TWO GREAT CRISES FACE PEOPLES OF AFRICA

One material, other of the spirit

ANY action necessitating strategy or initiative between Africans is bound to be a struggle between the forces of progress and reaction. The task of evolving orderly development throughout the British colonies in East and Central Africa, it is argued, has been complicated since the outbreak of the war. The economic and political trends in West and South Africa, the suspension of racial legislation in the West Indies, the progress of the United Nations, the rise of the "new nations" in Asia and the "new world" in Latin America, all these factors have contributed to the complexity of the situation.

Setbacks inevitable

It is not possible to see a smooth and untroubled path leading to the realization of the African dream. There will be setbacks, there will be disappointments, there will be periods of stagnation. But the African people are determined to overcome these obstacles and to achieve their goal of self-determination and independence.

Shillings freely

agreed suspension of the use of the shilling in East Africa. This move is seen as a step towards the unification of the African continent and the elimination of artificial barriers to trade and commerce.

Tax arrears

The Treasury of Southern Rhodesia has announced that it will accept the responsibility for the collection of tax arrears in the territories under its administration. This move is seen as a gesture of goodwill and a step towards the development of the African continent.

HOW COMMANDOS ESCAPED TRAP

**Sub-zero' battle at Chosin
through CHINESE AMBUSHES
AND ROAD-BLOCKS TO SAFETY**

By Bernard Wickford, "Daily Express" Correspondent.
Kuryu, Japan, Sunday.

What was a military historian will write the full story of the British Marine Commandos trapped with American Marines in the mountains of North Korea. The end cannot be written yet because 150 of the original 500 are still there. But here is the story of the story told me by a couple of ladies who have come back.

The Commandos were ordered to join the United States troops at Hagaru, at the southern end of the Chosin range. They got as far as Koriol without much trouble. The following day after clearing the road from some nearby hillsides, they set out for the reservoir in thirty borrowed hilltops. They were to be there by 11 a.m. but they did not get there until 12.30. It was something like the charge of the Light Brigade that there wasn't much fighting.

They were in the rear part of the column. They said it became a standing battle from the world.

The Chinese were shooting from the hills and the snow-blanketed trees from their look-out posts in the woods. They were in the rear part of the column.

PLAN FOR CEASE-FIRE IN KOREA

**Confidence among
U.N. delegates**

PH Rangoon yesterday the Indian delegation to the United Nations was making the final touches to a plan which it is hoped will lead to a cease-fire in Korea. The proposal is expected to be placed before the Political Committee at Lake Success later in the day.

Delegates of the 15 Asian and Middle East members who met yesterday in the city of the Parliaments, New Delhi, were working on the plan.

The resolution, it is understood, is a short one, without any preamble, and contains two main provisions: one is that the United Nations should immediately call for a cease-fire in Korea; the other is that there is a feeling of confidence in Lake Success that both sides are ready to meet the plan.

Gen. MacArthur visits Korean battle areas

BACK in Tokyo after a flying visit to the front lines in Korea, General MacArthur, United Nations Commander in Chief, returned to the United States yesterday after a flying visit to the front lines in Korea. He was accompanied by his wife and two children. The general was in the United States for a few days before returning to the front lines in Korea.

HOW COMANDOS ESCAPED TRAP

Sub-zero' battle at Chosin through Chinese ambushes and road-blocks—to safety

By Bernard Wicklund, "Daily Express" Correspondent; Kary, Japan, Sunday.

It may be military history will write the full story of the United States Marine Commandos trapped with American Marines in North Korea. The end cannot be written yet, but the story told me by a couple of lads who have come back from Chosin.

General MacArthur, at the southern end of the Chosin front, was not as far as Seoul without much trouble. The following day the reserve in thirty burned trucks, followed by the main force, was ordered to Chosin. It was something like the charge of the Light Brigade that they were marching against.

It was in the year part of the Chosin front that the Chinese were shot, from the hills and the snow-covered hills back from their side of the road to a road block. The Chinese were shot, from the hills and the snow-covered hills back from their side of the road to a road block.

PLAN FOR CEASE-FIRE IN KOREA

Confidence among U.N. delegates

By Neil York, "The New York Times" Staff Writer.

The Indian delegation to the United Nations was, according to the Indian delegation, in a plan which it is hoped will lead to a cessation of hostilities in the day.

The delegates of the 13 Asian and Middle East nations, who had been invited to the "Big Four" Conference, are expected to be pleased by the Political Committee at Lake Success later in the day.

The resolution, it is understood, is subject to, without any preliminary conditions, an immediate cessation of hostilities on the Korean peninsula, and the cessation of all military operations.

There is a feeling of confidence at Lake Success that such terms will soon be heard the call.

Under the present system there had been complaints from the United Kingdom in regard to the quality of sisal produced from Kenya.

Kenya's gold production off in October

Kenya's gold production was 100,000 ounces in October, down from 110,000 ounces in September, according to the Kenya Gold Mining Corporation.

The decrease was due to a combination of factors, including a decline in the number of active mines and a reduction in the amount of gold recovered from the mines.

POOR DISPLAY BY M.C.C. BATSMEN

All out for 180 against Country side

THE M.C.C. gave a weak display of batting against Country side on Wednesday at Cambera yesterday and were all out for 180. Good bowling, however, enabled them to dismiss half the Southern Rhodesians for 72 by the close of play.

The pitch took some spin and was not such as to encourage strokes making but this was no excuse for the manner in which many M.C.C. batsmen were last night. As a result, the batsmen were going through their last day's play.

Of the M.C.C. batsmen only two batsmen—Walter and Wainwright—brought any real life into the cricket. Walter, who has been playing for the M.C.C. as a batsman for the last few years, was the only batsman to score more than 10 runs. He scored 12 runs in the first innings and 14 in the second. Wainwright, who is a new batsman, scored 10 runs in the first innings and 14 in the second.

Four down for 40
The M.C.C. batsmen were 40 for only 40 runs and their batsmen and Wainwright had scored 10 runs each. The other batsmen were out for 10 runs each. The batsmen were out for 10 runs each.

Bright Bayle
Wainwright was sixth out. He scored 14 runs in the first innings and 14 in the second. He was out for 14 runs in the first innings and 14 in the second.

MAKERERE COLLEGE LOSES A REAL FRIEND Governor presents diplomas

The British taxpayer, who has provided hundreds of thousands of pounds to the young Africans, has lost a friend. The Governor of Uganda, Sir John Haldane, has, as Visitor to Makerere University College, presented diplomas and certificates to successful students in recent examinations.

Sir John and Lady Hall, accompanied by the Principal of Makerere, Mr. B. de Barmine, visited the crowded rows of students in joint members of the college academy staff on the platform.

Most of the students would be graduates, and many of them would be going to study in other parts of the world. It was a sad occasion, but the Governor and his wife were able to see that the students were well and happy.

Mr. de Barmine said that the college had been established in 1924, and that it had since then become one of the leading institutions of higher learning in East Africa.
