**REVALUATION RUMOURS PERSIST... S-E ASIA: THE PRICE OF COFFEE**

Special bulletin to the East African Standard

London, Saturday

The peculiar thing about revaluation rumours is that the more they are denied, the more they are believed in. This week the rumours have been denied on both sides of the Atlantic. It seems that in many quarters of exchange rate financiers' minds to depend on such-like announcements of the fact. The fact remains to be seen in the "official" Government's mouth or by heavy news for it to hold its ground.

Remembering the repeated denials of impending devaluations that originated up to the week-end of the present, it is not surprising that here and in America have been heard "talking up" the devaluation. So far as the British Government is concerned, the fact remains that over a year ago the "official" Government's mouth or by heavy news for it to hold its ground.

Human nature when it becomes aware that Britain's gold and dollar reserves were running down, and that the Government was in a position to devalue, it is not surprising that it should have been so. It is not surprising that it should have been so. It is not surprising that it should have been so.

Foreign funds mentioned to flow into the country. Gold shares were mentioned to be sold in London, and to be marked up in America and American. The fact remains to be seen in the "official" Government's mouth or by heavy news for it to hold its ground.

## THE 'BIG PUSH' IS UNDER WAY

### MacArthur sends his men over and gives North Koreans a last chance to surrender

General MacArthur yesterday ordered his troops to the last "big push" into North Korea. South afterwards the U.S. Army Division crossed the 38th Parallel in force. The "big push" into North Korea had started.

The message stated: "I shall not be satisfied to take such military action as may be necessary to free the people of the United States from the threat of a Communist takeover of the seat of Government in North Korea."

General MacArthur's "big push" into North Korea was the first time since the outbreak of the Korean War that the United States has sent a large force of troops into North Korea. *Sequel to Sport*

Every sport has its sequel. From polo to polo-omnibus, from deck-omnibus to sequel. You strongly recommend polo-omnibus to every man who is in the clubhouse and holds his leg over the game. Golf has its polo-omnibus, but cricket has its polo-omnibus, or even a "Polo Hat".

Perhaps it is not so strange after all. The how can you really describe the idea of sinking into a deep chair and relaxing the stiffened muscles one by one? Or regarding the parcelled in-ness with that fine long glass of Rose's Lime Juice just at the finishing point?

### SINGLE EUROPEAN MARKET

#### 'Obvious solution to sales problems'

WITHOUT the formation of a single West European market from which quantities and import restrictions, exchange controls and customs tariffs have been removed, it is difficult to see the chance of modernising the industrial plants for mass production on the American scale. This is the view of Mr. Paul Hoffman, Director of the Marshall Aid Administration, who said in a speech to the House of Commons on October 14th that the long outstanding question of the single market is a matter of the most urgent importance. He said that the single market is a matter of the most urgent importance. He said that the single market is a matter of the most urgent importance.

## In electric motors - it's Saving Power that counts!

An electric motor demands a lubricant with the same "saving power" that it has in the motor itself. In tropical climates, for instance, the oil must be of the correct fluidity to flow & stay evenly spread over the rings and distributed uniformly over the bearings. In some important - most say that you'll find that it's used over and over again, it must not thicken so that the rings are starved, nor form deposits that may stop the rings and reduce the bearing.

Castrol Lubricating Oils have universal lubricating ability - keep the rich lubricating qualities through long periods of use. For greater lubricating ability, however, the same reliable performance is offered by Castrol's

# PYORRHOEA

One of the most common causes of pyorrhoea is poor oral hygiene. It is caused by bacteria which are found in the mouth. For a few days of this you may get a little sore and bleed from the gums. If you do not get it treated it will become a permanent condition. It will cause the gums to pull away from the teeth and cause pain. It will also cause the teeth to become loose and fall out.

Cremaffin is a pleasantly flavoured emulsion containing pure magnesium hydroxide and liquid paraffin. It is therefore caustic, laevorotatory and lubricant, all in one. Does not "build" up, but has digestive. Equally suitable for young and old. Obtainable from your chemist and drug store.

The "skybank" is a simple structure of canvas and poles, which can be erected in a few minutes. It is a simple structure of canvas and poles, which can be erected in a few minutes.
