COMET FLIES TO SOUTH AFRICA

First service flight LONDON TO JOHANNESBURG—AT EIGHT MILES A MINUTE

SPREADING through the air more than seven miles above the earth is the world's first jet airliner to fly an established service flight. It is the B.O.A.C. Comet, which left from London at 9 p.m. (E.A.T.) yesterday and is due with its 36 passengers in Johannesburg at tea-time.

The first jet passenger to pay his fare was Mr. R. A. Linnacott, of Mafeking, who was booked to fly to Johannesburg 11 months ago and booked a seat on the Comet service flight, whenever and wherever it is going.

The plane took off with 36 passengers and crew on a special ceremony, by which each passenger was presented with a certificate certifying that they had completed the journey.

The Comet's climb this time was very rapid, reaching 10,000 feet in 10 minutes. It was then that the passengers were asked to fasten their seat belts. The flight was uneventful and the plane landed at Johannesburg at 10.30 p.m.

The future

The Comet is an expensive aircraft and its operation on a commercial service will depend to a great extent on the maintenance of its smooth and rapid service.

Return trip to Britain

The return of the Comet to Britain is expected to be in the next few weeks. It is expected to be in the next few weeks.

Flying time

The flying time from London to Johannesburg is about 10 hours. The return trip is expected to be in the next few weeks.

One, Mr. Owen Hughes, of the B.O.A.C. said that the Comet is a very fast and comfortable aircraft and that it is expected to be in the next few weeks.

It will be followed by a second Comet, which is expected to be in the next few weeks.

PRESIDENT IS BACKED BY COURT

Right to raise steel pay upheld

PRESIDENT TRUMAN has won another round of his battle with America's steel industry employers with the refusal of the United States Court of Appeals to bar the Government from raising steel workers' wages.

The court's five to four vote in favour of the Government came a few minutes after Commerce Secretary Douglas had secured a three-year wage increase for steel workers.

Face affairs

Mr. Eisenhower's new steel price controls are expected to be in the next few weeks.

1951 a record year for tourists

ANNUAL TRAVEL REPORT

Over 100,000 tourists and coffee earned more for East Africa last year than for any other year. The trade's 1951 report has been calculated at not less than £2,000,000.

The figure does not take into account secondary revenue from the international air services which brought in the tourists.

The trade's estimate of the total number of tourists who visited East Africa last year is 100,000. This is a record for the industry and is a reflection of the fact that the trade has been growing steadily since 1945.

The report states that the number of tourists who visited East Africa last year was 100,000. This is a record for the industry and is a reflection of the fact that the trade has been growing steadily since 1945.

Accommodation

On travel between the two continents, the Association has been successful in securing the adoption of a single visa for the whole of East Africa. This will be a great convenience for tourists and will help to increase the number of tourists who visit East Africa.

The report also states that the number of tourists who visited East Africa last year was 100,000. This is a record for the industry and is a reflection of the fact that the trade has been growing steadily since 1945.

Big increase in Empire oil output

Production up 30 per cent

London, May 1.—Production of oil in the British Empire has increased by 30 per cent in the last year.

The increase is due to a combination of factors, including improved extraction techniques and the discovery of new oil fields.

The production of oil in the Empire is now sufficient to meet the needs of the British Isles and to export to other parts of the world.

The increase in oil production is a significant achievement for the Empire and will help to reduce its dependence on foreign oil.

Summa 15

Designed for hand-operation, the Olivetti Summa 15 is an adding-listing machine which embodies, in a reduced size, all the features of the most modern and up-to-date models. The conventional keys of total, sub-total, subtract and non-add have been replaced by a patented 4-positional ball-switch which, through a new and original conception, allows for a simplified and more efficient operation of the machine all round.

Competitive in price, yet capable of a full-ledged performance, offering maximum capacity, printed record of the calculations, and featuring direct subtraction and credit balance, the Olivetti Summa 15 is truly the adding-listing machine for everybody.

Finance and Commerce BRITISH EXPORTERS SEEK SAFETY OF COMMONWEALTH MARKETS

Special cable to the East African Standard
LONDON, SATURDAY
M. R. A. BUTLER, Chancellor of the Exchequer, in a speech last week to the Association of British Chambers of Commerce gave further details of trends in Britain's overseas trade which gave rise to recent heavy losses of gold and dollars.

Part of the story has already been told in this column. The balance of payments figures for last year showed a deficit of £121 million, which was the largest since the war. The deficit was made up of a £70 million deficit on the current account and a £51 million deficit on the capital account.

One of the main reasons for the deficit was the heavy loss of gold and dollars. This was due to the fact that the value of exports to the United States and other countries in the Western Hemisphere fell by 10 per cent in 1951. This was due to a combination of factors, including a decline in demand for British goods and a rise in the value of the pound sterling.

Another factor was the heavy loss of gold and dollars to the Soviet Union. This was due to the fact that the value of exports to the Soviet Union fell by 20 per cent in 1951. This was due to a combination of factors, including a decline in demand for British goods and a rise in the value of the pound sterling.

The Chancellor also pointed out that the value of exports to the Commonwealth countries rose by 10 per cent in 1951. This was due to a combination of factors, including a rise in demand for British goods and a fall in the value of the pound sterling.

He also pointed out that the value of exports to the rest of the world rose by 5 per cent in 1951. This was due to a combination of factors, including a rise in demand for British goods and a fall in the value of the pound sterling.

The Chancellor also pointed out that the value of imports from the United States and other countries in the Western Hemisphere rose by 10 per cent in 1951. This was due to a combination of factors, including a rise in demand for American goods and a fall in the value of the pound sterling.

He also pointed out that the value of imports from the Soviet Union rose by 20 per cent in 1951. This was due to a combination of factors, including a rise in demand for Soviet goods and a fall in the value of the pound sterling.

The Chancellor also pointed out that the value of imports from the rest of the world rose by 5 per cent in 1951. This was due to a combination of factors, including a rise in demand for goods from other countries and a fall in the value of the pound sterling.

Mr. Acheson appeals for tariff cuts

The American Secretary of State, Mr. Dean Acheson, has appealed for a reduction of trade barriers between the free nations of the world.

He is commenting on a report that the United States has a surplus of goods, which is being caused by the fact that the value of exports to the United States has risen by 10 per cent in 1951. This is due to a combination of factors, including a rise in demand for American goods and a fall in the value of the dollar.

Mr. Acheson also pointed out that the value of exports to the rest of the world has risen by 5 per cent in 1951. This was due to a combination of factors, including a rise in demand for American goods and a fall in the value of the dollar.

Wednesday is Nomination Day Election expense comparisons OPINIONS OF CANDIDATES

Whereas the expenses of a candidate in a Parliamentary election in a particular constituency are the cost of holding one of the larger constituencies in Kenya may be as high as £5,000 per elector.

In the opinion of one of the more recently introduced candidates, the election is not being fought as a contest of ideas but as a contest of money.

But these seemed nothing to the number of candidates who are expected to appear at the first of the polling booths.

It is to be expected that the number of candidates will be in the region of 100,000.

Three points are worth noting in the view of the voters: first, the expense of the election is being borne by the elector.

100 objectors to application for bus route

MORE than 100 Anjan and African bus owners put their names to an objection against the Kenya Bus Services Limited application to operate a route to Thika which was considered by the Transport Advisory Board in Nairobi yesterday.

There were also objections to the company's proposition to add to the introduction of the new routes to Thika and Kisumu. After hearing the bus owners' objections, the Board is expected to decide on the application within a few days.

The K.B.S. M. A. S. Council, the Acting Managing Director said that it would give the necessary consideration for passenger transport in a similar fashion.

The company is expected to be notified on the subject of the proposed route. It will provide more frequent services on the route.

Attempts to end Spanish isolation

There is intense diplomatic activity in Madrid during the past month. Spain has initiated discussions with Tangier, General Franco has conferred with the President and Premier of Portugal, American, Cuban and military missions have arrived and Spanish Foreign Minister has completed a 10,000-mile tour of the Arab countries. Diplomatic observers in Madrid are convinced that the report of activity means that General Franco desires to end the day when the Western countries are to end international isolation of his country.

The rapid political change in West Africa should be a welcome stimulus to the wretched condition of the Arab countries. The support of the British Colonial Office and the Church of Scotland committee.

In a report to the Church's General Assembly, the committee has stated that the Arab countries were very poor and that the Government will improve the conditions under which they live.

"Nationalism is in vogue in every part of the great continent and we must be prepared for a heightening of racial consciousness everywhere."

General Franco, it is believed, hopes he can convince Washington that Spain is a natural ally of the Arab States and could be ready to join any other country in putting off American policy in the Middle East.

Spain—a predominantly agricultural country—has been under-industrialized and short of raw materials. Arab countries also suffer from the same economic handicap.

FALL IN WOOL PRICES CUTS WAGES OF 50,000 Australian contracts unfulfilled

FIFTY THOUSAND Australian agricultural workers will be in wool prices. Top-grade shewings now carrying £20 weekly will get £20 weekly less, and ordinary shewings—of £20 a week more—will come down to £20, according to a response to the wool board.

The Prime Minister, Collins, has further declared that he is very desirous to make as Australia has already been reduced by the wool price. Nevertheless, more dollar cuts must be made.

New atmosphere for mission work
The rapid political change in West Africa should be a welcome stimulus to the wretched condition of the Arab countries.

GILES SCORES FIRST CENTURY OF SEASON

Sporting declaration by Yorkshire RONALD GILES 20-year-old Nottinghamshire batsman played in a distraction on Monday being the first player to score a century in this year's county cricket championship.

Playing against Kent, he made some delightful footwork before being dismissed for 124. He was all the wicket for three and a half hours, and hit 12 fours. He was last assured that on Saturday when he was not out; but nevertheless, his play was delightful to watch.

Motts passed Kershaw's batting total of 201. He scored two runs but they only added a total of 108, 104 and 102 to the total. He was out for 66. An excellent second-wicket stand of 75 in 60 minutes was added Kershaw to reduce the arrears. Arthur Pegg played characteristic innings of 72 which included five fours, two and a half hits. He was play supported by Syd O'Connell the South African and Charlton Athletic. Kershaw, however, was out for 34.

Hutton in form Another fine innings of 70, out by Geoffrey Evans, who was having a very bad day, but that was not the only reason that Hutton was out. He was out for 70, but he was out for 70, but he was out for 70.

RECOVERY OF BRITISH ECONOMY PROGRESSIVE

Policy of Conservative Party

By PHILIP VIGNON

HOWEVER surely the signs of economic recovery are becoming evident. If Britain is not yet back on her feet, she has at least pulled herself up to the level of the recovery... The Conservative Party's policy is to ensure that the African population is not only protected but also given the opportunity to participate in the development of the country...

Australian import policy bears fruit

SIR ARTHUR FADDEN, the Treasurer, reviewing the financial position for the Australian House of Representatives in Canberra, said that the recent restrictions on imports were forced by the "overall balance" of payments difficulties "over the year".

Sir Arthur said that during the middle of last year, his department was in a position to be moving towards a situation where the Government had tackled inflation at its roots and already there were encouraging signs.

He said that the rate of price increase and rising wage costs had slowed down some fundamental weaknesses in the economy. The Government had tackled inflation at its roots and already there were encouraging signs.

Wool income

Australian wool income for 1948 is expected to be 100 million compared with 120 million in 1947. The greatest immediate effect of the Government's policy has been a loss of export income. The Government has tackled inflation at its roots and already there were encouraging signs.

THE CANADIAN DOLLAR IS A DESIRABLE CURRENCY TO HOLD

The Canadian dollar has lately been quoted at a premium of nearly two cents over the U.S. dollar. The invertible American market who felt outraged that anything should be bigger or better than its American counterpart turned up a different attitude. "I don't care what anyone says. I don't believe your bank (taking for dollar) is better than ours," writes Michael Backus, Observer Correspondent in United States.

Most Canadians are probably unaware that the Canadian dollar is a desirable currency to hold. The Canadian dollar is a desirable currency to hold. The Canadian dollar is a desirable currency to hold.

Borrowing

In the United Kingdom there appears to be virtually no possibility of public borrowing any worthwhile scale. Sir Arthur said that during the middle of last year, his department was in a position to be moving towards a situation where the Government had tackled inflation at its roots and already there were encouraging signs.

TAX THREAT MAY STOP CRICKET TOURS

M.L.C.'s existence may be in jeopardy

M.C.C. cricket tours of Australia, South Africa, India and other countries overseas will be jeopardized if the Government carries out proposals to raise the tax on admission to cricket matches. This tax actually benefits the M.L.C. It was added to the Income of Companies on Tuesday night by Sir Westcott (Conservative) Sir Westcott (Conservative) former English Rugby Union captain, who vigorously protested against the proposal.

Mr. W. Westcott said that he got his information from Col. M. C. B. Secretary of the M.L.C. who said the latter having said that he proposed a rise from £10 to £15. The M.L.C. would want to exist within the M.C.C. The Member who proposed a rise of £10 to £15, which would mean a rise from £10 to £15. The M.L.C. may have to reconsider the proposed Australian and South African tours.

Mr. H. A. Butler, Chancellor of the Exchequer, agreed to postpone the operation of the increased tax until after September 17 next. He even so, the M.L.C. may have to reconsider the proposed Australian and South African tours.

It is believed that the Government will not raise the tax on admission to cricket matches. This would mean a rise from £10 to £15. The M.L.C. may have to reconsider the proposed Australian and South African tours.

Intermediate rate

The Government now propose to try an intermediate rate to give the effect of the rate on the tax on admission to cricket matches. This would mean a rise from £10 to £15. The M.L.C. may have to reconsider the proposed Australian and South African tours.

THE LAND AND THE PEOPLE

The Kenya problems RE-EXAMINATION OF AN EAST AFRICAN BASIS?

The growing importance of land and population questions in East Africa illustrated by current agitation in the part of some sections of political organisations in Kenya led by groups in the United Kingdom, has reacted in a way which a re-examination of the problem is being urged to some quarters.

It is thought in these quarters that what is needed is a re-understanding of the real facts of the situation, and that the problem in the United Kingdom, has reacted in a way which a re-examination of the problem is being urged to some quarters.

TOURISTS IN TROUBLE AT THE OVAL

Surrey take four wickets for 64

INDIA caught on a pitch favourable to spin, lost four wickets for 64 in the last 10 minutes of the first day in their first-class match against Surrey at the Oval on Wednesday after dismissing Surrey, sent in to bat by Surrey, and the Surrey batsmen were dismissed for 126 at the close of the board at the fall of the fourth wicket, but the Surrey batsmen added only 23. Chiefly responsible was the medium-paced bowler Eric Chappell who took five wickets for five runs in an inspired spell of 44 overs. His innings figures were five for 20.

Tom Meade (46) and Dave Pearce (47) gave Surrey a good start with a fronting opening stand of 47. Meade was dismissed by the Surrey batsmen, but Pearce was not out. The Surrey batsmen were dismissed for 126 at the close of the day's play. The Surrey batsmen were dismissed for 126 at the close of the day's play.

Edrich in form
A Derbyshire seven-wicket stand of 107 between "Duggie" Edrich and Dennis Morris failed to help Surrey in their opening innings. Edrich, who had 107 runs, was dismissed by the Surrey batsmen.

ARMY WIVES TEACH BIBIS TO SEW

Plan to start child welfare centre

PASSERS-BY probably never give a thought to what goes on behind the ironing board, but they are now expected to pay attention to the needs of the women who are doing the ironing.

The women who are doing the ironing are the wives of the soldiers who are serving in the army. They are now being taught to sew by the army wives.

AS THEY SAY IN ENGLAND... You'll be 'as strong as an ox' on Epiteone!

THE GROWTH OF KENYA'S DAIRYING INDUSTRY

WHEN the Kenya Co-operative Creameries began its career in 1952 with the amalgamation of the three small creameries started as farmers co-operative concerns dealing with their own local milk, the production of cheese was just over 70,000 lb. Those who know something of the cheese-making industry in Britain will agree that this was a very modest start.

Last year the production was well over half a million lb. practically all of it, of course, to cater for the East African demand.

It is often imagined that when the pioneer farmers came to Kenya there was neither butter, nor cheese, nor any of the necessities, to which most people have come to rely as part of their staple diet.

Such "luxuries" were imported in large consignments from one of the well-known suppliers in London. No longer, however, after six or seven years have they been able to cater at all, had it not been for the pioneer farmers from Britain. Even now the early "luxury" imports.

Today the Kenya Co-operative Creameries, on behalf of its dairy-farmer members, not only makes and sells many million lb. weight of butter, and the half-million lb. of cheese, but is able to go with confidence into the whole-milk market without any

The fact, the secret to this success was the early arrival of the British. Left behind in the days of the pioneer farmers, but when the creameries began to produce butter, they were able to cater for the demand. The pioneer, right, in the days of the pioneer farmers, but when the creameries began to produce butter, they were able to cater for the demand.

of being unable to cope with the rising demand of its big domestic market.

What this means, in terms of farming stability, it is difficult to assess.

Cheese-making has always been one of the major arts of the British farmhouse. There are famous types of cheese, from the Cheshire and the Cheddar to the Wensleydale and many others. They were all made with great care and as far as possible from milk produced by a herd while it was grazing on pasture areas.

Factory cheese-making, once regarded as the least untidy grade of cheese, has gone a long way since its early days. The grades of cheese, has gone a long way since its early days. The grades of cheese, has gone a long way since its early days.

COTTON GINNERS GET INCREASED ALLOWANCE

Uganda report on price-fixing

THE report of the Cotton Ginner's Association of Uganda, which has just been published, contains recommendations which mean that for the 1951-52 season ginner will be paid an increased allowance for buying, ginning and baling, equal to 2,791 cents per ton. This includes the increased allowance for transport, agents' commission, collection of seed cotton, and the increase in the average price of seed cotton. The increase in the average price of seed cotton is due to the fact that the price of seed cotton has risen from 1,400 cents per ton in 1950-51 to 1,600 cents per ton in 1951-52. The increase in the allowance for transport is due to the fact that the price of transport has risen from 1,000 cents per ton in 1950-51 to 1,100 cents per ton in 1951-52. How statistics throw light on life in East Africa

A 'Standard' Staff Reporter describes the work of the East African Statistical Department which, in the words of the Director, 'measures anything which affects the social and economic life of the community as a whole.'

It is a man who can handle statistics who can handle the life of a community. The East African Statistical Department, which was set up in 1947, has since then been busy measuring anything which affects the social and economic life of the community as a whole. The Director of the Department, Mr. J. H. G. Martin, says that the Department's work is to provide the Government with the facts and figures which are needed for the planning and development of the country. The Department's work is to provide the Government with the facts and figures which are needed for the planning and development of the country.
