Indian candidate lists 'defects' in Lyttelton Plan

DOMINATION OVER NON-WHITES

PARTY between Africans and non-Africans in legislative Council should replace party in Lyttelton Plan, said Mr. J. M. Nyanza, one of the Nairobi Indian Association's nominated candidates for the Council elections, told members of his organization on Monday evening.

Mr. Nyanza said that the Lyttelton Plan, which had to come into effect on July 1, was a "package deal" which would give the Indians a share in the Government but would leave the non-Whites in a dominant position. He said that the plan was "a package deal" which would give the Indians a share in the Government but would leave the non-Whites in a dominant position.

EXPORTS OF UGANDA FISH DROP

More competition in Belgian Congo

INCREASED competition from the Belgian Congo, particularly in the production of frozen fish, has resulted in a drop of 25 per cent in the exports of said and smoked dried fish from Uganda.

It is said that the Belgians have been able to sell their fish at a lower price than the Ugandans, and this has resulted in a drop in the exports of Ugandan fish.

Three organisations for child welfare work in Kenya

SINCE there appears to be some confusion in the minds of the public about the children's welfare organisations for Kenya, we shall be glad to publish a list of these organisations. The Kenya Welfare Organisation, which was formed in 1954, is a voluntary organisation which has been successful in its work for the welfare of children in Kenya. It has been successful in its work for the welfare of children in Kenya. It has been successful in its work for the welfare of children in Kenya.

generally. Here in Nairobi, every day I see many people who are not happy and who are not getting on. They are not getting on because they are not getting on. They are not getting on because they are not getting on. They are not getting on because they are not getting on.

LETTERS TO THE EDITOR

Dear Sir, I am writing to you to tell you about the children's welfare organisations in Kenya. I am writing to you to tell you about the children's welfare organisations in Kenya. I am writing to you to tell you about the children's welfare organisations in Kenya.

BMC DIESEL

Yah, the Morris 2/3-tonner with its BMC 4-cylinder Diesel engine is a pillar of strength to the operator who wants to keep his truckside down. It has an exceptionally strong, rigid frame giving very long wheelbase and extra low centre of gravity. It is designed to give the maximum loading space; that means lower costs. The engine, with its bearing-mounting crankshaft and wet cylinder liners, is really built for heavy work and high mileage; that, too, means lower costs. You will want a Morris/B.M.C. A second look at Russia's economic drive

By W. N. EWER

THE Soviet economic drive into South Asia and the Middle East is a new and important factor in world affairs, because of its cultural and political importance. Yet it would be a mistake to overestimate its importance, to exaggerate...

Some of its more basic facts are more dramatic. To assess its importance, however, it is necessary to take a broad perspective of the whole economy... The first provision of capital goods, whether by way of direct investment or of credits for purchase...

WESTERN AID

The first in the provision of capital goods to the Soviet Union... was in the form of British... The second in the form of American... The third in the form of German...

A TRIANGLE HOLD

So looking at the question as a whole, one concludes that the Soviet drive into the Middle East is a challenge to the economic power of the West...

WESTERN AID (continued)

By contrast with that in the case of the Middle East, the Soviet drive into the Middle East is a challenge to the economic power of the West...

WESTERN AID (continued)

Offer of £1 for every Test run Hospital keeps fingers crossed

THE management of a famous hospital... Lord's has its fingers crossed for good weather and big hitting in the Social Test which starts tomorrow.

For an anonymous donor has promised the hospital a reward for every run scored. The hospital is the Royal Free Hospital, St. Elizabeth, and in the past has benefited from the Social Test which starts tomorrow.

The management hopes to benefit £2,000 from a "Social Test" for every run scored. The plan is to award a reward of £1 for every run scored in the Social Test which starts tomorrow.

Olympic declaration of amateur status plan

COMPETITORS in the Olympic Games may be asked by the International Olympic Committee to sign declaration that they are, and intend to remain, amateurs.

The IOC president, Mr. Avery Brundage said in Stockholm. He added that the Executive Board had discussed the matter.

"We do not want Olympic competitors to be professional athletes," Mr. Brundage said. "We cannot have a situation where some are paid and others are not."

At the meeting, the board proposed a proposal for a minimum age of 18 or 19 years for competitors. It suggested that the IOC should be asked to sign a declaration that they are, and intend to remain, amateurs.

ONLY one name in the 13 selected to provide the England team for the second Test at Lord's has caused the eyebrows among cricket followers. That name is Douglas Hazle, 20-year-old amateur captain and leading batsman. He has made only two appearances in Test cricket. His inclusion has raised a great deal of speculation about the selectors' plans.

Had I an omniscient ball reason behind his choice in that the England selectors are looking for a batsman who can score runs at a fast rate. Hazle, at the moment England's leading batsman, has scored 1,000 runs in 10 Tests. He is a right-handed batsman and a right-arm fast bowler.

The M.C.C. team to South Africa is made of five opening batsmen and four bowlers. They are looking for a batsman who can score runs at a fast rate. Hazle, at the moment England's leading batsman, has scored 1,000 runs in 10 Tests. He is a right-handed batsman and a right-arm fast bowler.

Commission of Inquiry lays blame for Nair ratepayers' losses

FAILURE OF OFFICIALS TO GIVE WARNINGS

THE principal responsibility for failure of officials which resulted in heavy losses to Nair ratepayers, is apportioned by the Commission of Inquiry to the admitted failure of the responsible officials of the Nairobi City Council, to make representations, warnings, to the Mayor, Deputy Mayor or to the members of the Council, that the number of projects that had been proposed to be undertaken, were quite beyond the capacity of the available professional staff.

The Commission's report, published yesterday, says there was also the unusual and untimely circumstance that there were simultaneously in the employ of the Council, on the City Engineer's staff, three persons who did not hesitate to enter upon a course of deliberate fraud at the expense of the Council, which we cannot credit as being a course which was facilitated by the absence of effective supervision.

The three persons are named as Mr. H. Wilson, former Mayor, who was killed on the railway last year; Mr. P. J. Keogh, former Mayor, and Mr. P. J. Keogh, former Mayor.

Lack of liaison

"But, making allowance for these factors, there remains the consideration that the mere fact of the vital non-attendance of the professional staff on the part of representatives of the ratepayers would seem to lead to the conclusion that there must have been a lack of liaison, both in the past and in the future, and the elected representatives which has worked to the detriment of the city, the report continues.

"For this state of affairs we have to blame the fact that a state of the responsibility must be borne by the Council, and the elected representatives which has worked to the detriment of the city, the report continues.

"Overall breakdown"

"Moreover, Mr. Bridger the former City Engineer, who he himself admits, must be held largely to blame for the overall breakdown in the administration of the City Engineer's Department, which has resulted in the desirable irregularities disclosed in the report.

Members of the Commission—Mr. Alan Rose (Chairman), Mr. P. C. Farr and Mr. J. Brian Clark state that the Commission's terms of reference were to inquire into the causes of the overall breakdown in the administration of the City Engineer's Department, which has resulted in the desirable irregularities disclosed in the report.

individual members of the Council and the general conduct of administration. Mr. Rose said that the Commission's terms of reference were to inquire into the causes of the overall breakdown in the administration of the City Engineer's Department, which has resulted in the desirable irregularities disclosed in the report.

Mr. Rose said that the Commission's terms of reference were to inquire into the causes of the overall breakdown in the administration of the City Engineer's Department, which has resulted in the desirable irregularities disclosed in the report.

Cost to ratepayers

"We fully accept and appreciate the fact that the Commission has made these findings, but the significance of the report, in our opinion, is that although details may differ, it is a substantial figure which whatever course the Council now adopts in respect of the houses on these estates, would mean financial losses to the ratepayers of the order of £100,000.

"The report continues: "The fact that the significance of the report, in our opinion, is that although details may differ, it is a substantial figure which whatever course the Council now adopts in respect of the houses on these estates, would mean financial losses to the ratepayers of the order of £100,000.

General level

"The report continues: "The fact that the significance of the report, in our opinion, is that although details may differ, it is a substantial figure which whatever course the Council now adopts in respect of the houses on these estates, would mean financial losses to the ratepayers of the order of £100,000.

Not favourable

"On a number of occasions we have been told and by what we saw when we inspected the site of the houses on these estates, that the work was not quite so well as in either of the two contracts with which we have already dealt. The report continues: "The fact that the significance of the report, in our opinion, is that although details may differ, it is a substantial figure which whatever course the Council now adopts in respect of the houses on these estates, would mean financial losses to the ratepayers of the order of £100,000.

Substantial loss

"The report continues: "The fact that the significance of the report, in our opinion, is that although details may differ, it is a substantial figure which whatever course the Council now adopts in respect of the houses on these estates, would mean financial losses to the ratepayers of the order of £100,000.

Sharon, who has recently been appointed City Engineer, was asked whether he had heard of the work on these estates, and he replied that he had not. Mr. Rose said that the Commission's terms of reference were to inquire into the causes of the overall breakdown in the administration of the City Engineer's Department, which has resulted in the desirable irregularities disclosed in the report.

"Moreover, there were two other persons on the staff of the City Engineer's Department, who were also in the employ of the Council, on the City Engineer's staff, three persons who did not hesitate to enter upon a course of deliberate fraud at the expense of the Council, which we cannot credit as being a course which was facilitated by the absence of effective supervision.

Liability for payment

"Secondly, we have the fact that the Council has not been able to pay the bills for the work on these estates, and this is a very serious matter, as it is a substantial figure which whatever course the Council now adopts in respect of the houses on these estates, would mean financial losses to the ratepayers of the order of £100,000.

Limited capacity

"The report continues: "The fact that the significance of the report, in our opinion, is that although details may differ, it is a substantial figure which whatever course the Council now adopts in respect of the houses on these estates, would mean financial losses to the ratepayers of the order of £100,000.

"Mr. Tanner, in a letter to Mr. Rose, said that he had heard of the work on these estates, and he replied that he had not. Mr. Rose said that the Commission's terms of reference were to inquire into the causes of the overall breakdown in the administration of the City Engineer's Department, which has resulted in the desirable irregularities disclosed in the report.

ough to accommodate them temporarily by using a £200,000 alternative fund. Mr. Someri, who was of the opinion that the Government was not doing enough to help the housing problem, said that the Government should be more active in the matter. He said that the Government should be more active in the matter of housing, and that it should be more active in the matter of housing.

Main responsibility

"Whether the general responsibility for the housing problem lies with the Government or with the private sector, we must be clear that the Government has a major role to play in the matter. It is the Government's responsibility to ensure that the housing problem is solved, and that it is the Government's responsibility to ensure that the housing problem is solved."

Order approved

The Council of the Nairobi Housing Establishment has approved an order which will enable it to acquire land for housing purposes. The order was passed by a majority of 12 to 8. The order will enable the Council to acquire land for housing purposes, and it will also enable the Council to acquire land for housing purposes.

Under protest

Dealing with Mr. Stone, the Commissioner stated: "We are quite satisfied, and indeed Mr. Stone himself does not contend to the contrary - that not only the technical details but also the financial details of the proposed scheme are satisfactory. It is, however, a matter of fact that the proposed scheme is not in accordance with the provisions of the Housing Act, and that it is not in accordance with the provisions of the Housing Act."

No substance

The question, in the course of the technical details of the proposed scheme, was whether the proposed scheme was in accordance with the provisions of the Housing Act. The Commissioner stated that the proposed scheme was not in accordance with the provisions of the Housing Act, and that it was not in accordance with the provisions of the Housing Act.

Fully protected

As far as the firm of Hutcheson & Co. is concerned, the Commissioner stated that the firm was fully protected in the matter of the proposed scheme. The Commissioner stated that the firm was fully protected in the matter of the proposed scheme, and that it was fully protected in the matter of the proposed scheme.

whose interests they were protected by the Council. The Council of the Nairobi Housing Establishment has approved an order which will enable it to acquire land for housing purposes. The order was passed by a majority of 12 to 8. The order will enable the Council to acquire land for housing purposes, and it will also enable the Council to acquire land for housing purposes.

Economic price

However, it would have been a great relief to have seen the Council taking the necessary steps to ensure that the housing problem is solved. The Council should be more active in the matter of housing, and it should be more active in the matter of housing.

Threatening attitude

Mr. Stone gave evidence that during 1955 he had been in contact with the Council of the Nairobi Housing Establishment. He stated that the Council had been in contact with the Council of the Nairobi Housing Establishment, and that it had been in contact with the Council of the Nairobi Housing Establishment.

Basic criticism

The criticism of the Council of the Nairobi Housing Establishment is that it has not been able to solve the housing problem. The Council should be more active in the matter of housing, and it should be more active in the matter of housing.

Vulnerable position

While it is true that the Council of the Nairobi Housing Establishment has made some progress in the matter of housing, it is still in a vulnerable position. The Council should be more active in the matter of housing, and it should be more active in the matter of housing.

nevertheless they consider that the Government should be more active in the matter of housing. The Government should be more active in the matter of housing, and it should be more active in the matter of housing.

Over-measurement

Commission cites examples of contract laxity

Question of policy
The 27 members of the committee, which was appointed by the Council on June 15, 1935, to investigate the laxity in the awarding of contracts, have today issued a report which is a scathing indictment of the Council's handling of the matter.

The report, which is a 100-page document, states that the Council has been guilty of "gross negligence" in the awarding of contracts. It cites numerous examples of laxity, including the awarding of contracts to firms which were not qualified to do the work, and the awarding of contracts to firms which had no previous experience in the field.

The report also criticizes the Council's failure to conduct proper investigations of the firms which were awarded contracts. It states that the Council has often failed to check the references of the firms, and has often failed to check the financial statements of the firms.

The report concludes that the Council's handling of the matter has been "a disgrace to the Council and to the Government." It recommends that the Council should be reorganized, and that the awarding of contracts should be placed in the hands of a separate body.

FingerTip Control

Don't spread the mud on your windscreen with dry wipers. Wash it off with a Lucas screen jet. A momentary fingertip pressure on the switch sends jets of water on to the windscreen and your wipers do the rest. The LUCAS ELECTRIC SCREEN JET is an essential part of every car's equipment in East Africa, and it's an inexpensive item at the 195/- in Nairobi.

INSOLE COMPLETES 1,000 RUNS ON EVE OF TEST

Canadian wins vacant Empire boxing title

GORDON WALLACE, of Canada, won the vacant Empire light-heavyweight title when he outboxed the British champion, Ron Barron, at London, the British champion, over 15 rounds on Tuesday.

Wallace, weighing nearly 150 lbs., had a very close fight with Barron, who was 128 lbs. at the start, in the 12th round. Barron was knocked down after a fight of eight rounds but he regained his feet another half hour from the start.

Barron's form was a puzzle from start to finish. His scores looked strong, never had a round lost, but he was out of his mind in the 12th round. Wallace's victory was a surprise because he had never won a fight before.

Done no training After the fight Barron said he fought with his eyes on the back. Wallace said he had done no training for the fight. He said he had done his best.

Australians yet to record victory over county side

DOUG INSOLE, the Essex cricket captain, who is among the 13 England players named for the second Test against the Australians, which begins at Lord's on Tuesday. He did so when he was captain of the Essex county side at Chelmsford. From 20 innings, Insole has scored 1,000 runs for Essex, his highest being 160 against Northamptonshire.

Insole was also the first to score the century in a Test, when he was 19 years old. He has scored 1,000 runs in one season, in 1937, when he played 20 runs less on, on August 21.

Tourists draw The Australian tourists, who have yet to record their first victory over a county side, drew with Kent, bowled out of the championship by a run to two days at Canterbury.

The Australians, who played the second Test yesterday, have now played 11 Test matches, having first Test Australia 10 to reply to the Australians, who had lost 4 to the tourists, made 45 runs in the first Test at Trenton. First dropped

Martin Brown, the West Indies batsman, was dropped from the first Test at Trenton. He was dropped because of a leg injury. He was dropped because of a leg injury.

Springbok show best form in New Zealand Two replacements flying out

THE South African Rugby Union team showed the best form of their New Zealand tour so far when they beat the combined Warwick and Gloucestershire sides yesterday by 14 points (one goal, two penalty goals and try) to 10 (two tries).

The Springboks led 6-3 at half-time. Despite the rain, the Springboks are showing the best form of their New Zealand tour so far when they beat the combined Warwick and Gloucestershire sides yesterday by 14 points (one goal, two penalty goals and try) to 10 (two tries).

LENGTHEN YOUR STRIDE

with OVERDRIVE

Of all the optional car equipment available, the modern car owner, none brings you so many advantages or such lasting satisfaction as an overdrive. Moreover, its initial cost is largely offset by the savings made in fuel and maintenance. When equipped, an overdrive adds an extra two high ratios to the normal gearbox. When equipped, it saves engine speeds by about 30 per cent, but the car travels at the same road speeds. That, both fuel consumption and engine stress are reduced without loss of efficiency, a highly desirable and money-saving feature with your car. This overdrive neither adds to the difficulty of driving nor detracts in any way from pleasure. Because it will operate entirely automatically or under the conscious control of the driver, the overdrive is operated electrically, automatically "cuts-in" whenever the car reaches a speed of 23 miles per hour, and "cuts-out" as soon as the speed falls below 25 miles per hour. Under normal driving conditions, the overdrive is, therefore, engaged during a very considerable part of the time occupied by any journey. As the engine speed is reduced throughout this period by about 30 per cent, it is plain that considerable savings in fuel will be made. It is just this added fuel economy which alone makes an overdrive a "must" for the modern car owner. And it brings him other benefits besides. It should be remembered, too, that the savings made are cumulative. The greater the miles mileage, the more the car owner saves in fuel cost.

LOWIS & MORGAN

It's a question of harmony... There are forty-two different whiskeys in the Ballantine's blend. Each one has a character and a reflection of the district where it is distilled. And yet, blended to a hundred-jarred formula, these forty-two notes of Ballantine's, the superb Scotch. Such is the art of the blender and his forebear.

MATCH-WINNING KICK STRUCK THE CROSSBAR

Police draw with R.U. of E.A. XV

A CONVERSION kick by Meninges late in the game which struck the crossbar and rebounded into play prevented the Rugby Union of East Africa XV from beating the Kenya Police representative XV in their match on the Show Ground at the close of Nakuru Festival Week on Saturday.

On the half-way line, ran strongly into the Kenyan defence. The ball struck the crossbar and rebounded into play. Meninges missed the conversion but the Kenyan XV were now 10-5 in front.

The vital goal The Rugby Union forwards were unable to convert, but Meninges missed the conversion but the Kenyan XV were now 10-5 in front.

ASSURED FUTURE FOR TOURIST ASSOCIATION

DETAILS have not yet been received by the East African Tourist Association from the Kenya Government regarding the proposed hotel. This was announced by the chairman of the Executive Committee, Mr. H. J. Adams, who said: "I am in touch with the Ministry of Commerce and Industries and in fact, arrangements are being made to discuss these plans. It is hoped that the knowledge concerning the location of the hotel and the methods of financing the hotel."

'Innocent of conspiracy': Nairobi court defence

Mr. J. McKerr, representing the Ministry of Commerce and Industries, stated that the defendant was taking legal proceedings to clear his name. He said that the defendant was innocent of the conspiracy and that the charges were unfounded. The court heard evidence from the defendant and his witnesses, who claimed that they had no knowledge of the alleged conspiracy.

Additional £9,300

The Territorial Government has announced that it will contribute an additional £9,300 towards the cost of the proposed hotel. This contribution is in addition to the £100,000 already allocated for the project. The hotel is expected to be completed by the end of the year.

Apia on upgrade

With this increase in tourism, Apia has become one of the most popular holiday resorts in the region. The number of tourists visiting Apia has increased significantly in recent years, and this has led to a demand for more accommodation and services. The local authorities are planning to upgrade the town to meet this demand.

KAMIRITHU VOTED BEST VILLAGE

Kiambu prize presentations were held in Nairobi, where Kamirithu was voted the best village in the region. The award was presented to the village headman, Mr. Douglas Powell, who thanked the organizers for their efforts. Kamirithu has a long history of excellence in agriculture and community development.

TOURISTS ALL UP FOR THREE WINS WITH TIME TO SPARE

285 IN FIRST INNINGS

England kept in field for two days of sedate cricket

The Australian tourists were dismissed for 285 runs in their first innings on the second day of the second Test at Lord's yesterday. During the day, runs appeared at the rate of most balanced concentration on keeping their wickets intact in a display of sedate cricket reminiscent of the 1930s.

The last two wickets fell in the first hour of the day. Australia lost a wicket for 180 but recovered to an overnight score of 170 for three wickets before the first hour of the second day. The first wicket fell in the first hour of the second day. The first wicket fell in the first hour of the second day.

Batley and Wardle shared the wicket after hours and were dismissed at the bottom of the first hour. The first wicket fell in the first hour of the second day.

The first wicket fell in the first hour of the second day. The first wicket fell in the first hour of the second day.

Improved scoring

Between the wickets and Archer played a well-tempered, free-flowing knock which topped just inside the 200 mark.

At 120 left-arm spinner, Arthur Mailey, came in to bowl. The attack arrived just before the first time the two spinners had been used together.

Wardle started with the first over but was not so fortunate on the second. He was out for 100 runs in 100 balls.

Final Safari Placings Announced

MR. STRIJDOM STAYS AN HOUR IN NAIROBI

STRICT security precautions were taken at Eastleigh Airport, Nairobi, on Saturday night during the arrival of Mr. Strijdom, Premier of the South African Republic, who was on his way to London for Commonwealth Prime Ministers' conference.

A police officer, who refused to confirm or deny a statement that he had been requested to take Mr. Strijdom to the airport, said that the Premier was met at the airport by a large contingent of European and African police officers. Mr. Strijdom's motorcade was escorted by a police unit on the tarmac. The Premier was not allowed to leave the aircraft's arrival area until he had been escorted to the hotel by a motorcade of police officers.

Mr. Strijdom, Premier of the South African Republic, arrived in London on Saturday night, accompanied by the External Affairs and Finance Ministers for discussion of the Commonwealth Prime Ministers' conference which opens at 10 Downing Street on Wednesday.

A living demonstration that wealth is trivial

By Michael Davis

Sir Bernard and Lady Docker after a visit to the Wagon Haulage Depot, last night. Sir Bernard is seen on the left with a motorist's hat. The bus has just left.

THE Dockers are a living demonstration that wealth is trivial, for they own an £250,000 yacht and drive the Lady Docker, a motor yacht of the same class, but they have not been seen for months. Their only appearance was at the Wagon Haulage Depot, last night, when they were seen on the left with a motorist's hat. The bus has just left.

THE TRUTH is that the Dockers are highly afraid of the rich, that they are not only afraid of the rich but also of the poor. They are not only afraid of the rich but also of the poor. They are not only afraid of the rich but also of the poor.

NO POWER The Dockers have created in the past few years the impression on the public mind that they are, in fact, a very powerful family. They are not only powerful but also rich. They are not only powerful but also rich.

There are two things that have happened in the past few years which have divided the British nation into two camps. The first is the fact that the British nation has been divided into two camps. The first is the fact that the British nation has been divided into two camps.

SIX MEN SEEK CITY BUILT 3,000 YEARS AGO

Lost in 'Beuchanaland desert'

SIX men leave Nottingham Road, Naita, today on a 1,000-mile journey to the mountains of Aha in Beuchanaland, where they will begin the search for a lost city in the desert between Beuchanaland and South-West Africa. The lost city was found by the American explorer G. A. Farnin in 1885, but has never since been seen since by a White man.

This is the ninth expedition to seek the lost city, and was led by Mr. Theobald and Mr. H. B. Hooten, who lived for some years in the British Protectorate of Beuchanaland.

Lost by Maj. D. C. Flower, the expedition will include Mr. Alan Patten, the author of *Beuchanaland*; Mr. Leonard Tree, a lecturer at Nottingham; Mr. Kevin Westermarling, an physicist at Makerere University College; and Mr. Brian Peck, an engineer.

They will set off in a motor truck equipped with medical supplies, food, water and equipment.

They will establish camp at Kwaitsa, south of the mountains of Aha, and begin a search for a small white oasis like a Chinese wall after the fashion of Mr. Hooten, the only man in the expedition who has travelled the region.

Mr. Hooten, the only man in the expedition who has travelled the region, is a Maasi in Beuchanaland. He has travelled the region for some 300 miles further north than any other white man.

He has mapped the spot on the map in 1885, but has never since been seen. The expedition is expected to reach the region in about 10 days.

British Monte Bello tests 'harmless'

Colonial shortage relieved

BRITISH had been no risk to the property from the atomic tests at the Monte Bello Islands, Prime Minister, Sir Robert Menzies, said yesterday.

The statement followed a meeting of conference between scientists and Mr. Howard Beale, the Supply Minister.

The acting Prime Minister said that the Atomic Energy Commission of the Australian safety authorities had given the tests a 'green light' assurance that there was no risk involved in the tests.

The tests were reported that 'some cloud' containing radioactive particles from a jet plane at Monte Bello on June 13 had drifted to a great height over the mountains in North-Western Australia.

Mr. Arthur Fadden said that the cloud was tracked by aircraft and there was no evidence that it crossed the Australian coast. He said that the tests had all radioactive particles had fallen on the coast.

**Test odd heavily stacked in
favour of Australia
ENGLAND NEED STAYER**

From **LEN HUTTON, Lord's, Monday**

ALTHOUGH the odds are now heavily stacked in the favour of Australia, victory in the second Test match should not be difficult for the visitors, provided they should be able to play the way they did in the first. The advantage of a very fast bowler is a very big one.

The English bowlers have been very good in the first innings, but they have not been able to take the wickets of the batsmen who have been playing very well. The batsmen have been playing very well, and they have been able to take the wickets of the bowlers who have been playing very well.

**KENYA LADIES' AMATEUR
GOLF CHAMPIONSHIP**

THIS year's Kenya Ladies' amateur golf championship is being played just outside Nairobi and on the pleasant Nairobi Golf Course. It was ten years ago since the championship was played there, and in that year, Mrs. Injery was the winner. Since then the championship has been played four times.

The remaining championship was won by Mrs. Injery in 1947 and 1948 at Nakuru, 1951 at Nakuru, and 1954 at Kisumu.
