It all depends upon WHO SAYS SO!

It is easy to claim that any motor car tyre or lorry tyre gives greater mileage.

It is easy to claim that any tractor tyre pulls more and lasts longer.

But the most important question is... WHO SAYS SO?

The unchallengeable fact that tyre users the world over have, year after year for the past thirty-seven years, purchased more Goodyears than any other make, can only be described as an overwhelming vote for Goodyear as their first choice tyre.

Farmers say that Goodyears pull where other tyres won't, and last longer. Motor car owners and lorry operators who have tried all makes of tyres under work-a-day conditions, say that Goodyears give greater mileage.

THEY OUGHT TO KNOW!

PLOWING: Low-Grip Super-Fashion tread, more traction, minimum slip, superior safety.

Court hears of repairs to crashed bus

CANDIDATE CRITICIZES TYPE OF QUESTIONS

Plan for clean politics

MORE than 400 had been present at a meeting at the African bus which ran off the Limuru Road into the Gatuluru River killing four persons and injuring eight last March 9. The repairs had been done in the six weeks since the accident.

Receipts for the repairs, carried out by Messrs. J. J. O'Connell and March to five days before the accident, were £1,000. The contractor, Messrs. J. J. O'Connell and March, who was among the witnesses, says that the repairs were done with the best materials available.

The bus, a Ford Model 10, was driven by Mr. J. J. O'Connell, a Kenyan from Nairobi, who claimed not guilty to the charges, was fined £50, but the owner of the bus, who was the proprietor, had to pay the balance of the charges.

Intensifies
 Mr. Harris said that the Government was intensifying its efforts to clean up the political system. He said that the Government was taking steps to ensure that the political process was fair and honest.

Other work
 Mr. Harris also mentioned other work being done by the Government, including the improvement of roads and the development of agriculture.

Address by Lt.-Col. Lewin at Nanyiki

REPLIES GIVEN IN SEMI-DARKNESS

Lights fail at election meeting

When Lt.-Col. F. C. Grogan, a member of the Legislative Council, addressed the meeting at Nanyiki, the lights failed, and the meeting continued in semi-darkness.

Mr. Grogan's election meeting was held at the Nanyiki Sports Club on Monday night. Late comers learned through the windows to hear the speaker answer questions from constituents.

Mr. Grogan said that the Government was taking steps to improve the standard of living in Kenya. He said that the Government was providing more services to the people and was working to create more jobs.

Unfair
 Mr. Grogan also mentioned that the Government was unfair in its treatment of the people. He said that the Government was taking away the rights of the people without giving them any compensation.

Monopolies
 Mr. Grogan also mentioned that the Government was creating monopolies. He said that the Government was giving special privileges to certain companies, which was unfair to other companies.

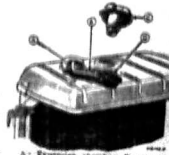

With alarm
 Mr. Grogan also mentioned that the Government was acting with alarm. He said that the Government was taking steps to suppress the freedom of the press and the freedom of speech.

Immigration
 Mr. Grogan also mentioned that the Government was increasing immigration. He said that the Government was bringing in more people from other countries, which was causing problems for the local population.

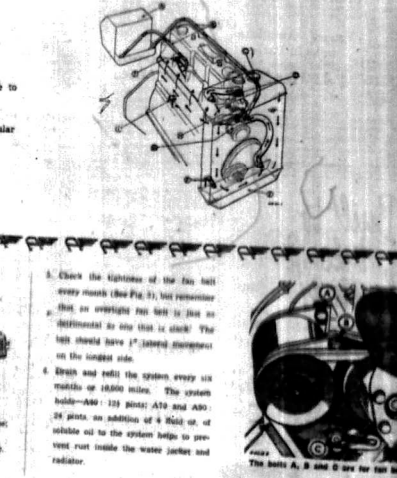

As cool as a cucumber

An efficient, well-maintained cooling system is of major importance if you are to expect satisfactory running from your engine. It is necessary to pay particular attention to the following points:

1. Check the level of the water in the radiator every week. Fill to bottom of filler cap thread. (See Fig. 2)
2. Check the quantity of the rubber hoses every month. The action of the water pump at high revs. can cause a deteriorated hose, violation of the engine oil cause cracks in the rubber, which in time will lead to a serious leak.
3. Ensure that the belts do not touch any part of the engine dress cover or front mounting plate. Belts will soon wear the base and strain a serious loss.
4. Ensure that all hose connections are tight each month.

A: Expansion chamber; B: Overflow pipe; C: Filler Plug; D: Filler Plug Valve

The belts A, B and D are for the fan belt

Reasons:
 No water
 Slack fan belt
 Deteriorated bottom radiator hose
 Thermostat stuck
 Ignition incorrectly set
 Improper carburettor adjustment
 Failure of water to circulate

Recommended Action:
 Fill up system and check for leaks
 Tighten until the belt grips the pulleys, but has 1/4" lateral play
 In this climate it is not necessary for a thermostat to be fitted
 Set ignition until engine jumps at 15 m.p.h. in top gear
 Reset carburettor adjusters and check choke controls
 Check radiator cover, water pump, valve and cylinder block

DRAINING
 If your radiator or cylinder block is clogged with rust, drain the system at night and fill up with paraffin. Drain this mixture in the bottom for six weeks or three days, or 100 miles. The mixture should then be drained and the system flushed with water for at least one hour.

Investment in African colonies

The need for European and African co-operation in the development of Africa is stressed by the late Sir Samuel Hoare, Secretary of State for Africa, in his speech to the House of Commons on June 14th. He pointed out that Africa is a continent which is now being developed by the British Empire, and that it is essential that the African population should be trained in modern methods of agriculture and industry.

Act of courage

The Government in the United Kingdom has shown great courage in its decision to support the cause of Africa, and to provide financial assistance to the African peoples. This decision is a landmark in the history of the Empire, and it is to be hoped that it will lead to a more active participation by the African peoples in the development of their own continent.

INDIAN AFRICAN LINE

The Indian African Line is a shipping line which connects the Indian continent with the African continent. It is a very important link in the communication between the two continents, and it is to be hoped that it will lead to a more active participation by the African peoples in the development of their own continent.

TURKEYS PLACE IN THE PA...

THE object of Field-Marshal Montgomery's recent visit here was to discuss the integration of Turkish and Greek military planning with that of the rest of the Atlantic Pact organization.

By ROBERT STEPHENS from Ankara

General Nuri Yaman, Chief of Staff of the Turkish Army, (second from right) said a secretary visit recently to Sir William Slim, Chief of the Imperial General Staff (left) at the War Office in London.

The policy

Turkish policy is now subordinated to the strengthening of the Middle East. The Ankara government has been removed, there is an outlook now for the Western nations to re-align reserves of power over the Federal Republic which was the only ally necessary to invoke collective action against the country-to seek a Russian military threat to meet a Russian military threat.

Kenya Elections

In the past, a number of the extra seats which have been set aside for the African people by the British Government have been used to elect a few Africans to the Legislative Council.

Speeches by the Aberdare candidates

(Continued from page 1)

Mr. Lido Dismore said he was prepared to fight and what he was prepared to fight against was a liberal constitution.

It is proposed that there be a referendum to decide whether the people of Kenya should have a liberal constitution.

Mr. Dismore said that the people of Kenya should have a liberal constitution and that the Government should be prepared to accept a referendum to decide whether the people of Kenya should have a liberal constitution.

POSSIBLE TEST MEN ON FORM

Wicketkeeper candidates do well

CANDIDATES for England's team for the first Test match against India in due course tomorrow morning are good form on Monday, the second day of the present County Championship cricket programme.

One of the biggest problems facing the England selectors is the choice of wicketkeeper. This appears to be between Dick Spooner, of Warwickshire, and Ken's Goodrich, of Lancashire.

Spooner, who kept wicket for Gloucestershire last season, did not play through the first two days of the County Championship but he has been in excellent form in the past and is a regular for the Essex club.

Goodrich, on the other hand, has been in excellent form throughout the first two days of the County Championship, and he is a regular for the Essex club.

The selectors are also looking for a batsman to play in the first innings. The leading candidates are Alan Jones, of Warwickshire, and Frank Kelly, of Gloucestershire.

Alan Jones has been in excellent form throughout the first two days of the County Championship, and he is a regular for the Essex club. Frank Kelly has also been in excellent form, and he is a regular for the Essex club.

Comet

World's First Jetliner

The age of jet travel is here! With the first pure jet airliner service in history. B.O.A.C. operates the red of the world, and makes good an inspired bid for global leadership in air transportation.

The Comet is a 36-passenger jet liner, faster by 100 m.p.h. than its closest propeller-driven competitor. It flies out before you know it—with a feeling of power to please. It crams plenty, quietly, smoothly at 35-40,000 feet. It lands with confidence. Plan now to enjoy to the full the kind of air travel that's about to begin. The first Comet service will fly from London to Johannesburg via East Africa Airways, Nairobi, Telephone 2382

SISAL PRICE EASES FURTHER; REPORT ON GAMBIA VENTURE

THE United Kingdom sisal market further to £14 5 a ton—fall of 17 1/2—and now stands at its lowest level since August 1937.

There is still a world-wide lack of buyers according to an authority in the market. Sisal requirements are falling off, while supplies are increasing owing to an increase in production.

It is hoped that the recent reduced price will attract more buying interest, but in the present state of affairs there is no assurance of this.

THE GAMBIA PLOUTRY SCHEME

American who ran a bank in London, Mr. J. B. Smith, who has been in the Gambia for some time, has written a report on the poultry scheme in Gambia which is being published in an official publication.

The report, entitled the findings of a High Court Judge who had visited the Gambia in 1937, is a valuable contribution to the knowledge of the poultry scheme in Gambia.

Mr. Smith states that the scheme was established in 1937 by the High Court Judge who had visited the Gambia in 1937. The scheme was established in 1937 by the High Court Judge who had visited the Gambia in 1937.

NEW ZEALAND HOPES TO OVERLEAF DEFICIT

NEW ZEALAND should be able to meet its deficit for 1938, according to the report of the Minister of Finance, Mr. J. G. D. O'Rourke, in his statement to the House of Representatives.

Mr. O'Rourke stated that the Government had a surplus of £1,000,000 in 1937, and he hoped to maintain this surplus in 1938.

AGA KHAN'S FIFTH DERBY

French Epson challenge repelled

TULWAR, installed 11-10-2, favourite just before the off for the 12th Derby. Bismarck's premier test Classic at the lead in the straight and hung on gallantly to give his owner, the Aga Khan, his fifth Derby winner.

The second place was won by a British-trained horse, when Lester Piggott brought Mrs. J. V. Barker's *French Epson* through the line. This year's French Epson was run over the length of Bismarck's first, but only a length ahead of the first of the French challengers. Mrs. Francis Dapier's *Pauline II*, ridden by the French jockey, J. Deshayes. *French Epson* started at 100-16.

Tulwar, a brown colt to whom an hourglass was for his crest, a first place in the first of the year, a second place in the second, and a third place in the third of the year.

The comparatively young French challenge in the history of the race was repelled. *Pauline II* started in the race at 100-16.

The other French horses, *Bismarck*, *Argal* and *Montmartre II*, who were the two favourite challengers, were unimpaired in the race. *Bismarck* finished second, *Argal* third and *Montmartre II* fourth.

Gay Time falls

There were some jocular remarks just after the finish when *Pauline II* was asked to weigh in with her 100-16. The fact was that she had been put in the race to give the Aga Khan a good laugh. The fact was that she had been put in the race to give the Aga Khan a good laugh.

Tommy Farr wins

After a very close race, Tommy Farr, the former British heavyweight, won the 10th round of the world championship fight with *Joe Louis*, who was the world champion. Farr won the fight by a unanimous decision.

Japan sets Britain boxing power

By Freddie Mills

It is in the ring that the truly heroic world war hero finds his true heroism. The Japanese champions who fought for the 1951 world championships have produced a series of performances which have made them the most respected and feared of the world's boxing powers.

THE SALVATION ARMY AT WORK IN AFRICA

Address to Nakuru Rotary Club
 "I am pleased to be invited to address the members of the Nakuru Rotary Club this evening about the work of the Salvation Army in Africa. It is a privilege to be able to do so, and I hope to be able to do so again soon." *—General Sir William Templer, C.B.*

WHEN the Salvation Army's territorial commander for East Africa, Commander E. Egmond, spoke to the members of Nakuru Rotary Club last evening about the social welfare work being done by the Salvation Army, he said that members of the Army were trying hard to guide the African, who at present was faced by two conflicting ideologies, towards the right ideology.

That was, however, but one aspect of the work of the Salvation Army throughout East Africa and throughout 99 different countries throughout the world in which the Army at present existed.

It was known as one of the leading and largest voluntary social welfare organizations in the world and its contribution to social welfare had been recognized as a practical expression of the movement's Christian faith.

Effect on laws
 It would be difficult to assess how much was owed to the founder, General William Booth, and Lord Bouverie, the man responsible for much of Great Britain's social welfare, had acknowledged the effect of the Army's social welfare work. In 1932, a Government Commission reported that 68 per cent of the social insurance on which the new Social Security Act was based was due to the initiative of the Salvation Army.

The Army's social welfare organizations organized by the Government, the National Council for the Disabled, the National Council for the Blind, the National Council for the Deaf, the National Council for the Mentally Subnormal, the National Council for the Physically Handicapped, the National Council for the Specially Gifted, the National Council for the Specially Deprived, and the National Council for the Specially Deprived, all owe much to the Salvation Army. In 1932, a Government Commission reported that 68 per cent of the social insurance on which the new Social Security Act was based was due to the initiative of the Salvation Army.

Retiring after 31 years' service
 General E. Egmond, territorial commander for East Africa, announced his intention to retire from the Salvation Army after 31 years' service. He had been in the Army since 1921, and had held a number of positions of responsibility during his long career. He was a member of the Royal Army Medical Corps, and had served in the South African War and the First World War.

Cameroon
 The Government of Cameroon has announced that it has accepted the offer of the Salvation Army to provide social welfare work in the country. The Army will be responsible for the provision of social welfare work in the country, and will also be responsible for the provision of social welfare work in the country.

CAMERA TEAM 'SHOOT' IN EAST AFRICA

ALFRED and Emma Milotte, the American husband-and-wife team of wildlife photographers, who left recently by sea for Mombasa, plan to spend a year, collecting material for their next nature film.

They will film and make sound recordings of lions, elephants, rhinos, hippos and other wild animals of the continent. The Milottes will live and work in a specially built camp in the National Parks of Kenya, while their camera work will be done in the National Parks of East Africa. It will be the third in a series of films on nature life, the first two being 'The Lion' and 'The Elephant'.

Their next production, 'The Blue Bird' will be about the life of a blue bird in the Congo. The film will be shown in the National Parks of East Africa.

Europe plans drive against animal diseases

STEPS are being planned in Paris to set up a Western European Council to co-ordinate a drive against animal diseases which is to last every year through foot-and-mouth and other preventable animal diseases.

The Organisation for European Economic Co-operation, acting with the United Nations Food and Agriculture Organization, has called in Paris for Western European countries to plan a European campaign against diseases in domestic animals. International experts in animal diseases, who are to meet in Paris next month, will also discuss the drive against animal diseases.

ONE of the first things many people did after being received by Mr. and Mrs. J. Hughes and Dr. George at the City Club Saturday on the occasion of the former World War II member of the Blood Trust was to get upstairs and view the magnificent buffet laid out there.

After indeed it was ready some and eating President for the Reception Club and members of the Blood Trust, the buffet of appetizing food was served in the room. The buffet was laid out in a room of the Blood Trust, and the buffet was laid out in a room of the Blood Trust, and the buffet was laid out in a room of the Blood Trust.

Indoor smells killed in the air!

NEW AMAZING DISCOVERY

It's the wick that does the trick!

AM AMAZING DISCOVERY, Air-wick, which disperses indoor smells—removes the odorous cooking smells, stale tobacco, bathroom smells. It kills them in the air. It makes your home smell fresh and clean.

A wick burns clean and green, the wick does not smoke, it does not give off any odor. It is 100% natural compounds.

Air-wick is a simple to use. Just place the wick in a high ball above the source of smell. Smells vanish as by magic.

WESTMINSTER A National Shrine

The site of the House of Parliament forms the heart of Westminster and ever it all, towers the magnificent, historic tower which has been rising steadily through the centuries in a succession of styles and materials, in the heart of the metropolitan city of London. It is the heart of the city, the heart of the nation, the heart of the world. It is the heart of the nation, the heart of the world. It is the heart of the nation, the heart of the world.

Le Roux Smith in Roux, South African architect, writes of the exquisite interior of Westminster as having no rival in Gothic architecture for richness and beauty.

Westminster has it that the site of Westminster Abbey and St. Martin's le Grand were originally on a grid, three-covered island of ancient stone to be built on a grid. The site was originally a grid, three-covered island of ancient stone to be built on a grid. The site was originally a grid, three-covered island of ancient stone to be built on a grid.

COMMONWEALTH RELATIONS

The Will to Work Together and the Habit of Constant Consultation Produce Impressive Results

BY THE RIGHT HON. LORD ISMAY

From 1940-1945 Lord Ismay was Chief of Staff to the Minister of Defence (first to Mr. Churchill and then to Mr. Attlee). He is now Secretary-General of the North Atlantic Treaty Organisation. To take this new appointment he gave up the post of Secretary for Commonwealth Relations, with a seat in the Cabinet.

For a great many years I have been in touch, at times actively concerned, with Commonwealth affairs. In the last few months I have, as Secretary of State for Commonwealth Relations, seen the Commonwealth from a more intimate point of view. Now that I have, with the greatest possible respect, given my office on appointment, to be allowed to record some of the principal impressions which have been formed in my mind during my tenure of office, I am sure that it will be of interest to those who have the privilege of the right of audience in the House of Commons. It is in this sense that I am writing.

It shows itself unmistakably in our efforts to maintain peace and disarmament, and in our efforts to bring about a more just and equitable world. It is in this sense that I am writing.

Bond of union
 THROUGH the Commonwealth we have a bond of union which is more than a mere geographical bond. It is a bond of union which is based on the common interests of all the peoples of the Commonwealth.

The vigorous independence and outlook of all these countries is one of the main reasons for the strength of the Commonwealth. It is a bond of union which is based on the common interests of all the peoples of the Commonwealth.

A PREMIUM ON 'BRAINS'

THE other week, the newspapers told the story of how the Duke of Edinburgh played a game of riddles and crosses against an electronic "brain" and lost. His sole consolation was to be told that any way out would not have won; the brain had not been programmed for such a game.

the Minister directly concerned, and receive a reply in the same way.

Family Councils
 MEETING between Commonwealth Prime Ministers is a regular feature of great importance.

Consultation
 ALTHOUGH there are no formal arrangements for the regular meetings of Commonwealth Ministers, there is a strong tradition of consultation between the Commonwealth countries.

Meeting in Kenya
 The Commonwealth Ministers met in Kenya in 1951 for the first time since the war.

Living unity
 I DO not believe that this degree of cooperation could have been achieved if the Commonwealth had not been united by a common purpose.

Oil men
 BECAUSE their work entails so many heavy contacts with the oil companies, the oil men have been among the first to be attracted to the Commonwealth.

NEW ZEALAND EXAMINES TRENDS IN HER ECONOMIC LIFE

NEW ZEALAND is holding a public 'inquest' into recent trends in her economic life. The occasion is a statement of views by the Finance Commission to the House of Representatives.

The Commission has developed a forecast for 1953, which shows a steady increase in output and income.

New price control plan suggested

SUGGESTION that the whole of the Kenya Controller's department should be abolished and replaced by an Advisory Board has been made to the Government by the Kenya Producers and Wine Merchants' Association.

The plan was outlined by Mr. S. J. K. MURPHY, president of the association, in a report submitted to the Controller of the Board of Agriculture.

Among the points made in it is that the present system of price control is not only inefficient but also almost impossible to administer.

Finance and Commerce NEW ZEALAND EXAMINES TRENDS IN HER ECONOMIC LIFE

NEW ZEALAND is holding a public 'moment' as she recent trends in her economic life. The occasion is a classic brought by the Federation of Labour in the Arbitration Court for a considerable weekly wage increase for all male adult trade unionists, with comparable increases for women and juniors.

But the case, which began nearly a fortnight ago, has developed into much more than a mere argument as to whether New Zealand's trade unionists, who last received a wage increase of 10 per cent in January 1961 are due for a further rise in money wages.

The Federation of Labour has alleged inflationary trends in the economy. The Court has demanded a 10 per cent wage increase.
