A VERY good crowd was present on Saturday, the first meeting of the Fergus Cup and was very noisy so that the running track was redoubled for one day for each of the layers of odds rather than for only one day as the favourite managed to catch the judge's eye.

Favourite however, was placed in all the races and was the only horse to be ridden by a professional jockey. The other riders were amateurs and the race was a bit of a fiasco. The winner was a 10/1 shot and the race was a bit of a fiasco.

From the outset, Silverfox took the hot favourite's position and was ridden by a professional jockey. The other riders were amateurs and the race was a bit of a fiasco. The winner was a 10/1 shot and the race was a bit of a fiasco.

£1,000,000 buildings planned in city

TRAMMEL 'NETS' BIG 'HAUL'

Record E. African fresh fish catch

RECORD catch of 128 tons of fresh fish made in the first successful attempt to use trawling in a fresh water lake in East Africa.

This catch was made after a trial of fresh fish trawling in 120 ft. nets placed at dawn on the lake in the morning, near Keroga.

The Kenya Co. (Africa) and the Government have spent £100,000 on the project. The trawling was carried out on a 14 ft deep and holds over 370,000 gallons of water.

The supply water for the processing of fish is drawn from the lake directly by a cyclotron.

13 APPLICATIONS FOR EIGHT PLOTS

This project is planned by Mr. Govind K. P. Singh, a prominent East African businessman. The Government has approved the plan and has allocated 13 plots in the City Square area.

These plots are to be used for the construction of 13 buildings, each of which will be a 4,000,000 building. The buildings will be used for the purpose of housing the Government staff in the City Square area.

Retiring after 25 years in Kenya Police

Harvesting problem

A year after stocking the waters with tilapia, a very popular fish, harvesting was begun with the use of locally made gill nets.

The fish were stocked in the first year was 25 lb. and the total catch for the first year was 1,200 lb.

Since then the average weight of the fish has increased to a catch of 25 lb. and the total catch has increased to 128 tons.

Harvesting, however, has not been a serious problem as the fish have become densely packed with cut-off. The fish have been leaving to the nets made from strong khaki cotton. The nets are made of a figure which is similar to that of a net used in the United Kingdom.

MR. PATRICK WHIPPON

Patron of the Kenya Police Officers' Association, has retired after 25 years in the force.

Mr. Whippon was born in the United Kingdom and joined the force as a constable in 1931. He served in the force until 1956, when he was promoted to the rank of sergeant.

THEATREGOERS FIND SHOW CANCELLED

Hundreds of people who went to the Regal Theatre, Mombasa, to see the musical 'The Boy Who Swam with Piranhas' were disappointed to find the show cancelled.

The show was cancelled because of a shortage of fish. The fish were used in the show to represent piranhas.

Verdict on MR. WHIPPON

Mr. Patrick Whippon, the former Kenya Police Officer, has been found guilty of a number of offences.

The offences include the use of force and the use of a firearm. He was sentenced to a term of imprisonment.

Seiyehelles pay increases

Members of the Seiyehelles, a traditional dance troupe, have received a pay increase.

The increase was granted by the Government as a reward for their services to the community.

The R.A.F. were unable to score when after 25 minutes the Eastleigh goalkeeper had retired. The R.A.F. were then reduced to ten men and were unable to score when after 40 minutes the Eastleigh goalkeeper had retired. The R.A.F. were then reduced to nine men and were unable to score when after 45 minutes the Eastleigh goalkeeper had retired. The R.A.F. were then reduced to eight men and were unable to score when after 50 minutes the Eastleigh goalkeeper had retired. The R.A.F. were then reduced to seven men and were unable to score when after 55 minutes the Eastleigh goalkeeper had retired. The R.A.F. were then reduced to six men and were unable to score when after 60 minutes the Eastleigh goalkeeper had retired. The R.A.F. were then reduced to five men and were unable to score when after 65 minutes the Eastleigh goalkeeper had retired. The R.A.F. were then reduced to four men and were unable to score when after 70 minutes the Eastleigh goalkeeper had retired. The R.A.F. were then reduced to three men and were unable to score when after 75 minutes the Eastleigh goalkeeper had retired. The R.A.F. were then reduced to two men and were unable to score when after 80 minutes the Eastleigh goalkeeper had retired. The R.A.F. were then reduced to one man and were unable to score when after 85 minutes the Eastleigh goalkeeper had retired. 1 unit can supply all these vital services ...

at less than 350 units per month

The Bradford Duo-Therm Heat Pump is one single unit consuming hot water tank at bottom, and 21 cu. ft. refrigeration section for deep freeze at top. Working on the flash pump principle it draws the heat from the air, and, instead of the ordinary, keeps the whole unit at a temperature of 120 cu. ft. or a low temperature for heating purposes. Ample hot water circulates throughout the house and a radiator heats the airing cupboard. All electric and fully automatic, it saves money because you have all four services in one for less than half the cost of normal electric water heating.

Dam tests on evaporation held up

OFFICIAL REPORT TO BE SUBMITTED

PROGRESS made by the Meteorological Department with experiments designed to measure evaporation from dams will be outlined in an official report to be produced this week.

A spokesman of the department said that the dam experiments which had been made since the start of the rainy season, when evaporation is at its greatest, would take the form of statistical observations, as it was felt that the experiments would not be entirely successful.

Latest findings

Experiments - which involve the spreading of a layer of reticulated over the surface of the water-way containing an inclined dam and three other dams near the city.

The latest development is a method which it is suggested might avoid the evaporation without the use of rain. It involves the use of a special material which is spread over a great step forward, the experiments.

A sum of £12,000 for the reticulation of the Meteorological Department - which deals with rain-making and evaporation - was being from the 1949-50 budget at last month's meeting of the Central Legislative Assembly. The Assembly asked that the programme be re-examined with a view to reducing the cost and that it be recommended to the Finance Commission for voting in the September.

Attempt to make rain at Tabora

A Meteorological Department team will try to produce rain at Tabora in the next few weeks or over the next few days. The rain will be produced by the use of a special material which is spread over a great step forward, the experiments.

Admission strike over

Strikers at Little Adam's Island have agreed to a temporary stoppage to the strike. The strikers will be asked to return to work on the 10th of the month. An oil refinery was affected by the strike.

Two strikers were arrested when police fired tear gas during the strike.

The Rev. David Shogbo, the former Episcopal Bishop, and Miss Grace Jones, who is 71-year-old school teacher. The picture was taken in the garden of the vicarage of St. Mary's, Nairobi, about 1949.

U.S. NEGRO PLEA FOR OWN BUSES REFUSED

Segregation issue in Montgomery

MONTGOMERY'S city commissioners have refused a request by Mr. M. King and other leaders of the Negro boycott of the city's segregated buses, to establish and run an all-Negro bus company. Mr. King was recently found guilty of leading an illegal boycott and fined \$500 (approximately £168), against which he is appealing.

POST OFFICE APPOINTMENT

Mr. R. P. Humphrey

Mr. R. P. Humphrey, chief accountant to the Lyons General, has been appointed to the post office in Nairobi. He has been in charge of the Lyons General since 1949 and is a member of the East African Posts and Telecommunications Administration in succession to Mr. W. T. Newing, who is retiring.

Excellent service

The city commissioners denied the application for a franchise on the grounds that the present bus company was offering an excellent bus service for the whole city.

Mr. W. A. Givley said bus services from the city as a whole were not being met. He said the city commissioners had suggested the Negroes should be allowed to operate buses exclusively for their own people.

Givley's reasons for denying the Negro franchise, the Mayor said that 40 or 50 buses were standing empty.

AID FROM U.N. FOR ZANZIBAR

£5,000 for health programme

ADDITIONAL health workers for Zanzibar and Pemba will be trained in a three-year programme to be supported by an allocation of over £5,000 from the United Nations Children's Fund (UNICEF).

Part of this sum will be used to provide transport and maintenance needed to undertake a specialised survey of the Protectorate as first step in a future anti-malaria campaign.

The Zanzibar Government is expected to spend £1,000 on this programme over the three-year period.

The aim of the training programme will be to produce rural health workers, public health inspectors and health visitors for disease control projects.

25 students

Using teaching aids, equipment, and transport provided by UNICEF, 25 students are expected to join the first course early in 1951 in a special building close to the new Zanibar Hospital.

The training period, which will take from a year to 18 months will cover the complete study of sanitation and safe water supply, tropical diseases, malaria, and rural health building, the control, cure and treatment of malaria, and the use of insecticides for basic village health services. It will also include a rural health centre.

It is expected that about 100 of the first group of students will go on to complete courses for the year advanced course for the year at the Royal Sanitary Institute, which is sponsored by public health inspectors.

Chain of centres

As the new Governor of Zanzibar health workers become available, the Government will continue to improve and expand the network of rural dispensary centres to a chain of efficient rural health centres functioning around well-equipped central health units.

UNICEF was formed in 1947 to assist for children in war-torn and underdeveloped countries. In 1950 emphasis was shifted to needs of children in underdeveloped countries. About 22,000,000 children and 100,000,000 adults in 35 countries benefited from UNICEF programme in 1950.

THE Best Race Ball was held at the Duke of York School and strongly supported by members of the Oxford and Cambridge Society, was a huge success. The smooth efficiency and increasing drive of the headmaster, Mr. R. H. James, carried the dance through with good fun and all the Sunday morning. Hosts were on the spot of many people, especially Mr. James who had arranged his program hours in a very agreeable manner. The dancing was transformed into a social occasion and the dancing was so good that many couples were seen to leave the ball at an early hour.

THE Calendar indicates the following dates for the coming week: Monday, April 2, 1928. The exhibition, which is to be held on April 2, 1928, will be held at the Duke of York School.

Mr. Hammarskjold leaves on mission

EMERGENCY TALKS AT LONDON AIRPORT TODAY
ACTION by United Nations officials yesterday stopped fighting between Egyptian and Israeli troops along the Gaza demarcation strip, after more than 150 people had been killed or wounded.

The situation was yesterday described as tense. Mr. Dag Hammarskjold, U.N. Secretary-General, is flying to the Middle East on a sounding mission. He will have emergency talks with the British Foreign Secretary, Mr. Selwyn Lloyd, today at London Airport.

Two hours after his departure for the Middle East, Mr. Hammarskjold left on his way to the Middle East. He will be accompanied by Mr. H. H. H. Burns, his personal secretary.

REFUGEE CAMPS
The Israeli claim that the camp is for Egyptian refugees is being denied by the United Nations. It is stated that the camp is for Palestinian refugees.

FLY THE WINGED ARROW SERVICE
The Winged Arrow Service is a new airline service between London and Nairobi.

GAZA

Two Syrians were mentioned in the exchange which took place between the Egyptian and Israeli forces. The Egyptian forces were reported to have captured a large number of Israeli soldiers.

CALL FOR RESTRAINT
Mr. Hammarskjold has called for restraint on both sides. He has urged both the Egyptian and Israeli forces to stop fighting.

The claim was expressed in the British Press at a meeting between the Egyptian and Israeli forces. It was stated that the Egyptian forces had captured a large number of Israeli soldiers.

REPLY NOT PROBABLE
Both President Hammarskjold and his personal secretary, Mr. H. H. H. Burns, are expected to return to the Middle East in the near future.

ALGERIA
The Algerian Government has announced that it will support the Egyptian position in the Gaza demarcation strip.

50 per cent UGANDA RISE: 30 per cent in KENYA

CAR-OWNERS in East Africa will pay higher premiums rates for comprehensive cover as from June 1. The increase is due to the rise in the cost of repairs.

PLAN TO DRIVE MUSLIMS OUT OF KASHMIR ALLEGED
MR. MOHAMAD A. LI, Prime Minister of Pakistan, claimed in Karachi yesterday that India had the plan to drive out the present Muslim population of Kashmir.

Adjustment needed
It has become apparent that the present rates of premium for comprehensive cover are insufficient to meet the cost of repairs.

Neither Pakistan nor the United States will support any decision which would be based on any assumption that the people of the Middle East are not entitled to self-determination.

Sharp drop in Uganda cotton prices

There was a sharp drop in prices of Thursday's cotton in Kampala. For some varieties, the fall was more than six cents a lb. compared with the previous sale.

Some factors cited by traders as affecting the price of Uganda cotton were the news that China would buy more cotton from Uganda and the agreement between the two countries to increase the volume of trade.

VITAL ISSUES IN LEAGUE MAY BE DECIDED TODAY

Manchester United appear to have championship 'in bag'

AROUND 5 o'clock GMT this afternoon, the Old Trafford crowd will probably be facing a giant war to signal Manchester United's second League championship season. For United, in racing parlance, are virtually 'home and dry'. With a six-point lead and three games to play they need one point to put the title beyond doubt. And they should get that, as their challengers Blackpool visit them today.

Blackpool, having played a game now, have even points in league with Manchester City, and are expected to visit Old Trafford this afternoon at 6 PM. United, although a draw at the home side, are unbeaten at home all this season and have, in fact, only one scorers. They may do better in the away fixture with their outside League victory today.

Their outside League victory is important, for in addition to what they were running in 1951-52, they will have to play the London side, Arsenal, who are unbeaten in the League. Arsenal have lost two matches in the League, but they were running in 1951-52, they will have to play the London side, Arsenal, who are unbeaten in the League. INDIAN ADVICE ON HOME RULE

Non-violence campaign success recalled

PEOPLE in India are firmly convinced that they could never have had their independence had they not accepted and acted on the principle of non-violence in the message the Indian people are sending to all people who are aspiring to self-determination.
