C.D.C. CRITICISES WORLD BANK PROCEDURES: U.S. INVESTMENT

The annual report of the Colonial Development Corporation says that the standard procedures of the International Bank are inappropriate and unsuitable to the Corporation which however, desires to attract United States capital and technique...

There is no doubt that it would be a good thing for world affairs if there could be a regular flow of capital and technique from the developed to the developing countries...

The Corporation offered a "million dollars" for a five million dollar loan from the World Bank, but negotiations ended in the bank insisting on unacceptable supervision.

The recovery of a slump on the 1950 scale is, in any view, quite likely. It is the same in the case of the United States and other countries...

Private investment is believed to be more reluctant than the British market is to put money abroad, because of a general investment opposition which the United States and because of the heavy political and economic losses in which they have been involved since the outbreak of the war...

Describing Sir Ernest as "the grand old man of the diamond industry," the "Times" said that he had been in the public eye for more than 40 years, added the Minister. "Ever since 1910, when I was a young journalist, I have watched him closely."

It is hoped that the U.S. will be able to provide some investment in the diamond industry in the United States and to encourage the growth of the diamond industry in the United States...

South Africa has passed through a severe financial crisis since the outbreak of the war, but never did I hear a word from the Rhodes to deplore the financial stability of the country.

BRITAIN CONCERNED OVER DEMAND FOR EXPORTS M. G. GATTELLI, British Minister in Johannesburg, Africa, suggested that the British Government should consider some increase in the gold reserves of the United Kingdom...

It is stressed the importance of the investment and said Britain was worried about the progress of the decline in internal demands but was anxious about the danger of a decline in the demand from overseas...

SIR ERNEST SPENHARDT AND DIAMOND INDUSTRY D. T. J. DONNER, South Africa's Minister of Finance, said that the assets at a banquet given in Johannesburg on the occasion of his 70th birthday...

There will be an acute shortage of dollars, he continued. It is felt that in three years time the diamond industry will be better off than it is now, and as the period of Marshall Aid draws to an end they are underlined...

South Africa has passed through a severe financial crisis since the outbreak of the war, but never did I hear a word from the Rhodes to deplore the financial stability of the country.

THE DEFENCE OF EUROPE
DOLLARS V. DEPRESSION

This is the first of three articles specially written by the well-known foreign correspondent ALEXANDER CLIFFORD on the different aspects of the defence of Europe against the assault of Communism

Crux of problem
The problem is whether a Continent can be defended against the assault of Communism

Not prevar yet
Despite all these spectacular increases, many of the major life insurance companies are prevaricating in their particular applications

Inflation pressure
By 1952, they may well estimate, Europe's dollar gap might come to \$10 billion

Cost of Living
To the Editor, "K.A. Standard"
As I am a man of the many who are worried over the mounting cost of living, I am sure you will be interested in the results of a survey
