DISPUTE AMONG REPUBLICANS

Demand for fair play

MR. EISENHOWER GOES ON EVE-OF-CONVENTION TOUR

With resentment growing between the pro-Taft and pro-Eisenhower factions of the American Republican Party, Mr. Dwight Eisenhower paid lightning visits to many states on his way from Denver, where he will make his Party's National Convention which chose next week, to his own home state of Illinois, where he will lead the original Eisenhower delegation that has dispersed.

In his own words, Mr. Eisenhower was "travelling across the country" to demand fair play at the Convention.

It was reported that he was "fighting hard" over the nomination of his own son, Senator Robert F. Kennedy, in the Party's National Convention meeting in Chicago, when a complete delegation of 17 Taft supporters from Georgia was "seated" in place of a delegation which carried 14 Eisenhower supporters. The status of four other original Eisenhower delegates had been disputed.

Before leaving Denver, Mr. Eisenhower called for "a decent clean operation." The American people deserved to know the truth about the fight for the fair play movement in the Georgia case, he said. "Our Party cannot go forward with a stain on its record, unless it comes into court with clean hands."

Mr. Eisenhower refused to comment on the Georgia case, but said "Our Party cannot go forward with a stain on its record, unless it comes into court with clean hands."

"I am going to ask every delegate to the Convention," he said.

Mr. Eisenhower's supporter, Senator Robert F. Kennedy, was bitterly made by the pro-Taft faction's actions on disputed nominations to the Convention.

The latest disagreement is over the National delegations of the "right" and "left" Eisenhower supporters, and 11 pro-Taft delegates.

A Taft supporter, Mr. Eisenhower's son, Richard M. Nixon, has been named as a delegate to the Convention.

Mr. Eisenhower's son, Richard M. Nixon, has been named as a delegate to the Convention.

SECESSIONIST MOVEMENT IN SOVIET CHINA

By Edward Crankshaw

From the past two years the Central Government in Moscow has been seriously concerned with the secessionist movement in the Central Asian Republics of the Soviet Union.

But lately it has become clear that there has been a sharp drop in the number of secessionist groups in the Central Asian Republics.

The law, as outlined above, was intended to bring the secessionist movement in the Central Asian Republics to a halt.

AMERICA WINS BLUE RIBAND

Ten hours off record NEW LINER CROSSES ATLANTIC AT AVERAGE OF 35 KNOTS

THE new American Atlantic liner, the 35,000-ton United States, yesterday won the Blue-Riband of the Atlantic for the fastest Atlantic crossing in recorded time. The voyage at an average speed of more than 35 knots. The crossing took 100 hours, 10 minutes, 50 seconds, the Scilly Isles—a 40 m.p.h. gale, set for ten hours, 20 minutes of the previous record, set in 1934 by the British speed liner Queen Mary. The new record time for the crossing is three days, ten hours, 40 minutes. The distance from the western starting point, Ambrose Light, New York, is 2,820 miles.

The gale was so fierce that passengers who tried to watch the dramatic moment from open decks were nearly swept off their feet. A triumphant band on the ship's stern proclaimed the "Magnificent Barrier," followed by "God Save the Queen," and "The Marseillaise." It is 70 years since America's first liner crossed the Atlantic.

The liner reached Le Havre last night, and sailed on to Southampton today. In the Channel she will pass the Channeler Queen Elizabeth. The liner reached Le Havre last night, and sailed on to Southampton today. In the Channel she will pass the Channeler Queen Elizabeth.

BRITISH CRITICISM RESENTED

American view of Yalu River raid

By ALASTAIR BUCHAN

THE news in Washington, that the British Government is protesting against the American view of the Yalu River raid, is a clear indication of the deep rift between the two nations.

At official in Washington, news of the raid on the Yalu River, which was carried out by American aircraft, was met with surprise and indignation. The British Government has expressed its disapproval of the raid, and has demanded an apology from the United States.

The American view of the raid is that it was a necessary and justified act of self-defense. The United States Government has stated that the raid was carried out in response to a provocation by the Chinese.

GILFILLAN & COMPANY'S NEW BUILDING NOW UNDER CONSTRUCTION ON DELAWARE AVENUE

THE past few years have tested the policies of hundreds of business firms in East Africa. Some have steadfastly refused to lower their high standards. Others, in capitalising on the rapid growth of the country, have succumbed to the temptation of compromising with quality and, in spreading themselves, have lowered their standards.

The firm of Gilfillan & Company Limited has clung to the principle of sound, straightforward business. It has continued to maintain the same high standards in respect to the quality of its products and in service to its customers which have given the company a position of leadership in its particular field.

Customers purchasing its products will find no disillusionment... no sad disappointment associated with the performance or service in connection with any of its machines, equipment or merchandise. If it is a product supplied by Gilfillan & Company it is a forceful guarantee of enduring owner satisfaction. It ensures to every user long-lived dependability and consistently fine performance.

ISRAEL'S FOREIGN TRADE: LOAN TO AUSTRALIA RUMORED

ISRAEL had an adverse balance of £47 million in her foreign trade in the quarter 1934 against £185 million in the corresponding period of 1933. Foreign trade reveals. The deficit was less than 50 per cent than in January-March 1933. Chief cause of the larger deficit was the sharp rise in imports worth £22 million as against £12 million, whereas exports at £121 million, respectively in January-March 1934.

Not all of these imports represent transfers of precious metals. The total of £24.4 million, 50 per cent of the total, was in the form of gold. The rest of the total of £22 million, 40 per cent, was in the form of other goods. The gold imports were valued at £12 million and the other goods at £10 million. The gold imports were valued at £12 million and the other goods at £10 million.

ITALY TIGHTENS THE FRONT AGAINST COMMUNISM
By CECIL SPRIGGE: Rome

checked by Signor De Gasperi and it is expected to appear to have lost the favour of the Pope. The De Gasperi Government has demonstrated its own "Anti-Fascist" Law, which may bring the more progressive neo-Fascists within the fold of the Italian Government. It has also a hand in the political situation of the time of the first overthrow of Fascism occurred only 17 1/2 years. The Fascist have been in power for nearly 20 years and communism ruled by their laws that the victims numbered (at extreme high publicist) 200,000.

The plan
At the same time they are leaders to their right on two points. One is that this is not a "left" movement. It is not only a neo-Fascist movement but also a neo-Communist movement. Members oppose plan to give mace

TO COME BEFORE ASSEMBLY

Members of the Kenyan Legislative Council have expressed strong opposition to a proposal to give the mace to the Government. The mace is a symbol of authority and is currently held by the High Commission. The proposal is seen as an attempt to centralize power in the government's hands.

Deserved

Mr. C. G. Usher (Mombasa) said that on the occasion of the mace being given to the Government, it was well deserved. He argued that the government had done a great deal for the country and that it was only fair that it should have the symbol of authority. He called for the mace to be given to the government without any delay.

Resolutions from the Nairobi Production Conference

Government asked to revert to old system of labour returns

DELEGATES attending the annual Production Conference in Nairobi last week voted unanimously in favour of a resolution calling on Government to revert to the old system of monthly labour returns instead of the present system whereby returns must be made as and when labour is engaged and discharged.

During the present session, many farmers did not send in returns because they were not sure of the value of their crops. Mr. W. H. Gumbo, Nairobi, who presided at the conference, said that the present system was not satisfactory.

The main reason for this was the fluctuation of the price of labour and increased transportation costs. He said that the present system was not satisfactory because it was not possible to get a true picture of the number of men working because the returns were falling to fill in the gaps.

He said that the present system was not satisfactory because it was not possible to get a true picture of the number of men working because the returns were falling to fill in the gaps.

'Waste paper'

The waste paper in this country is a big problem. It is estimated that there are about 100,000 tons of waste paper in the country each year. This is a big waste of resources and it is causing a lot of pollution.

The Government should take steps to reduce the amount of waste paper in the country. This could be done by encouraging people to recycle their waste paper and by imposing a tax on the production of waste paper.

Deserters

The number of deserters from the Kenya Army has increased in recent months. This is a serious problem for the Government and it is causing a lot of trouble for the army.

The Government should take steps to reduce the number of deserters. This could be done by improving the conditions of service for the army and by imposing a harsher penalty for desertion.

NYERI IS ANXIOUS TO SEE MORE PLAYS

'IT'S EARTHQUAKE WEATHER', they said—and it was!

The writer of this article claims that signs of an earthquake are apparent to anyone who has experienced one. She and her husband felt the imminence of the recent tremor in Uganda, seeing again the signs they saw before the Quetta earthquake in 1933.

HE LIVED TO TELL THE TALE

A MAN who spent nearly 10 years in Africa and Asia, and who has seen some of the most terrible things that have ever happened to man, is telling the tale of the Quetta earthquake in 1933. Charles Eberhart has been telling J.B.C. listeners some interesting stories of his experiences.

I SURVIVED the Quetta earthquake of May 1933. And I believe that anyone who has lived through such an experience knows instinctively what an earthquake is on the spot. I am now in the United States, and I am telling you what I saw and felt in Quetta.

The few survivors show the scene of devastation in Quetta, India, the main shopping street, after the earthquake had struck.

THE Quetta earthquake, which killed 10,000 people, was a major disaster. It was the most severe earthquake in the history of the region. The city was almost completely destroyed.

Many hundreds of people were killed. The city was almost completely destroyed. The earthquake was the most severe in the history of the region.

There's a dairy farm in the heart of London

I FOUND the dairy farm in the heart of London. The farm is located in a quiet street, and the buildings are well-maintained. The dairy is run by a family, and the milk is fresh and delicious. The farm is a hidden gem in the heart of London, and it's a great place to visit if you're looking for a change of scenery.
