# WORLD GORT ON THE RE-TREAT FROM FRANCE

## Valuable Lessons From A Tragedy

October 17.  
The long awaited dispatch of Lord Gort, Commander-in-Chief of the British Expeditionary Force, setting the campaign in France on the 17th, has been published today. The story of the retreat from the Somme which preceded the withdrawal of one of almost continuous retreat by men, but only men, and desperately lit, but not by the British, was a story of a very overwhelming struggle which almost fought a very successful campaign of the army.

The main causes of the tragedy were summarized in three paragraphs of allied support on either side of the line; the lack of liaison; insufficient resources; and inadequate reserves.

It was pointed out that Douglas Haig, through a telegram from Lord Gort, was not in touch with the front line, and was not supported by the British, but was supported by the French, and was not supported by the British, but was supported by the French.

### Kindness is a Crime

October 17.  
Germany will show any kindness to prisoners of war who are being repatriated, a German newspaper has said. It has been said that the British have been sent to a concentration camp in the East of the front, and that the British have been sent to a concentration camp in the East of the front, and that the British have been sent to a concentration camp in the East of the front.

### France's New Constitution

October 17.  
A Vichy report says that the National Council set up by Marshal Petain to draft a new constitution has decided to send a mission to France to obtain a Republic without a formal rupture of diplomatic or consular relations.

## Sentences On Former French Leaders

### Alleged Inefficiency

October 17.  
Marshal Petain last night pronounced provisional sentences on three former French Presidents and the former Allied Commander-in-Chief, General Gansell.

General Gansell, Leon Blum and General Gansell are to be detained in a military camp. The sentences were pronounced unanimously by the Council of Ministers. The charges which were formulated against them accusing them of responsibility for the collapse of France, and of having been in contact with the enemy.

## U.S. Submarines For Britain

October 17.  
The United States Navy has announced that it has agreed to loan 10 American submarines to the British under the Lend-Lease Act. The submarines are to be used in the Atlantic Ocean, and are to be operated by British crews.

# Japanese War Minister Heads New Cabinet

## STOP PRESS Defence Conference In Washington

October 17.  
A United States destroyer has been torpedoed off Iceland. This announcement was made by the United States Navy Department today. The destroyer was a result of about 1,000 tons of war material.

October 17.  
The Japanese Minister of War is to head the new Japanese Cabinet. He is Lieutenant-General Hiroshi Tada and has been Minister of War in Prince Kono's Cabinet for over two years.

General Tada was a former military attaché to Germany and was chief of staff of the Japanese Army in Northern China until he was recalled in 1937 and appointed Vice-Minister of War.

The appointment of Lieutenant-General Tada as Prime Minister of the new Japanese Cabinet is a surprise. He is a member of the Imperial Japanese Army and has been in the front line in many of the Japanese military operations in China.

The new Japanese Cabinet is expected to be formed in the next few days. It is expected that the new Cabinet will be headed by General Tada, and will include other members of the Imperial Japanese Army and Navy.

## Russians Say Advance Has Been Slowed Down

# Bombed Babies For Kena

## LADY BROOKE-POPHAM'S TALK TO WOMEN

### W.A.L. To Plan For Adoptions

After a gathering of women, many members of the East in Kenya's largest city, Mrs. Lady Brooke-Popham, president of the Girl Guide Association, was the guest of honor at a meeting of the Women's Auxiliary League, which was held on Tuesday afternoon at the Raffles Hotel, Nairobi. The purpose of the meeting was to discuss the possibilities of sending orphans and children from the bombed areas to Kenya.

Mrs. Brooke-Popham, who is visiting Nairobi on her way to London, said that she had been approached by the British War Reliefs Committee, which had asked her to help in the work of sending orphans to Kenya. She said that she had been very much interested in the work and had been working for some time on the subject.

London Appeal To People Of Kenya

The arrangements which have already been made in Kenya to raise money for Red Cross purposes in Russia, received unexpected and urgent support yesterday from the Red Cross authorities in London.

October 30. The East African Standard received the following letter yesterday afternoon from Lady Moore, Chairman of the Joint Co-ordinating Committee of Kenya Branch of the Red Cross and the Order of St. John:

It so happens that, thanks to the initiative of a few Russian ladies in Nairobi, Kenya is a stride ahead of this appeal from England. A Flag Day in aid of Russian relief funds is to take place in Nairobi next Friday, October 31 and a dance and musical ball for the same purpose is to take place at the Memorial Hall, Nairobi, on November 1.

**"HERE CAN BE NO ENEMY'S ATTACKS WILL BE INTENSIFIED"**

**PREMIER'S WARNING**

LONDON, October 11. (AP)—The public opinion is preoccupied with the news that the general feeling is that intervention by Japan in the war is certain, but it is possible that it will be slightly delayed to enable the Japanese to better prepare themselves.

It is equally certain that Britain and America have decided to withdraw any further development of Japan's aggressive policy and equally to continue to give all the aid they can to China.

The Manchester Guardian's New York correspondent declares that the United States administration will not permit any interference with the shipments of supplies to Russia or China. The Japanese Cabinet may make its mistake in thinking that the Americans will not fight since they are so able to participate in the European conflict, but even the Japanese in the United States seldom complain about the aid given to China or depict a war with Japan as a serious danger, because most Americans think that the navy could quite easily destroy the Japanese.

There is no participation in British over the developments in the Far East and indeed it would perhaps be almost a relief if war came. Mr. Chamberlain is the British Ambassador in London and the G.O.C. in the Far East, continues to adopt a very confident line. A typical utterance was his latest statement: "We don't want war with Japan, but if it comes, we are fighting."

**Production**

The political in Britain continue to press the case for the utmost activity. Mr. Berin, Minister of Labour, addressing factory workers, has once more stressed the need of greater output, adding "Things are really desperate. We require a terrific task now facing us. We and the United States of America are united in the sense that if Russia sticks out she will not be broken for want of aid."

Everybody here seems to be in agreement that the best method which interests the British public and at the moment an ally in the creation of a western front, and to a considerable extent on that it is agreed also that the latter is easier than the former.

Mr. Chamberlain is sending a message to Northrup, stating yesterday congratulating them on their industry and on the course of it in the said. "The enemy's attack on us will be intensified."

The situation demands that

each one of us still greater effort, still greater sacrifices than we have ever met. The stone which brought food to our shores will soon be used to meet the urgent needs of our own and our Russian allies for tanks and aeroplanes. May God speed the Japanese to their better preparation.

**Intensive**

Lord Cresswell, Secretary of State for the War Office, evidently speaking on behalf of the War Office, has asserted that the present of strength and endurance. He said that the Government are almost certain to attack Germany and that the present of all centres across the Caucasus in the fighting when the front frontier will become vital to us.

The British public interpret all these warnings almost as an incentive to fight for an increase of output and to stand fast until the war is over because no mention was made of the fact that for Russia whose troops are already checked when they are shown in that sense in British opinion.

It is Moscow's fall, which is the one that we are most anxious to see. It is completely believed that the contact will go on. Mr. Molotov, the Russian Ambassador, writing in the Sunday Express, declared: "Whatever happens in the battlefield, the light goes on in my country to the bitter end. My country will fight to the last. They have not the slightest doubt that in the end they will be victorious. They are united as never before in the history of our nation."

There is the closest collaboration between Russia and Britain.

Although there are the utmost preparations in Britain for any attack against this country, all is done in a sense of surprise and disappointment that the promise made by the War Cabinet of not to be attacked on Germany have not yet been fulfilled. It is thought that perhaps we are holding back for some reason which cannot be indicated.

Lord Beaverbrook has demanded that we produce 50,000 tanks. He pointed to meeting with an aim to make us new cars of the conventional type.

There has been interest in the view expressed by Mr. Beckett, President Hoover's secretary, that British tanks from Germany.

**Major A. F. Coombe**

The death has occurred on active service, as a result of a motor accident, of Major Anthony Flemming Coombe of the Royal Engineers, in his 28th year.

He was the second son of Mr. T. B. Coombe, of Chalmersburg, Somerset, and the late Mrs. Coombe and was educated at Sherborne School and the Royal Military Academy, Woolwich, whence he entered the Royal Engineers' service. His commission with definite war was earned about 1914, and he went to Joazeiro, Bahia, in the following year. He was killed at the attack on the King George V.

Broodstock interference here has been trivial and has practically gone unnoted by most breeders. On the other hand, the German breeders are increasingly unreliable, especially their fabulous reports of an attack on this country. The Cabinet is anxious that, unless there are developments in the situation, there shall be less official interference than was the case last year with public entry. The change here will not be earlier than 1939, if possible, there will be no closing here at all.

**Food**

The general food situation in unchanged and the market is rather more attractive than hitherto. For the first time in the history of rationing hot meals are being served to miners underground. The exception is the result of a new man, Mr. David Robertson, M.P., at Bolton. The food is taken down into unmined coal mines and the raw food, such as apples and carrots and such like, is served. It appears to have been a most successful experiment and great attention is likely.

The Prime Minister's daughter, Sarah Churchill, the actress, has joined her sister Mary in the A.F.S. The Duke of Kent has been appointed Welfare Officer and Inspector at the Ministry of Labour.

**GERMAN COMMANDER SHOT**

October 10.—The German officer commanding the 1st Battalion of the 1st Infantry Division, who was shot dead in the attack on the 1st of October, was identified as Captain W. H. Jones, M.P. The Viceroy pro-German Secretary of Agriculture revealed in a broadcast that presents to unoccupied country are growing only enough food for their own needs because they do not want to feed the Germans. He threatened them that if they cut production the result would be starvation for them as well as for the country. (Special).

**GERMANS AND ITALIANS TO LEAVE AFGHANISTAN**

October 10.—The Government of Afghanistan has decided that Germans and Italians will be asked to leave the country.

The decision which has been taken with the full approval of the National Assembly has been explained in a statement issued by the Government.

The Government of Afghanistan has been requested to maintain the strictest neutrality and remain on good terms with its neighbours, especially during the present war.

Lord Beaverbrook has demanded that we produce 50,000 tanks. He pointed to meeting with an aim to make us new cars of the conventional type.

There has been interest in the view expressed by Mr. Beckett, President Hoover's secretary, that British tanks from Germany.

## Fairy Like Tinkle of the "Bells"

But it came  
FROM £7,000  
MUFTY BOTTLES

Engine Driver  
Convicted of  
Murder

The tinkle of the bells was heard in the night when the engine driver of the train which was carrying the late Mrs. M. J. G. was found dead in the carriage. The train was en route from Nairobi to Kisumu, and the driver was found lying on the ground near the engine. The train was carrying a large quantity of mufty bottles, and it is believed that the driver was killed by one of these bottles falling from the train. The driver was a well-known man in the district, and his death was a great shock to his family and friends. The case is now being investigated by the police, and it is hoped that the guilty party will be brought to justice.

**The Train Truth**  
The fact is that in 1919 the train was carrying a large quantity of mufty bottles, and it is believed that the driver was killed by one of these bottles falling from the train. The driver was a well-known man in the district, and his death was a great shock to his family and friends. The case is now being investigated by the police, and it is hoped that the guilty party will be brought to justice.

**Important to Lambs**  
The opening of this fortnight's season to our sheep has been a very successful one. The lambs are healthy and growing well, and it is hoped that the season will continue to be successful. The sheep are being well cared for, and it is hoped that they will produce a large quantity of wool. The sheep are being well cared for, and it is hoped that they will produce a large quantity of wool.

**Not Slighted Doubt**  
Mr. Justice Gurnea continued his judgment in the case of the late Mrs. M. J. G. He said that the driver was a well-known man in the district, and his death was a great shock to his family and friends. The case is now being investigated by the police, and it is hoped that the guilty party will be brought to justice.

**Beneficial**  
The large number of sheep which have been raised by our sheep-breeders is a very successful one. The lambs are healthy and growing well, and it is hoped that the season will continue to be successful. The sheep are being well cared for, and it is hoped that they will produce a large quantity of wool.

**I Feel Entirely Different — THANKS TO IRVING'S Yeast-Vite**

**SEARCHLIGHT BATTERY, Royal Artillery, Dec. 12th, 1940.**

Dear Sir,  
 For your interest I am writing to express my thanks and appreciation for the results obtained by the use of Yeast-Vite tablets.

Having experienced all sorts of conditions and fits during my 15 months' service it was not until recently that my teeth were affected.

In the space of six months the following occurred to me — a badly damaged set of upper incisors and a cyst beneath the eye-socket. Included also were the usual and necessary infections and vaccinations.

Naturally I felt that my good teeth were one of my fine, when I could, on any day.

After trying two or three more bottles without obtaining any relief, I concluded however, not to waste any more money on anything else, but eventually I bought a bottle of your tablets. In the brief space of four days I began feeling differently again, and felt altogether happier. By the end of a week I felt entirely different.

Fortunately since then I have not experienced any bad day or night and now feel I smiled occasionally after an all-night guard, which I think says a great deal to reinforce me for the loss of sleep.

Once again thanking you,  
 Yours faithfully,  
 [Sd.] W.O. IRVING

Prince Aly Khan To Tour East Africa

Prince Aly Khan, son and heir of His Highness the Aga Khan arrived in Nairobi this week having travelled from Cairo by air. He is accompanied by his wife.

The Prince is a staff officer attached to Headquarters in the Middle East and is taking advantage of leave to visit his father's followers throughout East Africa. He will go first to Nairobi, to Mombasa, Zanzibar and Dar es Salaam and then tour parts of the interior of Tanganyika before returning to Cairo by way of Kenya and Kampala.

One of the chief objects of Prince Aly Khan's tour is to stimulate the war effort of the East African media community.

Control Of The Seas

Control Of The Seas

"Traffica" day which some as a rule to pass unregarded, are noticed throughout East Africa—though what it stands for should never be far from the recollection of all the peoples of an over-occupied sea.

Control Of The Seas

The picture might well have been very different. The sea had been under the Navy's control.

Control Of The Seas

The sea had been under the Navy's control.

Control Of The Seas

The sea had been under the Navy's control.

Control Of The Seas

The sea had been under the Navy's control.

enemy while we developed the strength and resources of a vast Empire. The Navy alone has made possible the maintenance of our great forces in the Middle East and secured the security of Egypt and the Suez Canal and India. The Navy was responsible for the fact that Greece and Crete were not lost to greater fragments than they were in terms of valuable lives and materials lost to us. The Navy, in close cooperation with the ships of the United States, was fighting the Battle of the Atlantic and enabling the resources of the New World to reach the battlefields of Europe, Africa and Asia. Our sea power has made it possible for us to meet on proper terms the threats of the Japanese. It has kept open for us the routes from the Americas, across the Indian Ocean and on to Australia and New Zealand.

The Navy is in the Mother Country on the sea, in preserving the lifeline that runs steadily to our ports in America and the East to Britain, in the far north and in the warm tropical waters of the Persian Gulf. There is no aspect of this war of which we can think that is not influenced and almost dominated by the fact that whatever else we may have lost from time to time, we have never been unworthy of the great tradition which has been left to us on the seas of the world.

**Confere Conference: Further Motions Federated State Of Africa? FARMERS' VIEWS AT THOMSON'S FALLS**

Since the issue of the provincial agenda for the Coffee Conference, the following further motions have been received. The agenda was closed at 10 a.m. on Monday, October 21.

Proposed by the Coffee Planters of the Transvaal: That the Coffee Planters of the Transvaal wish to request the appointment of the work of the Coffee Control Board to the Government of the Transvaal, and that the industry from which we are receiving the greatest benefit should be entrusted to the Government to keep the revenues at a level which would be more than equal to the coffee marketing in Kenya.

Proposed by the Coffee Planters of the Beira District: This Conference instructs that the interests of the Coffee Board relating to the election of coffee to the Commission, be so amended, as to ensure that each coffee producer shall be under the Order of the Commission to vote for the election of each province granted him under the Commission irrespective of the acreage of his coffee in the coffee planters' zone of his District.

That the annual date for holding the Commission if any, should be about February 15, March 15, or to the middle of the latter year from the coffee planters' point of view.

**OBITUARY**  
**MAJOR C. E. BROWNE**

The death occurred at his home in Nairobi early yesterday morning of Major Charles E. Browne, at the age of 46. He leaves a widow and three daughters.

Major Browne came to Kenya shortly after the last war. He was wounded at Pheasant and retired with the rank of Major. He was in the Military Force of Uganda in 1914 and then in the South African Army.

Major Browne was District Major of Nairobi in 1939 and Municipal Commissioner of Nairobi in 1940. He was a keen hunter of the Lion and was a member of the Kenya Safari Club. He was a keen sportsman and was a member of the Kenya Golf Club. He was a keen sportsman and was a member of the Kenya Golf Club.

**BEARDS AGAIN**

London. Many barbers are to be found in rural districts now than for many years past, and it is probable that barbers are likely to be needed before long. This was the opinion of the General Purposes Committee of the South African Council. It was explained that because village barbers are closing steadily, many farm workers who work from 20 p.m. at this season are unable to get a shave. Mr. W. Humphrey, who has been heard, expressed all farm workers to grow beards. They will save an enormous trouble, he explained.

**How Nairobi Has Developed**

At the meeting of the Nairobi Rotary Club on Friday last an address was given by Robert T. A. Wood on "Nairobi." The speaker referred to the origin of Nairobi as a convenient natural centre, and to the difficulties under which the town has had to develop. He pointed out the fact that Nairobi is situated on the high ground of the Rift Valley, and that the water supply is a constant problem. He also mentioned the fact that Nairobi is one of the few towns in the world which has a permanent population of over 100,000.

**MEN WITH £100,000 TO SPEND**

Two thousand frocks, jumpers, coats, blouses and two-piece suits will be on show at a "Men's Mod" show, which will open on Friday at the Nairobi Exhibition. The men with the money are invited to see the show, which is strictly closed to ladies from Britain. The show is arranged by the Women's Fashion Export Group of the Board of Trade, and is one of the leading makers of women's clothes in the world. The show is on view as just samples. Thousands of orders will be made to the makers of the show. Men's mod fashions are expected to get sufficient orders to keep them busy for at least twelve months.

**Don't "REV" up**

**in LOW gears**

Rapid acceleration between each gear change uses a lot of petrol. In the interests of economy, get the habit of pulling away from a standstill, by "feeling" the clutch in with the engine running quietly. Change to the next gear just as soon as the engine is pulling over. You will increase your miles per gallon by getting into low gear as soon as you can and with its fuel as possible.

FAITH

(FRANCIS A. CONROBERT)

This is the story that encompasses the world, even our faith.

— JESU, V. A.

Faith is still looked upon by many as something rather shallow and... Faith is still looked upon by many as something rather shallow and...

"The spirit of God which I see and whom I serve" — Faith is also the evidence or proof of things not yet seen by those mortal eyes.

This is what many are getting in different ways, not only from the prophets but in conversation and public speeches. The struggle will go on long after the gains and losses have been absconded, and the final issue will depend on the value that we and our children show upon faith.

"God, we thank Thee for those who have lived and served Thee here on earth and are to be the heroes of faith. Help us to possess their faith, to be like them in the life of active faith."

CREATORS of New Kinds of Machines

FROM pins to flying fortresses, from sewing machines to tanks, from watch repairs to the servicing of motor transport, all are made possible to-day by machine tools.

Fourteen years ago, Tauco engineers began a series of innovations in machine tool design of such revolutionary importance that they resulted in the creation of NEW KINDS OF MACHINES.

Stripped of every excess pound, these new Tauco machines boasted all the accuracy of ponderous old type machines, yet packed the efficiency and flexibility demanded by to-day's production crisis.

Produced by modern assembly methods, these fighting-trim machines were turned out at one-third and one-fourth the cost of the machine goliaths they outperformed.

By the hundreds of thousands these new tools of to-day have won their places in huge defence plants where quality and accuracy are essentials... in one-man shops where economy is No. 1 consideration.

Send for FREE Booklet 'Light Tools in Industry,' which tells you how Tauco can help you solve your problems. New 1942 Catalogue and Price List, also available on request.

BRITISH-ISRAEL NOTE

The following is a suggested interpretation of the 17th and 18th chapters of Revelation, but it must be clearly understood that it is purely a personal view and not the arbiter of accepted British-Israel interpretation.

What is God's purpose? It is the removal of classic corruption from the perfidious Divine Creation. The 17th chapter tells of the destruction of the 'great whore' (papal Christianity)...

The Strength of A Nation

Mr. Churchill said recently, "This act is wonderful... it will be a wonderful world... we help to make it..."

The children? What of the children? We do not let them down... there are children there is hope...

Every man, woman and child can have a part in the great work... we are constrained to bring it every home in this land.

## SMOKE MEANS TROUBLE!

Smoke from a strong cigar — and smoke from your car's exhaust — both mean trouble. Next time you follow a car with a smoking exhaust keep this car with a smoking exhaust in mind! Smoke is a concrete symptom of excessive engine wear, wear that squanders petrol, oil and power — wear that only costly repairs can correct.

And this needless wear all too often results from nothing more or less than

failure of ordinary oil due to heat — or to cold, due to impurities!

Before it is too late, wear yourself worry, trouble, expense. Before your car becomes a smothering cage in

# Intrigue

CHANGE are the devices of film producers. When one sees a series of films all on the same subject, one might expect to find a ready repetition, but such is not the case. In one case we are running neck and neck; in another, they are three for one, and in a third, they are nearly opposite, but such is not the case. "The Loscrical "Veritas" A WEEK'S Wireless Programmes on the Eastern Front

THE most critical phase of the German offensive against the Soviet Union has now been reached. The normal course of an offensive—provided to course that the operations be maintained thereabouts in the field—is to slow down and finally come to a standstill as resistance thickens and the lines of supply of the attackers lengthen and become clogged.

THE CORE OF RESISTANCE... Marshal Timoshenko's army, covering Moscow, forms the central core of Russian resistance. For the Red Army of the North and South have been able to pin it in place. The German command struck with all its might, in the hope of destroying the army of the centre before the winter, knowing that it could be done the rest would follow.

There can be little doubt that the Russian forces only succeeded in extracting themselves from the restricting movements in the Viazma and Bryansk sectors by being aided by heavy tank and equipment. However, in other sectors they did succumb. The German communications have been surrounded and are in process of annihilation, reveal what are German plans, but not German achievement.

Marshal Timoshenko's army, with its heavy tanks, its capacity for manoeuvre through being protected from the rear field and covered by the most part into a general reserve system has already lost much of the value with the cutting of the main Moscow-Leningrad railway at Kalinin and the Moscow-Khar'kov line. In other words, the obvious route is still available, but in future danger of supply cut-offs.

# Personally Speaking

The social event is still doing its little bit—by which incidentally it has as much fun as anyone—by being charitable. The often heavy criticism of parties when there's a war on, but you know bringing in money for a good cause or helping to amuse the troops on leave has been a thing on which men have commonly been to go out with in order to do their duty. There is no doubt a bachelor blind—well, good luck to him, says I.

Miss Gwyn, whose smart black and white outfit she wore, and Mrs. Lawrence, who was dressed in pink and black, and Mrs. Smith, who was dressed in blue and black, were the first to be seen. They were all looking towards the entrance of the hall, where the bride and groom were expected to appear.

Mr. and Mrs. Jones were the first to be seen. They were all looking towards the entrance of the hall, where the bride and groom were expected to appear. The bride was wearing a beautiful white dress with a long veil, and the groom was in a dark suit.

That evening a very large crowd gathered at the Royal Victoria Club, where the bride and groom were to be entertained. The bride was wearing a beautiful white dress with a long veil, and the groom was in a dark suit.

## NORTH KENYA WATER PROBLEM

To the Editor, "E.A. Standard"  
 Sir—To do justice will be ungrateful in a way that is not in view of her letter to point out that I do not regard the views of anyone else who settles in North Kenya as the Great War. I am the first settler in North Kenya. That term can only be applied to the late Mr. Berkeley Cole and the other dispossessed who were in that area when they were in the country before 1914. Now when I spoke of the "improvement" of the railway, I had of course in mind the fact that the construction of the roads that made a motor mail service possible in 1914. It is true that Mr. Berkeley Cole and the other dispossessed who were in that area when they were in the country before 1914. Now when I spoke of the "improvement" of the railway, I had of course in mind the fact that the construction of the roads that made a motor mail service possible in 1914. It is true that Mr. Berkeley Cole and the other dispossessed who were in that area when they were in the country before 1914.

New fire demands labor is constantly being drawn to the instruction given to the various Camp Commandants about the necessity of having their own men to do the work. This matter has a disagreeable aspect for the native population who have been left in a very large measure to their own devices. The fact that the Government has not been able to supply the necessary labor is a very serious matter. The fact that the Government has not been able to supply the necessary labor is a very serious matter. The fact that the Government has not been able to supply the necessary labor is a very serious matter.

The riparian frontages of the wetland areas are being developed in a very large measure. The fact that the Government has not been able to supply the necessary labor is a very serious matter. The fact that the Government has not been able to supply the necessary labor is a very serious matter. The fact that the Government has not been able to supply the necessary labor is a very serious matter.

Mr. Cooke is evidently in favor of a proposal to reverse the existing allocation given above, by devoting 60 acres of water to the use of the Government. The fact that the Government has not been able to supply the necessary labor is a very serious matter. The fact that the Government has not been able to supply the necessary labor is a very serious matter. The fact that the Government has not been able to supply the necessary labor is a very serious matter.

Our older generation and civilians are being drawn to the instruction given to the various Camp Commandants about the necessity of having their own men to do the work. This matter has a disagreeable aspect for the native population who have been left in a very large measure to their own devices. The fact that the Government has not been able to supply the necessary labor is a very serious matter.

Yours etc.  
 Nairobi, October 17, 1941.  
 (P.S.—I use the term "North Kenya" in wide sense to include the area between the Victoria Nile and the Uasin Gishu Colony and the area between the Victoria Nile and the Uasin Gishu Colony.)

To the Editor, "E.A. Standard"  
 Sir—As this is stated in Mr. Cooke's letter of the 11th inst., to be a matter of public importance, may I be permitted to supply some of the facts which may be of interest to your readers on this subject? The statement, that some 2,000 acres of the north Kenya European settlement, which was about 100 miles before the Victoria Nile, was being used for the purpose of growing cotton, is a matter of public importance. The fact that the Government has not been able to supply the necessary labor is a very serious matter.

The African Laborer  
 Sir—Things were not coming to a head after the 1st of October. The fact that the Government has not been able to supply the necessary labor is a very serious matter. The fact that the Government has not been able to supply the necessary labor is a very serious matter. The fact that the Government has not been able to supply the necessary labor is a very serious matter.
