BRITAIN AND TURKEY PLEDGED TO AID EACH OTHER

If Act Of Aggression Leads To War In Mediterranean

BALKANS SECURITY

The Governments of Great Britain and Turkey have agreed to conclude what they describe as a definitive long term agreement of a reciprocal character in the interests of their national security.

UNTIL THIS DEFINITIVE AGREEMENT IS COMPLETED, IN THE EVENT OF AN ACT OF AGGRESSION LEADING TO WAR IN THE MEDITERRANEAN AREA THEY WILL DO EACH OTHER ALL POSSIBLE HELP.

The two Governments also recognize the necessity for ensuring the establishment of security in the Balkans and are committing themselves to achieve this end as quickly as possible.

In making this commitment to the President of the United States, the Prime Minister said that the agreement was a landmark in the history of the world since it was the first time that two great powers had entered into such a reciprocal agreement.

Further examination of the agreement will show that it is a landmark in the history of the world since it was the first time that two great powers had entered into such a reciprocal agreement.

RISKS FOR LIBERTY

The great material and strategic importance of the agreement between Great Britain and Turkey is stressed in both countries where it is concluded that the new pact will create no new, being intended solely to help in maintaining peace and security.

London, May 14. The French Foreign Minister, Monsieur Bonnet, arrived at Brussels at 10.15 morning in a special air lift from the Allier-Paris flight.

One of the leading London newspapers points out that the friendship of Turkey to Germany was certainly more important than the alliance of Italy to Britain and France during the last war. It adds: "Of the exchange had to be made, there are no military grounds for regretting it."

Great Britain had been asked to give the French the benefit of the doubt in the present emergency. Great Britain had no other alternative but to give the French the benefit of the doubt in the present emergency.

MUSSOLINI SAYS WAR IS NOT NECESSARY

Though It May Be Better Than Long Period Of Suspense

KNOTS TO BE CUT

MUSSOLINI BELIEVES THAT ALL EUROPEAN PROBLEMS CAN BE SETTLED WITHOUT WAR, THOUGH HE ADDED THAT IT SOMETIMES HAPPENED THAT WAR WAS TO BE PREFERRED TO A LONG PERIOD OF DIFFICULT SUSPENSE.

British Plans Do Not Go Far Enough

The Soviet Government is thought to be urging again a pact of mutual assistance between Britain, France and Russia on a principle of reciprocity which would guarantee other States in Eastern and Central Europe threatened by aggression.

HOW LOCUST INSURANCE POOLS WILL WORK Separate Schemes For Wheat

Members of the district will be interested in particulars of the Locust Insurance Pool Scheme, which have now been agreed upon.

For some time past the Board of the Kenya Farmers' Association has been in communication with Government, with a view to introducing a scheme on the basis of a paid-for pool contribution from Government to a Locust Insurance Fund.

The decision of Government has not yet been received, but it is hoped, in view of our continued negotiations, that at a later date it may be possible to obtain some assistance, if not the whole of that indicated above.

Proposals from members should be submitted under the following conditions: There will be no special insurance for wheat. The insurance will be for all crops...

attained in the minds of the people. We have outlined the tasks and problems of the Committee on previous occasions and as they are all covered by the terms of reference there is no need to do so again, except to say that the Kenya public are not prepared to see the Game Policy of the Colony, whittled down, in essentials, or smelt widely destroyed or neglected, in the interim.

As a result of these discussions which in practice exist mainly in the minds of those who are opposed to game preservation in remote and uninhabited areas. So much time has been wasted in approaching this question, and so great a change has come over public opinion in the meantime in regard to game and its control, that this country must see to it that its policy is one which will command the admiration of the world.

Finally, the Committee to advise on stocking. None of the European Elected Members have been appointed and until the country is far more satisfied than it is at present on that subject they are not to be given freedom of action. The Poles have reported, though it may be assumed that the only means of regenerating land is to grow grass on it, will shock opinion, generally, of the pastoral areas. That is all to the good. Public patience was becoming exhausted, particularly about the first two bodies. Now all we can hope for is that they will get down to work at once.

The Land and Settlement Board is the Land and Settlement Board has been appointed and its personnel was presented to the Committee. To enquire into the question of Game Policy is also appointed, so is the Committee to advise Government on the problem of destocking in the Native Reserve and the preservation, generally, of the pastoral areas. That is all to the good. Public patience was becoming exhausted, particularly about the first two bodies. Now all we can hope for is that they will get down to work at once.

Here, too, is a case in which the country should be made regular by-law of the nature of the advice which is tendered. The Committee will be useful only to the extent to which Government is prepared to take advice on a subject which contains much concern throughout the whole Colony. Not only on account of the widespread doubt about the policy adopted and the danger of the failure of the past ten years to deal with the situation, but also because of the reactions of that failure on the general opinion of Native Policy. We hope that the mere appointment of these three bodies will not serve to create a somewhat public opinion. Their work should be kept constantly before the country.

During the initial period of the work of the various committees, it is suggested that their members should not be asked to attend the House of Representatives. This will be a serious matter, particularly in the case of the members of the House of Representatives who are asked to attend the House of Representatives. Bright Prospects At Lamu

["STANDARD" CORRESPONDENT] The report of boritis continues to be optimistic. It will be remembered that the Government has decided to appoint a committee to investigate the question of the appointment of members of the House of Representatives.

The raising of the issue of the appointment of members of the House of Representatives was discussed in the House of Representatives. This will be a serious matter, particularly in the case of the members of the House of Representatives who are asked to attend the House of Representatives.

EQUITY AND LIBERTY

To the Editor, "E.A. Standard,"—

The Editor's leading article which has characterized the English tradition of Government is the freedom of the individual. The right to live in the State, to live his own life, to follow his own spiritual aspirations, to be distinguished by his own position as a great townsman, great trader, or great industrialist, is the characteristic of the English tradition of Government. The English constitutional issue in these proceedings is not the right to live with rights without endangering the safety of the State.

It is generally accepted that the right to live is the right to live in the State. The right to live is the right to live in the State. The right to live is the right to live in the State. The right to live is the right to live in the State.

The almost universal acceptance of the doctrine that compulsory service to the State should be by way of conscription, has the effect of making the State a slave to the State. The State is a slave to the State. The State is a slave to the State. The State is a slave to the State.

I have also heard that several of the "Old Dogs" in the Executive Council are growing because they are not being treated.

CAMBRIANS & MUTHAIGA DRAW

Our Forward Battle In N.D.C. Match

Muthaiga and Old Cambrians shared a painful reverse with Muthaiga yesterday evening in their second fixture in the Nairobi District Rugby football championship. The game almost championship involved itself into a four forward battle in which Old Cambrians were the victors.

Other Sporting News will be found on page eight.

Quite their share of matters and a 19 points were taken on the run of the play, have battered Muthaiga and the game almost championship involved itself into a four forward battle in which Old Cambrians were the victors.

Old Cambrians kicked-off in the second half before their wingers did a set of forwards have landed a consistently from the scrum and sent so little use made of the opportunities offered. This was mainly due to the very good marking. The game almost championship involved itself into a four forward battle in which Old Cambrians were the victors.

The second-half the first, score was 19-0. Old Cambrians were a passenger, owing to their inability to get into the game. This was mainly due to the very good marking. The game almost championship involved itself into a four forward battle in which Old Cambrians were the victors.

Each side attacked, but there was little thrust. Muthaiga were in the Old Cambrians line and second attack, but were well fended. The break and touch was fended.

This King was just short with a few minutes to go. Old Cambrians renewed the offensive which had been temporarily lost. Time and again they made distance and from one forward corner moved centre to score, but King again refused to give a wide-angle kick.

After a long kick about Collins gathered and was neatly through and Old Cambrians took again touch down. King, 25 and Dettro scored and King hit an over-arc and through elegantly and with the defence for some time and more than 15 yards from the line he beat and the chance was had.

Towards the end with Muthaiga playing. But there had been a touch back with an attempted drop. It was a hard and hard game, with both sides of forwards and defence throughout, but had Old Cambrians an extra chance on a short-hand play there would have been a Muthaiga. In view of their experience and known form, scored fully.

ENGLISH COUNTY PROSPECTS

Hopes Of The Lower Placed Sides

This is the first of the series of articles dealing with the prospects, during the summer season, of the first-class English counties, in which they finished in last season's County Championships.

LEICESTERSHIRE

Last season, after a remarkable start, Leicestershire, factually dropped and dropped from fourth to fifth in the table, only one place higher than that occupied in last year's County Championships. A young left-hander, who had been started in first and last season in George Geary—is coaching at Chatterhouse and Adair will not be available.

Leicestershire's comparatively poor attack was however, the primary cause of their relegation. A young left-hander, who had been started in first and last season in George Geary—is coaching at Chatterhouse and Adair will not be available.

The Captain, however, will be in addition, Dempster, 8-0-0-0, and will again include Armstrong and Perry and the greatest support of the County could hardly be expected to be available.

GLAMORGAN

Glamorgan, the only Welsh County in the first-class category, in the County Championships, has a considerable number of players who are regarded their supporters. The Glamorgan players last season, in the County Championships, were a passenger, owing to their inability to get into the game.

Each side attacked, but there was little thrust. Muthaiga were in the Old Cambrians line and second attack, but were well fended. The break and touch was fended.

Northamptonshire

THE RONNIE MARSHALL CUP

Ladies' Open Meeting At Gilgil

The Captain will add to the list of winners and will have in addition to James and O'Brien, Bruce and Greenwood, as well as Dunsley and 'If' Birkwell, may set the late in the season he may well make all the difference.

The Universities

It is always difficult, with the limited number of players available, to assess the chances of the Universities. As an instance, Cambridge will be expected to be a strong contender for the title.

The year's outdoor first big triathlon, was held at Gilgil, and was won by the University of Cambridge. The year's outdoor first big triathlon, was held at Gilgil, and was won by the University of Cambridge.

any conditions, would seem quite enough to see the system and the Territories through any ordinary period of lean times. The position of the Railway loans is interesting. The total upon which interest has to be paid is £24,035,000 and that large amount only £268,296 is guaranteed by the Government of Uganda. The Government has, however, accepted responsibility for a further £2,000,000 representing assets in the Province, leaving the Government and the people of Kenya responsible for the balance of over £1,000,000. This balance is not allowed to weigh in the matter of policy as between the interests of the two countries, but it is a point which should never be overlooked and adds importance to the claims of the people of Kenya for the share in the responsibility for the Railway and Harbours policy.

Though the reserves of the transport system seem ample today, it is necessary to remember that in a few years the railway will be called upon to meet the liabilities under the loan. The sinking fund will approximate £2,000,000 and there will be another £2,000,000 to be paid recently, when he agreed to abandon the claim for the original cost of the railway. Many Districts In Tanganyika Are Eroded

But Steps Being Taken To Combat Menace

Annual Reports Of Provincial Commissioners For 1938

Many districts in the Central, Eastern and Lake Provinces of Tanganyika are badly eroded. This position is partly due to the destruction of forests and silted methods of cultivation, its main cause is taken to be overgrazing.

Annual reports of the Provincial Commissioners of the Territory for last year. They would hardly be complete without some reference to Masai raiding in the biggest raid, in which the Masai stole 340 head of cattle, they were pursued by Pulley, and the Masai were dispersed by a shot, every animal being recovered.

The annual reports of the Provincial Commissioners of Tanganyika for last year have been received, and they contain some interesting information on the Central, Eastern and Lake Provinces. Reference to the erosion of the soil has been made in the reports of the Provincial Commissioners of the Territory for last year. The erosion of the soil is a serious menace to the agriculture of the Territory, and it is a menace which is increasing in extent and severity.

The erosion of the soil is a result of the destruction of the forests, and of the silted methods of cultivation. TITLED WOMAN'S FATE

["STANDARD" CORRESPONDENT.]
According to a Press Association telegram from New York, Walter Hagen, who never believed in the "hooker" theory, has been passing some confidential information to the press.

Hagen, one of the most celebrated golfers in the world, visited Africa in 1930, and was accompanied by Mrs. Lavinia Hagen, who was known as the "hooker" of the game.

It was revealed at the inquest here on the Hon. Mrs. Edith Lawrence, widow of Lord Lawrence, that she visited her favourite golfer, Walter Hagen, in his stables before shooting herself.

Mrs. Lawrence, a well-known horsewoman, lived alone at The Hill, Hagley, Warwick. The inquest was held in the dining room.

Dr. E. W. Barnard said that Mrs. Lawrence suffered from an incurable illness, and it was inevitable that she knew her case was hopeless.

Dr. Barnard said that Mrs. Lawrence's condition was such that she could not have been in the stable at the time of the shooting.

Mrs. Lawrence was found in the stable with her head on the floor, and a bullet wound in the forehead. Her hands were found near the door, and a pistol was found nearby.

The coroner said that the case was a tragedy, and that the facts were still being investigated.
