there's no finer food beverage than Ovaltine

A cup of delicious Ovaltine at bedtime soothes your nerves and is relaxing, too, the right kind of sleep-making element of energy for tomorrow.

While you sleep Ovaltine protects the stomach, sends digestive secretions of the stomach back, correct, full-onset milk and again, the pleasant milk taste.

Let Ovaltine soothe you to sleep tonight—soothe the delicate stomach nerves! There is no substitute for Ovaltine, as it stands in a class by itself.

There is no American breakfast more healthful than Ovaltine with milk. It's the best breakfast in the world.

WHO CARRIES A MUFF IN PARIS?

ELSA M. SANDERS, still in the French capital, describes some aspects of the scene.

THE truth is that Continental holidays are not at all what they used to be. In the old days you could for weeks on end, and I have a French friend who has done this (in fact, he has done it several times) and he was undoubtedly at the height of his career.

But now, the French winter is a different matter. It is a time when the French are not only busy with their work, but also with their social life. They are not the idle rich of old, but the busy professionals and the young people who are making their way in the world.

Paris and London are both in the hands of the fashion designers. The woman in the picture is wearing a dress designed by Christian Dior.

the Marsabit National Reserve

By MERRELL DALTON

It is a fact that the Marsabit National Reserve is one of the most beautiful and interesting in the world. It is a vast area of high mountains and deep valleys, with a rich and varied flora and fauna. The reserve is a true natural wonder, and it is a pleasure to visit it. The scenery is so beautiful that it is hard to believe that it is in the heart of a desert. The mountains are so high that they are often shrouded in mist, and the valleys are so deep that they are often in shadow. The flora is so rich and varied that it is a pleasure to walk through it. The fauna is so interesting that it is a pleasure to see it. The reserve is a true natural wonder, and it is a pleasure to visit it.

HEAVYWEIGHT TITLE CLAIMANTS

Boxer Woodcock by no means a spent force

By FREDERICK MILLS
A general impression is that the boxer, Fred Woodcock, is a spent force. The heavy, but I mean in the other sense. The way things are on the heavy weight world is to be left no longer, and how they are working out. A lot of men happen in the last few years, but they are not the same as the world heavyweight champion. Woodcock is a heavy, but he is not the same as the world heavyweight champion. Woodcock is a heavy, but he is not the same as the world heavyweight champion. Woodcock is a heavy, but he is not the same as the world heavyweight champion.
