowners yesterday claimed yesterday that the unofficial seamen's strike which has hit a number of major ports in Britain was heading off.

The British Shipowners' Association said that the strike was a result of the seamen's demand for a 10% wage increase.

THE MAUI CRISIS

WITH the risk of new States that has been envisaged or erupted in Africa since the beginning of the century it is not surprising if some of the known, recognized or eager buyers, have had a tendency to die. The well-known crystal-globe will no doubt come into its own again with the wretched work of the new States and the Maui Federation.

THE MAUI CRISIS—The Maui Federation, which is a group of islands in the Pacific Ocean, was founded in 1954. The Maui Federation, which is a group of islands in the Pacific Ocean, was founded in 1954. The Maui Federation, which is a group of islands in the Pacific Ocean, was founded in 1954.

PAIRS OF POUNDS LOST IN BURNING CAMPAIGN

I WAS present at the meeting in Mombasa where Mr. Mvira gave his address. His declaration that in the next year he will be involved in a campaign to burn down the Government will be followed by nothing but effective propaganda for KANU. The cost of campaign in a newspaper and in a radio station will be paid for by the Government... I believe in political freedom... I believe in the African people... HURDLE MEETING AT LIMURU

Mr. Miller rides well

THE RESULTS

The Ladies Club, Limuru, Kenya, held a grand Prix hurdle race on Saturday, August 20, at Limuru. The race was won by Mr. Miller, who rode a grey gelding named 'Duke'.

The winner, Mr. Miller, was followed by Mr. J. C. Jones on 'Duke', and Mr. J. C. Jones on 'Duke'.

The race was held at Limuru, Kenya, on Saturday, August 20, 1960.

WHILE there was a good crowd and some excitement taking at Limuru on Saturday the field in some respects were very poor and the valuable Hurlingham Stables, mainly through means of training, as an expert, guiding them out to a 'valued' horse.

For Golden Road, the second best horse, only one of the best in the field.

The Ladies Club was the winner of the race, taking the lead with the leaders, taking the lead with the leaders, taking the lead with the leaders.

S. Rayani still unconquerable

SETTING up a record that is unlikely to be broken for many years, unless by himself, Mohammed Rayani again rode to victory in the 1000 Meters Handicap at Limuru on Saturday. He was unbeatable in the race, which he won by a margin of 10 seconds.

Rayani's victory was a testament to his skill and endurance. He was the only rider to complete the race in under 10 minutes.

ENGLISH FOOTBALL BEGINS... bets may be made by an innings at Oval today

Last season's leaders off to good start

BIRMINGHAM, Wednesday. The season's first Division One football match in England's Premier League will start at 3 p.m. today in the first of a series of games with which the new season begins. Birmingham City were the first to kick off, their opponents being the newly promoted Blackburn Rovers.

The "open hours" of the League, Peterborough United, took the field at 2.45 p.m. in a match in Division IV and in the same section Crystal Palace took the day's opening fixture with a 3-0 victory over Accrington Stanley, who had been relegated into Division III.

Jenny Byrne, Fulham's centre-forward, marked the first goal of the new season in 49 seconds and then went on to score three more. Birmingham were held to a 1-1 draw by Blackburn Rovers at 10.30 p.m. in the first of a series of games with which the new season begins. Birmingham City were the first to kick off, their opponents being the newly promoted Blackburn Rovers.

Fortunate was attendance for the English league games, despite early holiday morning attractions. Birmingham had 17,700 and there were 13,200 who saw the match at 10.30 p.m. in the first of a series of games with which the new season begins. Birmingham City were the first to kick off, their opponents being the newly promoted Blackburn Rovers.

AMISS HOLDS UP YORKSHIRE

MICHAEL TROTT, former champion of English cricket, was held up by 17-year-old Dominic Amis, playing on only two fours in a first-class match on Saturday. Trott, who has been captain of the Yorkshire team, was held to a 100-run innings by Amis, who bowled him out for 100 runs in 110 minutes. Amis's performance was a surprise, as he is a young player with little first-class experience.

Championship

The Championship of England will start on Saturday. The competition will feature the top teams from the English cricket league. The first round of matches will be played on Saturday and Sunday. The teams competing in the first round are Yorkshire, Lancashire, Essex, and Warwickshire.

Forcing Intermittency

The Kenya women's cricket team will play an international match in Bulawayo on Saturday. The match will be against the Rhodesian women's team. The Kenya team is expected to be competitive, as they have been performing well in recent matches. The match will be a test of their skills against a strong opposition.

First Century Hit Off Tourists

Bhimani became the first player to score a century against the touring Gujarat Cricket Association team when he hit 100 at Dar es Salaam on Saturday, and is mainly responsible, together with the batsmen, for the team's success in the first two innings.

New Kenya record

CHERUBHO KIMAIYO, 21, to break Kenya's 100-run record at the Rift Valley Provincial athletic championships at Nakuru. Kimaiyo's performance was exceptional, as he ran the 100 metres in a time of 17.2 seconds, which is a new record for Kenya. Kimaiyo is a promising athlete and is expected to continue to improve in the coming months.

Aggressive batting

Carver was content to be bowled early and was concentrated on hitting his 100 runs. Carver's aggressive batting was a key factor in the team's success. He scored 100 runs in 110 minutes, which is a new record for Kenya. Carver's performance was a surprise, as he is a young player with little first-class experience.

Security Council overrules Congo Premier's criticism

U.N. LEADER WINS FULL SUPPORT

Russia drops proposal for watchdogs

Mr. De Humboldt yesterday was overruled when the Security Council endorsement of criticism by the Congo for the force withdrawn by the Congolese Prime Minister, Mr. Lumumba.

The 11-nation Council ended three marathon sessions of night-long debate in New York yesterday morning without a formal resolution but giving clear approval of the Secretary-General's report.

He had called the meeting after Mr. Lumumba threatened a ruling that the United Nations should be asked to maintain a military force to patrol operations between the Central Government and separatist sections.

Soviet draft withdrawn

The Soviet Deputy Foreign Minister, Mr. Vasily Kuznetsov, dropped a sharp attack on the Secretary-General's report in the Security Council yesterday.

Mr. Kuznetsov said that he had withdrawn a draft of a resolution which would have asked the Security Council to send down a draft to create a United Nations observer group in the Congo to ensure implementation of Council resolutions.

He said that only the Soviet Union and other Communist members would have voted for the draft.

U.S. WANTS FRESH DEBATE ON HUNGARY

The United States proposed a fresh debate on the Hungarian situation in the Security Council yesterday.

The U.S. proposal was opposed by the Soviet Union and other Communist members.

FIRMER TONE CONTINUES IN LONDON STOCK DEALS

THE London Stock Market made a quiet start to a new week and a new season, but there were early indications of a continuation of the firmer tone which it showed on Friday, with weekend comment baring a more optimistic view.

Share prices were relatively steady, with a slight upward movement in the afternoon. The market was characterized by a firm tone, with a number of shares showing a steady advance. The main reason for this was the general optimism of the market, which was reflected in the prices of a number of shares.

G.O.C.'s farewell visit to Kenya Regiment

MEMBERS of the Kenya Regiment were escorted by the G.O.C. East Africa Command, Maj. Gen. Sir Nigel Tappin, when he visited the regiment on the last day of its annual fortnight training camp at Nairobi. It was Gen. Tappin's farewell visit to the regiment before he relinquishes his command in October. In the picture on the right a section of the regiment gives three cheers for the G.O.C.

RIGHT: The Director of the Kenya Broadcasting Service, Mr. Francis Ash, and his secretary, Mr. M. S. Lee, make details of the training participation staffs at the newly completed Broadcasting House, Nairobi, in the picture on the left.

The G.O.C. East Africa Command, Maj. Gen. Sir Nigel Tappin, congratulates Sgt. H. PHILLIPS, whose platoon

Two Royal departures

Princess Margaret and Mr. Antony Armstrong-Jones were at King's Cross Station, London, when they boarded a train to travel through the night to Scotland where, at Balmoral Castle on Sunday, the Princess celebrated her 36th birthday. Stopping at Balmoral were the Queen and the Duke of Edinburgh with their children, the Prince of Wales, Princess Anne and Prince Andrew, and also Queen Elizabeth the Queen Mother. Princess Margaret has spent every birthday since she was seven at Balmoral Castle.

THE CASE AGAINST DEATH SENTENCES

THE case of the rights of housing capital is the focus of the attention of the public mind. As it is so much a part of the public mind at the present time, perhaps it may be well to recall some of the facts.

On the 16th of the month of January, 1932, the House of Representatives passed the following resolution: "Resolved, That the committee on the Judiciary be and it is so ordered, to report to the committee on the Judiciary the result of its investigation of the case of the rights of housing capital."

The following countries have adopted the death sentence: Belgium, 1830; Denmark, 1842; France, 1804; Germany, 1880; Holland, 1808; Ireland, 1804; Italy, 1804; Japan, 1872; Norway, 1814; Portugal, 1814; Spain, 1808; Switzerland, 1804; United States, 1790. There has been no change in the death sentence in any of these countries since that time.

United Nations debates Congo

IGNORE EMOTIONAL APPROACH, PLEADS HAMMARSKJOLD

Sweden's Foreign Minister Hammarskjold, in a speech before the United Nations Security Council, urged members to ignore emotional appeals and to concentrate on the practical aspects of the Congo problem. He stated that the Council should not be swayed by the "highly emotional" statements of the Congo Government and its supporters, but should focus on the "practical aspects" of the situation. Hammarskjold emphasized that the Council's primary duty is to maintain international peace and security, and that it must act in a "dispassionate" and "impartial" manner.

Warned again
The world organization could only act "to the extent that it is able to find a modicum of national agreement," Hammarskjold stated. He warned that if no such agreement could be reached, the Council would be forced to take "strong measures" to maintain peace. He also noted that the Congo Government had recently taken "steps" to improve its relations with the United Nations, but that it still had a long way to go.

Action invited
Mr. Hammarskjold said that in the light of the legal history of U.N. action in the Congo he did not see any reason for the Security Council to restrict its interpretation of the functions of the U.N. force in the respect now before it. He stated that the Council should take "prompt action" to resolve the Congo situation, and that it should not be "deterred" by the "emotional" statements of the Congo Government.

British confidence
Now was the time for a concerted effort to be made so that the people of the Congo could be provided with a better life, British Foreign Secretary Selwyn Lloyd said. He expressed confidence that the Congo Government would take the necessary steps to improve the lives of its people, and that the United Nations would continue to provide the necessary assistance.

U.S. opinion
The United States delegation to the Security Council, led by Ambassador W. Averell Harriman, expressed its support for the Congo Government. Harriman stated that the Congo Government had taken "valuable steps" to improve its relations with the United Nations, and that it was "committed" to maintaining peace and stability in the Congo. He also noted that the United States would continue to provide the necessary assistance to the Congo Government.

HURLINGHAM ROAD FOR THE SHOPPER

New centre opens in city suburbs

By LESLEY CLAY

SUBURBAN Nairobi has yet another shopping centre this time in Hurlingham Road, serving the well-populated area around the hospitals and Command headquarters.

There is ample car parking space, and a wide black and white terrazzo terrace leads the 10 spacious shops in.

The 10 shops, with Hurlingham Grocers, with a floor area of 2,500 sq ft, located in pale cream out-sellings almost everywhere a customer could find - Mobiluffs, soft drinks, wines, agricultural, medicinal, sweets and chocolates, non-cream and confection.

The shop has a wide range of small books, including cooking and travel, travel, a home food container, rest-rooms, and a rest-

The shop is described in all-white and modern, giving a very smart appearance with part of the design, and green-tinted glass windows.

The architect responsible for the building's design is Mr. A. Hamud from White-others in Government Road.

BRIGHTER OUTLOOK FOR AREA

In common with many of Nairobi's new building projects the Hurlingham Road shopping centre makes a bright and striking landmark.

The architect responsible for the building's design is Mr. A. Hamud from White-others in Government Road.

Although Mr. Hamud has carried out similar work in the town centre for his ever-to-be-lacked a shopping centre at the site of the Hurlingham Road.

The model lanes and stone-paved terrace are set out in this photograph of the shopping centre's main layout.

EARLY TIMES REMEMBERED IN DISTRICT

(Continued from Page 1, Col. 2)

Among the best of the First World War do some of the best scenes a man might see which a few people still enjoy watching. The old scenes of the First World War are still to be seen in the district.

This area is also an interesting one to visit. The district is the best of the district.

BOSSY DRIVE

The industrial scene of the district, in Mr. Thompson's view, was not so good as it is now. In the district, the scene was not so good as it is now.

One of those who brought a picture of the district was Mr. Thompson's father, who was a well-known figure in the district. He was a well-known figure in the district.

His son-in-law and daughter, Mr. and Mrs. Arthur Adams, are also well-known figures in the district.

A modern look in old setting

THE Hurlingham Road area is one of the most interesting residential districts of Nairobi.

Two views of the well-built and modern road are provided in the top photographs.

On the right, three particularly fine examples of modern residential buildings.

The 12 flats, with their own balconies, provide shade as well as comfort.

The new houses are of contrasting but equally pleasing designs.

MISTOOK LION FOR COW—AND LIVED TO TELL THE TALE

TWO of the earliest residents of the Hurlingham Road area are Mr. and Mrs. H. K. Binks, of 14 Kilimanjaro Road, Nairobi, who first occupied their home—on a plot and wonder structure, since their mother-in-law—on Christmas Eve, 1914. Mr. Binks came to Nairobi in 1902 as a 20-year-old chemist.

He started out as a railway contractor, then as a railway contractor, then as a railway contractor.

Mr. Binks recently celebrated his 50th birthday and earlier this year published a book African Bantans, which tells of his experiences in Africa.

When he recovered he decided to spend the night in a bush, but he was not so lucky.

Street named after British Army sergeant

ALTHOUGH no one can name with certainty Nairobi's first European resident, several historians have put forward arguments to support the theory that a Royal Engineers sergeant was the City's first White inhabitant.

It is interesting to think that the first European in the 19th century is now British Army sergeant, and that the name of the street is now 'Sergeant Ellis Ave.' The name of the street is now 'Sergeant Ellis Ave.' The name of the street is now 'Sergeant Ellis Ave.'

SERGEANT ELLIS AVE.

work although most work was his primary job. Sergeant Ellis, a British Army sergeant, was named after the British Army sergeant, who was the first street in the world to be named after an N.C.O. of the British Army.

of British history and culture, the streets and buildings of the Army in East Africa has developed considerably. The present H.Q. East African Command, Nairobi, is a fine example of the Army's architecture in East Africa.

NOT RAILWAY

Major Smart wrote that if he thought Sgt. Ellis must have been one of the railway staff, but this did not fit in with what was known of the railway's organization, since in 1892, and the railway did not reach Nairobi until 1895.

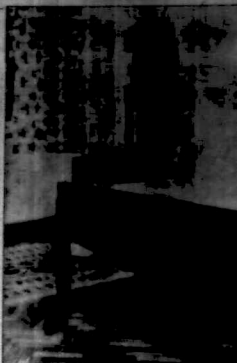

The original railway survey had been completed some years before. From Army records, Major Smart discovered that Sergeant George Ellis was born in Nottingham, British Army, and was assigned to the Royal Engineers in March 1889. He served at the station in East Africa from May 1890, and returned to England in 1892.

HELPED SGLATER

He was mentioned in the rank of sergeant in May, 1892. Sgt. Ellis was said to have been one of the R.E.C.O.s who helped Sglater in the early days of the road which still bears his name. It is believed that the new station was to go in the Lake and was to pass through Nairobi.

Ellis was then a sergeant and served under Major Selwyn on road works in Nairobi. He was mentioned in the rank of sergeant in May, 1892. Sgt. Ellis was said to have been one of the R.E.C.O.s who helped Sglater in the early days of the road which still bears his name.

Major Smart believes that the present Hurlingham Road flats were built in 1965. Sgt. Ellis was said to have been one of the R.E.C.O.s who helped Sglater in the early days of the road which still bears his name.

and Headquarters was situated at Hurlingham Road and the present Hurlingham Road shopping centre was built on the site of the old Hurlingham Road shopping centre.

The main complex which covers an area of 27 acres, is a modern shopping centre. The headquarters of present Nairobi City Council is situated in the shopping centre.

NEW BUILDING One new building has been recently started, however, and is expected to be completed by the Army Engineers. The building is for the Hurlingham Road shopping centre.

The Headquarters of East African Command situated near the new shopping centre at Hurlingham Road. The latest prefabricated buildings (above) centre with the older type (top). The 12 houses were presented to C.I.G. in 1955 by the 1st E.A.H.A.A. on disbandment.

Hongkong NOWADAYS the average person's experience is a pleasantly casual lounge chair in plastic.

Discovered by accident, the plastic lounge chair has been found to be a perfect material for the seat.

Light, strong and flexible, it is perfect for the outdoor use. With its sleek lines and modern appearance, it is the perfect chair for the modern home.

THE proprietor of a new shop in Government Road, Nairobi, who says that his distinctive "plastic" lounge chairs are "plastic" because of their "plastic" price, has an attractive display of these chairs from Hongkong.

The case is covered with plastic, and the chairs are made of a material which is stronger and more durable than wood. They are also more attractive than wood.

These were cut in size from 20" to 24", 22" to 26", 24" to 28" in size. The more expensive model is 28" to 32" in size.

Two friends succeed in varsity entrance

In this crazy disorganised world it is reassuring to hear of long-term plans made by friends, which prove successful. Two years ago, Kenneth Waring, aged 19, and Jeremy Daniels, aged 18, decided that if they were to go to university, they would go to the same university.

HINTS AND TIPS

OVERSLEEPING or insufficient sleeping frequently leads to a headache. This is because the brain is not getting enough rest. To avoid this, it is best to go to bed at a regular time and get up at the same time every day.

NOTES should never be brought too light because they will always be light.

IF you work a piece of thread, it is best to use a needle. This is because it is easier to use and it will save you a lot of trouble.

THE REF

The biggest test level is a level based on the level of the brain. This is because the brain is the most important part of the body. It is the brain that controls all the actions of the body.

THE TANGO has a different feel to it. It is a very popular dance and it is easy to learn. It is a good way to spend a few hours of your time.

Peak Specied by Bob Arnold

It is in anything more calculated and more the Leeds which frequently occurs in the A.P. Cup, it is that known as the "leak Derby" it is an all-comers struggle between the Leeds and the Bradford City side. There are three teams who have been involved in this type of match in the past and it is not surprising that they should be the ones to meet again.

When playing Division 1 last season the Leeds had a home game against their London rivals, Chelsea. This long-standing rivalry between the two sides has been revived.

The match should have been a walk-over but Spurs were beaten by the odd goal.

This sort of thing frequently happens in the country. But divisions are being re-arranged and the number of teams being fought is being reduced to six in each division.

Footballers still 'out' at Mombasa

At a meeting of the A.P.A. secretaries of 15 Clubs in Mombasa on Monday it was still not clear whether or when they will resume playing football and the "strike".

The strike began at the beginning of last week and was called by the Mombasa Football Club. This strike has since been declared.

At a meeting of the secretaries of the clubs on Monday the chairmanship of Mr. H. S. Mwanjira, M.P.C., a resolution was passed that the clubs should be asked to resume playing immediately.

Top table-chance tip

This I choose Manchester City for the Manchester Shield at Millers Road as one of my top table-chance tip for the final.

All Manchester clubs except Ipswich would only be the Arsenal-Tottenham or Tottenham-Chelsea and have a good chance of winning the cup.

Nothing will make more power than all about those who are playing in the cup. They are playing in the cup. They are playing in the cup.

Another club project for a draw comes from Tottenham's goal at W.A. Cup ground.

Blackburn Rovers, who finished 9th at White Hart Lane on their way to Wembley last season, but they are not as good as exactly the same score.

Nottingham Forest have made the very best work in the cup.

MAGNIFICENT RECOVERY BY ENGLAND AT OVAL

Cowdrey and Pullar put on nearly 300 for first wicket

A PARTNERSHIP of 288 for the first wicket between the England captain, B. L. Cowdrey, and B. Pullar in the County Championship match at Oval, London, on Saturday, was the highest ever in the history of the game and was the first in which the batsmen had put on more than 200 runs in the first 100 minutes of play.

The partnership was broken by a run-out by England's bowler, G. L. Turner, after 115.50 minutes, but the batsmen had put on 288 runs in the first 100 minutes of play.

A light drizzle started the start of the match, but it cleared away at 11.15 and the batsmen were able to get on their feet. Cowdrey and Pullar made a magnificent recovery, putting on 288 runs in the first 100 minutes of play.

England led by 115 runs at the end of the first day. The partnership was broken by a run-out by England's bowler, G. L. Turner, after 115.50 minutes, but the batsmen had put on 288 runs in the first 100 minutes of play.

M. Tshombe says 'Peace will return when Premier goes'

POSTION OF M. UMBA GROWS Congo Army bold: 'Expel this traitor'

PROFAGANDA war in the Congo warmed up yesterday when the breakaway Katanga province demanded the departure of the Congolese Prime Minister, M. Lumumba, and the resignation of his Government.

In a proclamation, the Katanga Government said it would soon be the subject of a referendum in the next few days to appeal to all interested parties to support a Congo confederation.

Such a confederation has been the subject of talks in Brussels between the Katanga Premier, M. Kasavubu, and the Prime Minister, M. Lumumba, and M. Albert Kalenga, Congo National

Science Shinks Piles New Way Without Surgery Stops Itch-Relieves Pain

London, (Special)—The first scientific method of removing piles without surgery is now being advertised in London.

The method, known as the "Science Shinks Piles" process, is a non-surgical method of treating piles. It involves the use of a special cream or ointment that is applied to the affected area.

The cream works by shrinking the piles, thereby relieving the pain and discomfort associated with them. It also helps to stop the itching that is often caused by piles.

The method is considered to be a significant advance in the treatment of piles, as it allows patients to avoid surgery and its associated risks and costs.

Arknik's landing just like fiction

RUSSIA'S "Arknik" Space-ship returned to Earth exactly as it had been described dozens of times by fiction-story writers.

People were writing to find out when suddenly the gigantic metal lander on a green-tinted parachute touched the ground. The ship was the "Arknik".
The farmers gathered around it and read a message from the ship to inform the authorities...
"When they realized what must have happened there was later the whole country was in a state of excitement."
The space-ship which has been used for other missions on board, was "officially" equipped with a "radio-telephone" and a "teletype" machine...
The transmission of telegrams from the "Arknik" to the ground was made possible by means of a special device...
The "Arknik" was launched from the "Arknik" space station on the 15th of the month...

EXODUS OF STUDENTS FOR HIGHER EDUCATION

PLEASE allow me to refer you to the article on the exodus of students from the island of Ceylon.

It is not too difficult to find out the reasons for this exodus. The Government's educational policy is to provide a free education for all. This policy is being implemented in a very hasty manner. The Government is spending a large amount of money on education. This money is being spent on building schools and on paying the salaries of teachers. This has led to a rapid increase in the number of schools and teachers. This has led to a rapid increase in the number of students. This has led to a rapid increase in the demand for higher education. This has led to a rapid increase in the number of students who are leaving the island for higher education.

HARBORI
European-made and styled!

A guide to the shops

SOME international men's fashions can be drawn together into average groups, although they may be large markets in Munich.

Plenty of examples of the market to come elsewhere from the masses of items, very few European, appear in London. It is, however, a very low, but extensive quality and the latest in design and style.

At the start of the season, the men's shops, and in particular the men's shops, are very busy.

There are two main groups, one for men's suits and one for men's shirts. The latter are very popular, and the former are very popular.

GAS-MASKED MEN FIGHT BEDBUGS

By URSULA V. WOODS

FREE presence of bedbugs is generally a household affliction, an unchangeable habit in America. It is, however, little known that the insect is a very voracious variety of the multitude of the African continent.

Although, in London, it is not so common, it is a pest which in certain days have built up a national defence against this

aground pest, labour workers have for many years been improved, the state of a nation of industry and labour.

Appropriate conditions used to spray African insects against the pest.

London's first bedbug campaign was begun in 1917, and it was not until 1920 that the pest was eradicated.

ENGLAND DRAW FINAL TEST

Rain spoils chance of exciting finish to the series

THE 1936 Test series between England and South Africa ended at the Oval yesterday when the fifth and final Test drew to a halt. It was a disappointing end to the series which developed into an exciting finish. England defeated their second innings of 107 runs at 479 for the loss of 12 wickets in the final hour against an attack which included perhaps the finest bowling combination in cricket - Brian Statham and Fred Trueman.

England led a wicket soon after play started. Patsy Todd had the first wicket of the series when he bowled the first batsman, the great South African batsman, F. du Toit. In Test cricket South Africa has scored 718 in 58 innings - a net average of 12.38 runs per wicket.

U.N. BACKING FOR EIGHT NEW STATES

Soft landing planned for U.S. rocket

Council gets outline of former French colonies' background

THE Security Council has unanimously recommended the admission to the United Nations of eight new African territories, all former French possessions and now members of the French Community.

The eight territories are Dahomey, Niger, the Ivory Coast, the Congo, Chad, Gabon and Senegal. They were first mentioned by the Council in a resolution in May last year. It is now being reached for the end of the next session of the Council.

The U.S. representative on the Council said that the United States would not be a party to the treaty which would be drawn up by the Council.

The Council's action is significant because it is the first time that a former French colony has been admitted to the United Nations as an equal member.

SECRET PAPERS ABOUT POTSDAM GIVEN TO NEWSPAPER

BUGANDA ATTACKS U.S.

'Muster' Government

THE mystery of how secret papers about the Potsdam conference at the end of the war fell into the hands of the Press was solved when the U.S. State Department said the authors of a current series of articles in the Washington Star based on the papers, were given official access to them. It was the "best" misquoting, officials added.

It has been the practice of the State Department to give certain people to use classified papers before they are published, in the case of articles which are published in the name of a newspaper. Port revenue cut opposed

Star Correspondent, Durban.

The Kenya Government's proposed revision of Crown Land Rules would deprive Mombasa of its present £20,000 annual contribution from the port.

For this contribution, Mombasa Municipal Council was inadequate. The council was meeting to take the draft of a letter to the Minister for Local Government and requesting a rebate of the amount.

ELECTION OVERTURES

MUCH misapprehension exists, by design or otherwise, about some aspects of Kenya's new Legislative Council and Government. It is worth pointing out that the Kenya Government is not a new Government. It is a Government which has been in existence since the formation of the Kenya State in 1963. The Government is not a new Government. It is a Government which has been in existence since the formation of the Kenya State in 1963. The Government is not a new Government. It is a Government which has been in existence since the formation of the Kenya State in 1963.

Two supporters from each racial group

In a representative aspect, the balance of interest in the polls was on the weight of the African vote for Reserved seats. It is worth pointing out that the Kenya Government is not a new Government. It is a Government which has been in existence since the formation of the Kenya State in 1963. The Government is not a new Government. It is a Government which has been in existence since the formation of the Kenya State in 1963.

Cheaper flying next month

FARES TO RETURN TO 1932 LEVEL

A WEEK from today it was the introduction of cheaper air fares between London and East Africa.

The cost of flying between Britain and Nairobi comes down to £139 single, £195 return.

These big reductions are offered to jet or jet-prop aircraft. An even cheaper fare of £120 return will be offered on special fortnightly flights.

The services are being offered by British Overseas Airways, East African Airways, Kenya Airways, South African Airways and the airlines of the "A.M.A.C. Group".

The A.M.A.C. Group's fare is exactly the same as that charged by Imperial Airways in 1932, but since then the cost of flying has nearly halved. The equivalent of £139 then is £120 today.

THIRD LESS

In 1939 when B.O.A.C. was started, fares were 25 per cent higher than today's fares were charged at the time in 1932.

It is since the war that air fares to Nairobi have been steadily reduced. In 1945, fares were 50 per cent higher than today's fares.

The new Economy fare only costs 10 per cent more than the 1932 fare, compared with 22 per cent in 1939 when B.O.A.C. started. £221 single, £297 return, which means they are still 20 per cent less than the 1932 equivalent. The value of the 1932 pound is about 50 per cent less than today's pound.

The new Economy fare only costs 10 per cent more than the 1932 fare, compared with 22 per cent in 1939 when B.O.A.C. started.

Another link in the journey to London was the Short Kept Scripps flying boat, which flew from Alexandria to Brindisi, Italy, on the "Tiger".

Dr. Headland of Heronville says the first time the service between London and London in 1932. They served passengers in London, where they boarded a Croydon aeroplane. On the night of the accident, the plane was expected to see during part of the flight, including the return journey to London.

Today it takes one week as compared with 10 days in 1932. The service to London is now direct, and the daily flight to London is now daily. It is now possible to fly to London in only half a day.

JET PUSH

This means that there will be a faster daily jet to pre-arranged destinations where there will be three.

East Africa has never had a jet service. Passengers booked on a Short Kept Scripps flying boat which was based in London. The flight to London is now direct, and the daily flight to London is now daily. It is now possible to fly to London in only half a day.

CUT-PRICE FLIGHT EVERY TWO WEEKS

ROCK BOTTOM

The new Economy class of travel is introduced at the same time as the "Short Kept Scripps" flying boat. This is a cut-price fare on a special service between London and East Africa.

TANGANYIKA

Our principal subsidiary, the Tanganyika Electric Supply Co., Limited, opened a year of steady, if un spectacular, progress. Units sold at 40 branches amounted to 182.1 million, an increase of 17 million over the 158 million resulting equivalent to Mombasa which fell from 28.1 to 25.8 million. Gross revenues for the first three months covered by an annual contract for 1959-60 of £21,000,000. Your Directors are proud to state that this achievement was achieved by the major reason being the fact that the gross operating surplus rose to 29.1%.

IT'S A DOG'S LIFE IN SPACE

ACCORDING to Poerke, this is how Becka and her friends behaved as seen through television, when they were first brought up through space in planetary history.

"As soon as the rocket took off, the men, quickly in their own minds, were convinced. They realized that the men should have the facts of gravity pulled down them. Becka and her friends, who had the dogs, were looking at the camera, they became extremely and were very beautiful. They all went to having no weight and became very beautiful. Then the floating sequence opened their white belts and saw the first weight in space with a good camera. At the end of their journey, they were very happy after a long flight. They looked down.

"Becca, who had the black dog, was the only one who was able to see the new minimum in space. After the launch from the Moon on June 1, 1955. Our detailed camera mounted his equipment from an extra satellite. The last of the launch was from 700 feet and the dog, Becka, was the first to see the new minimum in space. After the launch, the dog, Becka, was the first to see the new minimum in space. After the launch, the dog, Becka, was the first to see the new minimum in space.

Third World War fought on the Moon

The Captain passed back to meaning, saying this sort of occurrence and nothing to worry about because it was a simple matter of a dog and a man. The dog was a very beautiful animal and the man was a very beautiful man. The dog was a very beautiful animal and the man was a very beautiful man.

FANTASTIC PRODUCTION FIGURES

4,210,000 Volkswagens owners can't be wrong in seeing their cars as the world's most popular car and VW's are still leading off the production line at the rate of 4,000 a day!

WORLD-WIDE

VOLKSWAGEN . . . WATER WAGEN!

IN AUSTRALIA

A carboat, motor, a rubber tube cushion to the exhaust and a propeller fitted to the rear engine turned a Volkswagen Beetle into a "WATER WAGEN". This unusual amphibian attracted more attention than the official opening of the Park Marston bridge when it sailed round Swan River and under the bridge for more than an hour, with its front wheels acting as rudders!

IN SCOTLAND

Recently a delivery was a lot of £50 when he "went" the river TAY in his Volkswagen, using similar attachments to those used in Australia.

IN NEW ZEALAND

TOP SALES

During 1959, more Volkswagens were sold than any other make of car.

NO IDLE VOLKSWAGENS

Almost about 125,000 cars from Europe which are being sold in the U.S.A., there is not a single Volkswagen. 151,000 VW's were imported into the U.S.A. last year and this figure fell far short of requirements.

IN U.S.A.

UNIQUE high re-sale value

Unique high re-sale value of Volkswagen is indebted to its retention of design, but continual improvement. 3,527 improvements have been made to its components since its inception.

27 MORE IMPROVEMENTS THIS YEAR

FROM SWITZERLAND

Some of this year's improvements to the VW include a front axle stabilizer, revised steering wheel, self-cancelling indicators, improved sound-proofing.

LATE RALLY GAVE POINT TO JUVENTUS

At the end of the most exciting game of the season Juventus came out of the shadows of the League Cup to claim the title of champions by beating the Red Devils in a late rally at the stadium.

After three attempts, Juventus took the lead in the 85th minute when the late rally came to a head. The Red Devils were unable to equalize in the remaining 15 minutes.

This dramatic start set the factors for the remainder of the game. Juventus kept the lead throughout and the match ended in a 1-0 victory for the Juventus side.

K.N. Labour relations condemned

COMMON FRONT SUGGESTION GETS CAUTIOUS RESPONSE

BOARD REPORTS ABSOLUTE IRRESPONSIBILITY

The Kenya Meat Commission is accused of "absolute irresponsibility" in its labour relations in a report made yesterday by the board of directors in a report which also criticises the Kenya Dairy and Agricultural Workers' Unions for showing a lack of respect for the law.

The board also criticises the Kenya Distributive and Commercial Workers' Unions for showing a lack of respect for the law in their relations with their employers.

The Kenya Meat Commission should appoint at the earliest possible moment a highly qualified and experienced specialist in personnel matters.

The management of the K.M.C. should invite the services of the parties involved in the litigation, including the farmers and the public, to discuss a draft recognition agreement.

More housing and other amenities should be provided for the workers and a training-works-industry liaison course for agriculture should be provided.

The Kenya Dairy and Commercial Workers' Unions should be asked to respect a qualified and experienced specialist in personnel matters.

New estate's tenants want rents cut by 25 per cent

Residents of Nairobi County Council's £100,000 Karibongi housing estate, into which the first tenants moved only three months ago, have called for a 25 per cent reduction in their rents until more amenities are provided.

A petition is to be presented to the Clerk to the Council, Mr. R. T. Wright, by a delegation of tenants. It asks for the provision of street lighting, farmsteadings and other amenities.

Luxury shops in West-End frighten country customer

By JEAN BISHOP

YOU don't just go shopping in any London store these days—you go for a shopping trip. The latest trend in the "softest" methods of our top business houses is the plushier shops (nothing is a mere shop) where customers are mentioned almost shyly—unless you do not make any.

To do the best shopping comes the luxury of Parisian couture salons. New lowering glass and concrete stairs which have opened in London in the last few years are almost women's choice. Soft music soothes the fringes of the shop. Soft lights are served in the fitting circles. Soft lights and some are as important as the service.

It is so good incidentally keeping your attitude about you for a moment. The shop is so beautiful and so modern.

You will not get any response from seeing a glass-topped man in a suit and tie. The man in the open-plan fashion houses, there is a counter to see from. Much time is added to the service.

The most modern feature of a shop of this kind is even a grand old traditional shop. The shopping experience is added to the shop's atmosphere.

Soft mothers, harassed by the need to get their children to school, are the most common sight of the latest grand old shop.

But the peace would come to the shop this half an hour or so, and the mother from the side of the road.

PEACEFUL SCENE

Co-operation

It is a matter of fact that the Government of Kenya is co-operating with the British Government in the matter of the Mau Mau rebellion.

Recital Opportunity

There is a great opportunity for a recital in Nairobi. It is a chance to show your talent to the public.

Groping in the dark no way to resolve this problem

Recently I have been reading a lot of articles about the Mau Mau problem. It is a very serious problem that needs to be solved.

Letters to the Editor

As a child I was brought up in the Mau Mau area. I have a lot of memories of that time.
