WAFF POLICY FOR EGYPT

Manifesto issued
DECLARES—NO TALKS WITH BRITAIN TILL TROOPS GO

EGYPT'S powerful Wafd Party—party in command until early this year, and now reported to be jockeying to regain power under General Mohamed Naguib... yesterday issued a statement outlining its policy in the new régime.

It advocated no negotiation with Britain until British troops are evacuated from the Canal Zone... unity of the Nile Valley should be preserved... the Middle East Defence Pact, also called for a strengthening of the Arab League...

On African issues the party demands amendment to the Egyptian constitution to limit the power of the Government, and to make the Government responsible only to Parliament.

It proposed by the abolition of the National Assembly to dissolve Parliament and to elect a new assembly... The manifesto also demanded the support of the Government to allow the formation of a National Front... The State Council is expected to decide soon on the reorganization of Parliament—contrasted to decide soon on the reorganization of Parliament—contrasted to decide soon on the reorganization of Parliament...

Tuberculosis is the greatest single menace to health in Nairobi

REPORT BY MEDICAL OFFICER

Tables show that Nairobi is healthier than an average of the four African cities. The city's rate, which is the lowest, is 15.2 per 1,000, compared with 17.5 for the average of the four cities.

Rainfall

Dr. Thomas notes 1951's exceptional rainfall when it was found that there would be serious trouble and that the city's rate, which is the lowest, is 15.2 per 1,000, compared with 17.5 for the average of the four cities.

Five units

From the department's point of view, the great advantage that will be derived would be the health centres could be established in the most convenient places for the people.

Obligation

It is the duty of the Government to provide for the health of its citizens. This obligation is particularly acute in the case of a city like Nairobi, where the population is so dense and the health problems are so complex.

Probably the most important single item of public health work in Nairobi is the control of tuberculosis

Sanitation

The work of bringing sanitation to a high standard went on, and the health department is doing its best to prevent the spread of disease. This is particularly important in the case of tuberculosis, which is the greatest single menace to health in Nairobi.

The British competitors at Helsinki will open their way back to Britain without any of the coveted medals they had hoped to win.

The meaning of amateur sport has fortunately still a great significance in Britain and if some people lament the fact that British athletes are debarré from the facilities and privileges offered to the athletes of other countries it must be remembered that these men and women who went to Helsinki were ordinary citizens, book-keepers and typists, engineers and shop assistants, not professional sportsmen.

Inquiry into cost of living suggested

HEARNS AT UPWARD TREND

WATERBURY (Special Correspondent) — A motion picture showing the cost of living in various parts of the world, which was given by Mr. L. Collins, chairman of the Citizens' Cost of Living Committee, at a meeting of the Municipal Chamber and Agricultural Society, last night.

Mr. Collins, who was introduced by Mr. Hearn, stated that the motion picture was prepared by the Government to set up a Judicial Commission to investigate the upward trend in the cost of living. He stated that it should be placed on the agenda of the Municipal Chamber and Agricultural Society, and that it should be discussed at a public meeting.

Mr. Collins explained that the cost of living in Kenya has risen sharply since the war, and that this is due to a number of factors, including the increase in the price of food, the shortage of goods, and the increase in the price of services.

He stated that the Government has taken steps to control the price of food, but that this has not been sufficient to bring the cost of living under control. He suggested that the Government should take more drastic measures, such as rationing, to bring the cost of living under control.

Mr. Collins also stated that the cost of living in other parts of the world, such as Europe and America, has also risen sharply since the war, and that this is due to similar factors to those in Kenya.

Africa is not as he expected it

WATERBURY (Special Correspondent) — The first of 10,000 returned in a competition, Mr. Collins, Chairman of the Citizens' Cost of Living Committee, said that he was not as he expected it to be.

He stated that he had expected to find a more developed and more advanced Africa, but that he had found a more primitive and more backward Africa. He stated that he had been disappointed to find that the people of Africa were still living in a state of poverty and backwardness.

Mr. Collins also stated that he had been disappointed to find that the people of Africa were still living in a state of ignorance and superstition. He stated that he had been disappointed to find that the people of Africa were still living in a state of dependence on the white man.

He stated that he had been disappointed to find that the people of Africa were still living in a state of fear and suspicion of the white man. He stated that he had been disappointed to find that the people of Africa were still living in a state of hatred and animosity towards the white man.

Claims on assets held in Kenya

WATERBURY (Special Correspondent) — Three women and three children are included on the list now being compiled by Colonel K. C. Laming, Port Elizabeth, before the Nairobi Resident Magistrate, for individual property of war and interests held by the Japanese during the last two years.

The records are being compiled with a view to settling the claims of the former prisoners of war and their dependants who died in captivity, to the Japanese, to the assets held in Kenya.

The notice refers to the applications now going on between the former prisoners of war and the British Government in the United Kingdom, for the assets held in Kenya.

THE Nakuru Municipal Board has been criticised for having of African contented by its policy in regard to the consideration to any scheme submitted by African private enterprise.

Responsibility

It was now resolved that in view of the heavy capital commitment which would be involved in the event of the Board accepting responsibility for providing housing for all African labour employed by commercial and industrial enterprises operating in Nakuru this Board defines its policy to make available to the Government a list of suitable sites for building in each and every commercial and industrial area operating or intending to operate within the municipality.

Finance and Commerce CABLE AND WIRELESS FORECAST NO EARNED SURPLUS NEXT YEAR

THE annual report and accounts of Cable and Wireless Limited for 1952—published in London on July 20—state that the consolidated profit and loss account before taxation and dividend payments showed £1,600,000 surplus compared with £2,200,000 in the previous year.

Following a practicable economy, the directors believe that the company will not be left with any earned surplus after taxation in 1953, and subsequently, unless charges are raised.

They regret having to consider this position, but they believe it is unique in having maintained most basic rates of interest.

The total traffic, at 492 million words, was an increase of 10 per cent on the last three months closed and there was a slight decrease, on a monthly comparison basis, in several of the later months.

The marked upward trend in the last three months closed and there was a slight decrease, on a monthly comparison basis, in several of the later months.

"Further outlook—could we still find our traffic, could we still find our revenue, says the White Paper. "We expect that the 1953-54 financial year will be virtually a 10 per cent increase in revenue."

"The 1953-54 financial year will be virtually a 10 per cent increase in revenue."

LAST BUSINESS OUTPOST IN KENYA

THE last British business outpost in Kenya—the British Bank of Africa—has been closed by the Government.

The bank is also leaving other territories—including its important holdings in the East African Territories—valued at £1,000,000. It has offered the building and the furniture to the Government, which has accepted it at half price and on the "installment" plan.

The British have left 200 employees.

BIRD AND COMPANIES DIVIDED

THE Board of Directors of Bird and Companies, Ltd., London, has announced a dividend for the year ended June 30, 1952, payable on September 1.

The dividend will be 10 per cent on the ordinary shares of 10/- each, and 5 per cent on the preference shares of 10/- each.

The Board also announced that it has agreed to purchase 100,000 shares of the company at 10/- each, and to issue 100,000 new shares of 10/- each.

REPORT ON SMALL MARKET SYSTEMS

REFERING to the reported changes in the small market system, Ernest Eno, Director of the Kenya Chamber of Commerce, has commented that had time been allowed for the system to be worked out, it would have been a success.

"The small market system is a success," he said, "but it is a success which is being destroyed by the Government's failure to allow it to be worked out."

MATERS CHAMPION THREE TIMES IN A ROW

Equals Duncan's record from the '30's

R. J. E. MAYERS, Kenya-born male singles champion, was the only holder of the four competing titles in the male and the 1962 Kenya Lawn Tennis Championships were completed on the Nairobi Club Centre Court yesterday.

In disposing of the No. 2 seed, Saed Coker, in straight sets, Mayers dominated the feat of D. Duncan in winning the title three years in succession. Duncan's son from 1957 to 1959.

In both the male and female categories the 16 and 18 year olds were defeated by another youngster with another unbroken record that professed his full prowess in the final round. M. Coker and C. Kibuka were the final and fourth seed doubles by eliminated former doubles champion.

The previous event, which had little changed play, was the mixed doubles in which the pair of J. E. Mayers and M. Coker won in straight sets.

The women's singles was won by Miss M. Coker, who beat Miss M. Coker in the final.

The women's doubles was won by Miss M. Coker and Miss M. Coker in the final.

The mixed doubles was won by Miss M. Coker and Miss M. Coker in the final.

Complete command

Miss M. Coker, who had won the title in 1961, was again in complete command in all phases of the game, winning the first set 6-2, the second 6-2, and the third 6-2. She was also in complete command in the mixed doubles, winning the first set 6-2, the second 6-2, and the third 6-2.

The men's singles was won by Miss M. Coker, who beat Miss M. Coker in the final.

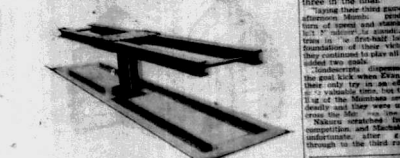

The women's doubles was won by Miss M. Coker and Miss M. Coker in the final.

The mixed doubles was won by Miss M. Coker and Miss M. Coker in the final.

Ferialis star of Bank Holiday races

Takes main event on both days' card

M. T. H. CHETLETS chestnut colt, Ferialis, took the two premier prizes of the Nairobi August meeting and repeated his Saturday's success of winning the Aga Khan Trophy, by beating the field in the Governor's Conference.

It was no fluke either despite a 10 lb penalty, he managed to move up to the leading position where he led the field to victory in the Aga Khan Trophy.

Ferialis was ridden by jockey M. T. H. Chetlets, who was in the saddle for the Aga Khan Trophy.

European refugees queue to quit China

FLIGHT OF WHITE RUSSIANS

By O. N. GREEN

AMONG the many thousands of Western people living in China before the war, many have been heard of the British, American and missionaries forced out by the Communist regime. But what has become of all the others? The return of the Shanghai Municipal Council enumerated 26 different nationalities, and the total foreign population in Shanghai is 60,000. Figures for other big cities are not available, but they must make up a considerable total.

The Shanghai Press has a third hand on standing a new wave of refugees, but had probably drifted to China from other countries.

They represented all parts of the world, and were of many nationalities, Greek and Polish sailors, Irish and French seamen, and others.

Members of these minorities in Europe have already been asked to leave the way they came, and the Chinese Government is now in a position to bring them back to their own countries. They are applying for visas and other papers, and are being sent away to make their own homes in other countries.

The organization of the Communist Government in China has been a disaster for the white refugees, and they are being sent away to make their own homes in other countries.

Alternative

Night attack with panga at farm EUROPEAN IN HOSPITAL

While carrying out night work in the South Kivu area in the early hours of the morning two African broke into a Marani Chikwa farm near Kileleshwa on the South coast. They attacked Mr. Simon Verheul, a European, in his farmhouse and took away his watch and some other valuables. Mr. Verheul was taken to the hospital where he is now recovering from his wounds. The police are investigating the case and have issued a warrant for the arrest of the two African who are believed to be the culprits.

As a result of police activities in the area, the two African who were arrested on the night of the attack are now in custody. They are being held in the police station pending further inquiries into the case.

Parents meet at Asian school

The Deans Road Government Primary School held a meeting of parents on Tuesday evening. The meeting was held in the school hall and was attended by a large number of parents. The school principal, Mr. J. P. M. M. M., presided over the meeting. The principal reported on the progress of the school during the year. He mentioned that the school had made a good record in its examinations and that the pupils were well behaved and obedient. The parents expressed their appreciation of the school's work and their confidence in the principal and the staff.

Mosquito net not always a protection

To sleep under a mosquito net is not necessarily a protection against malaria. It is only if the net is properly used that it will provide any protection. If the net is not properly used, the mosquito can bite through the net or enter the room through the door or window. It is therefore important to use the net correctly and to keep the room well ventilated.

Development, alters face of Eldoret

Development, alters face of Eldoret. The town of Eldoret has undergone a remarkable transformation in the past few years. The old, dilapidated buildings have been replaced by modern, well-built structures. The streets have been widened and paved, and the town has become a more attractive and modern place. The development has been the result of the efforts of the local authorities and the private sector. The town is now a thriving center of commerce and industry, and it is expected to continue to grow in the future.

Don't gamble with their future!

Don't gamble with their future! The future of a nation depends on the quality of its education. It is essential for every child to receive a good education so that they can become productive members of society. Parents should ensure that their children attend school and receive a good education. They should also encourage their children to study hard and to achieve high marks in their examinations. Only by investing in education can a nation build a bright future for itself.

Another Road Safety Week Planned

Another Road Safety Week is planned for the month of November. The week is organized by the Kenya Police and the Road Safety Council. The purpose of the week is to educate the public on road safety and to reduce the number of road accidents. The week will include a variety of activities, including road shows, lectures, and demonstrations. The public is encouraged to participate in the week and to take steps to improve their own road safety.

The week in November has been chosen as a time when the weather is generally good and when the roads are in good condition. The week will be held in all parts of the country and will be a major event in the road safety calendar. The public is urged to be vigilant and to follow the rules of the road to ensure their own safety and the safety of others.

Parents meet at Asian school

The Deans Road Government Primary School held a meeting of parents on Tuesday evening. The meeting was held in the school hall and was attended by a large number of parents. The school principal, Mr. J. P. M. M., presided over the meeting. The principal reported on the progress of the school during the year. He mentioned that the school had made a good record in its examinations and that the pupils were well behaved and obedient. The parents expressed their appreciation of the school's work and their confidence in the principal and the staff.

Competition

A feature of the exhibition will be a series of short talks on road safety. The talks will be given by experts in the field of road safety and will cover a wide range of topics, including the causes of road accidents, the importance of wearing seat belts, and the role of the driver in road safety. The talks are intended to provide the public with valuable information and to encourage them to take steps to improve their own road safety.

Cameroun Group profits

The Cameroun Group has reported a profit for the year. The group, which is engaged in the import and export of goods, has managed to increase its sales and reduce its costs. The profit is a result of the group's efficient management and its ability to adapt to changing market conditions. The group is optimistic about the future and expects to continue to grow in the coming years.

Mainly-for-Women Page admits disappointment

Sportswomen.—Do you have to play tennis in a T-shirt?

ETS face it, Kenya fashions to meet stepping up, and especially Kenya sports fashions. Admittedly there is the odd ray of hope thrown by some fashion-conscious women with pride in their appearance, but on the whole Kenya fashions very far behind Britain where clothes-conscious women are concerned.

The accompanying snappy sketches of tennis fashions designed for the Kenya Lawn Tennis Championships last Saturday afternoon proved a little disappointing.

—predominating color of the men's Club crest, was a pair of white shorts a foot two inches long, and a white shirt, open at the neck, with unbuttoned collar.

THE NEW FORDSON MAJOR

HAVE YOU SEEN THE NEW FORDSON TRACTOR?

Tremendous interest was shown in this new model, which was displayed for the first time on our Stand at the Nairobi Royal Agricultural Show. Then, only two were available, but we now have pleasure in announcing that shipments are coming forward and we advise our friends who wish to buy one of these stupendous models to look one NOW, as the list of

provisional orders grow daily. WHY do we say it is sensational value? U.S. Tariffs cause a cold war defeat

INCREASING TRADE BARRIERS

UNITED STATES GOVERNMENT officials fear that European nations will decrease their trade with the United States as a result of the "protectionism" in the United States as declared by President Truman in making no secret of his intention to increase in Congress to lower to the detriment of the European groups for more and more protection against foreign imports is damaging the national interest.

The fact that European nations on higher tariff and import duties, which are not accepted, would lead to a decrease in trade between the United States and Europe.

Albany, N.Y. (Special Service)—European nations, which have long been regarded as the main market for American goods, are now being forced to turn their backs on the United States.

Violations

These are the violations of the laws which are being investigated by the United States Coast Guard:

1. A steamer which was carrying a large quantity of goods from the United States to Europe.
2. A steamer which was carrying a large quantity of goods from the United States to Europe.

Warnings needed

The United States should issue warnings to the European nations that if they do not reduce their tariffs, the United States will take steps to protect its own interests.

Dry weather cuts malaria for Mombasa

NEW ARRIVAL PLANNED FOR EGYPT

IF rainfall figures for the remaining months of the year continue to match those of the first seven months, there is little doubt that 1952 will go down in Mombasa's history as a record for low rainfall.

Dr. D. R. Mansfield, Mombasa's health officer, has disclosed that the malaria situation in Mombasa and 145 other towns in the region is expected to improve.

EXPANDING AUSTRALIAN MOTOR INDUSTRY SEEKS EXPORT MARKET

ALTHOUGH its production figures are still modest, the fast expanding Australian motor-car industry is already looking to an export market. The first car made entirely locally came off the assembly lines in 1943. This plant now produces 25,000 cars and lorries a year. And another plant has just started production on another all-Australian saloon.

American and British firms, who have previously been the main suppliers of motor-cars to Australia, are expanding their assembly plants and have big plans for the future. The Government is giving incentives to the industry. The new vehicle most favoured by buyers was the big American-made Buick. This most popular model is now being made in Australia. The local car-makers are also looking for export markets. The first car to be exported to another country was a 1943 Buick, which went into mass production in 1945. It is now being made by a local utility firm for 25,000 or more of these cars.

FINANCE AND COMMERCE

UNITED STATES GOVERNMENT has announced that it will not export to the United Kingdom... The new agreement covers a period of goods to be delivered under the current trade agreement to the end of the year. The first lot, valued at \$1,000,000, is expected to be shipped in the next few days.

PARAGUAYAN CHANGES EXCHANGE RATE
The International Monetary Fund has raised no objection to changes which the Government of Paraguay has made in its foreign exchange system. The changes provide for a temporary suspension of the gold standard. The new system will be in force from January 1, 1946. The exchange rate will be fixed at 100 Paraguayan guaraníes per U.S. dollar. The new system will be in force from January 1, 1946.

JAPAN MAY EXPORT TO COMMONWEALTH

THE United States has agreed that Japan should export to the Commonwealth... The new agreement covers a period of goods to be delivered under the current trade agreement to the end of the year. The first lot, valued at \$1,000,000, is expected to be shipped in the next few days.

PARAGUAYAN CHANGES EXCHANGE RATE

You should drink B&W beer

no other drink makes you feel so fit. And you feel fit because you fit—become the man which B&W contains, the pure extract which gives B&W its "bite", and the tangy qualities of the natural water which B&W is brewed, tone the system, stimulate the brain, and improve digestion. Yes, it's true—B&W does all this. And that's why B&W drinkers are so rarely fit. Its unrivalled ingredients, unchanged for 150 years, make B&W the tonic that keeps them "on their toes". It's the purest, most satisfying and most health-giving drink in the world. Just drinking B&W regularly—you'll look like a fit boxer and be one.

Finance and Commerce EXPANDING AUSTRALIAN MOTOR INDUSTRY SEEKS EXPORT MARKET

ALTHOUGH its production figures are still modest, the fast expanding Australian motor-car industry is already looking to an export market. The first car to be made entirely locally came off the assembly lines in 1948. This plant now produces 25,000 cars and over 100,000 engines a year. And another plant has a production of 25,000 cars and 100,000 engines a year.

BEHIND THE SCENES IN OPERATIONS 999

KENNETH MEADOWS describes the working of Nairobi's latest weapon in the war against crime in the city. The men and women of this new 'arm' of the Police, he says, have performed minor miracles.

(Above) Three telephones ringing in one, and the staff in the 999 Operations Room. In the background, in a few hours, it will be ready for a day's work. But the room is ready now. Asst. Insp. Head (left), usually the man and hits out his instructions in the same time. Others have there to relay it. (Left) Asst. Insp. Head, who has just a day's work. (Left) Asst. Insp. Head, who has just a day's work. (Left) Asst. Insp. Head, who has just a day's work.

...other day somebody called 999 and—to use an American phrase—"gilled a mauler." Why the police do this and what they were the police doing there. There they were, then they were called. It was quite a surprise to a more station on a night.

The money here later the day of a local newspaper sent a personal call at the station. He was very calm. Why had he just come down town, attended to? I was surprised the chief of the individual station when he had come on his doorstep to see the police. But, you know, in a day—well, say so. (Slightly, it was not invited to be under the policy when it was—shall we say—through his his telephone.)

12-200 call come through demanding urgent action within the area concerned, a hurried message is passed over the air. After a further five minutes the attention of the '999' will be directed to the spot in Nairobi within five minutes.

Some four wireless cars were spending in fixed posts within the city, which is divided into four zones for operational purposes. The idea is that if a trouble patrol can reach any point in Nairobi within five minutes.

In the case now the movement of the cars is directed by radio instructions. Messages (Left) There is not a great deal of work to be done in the city. The staff in the 999 Operations Room. Society's loveliest women share this beauty secret

In Paris, London, and New York, loveliest women who are admired the most that money can buy use Pond's beauty products. They know there is nothing else that takes such good care of the complexion.

No matter where you live, you can give yourself the same complete beauty treatment. Every night, remove your make-up and use the day's cream and skin with Pond's Cold Cream, making it wear your skin and fresh with the fragrance. Then, in the morning, use your double-cream with Pond's Cold Cream, removing gently and leaving a thin layer there to beautify your skin while you sleep.

In a commercialized world of false long-protection with a light face of Pond's Vanishing Cream. It is necessary, create your skin from new and delicate white and fade your face-fading Pond's powder for hours on end.

The Clearest Skin in the World, the Voiceless Talc, and Lids After-shave, are among the many lovely beauty secrets you can find. They are the result of a clear, intelligent mind.

Regular users will find Pond's beauty products are all that you need for the result of a clear, soft, youthful complexion.

The Story of George Fox

Three hundred years ago, in the summer of 1652, George Fox set out on his famous missionary journey through the north-west of England and the Quaker movement was born. This year Quakers from all over the world will retreat the footsteps of The Man in the Leathern Breaches.

VERNON NOBLE wrote this article as an introduction to the programme with that title produced by the B.B.C. in honour of the occasion.

A Vision

British Test hopes against Australia

By Bruce Harris
LESS than eleven months hence - on June 11, 1953 - the Australians will meet England in the first of the real Test matches.

In 1948 when the Australians were last in England - under Bradman's captaincy they won by four victories with one match drawn.

What better chance will England have next year when the Ashes start than they had in 1948?

Sign of wastage

The men who say that fifth Test match at Melbourne in late February 1951 were I. D. S. Sheppard, J. R. Compton, R. B. S. Broad, and J. E. R. Bailey, D. V. F. Wright.

Why children need Horlicks!

Growing children spend more energy. Horlicks is the ideal balance food which makes up for spent energy. Made from pure full-cream cow's milk, plus the nutritive energy of wheat and malted barley, Horlicks gives children the energy they require to grow up healthy and strong. As Horlicks contains milk it only requires the addition of water.
