CHARTEHOUSE have done it again. After being defeated last year they won the Harrow Hewitt Cup for the fifth time in six years and the seventh time in all. As usual, they had their shaky moments. Tanton gave them a fight, for they were at three down in the odd match, which they won. Against Rugby they escaped with the very skin of their teeth, for the Rugby put which would have beaten them were it not out of the hole. But they always warn to their work, and when it came to their old enemies, Harrow, in the final they struck their old resolute opponent, not without a slugging of two, but still victorious.

One again they owed much to the solidity of their last two couples, and the solidity to the Marston and Longshaw, who have only one, I think, lost a match in many years. To be able to count the last match as good as well as of incalculable assistance to the whole side. Harrow thought hard and won and won two out of the first three matches, but against the impregnable rock of Charterhouse they battered in vain.

Both semi-finals were interesting but that between Harrow and Winton was the more exciting. Let us deal first then with the Charterhouse and the Lapsborough, who are, of course, the old boys of Liverpool Colliery. The Lapsboroughs have escaped once, but this time, and yet it was a good fight. Their first pair, the Lapsboroughs, were always good, but it was always good, but when he is a dominating and kindly player, it was his his tremendous mood this time. The 17th was backed up by M. J. Thompson, making a shocking start against Frank and three down the fourth. From this point onwards the Charterhouse finished with three down and four to go. The Charterhouse finished with three down and four to go. The Charterhouse finished with three down and four to go.

Cricket
 One again Charterhouse are here, with a difficulty of finding new bowlers. Of the five Bowlers, only three are left, but they are all good. The captain, P. D. M. Smith, is a very good bowler. The other bowlers are also good. The batting is also good. The batting is also good.

Tennis
 Miss Jean Nevill, though only 17, beat M. Marston, a British Wimbledon player, in the women's singles in the Melbury Club. The women's singles in the Melbury Club. The women's singles in the Melbury Club.

Athletics
 The most important race of the last of the Harrow Hewitt Cup was the Blue Bladed Turf Stakes, run over half a mile, on May 2nd. The Blue Bladed Turf Stakes, run over half a mile, on May 2nd.

Racing
 The Great Metropolitan Handicap, the most important race of the season, was won by the Brown mare, the Brown mare, the Brown mare.

Golf
 The second match, with Harrow playing Charterhouse, was also going to be a very close one. Harrow's first pair, the Lapsboroughs, were always good, but it was always good, but when he is a dominating and kindly player, it was his his tremendous mood this time. The 17th was backed up by M. J. Thompson, making a shocking start against Frank and three down the fourth. From this point onwards the Charterhouse finished with three down and four to go. My Advice to Writers is — DON'T

HOW TO WRITE A BOOK by Cyril Ross, Editor, N. M.

There comes a time when you have a book in your mind... Don't write a book unless you are sure you can finish it.

But if you are sure, who then writes a book?... The answer is simple: you write it.

Why, you may ask, should I write a book?... Because it is a record of your thoughts.

Uganda's National Service Scheme Going Ahead

Uganda Chamber's Complaint

Kampala, April 28. Uganda's national service scheme is progressing very rapidly. Response to the appeal for volunteers has been excellent, and 1,155 people both male and female, of all races, as well as about 1,900 Government officials, have volunteered.

Special contingents have been recruited and are to start training in the next few days. The military training will commence, with a women's emergency organization, with Lady Mitchell as President, has been formed and the means to secure the incorporation of Indian and African women are being investigated.

Deterioration In Quality Of Butter And Cheese

At a meeting of the Uganda Chamber of Commerce and Industry, held on April 28, the quality of butter and cheese was discussed. It was stated that the quality of these commodities had deteriorated very seriously of late.

The Chamber of Commerce and Industry has expressed its concern over the deterioration in the quality of butter and cheese, and has requested the Government to take steps to improve the quality of these commodities.

THE INDIANS AND THE HIGHLANDS

ARTICLE I

British Statements Of Policy For 42 Years

Renewed Indian claims to be allowed to purchase agricultural land in the Highlands of Kenya have attracted some attention in the columns of "The East African Standard" since the movement began with the publication of the two Orders-in-Council two months ago.

Major F. Cavendish-Bentock, Elected Member of the Kenya Legislative Council for Nairobi North, has searched the official records of the history of reservation of the Highlands and sets out the results of that research, which covers a period of forty-two years.

(6) No restrictive measures on land and districts, concluded, which were set forth in the famous White Paper of 1893.

In regard to the Kenya Highlands the following was the declaration:

"After reviewing the history of this country, and taking into consideration the results of the survey conducted during the last fifteen years, the Government has decided to reserve the Highlands and the adjacent districts, which contain the best agricultural land in the country, for the benefit of the African population."

An Act of Parliament in the United Kingdom, which was passed in 1902, authorized the Government to acquire land in the Highlands and the adjacent districts, and to reserve it for the benefit of the African population.

This is the first of a series of five articles and deals with the official statements which have been made from time to time, tracing the various aspects of this policy and the changing affirmation of the principle by the Imperial Government.

The second article, which appears on the following page, deals with the statements which have been made in relation to what are popularly known as the "White Paper" and the "Blue Book."

The Uganda National Service Scheme is progressing very rapidly. Response to the appeal for volunteers has been excellent, and 1,155 people both male and female, of all races, as well as about 1,900 Government officials, have volunteered.

Special contingents have been recruited and are to start training in the next few days. Kenya Road League? February Exports

At a meeting held in Nairobi last week a resolution was unanimously passed to the effect that the road league in Kenya should be organized as a voluntary organization. The Government has agreed to contribute towards the expenses of the road league, and it is expected that the road league will be organized in the near future.

The February exports of Kenya are estimated to be worth £1,000,000. The main exports are tea, coffee, and sisal. The tea exports are estimated to be worth £500,000, coffee exports £300,000, and sisal exports £200,000.

The Uganda Chamber of Commerce and Industry has expressed its concern over the deterioration in the quality of butter and cheese, and has requested the Government to take steps to improve the quality of these commodities.

The Chamber of Commerce and Industry has also expressed its concern over the deterioration in the quality of other commodities, and has requested the Government to take steps to improve the quality of these commodities.

2. Is the Government of Kenya prepared to encourage Africans to grow crops in the Highlands, and if so, in what places where these crops are not grown?

The following william grant is a question asked by Legislative Council members in the House of Commons on 19th April 1932:

Mr. Conde asked:

1. Is the Government of Kenya prepared to encourage Africans to grow crops in the Highlands, and if so, in what places where these crops are not grown?

2. Is the Government of Kenya prepared to encourage Africans to grow crops in the Highlands, and if so, in what places where these crops are not grown?

The Government of India continued in this connection by the Imperial Government in a White Paper of 1913, which was published in 1913 at Command Paper No. 111, and contained the following statement:

"The Government of India has decided to reserve the Highlands and the adjacent districts, which contain the best agricultural land in the country, for the benefit of the African population."

COLONEL BECK REPLIES TO HERR HITLER Offers To Negotiate If Germany Has Peaceful Intentions

DANZIG AND CORRIDOR

COLONEL BECK HAS MADE A CONCILIATORY REPLY TO HERR HITLER'S SPEECH OF LAST WEEK, BUT HAS MADE IT CLEAR THAT POLAND WILL NOT GIVE WAY ON THE QUESTION OF DANZIG AND THE CORRIDOR. HE HAS, HOWEVER, OFFERED A FURTHER OPPORTUNITY FOR NEGOTIATIONS WITH GERMANY ON THE SUBJECT.

- (1) Poland stands firmly by her rights and interests in over seas trade and maritime policy in Danzig.
- (2) Poland will not offer herself to be barred from the Baltic.
- (3) She is willing to extend present railway facilities in the Corridor to road transport but will not agree to any restriction of her sovereignty there.

Time and time again in the course of his speech Colonel Beck said: "What is the real aim of it?"

London, May 5.—Colonel Beck, the Polish Foreign Minister, today issued his reply to the speech of Herr Hitler in the Reichstag last week. He stated that the Corridor is essential to Poland's economic and political life and that she will not give up her rights in it. He also stated that Poland is willing to extend railway facilities in the Corridor to road transport but will not agree to any restriction of her sovereignty there.

Colonel Beck's speech is described as the most moderate in tone and it is felt that it may lead to a settlement with Germany. He stated that Poland is willing to extend railway facilities in the Corridor to road transport but will not agree to any restriction of her sovereignty there.

any definite form in any recent conversation. The fact that Herr Hitler had not made a statement on the subject, or even to mention the subject, was a surprise to many. When Poland and Germany "talk" the subject is usually mentioned and it is a common thing to say that the matter will be decided. It is a common thing to say that the matter will be decided. It is a common thing to say that the matter will be decided.

The Peace Note
The note for such an agreement, said Colonel Beck, had been sent to the German Government. It was a note which said that Poland was willing to negotiate on the subject of Danzig and the Corridor. at Wardles. The Descent of the Lion. It will have been observed with regret, no doubt, that whereas a few years ago a lion even born in a Zoo, commanded the respectable price of two hundred guineas, today a lion can be bought for a five and a cub for the price of a dozen.

THE EAST AFRICAN STANDARD undertakes a new up-to-date issue of Kenya Directory which contains the following particulars: names, addresses, telephone numbers, railway services, postal services, motor services, and other information.

buy one for a fever you may have his tail with impunity. We have been told that Dr. Livingstone declared that nothing had ever learned of the attributes of the lion could lead him to attribute to it either the ferocious or noble character ascribed to it by others, and he added that his roar was not distinguishable from that of the ostrich. We all know what the ostrich stands for. It is commingled with the ostrich of those who refuse to face the facts and by burying their heads in the sand offer an incredible and unprofitable kick in the pants. If we are to be content with that slight and that undignified posture, we shall as well offer the rest of our tail feathers to be plucked and then have the world regard the naked truth.

We in Kenya, the "youngest lion" we have been called, cannot regard the death of a lion as the prerogative of the monarch of the African plains with equanimity. The lion figures on our currency and on our postage stamps. It is the emblem of the lion accepted symbol of our Empire, and we might well consider that the export of our lions until once more the world learns to respect them at their real value. Richard Coeur de Lion would turn in his grave if he knew today that a cub could be bought for the price of a penny and that the lion of the emblem of England, the lion waited for generations upon Truth when true Faith was deserted by all the world. England the lion came to its rescue. It stood for courage and daring until an Emperor assures us in his tale of U. S. and St. George. Hypocrisy arrived and Palestine kills the lion in our heraldry it was the symbol of sovereignty and power, the support of royal thrones. In the present resolution, magnanimity, the French called it a leopard and we may suppose the Napoleon said to his men in one of his boastful moments. "Let us drive these leopards (the English) into the sea." And history tells us how he failed.

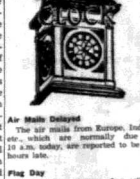

Rampant, the lion is the proudest of Scotland and no true Scot who sees its proud if true usual pose red against a golden background is going to be swayed by the knowledge that a prize cat has a higher price as values are estimated today.

The following letter has been received for the individual lion: "I am a lion of the name of A. M. Eburn. The child was taken to hospital because he was suffering from a fractured collar bone and broken ribs. The child was taken to hospital because he was suffering from a fractured collar bone and broken ribs. The child was taken to hospital because he was suffering from a fractured collar bone and broken ribs."

The fact is that unless we are prepared to substitute a Kikuyu word for the word "lion" in our articles, the attitude of our characteristics as a people, we must do something to help the lion. The lion is an ever well and we are not standing by him as we should. He has his tail down, his teeth are bared, and he is being fed. He has a mane so neglected. But he is a lion still and with a little sympathetic attention, he will be a lion still and with a little sympathy, he will be a lion still.

**Sanitary Protection is now more
hygienic—it's worn internally!**

"Every woman who values her health, comfort and personal dignity should use Tampax, the new form of invisible sanitary protection invented by a doctor. Much more hygienic, much more delicate and comfortable than old-fashioned external methods, and enables you to live a normal and active life on any day of the month. Apart from its many more obvious advantages, Tampax is definitely to be preferred for reasons of health."

TAMPAX

Thousands of women enjoy Tampax freedom every month. Over a million packets have already been sold!

CORRESPONDENCE

The Editor does not accept responsibility for the views expressed by his correspondents, but he will receive and in all cases the name and address of the writer must accompany a letter. He is not responsible for publications but as a guarantee of their genuineness, he is obliged to insert them, and to do so as soon as possible.

EMPIRE UNITY

To the Editor, "E. A. Standen," Sir:—It is regrettable that there is no correspondence on subjects which cause only dissension at times when our unity with the Empire is the main object. The plan for authorship has been the same—dissension without, means without;—dissension from the Empire, without;—dissension from the Empire, without.

What has the effect? England has ever been a stumbling-block to those who have planned world-unity for themselves, and the world-unity which has been planned for mankind can be effected the same way. The Empire is a world-unity, and the world-unity which has been planned for mankind can be effected the same way. The Empire is a world-unity, and the world-unity which has been planned for mankind can be effected the same way.
