## GERMAN INFLUENCE IN SPANISH MORE

### Sensational Reports of Political Activities

#### BERLIN DENIES THAT TROOPS HAVE ENTERED THE COUNTRY

##### Anxiety in France

#### BRITISH CABINET KEEPING IN CLOSE TOUCH WITH THE SITUATION

The interest in the Spanish war shifts to Morocco.

Reported German activities there are causing some disquiet and the French Government has made a protest to General Franco.

Although it is officially denied in Germany that any troops have been sent either to Spain or to Spanish Morocco and although it is suggested that those reports are simply a ruse intended by the foreign press to complicate international relationships, the denial has not eased the anxiety which is felt, particularly in France.

It is understood that the British Cabinet discussed the Moroccan question at meetings on Friday and Saturday and that the Foreign Office is being kept closely informed by British representatives in Morocco.

##### Protest to General Franco

China Story of Devotion to Commercial Ideal

An original plot, a colorful background, romance and adventure... China Story of Devotion to Commercial Ideal

The Story Stephen Chase (Pat O'Brien) is located in his loyalty to his firm. He finds him to all other localities, and so sacrifices to the great for the cause he has at heart.

And the Cast Pat O'Brien gives a realistic study of the rugged, unshining Stephen Chase, but his outstanding performance of the film is that of Josephine Hutchinson as Heather.

THE FILM "Oil for the Lamps of China" THE STARS: Josephine Hutchinson, Pat O'Brien.

THE VERDICT: One of the best production films.

CAPITOL THEATRE: Monday, Tuesday and Wednesday.

Half-Back Murdered on the Field

FOOTBALL GAMES FOR NEW CRICKET ANGLE

Most murders are committed in the dark, in secrecy, and it is only occasionally that the murderer comes out into the open after his victim. In "70,000 Witnesses," a football mystery drama set in college grounds, a famous half-back is murdered as he dashes for a touch-down.

And the Cast Charles Rogers is not only a star half-back on the screen, and played it for his college in the real championship.

THE FILM: "70,000 Witnesses." THE STARS: Charles Rogers, Philip Holmes, Charlie Saggies.

THE VERDICT: Interesting crime story.

STOMACH PAINS THAT "CUT LIKE A KNIFE"

Mr. J. F. S. was going cheerfully about his daily work when he was suddenly stricken with stomach trouble that required weeks of medical attention.

"I was a fine fellow in my self, but I have realized from using your great preparation, the medicine, that I had a sudden attack of stomach trouble and was under the doctor's care for a month with hardly any benefit, although the medicine was changed three times."

"Sometimes I had taken only half my dinner and had to walk about the room, the pain was so dreadful, like a knife cutting me. A hot or cold drink would cause me to vomit."

"Having read about the cure offered by Maclean's Stomach Powder, I got a bottle, and after taking three or four doses I was cured and have had no return. I recommend your fine preparation to suffering friends."

"Don't think with stomach trouble, the cure is Maclean's Stomach Powder, the one known cure for stomach trouble."

"I was cured and have had no return. I recommend your fine preparation to suffering friends."

WOMAN DOCTOR BUYS AN ISLAND

Ten Acres of Utter Perfection

ONE HOUR - NO PHONE

"STANDARD" CORRESPONDENT.

London, December 29. Dr. Dorothy Anderson Sharp of Portland-place, Marylebone, has just bought a small island in the Firth of Clyde in the name of her husband, Dr. J. W. Anderson Sharp.

She has bought Eborah Island which lies just off the coast of Douglas about half a mile from Barmouth.

It is not far from the coast, but the island is a beautiful summer retreat.

A Shattered Boy. Eborah Island is ten acres in area, and, sheltered from the Atlantic, is always accessible from the mainland.

"As soon as I see it I decided to buy it solely as a place where I could go and have a quiet holiday."

"I had always wanted to find a place where there are no telephones and not too many people to worry about."

**AMAZING LIFE OF LADY HASTON**  
 (Continued from page 6.)

**Business Woman**

Lady Houston was a devoted business woman. What she did not know about her beauty and money, the wisdom of investment, and the opportunity was very worldly. Her life was generous almost to fault, but she demanded respect and freedom from those she served.

**Recipe for Beauty**

As Lady Hamilton she was one of the reigning beauties of London. "Cold water and a healthy mind," she used to say. "But look at her every morning until five or five years ago."

**Third Husband**

Lady Hamilton had had four husbands. Her first husband was Lord Bunsford, who she married in 1818. Her second was Lord Bunsford, who she married in 1821. Her third was Lord Bunsford, who she married in 1824. Her fourth was Lord Bunsford, who she married in 1827.

**Empire Favorite**

Her belief in the British Empire and her devotion to "old-fashioned" conservative and imperialistic political doctrines was famous. She believed that the British Empire was the greatest of all empires, and that it was the duty of every British subject to support it.

**"Mysteries" Death**

Lady Houston died in 1898. Under her will Lady Houston bequeathed to her daughter, Lady Houston, the sum of £100,000. She also left her daughter, Lady Houston, the sum of £100,000.

**Love Lost**

Lady Houston lived the way, and spent some months of the year on the coast. Her admirers were many, and she was known as the "Queen of the Coast."

# Nairobi Has a Little More Water To-day

## RESULT OF OVERHAULING AN ENGINE

### Position Still Serious

### MISLUDED EFFORTS TO KEEP A PAVEMENT CLEAN

The weekend gave a little relief to the anxiety of the Municipal authorities and the reservoir at Kikuyu gained a little on consumption—there is generally less water used at the weekends.

## Investigating a New Source

The engine which works the pump house in the main dam near the reservoir has been dismantled and cleaned. Before the result of the repairs was known about 15,000 gallons of water were used in the two days. After the overhaul a test run of 24 hours gave the capacity of the engine as 20,000 gallons.

Ambassador Talks to Hitler

BLAME FOR TENSION BEING PLACED UPON AN EXCITABLE PARIS PRESS

Responsible French circles are now inclined to believe that the French newspaper reports of the landing of Germans in Spanish Morocco were exaggerated.

The position has been greatly improved by frank conversations in Berlin between the French Ambassador and Hitler.

Members of the German Press are also adopting a more circumspect attitude and some of them suggest that the story was deliberately fabricated in France to alarm the British public.

Fleet Manoeuvres

The Spanish fleet and its equipment to help the cause of peace. It is suggested that the Moroccan war was deliberately initiated to alarm Britain.

# Gas Masks for the British Public

## MASS PRODUCTION PLANS WELL AHEAD

### Leading the World

(LONDON SERVICE AGENCY)

LONDON, Jan. 13.—The British Government is pressing on with the task of manufacturing gas masks. One of the important factors at Blackburn where containers are made. The plan provides for mass production of these masks, various parts being made at different factories.

The present output at Blackburn is about 150,000 a week.

### MANY DEPOTS

Depots have also been established in many parts of the country and the work is so well advanced that London will be well provided with gas masks in a few weeks.

Britain is the only country in the world which has made plans against gas attacks on so large a scale and where provision is made for the free issue to every member of the community in areas likely to be attacked.

### 1,000,000 A MONTH

It is anticipated that the production will soon reach over two million a month. The gas masks will be stored all over the country and will be distributed with the greatest rapidity. They have been tested rigorously and Government is satisfied that they are completely effective against any kind of gas at present known to the authorities. The objective in Britain is to make a gas mask available for every member of the civil population.

### FLU CLAIMS 1,000 VICTIMS

### Heavy Increase in Death Roll

LONDON, Jan. 13.—The number of people who died last week from the influenza epidemic was greater than the deaths during the week before. The virus was more virulent, it is believed. It is officially stated that deaths in the large towns for the week ended January 9 numbered 700 compared with 520 in the previous week.

Plight of English Companies

PRODUCING COPPER FOR INSURGENTS TO SELL TO GERMANY.

The control of volunteers for Spain is a step nearer. Portugal has accepted the principle and is prepared to stop their transit through Portuguese territory but will await action by the other Powers.

An interesting sidelight of the Spanish position is provided by the experience of two British copper mining companies in Spain whose production is being bought by the insurgents at half its value and it is alleged, handed over to Germany. Hitherto the companies had been afraid to protest.

Further British ship has been stopped and examined but was allowed to proceed.

From the South there are unconfirmed rumors of hurried insurgent calls for reinforcements to meet the strong Government offensive.

More Interference with Shipping

The insurance value is reported to have risen a blank sheet in order to avoid the insurance companies.

The British ship was intercepted by the Portuguese and allowed to proceed.

UNION CONTROL OVER ALIENS

Important Measure Before Assembly

NOT AHEAD AT YET

Mr. Statton, Minister for the Interior who moved the second reading explained that the basis of the bill was the objective principle of allowing the best characteristics of other people to be woven into the fabric of the national life.

Mr. Statton, Minister for the Interior who moved the second reading explained that the basis of the bill was the objective principle of allowing the best characteristics of other people to be woven into the fabric of the national life.

Necessary Control

This measure, Mr. Statton said, was not aimed at the Jews but it was necessary to control immigration, diversify the population and also to ensure that the country was not flooded with unskilled labor.

Dr. Malin, quoted the repeal of the Quota Act when there will be no more restriction on Jews from South and Eastern Europe. He suggested that the present Bill should be extended to the whole question of immigration.

General Goering's Talk With Mussolini

PRIVATE VISIT BECOMES A POLITICAL MISSION

Dodecanese Aerodrome

General Goering arrived in Rome on Wednesday evening. He was greeted with full ceremony by Signor Mussolini and a long programme of receptions has been arranged.

It is understood that he will discuss with the Duce and the Foreign Minister, Count Ciano, all questions affecting Italy's foreign policy, including the recent completion of the Anglo-Italian Memorandum of Understanding. It is also possible that he will be given a reassurance that the Agreement does not weaken the link between Italy and Germany and that collaboration between the two countries will continue.

**HOLDERS MEET SECOND DIVISION SIDE**

The English football season is now in its winter of attraction. The competitions have reached the interesting stage, and after preliminary and preliminary rounds have been played in the earlier stages of the season, the third round of the F. A. Cup is now being played. The holders of the cup, the Tottenham Hotspur, will meet the second division side, the Charlton Athletic, in a match which is expected to be one of the most interesting of the season.

There are not many clubs who have been able to progress in the competition of the F. A. Cup, and it is expected that the Tottenham Hotspur will be able to retain their title. The Charlton Athletic, however, are expected to be a strong contender for the cup.

**S. AFRICAN POLO SIDE WIN**

**5-0 Victory Over Nairobi "B"**

**GOOD COMBINATION**

The South African polo team, better known as the "A" team, won a convincing victory over the Nairobi "B" team in a polo match played at the Mathanga Polo Grounds yesterday afternoon. The score was 5 goals to 0 in favor of the South African side. The match was a very interesting one, and the South African team played with great skill and teamwork.

Some Notes

Sand-grouse, Snipe

# The Game Birds of Kenya

The first part of these notes on the game birds of Kenya appeared in the Standard on the 11th of January of 1936. The third and fourth parts will appear in the Standard on the 15th and 22nd of January respectively.

The sand-grouse are essentially birds of the large open plains and desert bush country. They are common in the Northern Territory wherever there is a lead of African bushes and the sand-grouse live the same life as the quail in grassy districts to water. They are very species, at least in the early morning, and others in the early morning and seldom during the day. They are very good guides to the best desert country to see the sand-grouse all over the country. It means water. They are very conservative about their nesting places, and shooing is very common, but not get out of a favorite spot. I have seen them on the Tana River in the morning after morning, to the river, and when the river is a little, slightly covering the river. They flew up and down over the water, and down over the water, and down over the water. They rose from the water.

# Gas Masks for the British Public

(MORNING HERALD'S AGENCY.)

London, Jan. 13.

The British Government is pressing on with the task of manufacturing gas masks. One of the important factors in it is Blackburn's gas mask works, which are the plant for the mass production of these masks, various parts being made at different factories.

The present output at Blackburn is about 150,000 a week.

Depots have also been established in many parts of the country and the work is so well advanced that London will be supplied with gas masks in a few weeks.

Britain is the only country in the world which has made plans against gas attacks on so large a scale and where provision is made for the free issue to every member of the community in areas likely to be attacked.

## 2,000,000 A MONTH

It is anticipated that the production will soon reach over two million a month. The gas masks will be stored all over the country and will be distributed with the greatest rapidity. They have been tested rigorously and Government officials are confident that they are of the very best quality. It is expected that the production will be increased to 2,000,000 a month.
