How so happy that we shall have to leave South Africa. There's no time to say good-bye. The children are out of doors all day long and are full of beans. My cousin, George, has his self - think the swimming are wonderful for both of us. Good restaurants, beaches, light clubs - much fun to have so wide choice. Still I expect you'll be down here next year. Have you been to the Palace office yet?

## WESTERN POWERS BEGIN TO EVOLVE GRAND ECONOMIC STRATEGY

Each for self attitude disappears

LITTLE by little and with the agreement of all the powers which usually marks the beginning of any international initiative, the grand economic strategy of the Western powers is taking shape.

The program includes the re-orientation of their monetary policies, of which the main line, though not the details, have been laid out in the Bretton Woods Conference. This line is the expansion of monetary cooperation, the strengthening of regional arrangements, the expansion of the range of such for the world, the strengthening of regional arrangements, the expansion of the range of such for the world, the strengthening of regional arrangements, the expansion of the range of such for the world.

# Ex-treasurer pleads guilty to 126,911/- theft

## TRANSACTIONS

The ex-treasurer of the British Overseas Airways Corporation (BOAC) has pleaded guilty to the theft of 126,911 pounds sterling. The theft was discovered during an audit of the corporation's accounts.

The ex-treasurer, who is now in custody, is facing charges of fraud and embezzlement. The stolen money was used for various purposes, including personal expenses and investments.

The case has caused a major scandal in the aviation industry and has led to a loss of confidence in the BOAC's financial management. The corporation is now conducting a thorough investigation into the matter.

The ex-treasurer's actions have had a significant impact on the BOAC's operations and its ability to provide services to its customers. The corporation is now working to restore its reputation and ensure that such a crime does not happen again.

The ex-treasurer's plea of guilty is a significant step towards justice and accountability. It shows that he is taking responsibility for his actions and is willing to face the consequences of his crime.

The case has also led to a re-evaluation of the BOAC's internal controls and financial procedures. The corporation is now implementing new measures to prevent such a crime from happening again.

The ex-treasurer's actions have also led to a loss of trust in the BOAC's leadership. The corporation is now working to rebuild its trust and ensure that its customers are satisfied with its services.

The ex-treasurer's actions have also led to a loss of confidence in the British Overseas Airways Corporation. The corporation is now working to restore its confidence and ensure that its customers are satisfied with its services.

# WEST EUROPE'S DEFENCE

## The mere presence of Eisenhower will stiffen determination

By Anthony Dorset

It is not a secret, it is a fact, that the mere presence of Dwight D. Eisenhower in West Europe will stiffen the determination of the people of that region to defend their freedom and way of life.

The presence of the President is a symbol of the United States' commitment to the defense of West Europe. It is a sign of the strong alliance between the United States and the people of West Europe.

Black wins the revived Banks Cup event

Black's victory over the revived Banks Cup event was a triumph for the polo community in Nairobi. The tournament, which has been revived after a long hiatus, attracted a large number of players from various parts of the country. Black, a local player, emerged as the champion, defeating his opponent in a closely contested final. The event was held on a well-maintained polo field, and the atmosphere was festive. The Banks Cup, named after a prominent polo player, is a prestigious trophy in the region. This year's winner, Black, is a seasoned player and has shown exceptional skill and teamwork. The tournament was organized by the Nairobi Polo Club, and it was a success in every respect. The players and spectators alike enjoyed the event, and it is hoped that it will become an annual tradition. The Nairobi Polo Club is proud to have hosted such a high-quality tournament, and they look forward to future events. The success of this year's tournament is a testament to the passion and dedication of the polo community in Nairobi.

## An easy victory

A good goal was scored by Black in the first half of the match, which proved to be a decisive moment. The goal was scored with a well-placed shot, and it put Black in a strong position. The rest of the match was a rout for Black, who scored several more goals. The opposition was unable to mount any significant challenges, and the match ended in a comfortable victory for Black. The goalkeepers for the opposition were unable to prevent Black from scoring, and the defense was shaky. Black's performance was exceptional, and they were deservedly crowned champions. The match was a highlight of the tournament, and it showcased the skill and talent of the players. The Nairobi Polo Club is pleased with the outcome of the tournament, and they are looking forward to next year's event. The success of this year's tournament is a credit to the organizers and the players alike.

## Unexpectedly easy

The match was surprisingly easy for Black, who dominated the game from start to finish. The opposition was out of sync, and Black capitalized on their mistakes. The goalkeepers for the opposition were also struggling, and Black took full advantage. The match was a one-sided affair, and Black's victory was a foregone conclusion. The Nairobi Polo Club is proud to have produced such a champion, and they are looking forward to future success. The tournament was a success, and it was a pleasure to watch the players in action. # A DISAPPOINTING YEAR FOR BRITAIN

Our only two world boxing titles lost (By Freddie Mills)

Well, another year of boxing is over and, so far as England is concerned, I am afraid it has been a year of disappointment. I started the ball rolling by losing my world heavyweight championship to Joe Louis and, on boxing's back, there is no doubt the growth of victory growing both by Europeans and Natives. The day was the better part.

On the other hand, I think I may claim that I was lucky in that I did not lose my world middleweight title to Sugar Ray. I do not think I did it as well as I could have done, but I am sure that I did it as well as I could have done. I do not think I did it as well as I could have done, but I am sure that I did it as well as I could have done.

The Nairobi Polo Club is committed to providing a high-quality polo experience for all its members, and they are looking forward to next year's tournament. The success of this year's tournament is a testament to the passion and dedication of the polo community in Nairobi.

## It has been so happy that we shall hate to leave South Africa. There's so much to see and do. The Chelsea are out of doors all day, long and are full of beans. Of course George does his own thing and the diamonds are wonderful for both of us. Good husbands, teachers, high class - such fun to have so wide choice.

Still I expect you'll be down here next year. Have you been to the Saturday Office yet?

# A DISAPPOINTING YEAR FOR BRITAIN

Our only two world boxing titles lost (By Freddie Mills)

Well, another year of boxing is over and, so far as England is concerned, I am afraid it has been a year of disappointments. I started the ball rolling by losing my world cruiserweight championship to Joey Maxim and, on looking back there is no doubt that the growth of colour growing boys by Europeans and Natives that day was the better deal.

On the other hand, it may be said that I was a bit of a blunderer, but I was in the best of health and was in the best of health. I was in the best of health and was in the best of health.

## Gold Coast aspirant

There may be some interesting developments from the Gold Coast. A young fighter has shown great promise and is being watched closely.

## Our real surprise

The real surprise of the year was the performance of a young fighter from the Gold Coast. He was a real credit to his country.

## Fight with Weiden

A boxing match took place between a local fighter and Weiden. The local fighter won by a knockout.

## Naiwaisha events

Several events took place in Naiwaisha, including a boxing match and a wrestling match. The events were well-attended and successful.

GROWING OF COTTON IN RHODESIA IS EXPANDING RAPIDLY

Postwar years have wrought great change PROBABLY the most interesting feature of Southern Rhodesia's agriculture during the years since World War II has been the rapid growth of cotton growing, both by Europeans and Natives, and the development of a substantial spinning weaving and finishing industry based on it.

Table showing Cotton production in Rhodesia from 1947 to 1952. Columns include Year, Area (acres), and Production (bales).

First result The cotton growing in Rhodesia has been a very successful one. The area under cotton has increased from 10,000 acres in 1947 to 100,000 acres in 1952.

Attractive price The present price of a 25-lb. per lb. for cotton is very attractive. The price has risen from 10/- in 1947 to 25/- in 1952.

Marking system The cotton growing in Rhodesia has been a very successful one. The area under cotton has increased from 10,000 acres in 1947 to 100,000 acres in 1952.

At seventy Helen Keller is still remarkable

Despite the limited insight of her life, 70-year-old Helen Keller, outstanding American, is the cause of surprise to those around her...

Helen Keller, the blind and deaf American, is here seen on the left with her friend and co-worker, Miss Polly Thomson.

For the first 18 months of her life, Helen Keller, like any normal baby, could be frightened by a sudden noise, call her mother and be comforted by the sight of her smiling. These things went away her vision, her hearing and, as a result, her speech...

Whether or not a reputation of intellectual eminence is the result of years of sitting the examinations, the performance of the various tests is a matter of fact...

But some doctors may take a holiday and while in America Miss Keller is being treated for the condition which has kept her from leaving her room...

Visible effort
A talk with Helen Keller, who has been blind and deaf since she was a child, is a most interesting experience...

A search for gloves

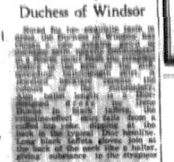

SEARCHERS for the best of British gloves, which come of brilliant quality, are still in quest...

The payment took place recently in a West End theatre. Ladies' sections of the British stage are being re-organised on behalf of the new theatre in London...

This week, in her LONDON Letter, ELSA M. SANDERS tells us that the latest fashions for gloves are in both material and design...

# SKISH: THE NEW AMERICAN SPORT

INITIALLY it has been thought that the skis were the work of the Americans. In fact, they were first used in the Alps...

## Weather factor

Skis are not a new invention. They have been used for centuries in the Alps. The modern ski is a development of the 19th century...

## The object

The object of the ski is to enable the skier to descend a slope of snow without the aid of skis. The skier must be able to control his descent...

## Matter of choice

There are two main types of ski: the alpine ski and the cross-country ski. The alpine ski is used for racing and is shorter and wider...

During the winter months, the ski industry has seen a significant increase in popularity. This is due to the growing number of ski resorts and the availability of ski equipment...

## Packing? It's a pleasure

THE SKIERS' season is in full swing and with it comes the problem of packing. It is not only a matter of packing the skis, but also the clothing and equipment...

It is essential to pack carefully to ensure that all items are protected during transport. This includes using proper packing techniques and materials...

# How research helps to cut fire risks

By Trevor Williams

FOR people to realize the benefits of the research done by the British Fire Research Organisation, it is necessary to look at the three kinds of damage done by fire: destruction of property, loss of life, and damage to the environment. Research has shown that fire can be prevented and its effects minimized through the use of fire-resistant materials and fire-fighting equipment...

## Examples of war

IN Britain, research on the prevention and fighting of fire is carried out by the Fire Research Organisation. This organization is a non-profit-making body which was set up in 1920. Its main object is to reduce the risk of fire and to minimize the damage done by fire. The organization has carried out a wide range of research, including the development of fire-resistant materials and the design of fire-fighting equipment...

Statistical analysis of the damage done by fire has shown that the majority of fires are caused by carelessness. This is why it is so important to take steps to prevent fires from starting in the first place. Research has shown that the use of fire-resistant materials can significantly reduce the risk of fire...

## The best guide

FOR many purposes it is useful to have an estimate of the magnitude of any particular fire. This is because the more information we have about a fire, the better we can plan to deal with it. Research has shown that the use of fire-resistant materials can significantly reduce the risk of fire...

Several of the materials mentioned above are now being used in the construction of buildings. This is because they are so effective in preventing the spread of fire. Research has shown that the use of fire-resistant materials can significantly reduce the risk of fire...

## BRITISH ESCAPE FROM SEOUL TRAP

Big sea evacuation  
UNITED NATIONS TROOPS MAN  
NEW DEFENCE LINES

United Nations troops from the Seoul area either in their advanced positions south of the city or about 20 miles westward from Seoul. It is said that the British forces were evacuated from Seoul in a series of three waves through the sea, in an effort to get them to the sea and to delay the Communists as follows:—

The 5th Army successfully crossed the river, including the troops who were supposed to get out after the evacuation. A British soldier said afterwards: "I did not know until it was too late that the Communists were following us."

**THE PAST YEAR IN RETROSPECT AND THE PROSPECTS FOR FUTURE**

Special Notice to the East African Investor

NEW YEAR is a convenient time to pause and reflect on the year that has just closed. The past year has been one of the most interesting in the history of the East African continent. It has been a year of great change and development, and it has also been a year of great challenges and difficulties.

The year has seen the continuation of the process of industrialization and modernization. The East African continent has made significant progress in the development of its infrastructure, particularly in the areas of transport and communication. The construction of roads, bridges, and railways has been a major achievement, and it has opened up new opportunities for trade and commerce.

The year has also seen the growth of the manufacturing sector. The East African continent has become an increasingly important industrial region, and it has attracted a large amount of investment from both local and foreign sources. This investment has been used to build new factories and to expand existing ones, and it has led to the creation of many new jobs.

Despite these achievements, the year has also been one of great challenges. The East African continent has faced a number of difficulties, particularly in the areas of agriculture and industry. The weather has been very dry, and this has led to a serious shortage of water and a decline in agricultural production. This has had a major impact on the economy, and it has led to a rise in unemployment and poverty.

The year has also seen the continuation of the process of political and social change. The East African continent has become an increasingly important political and social region, and it has attracted a large amount of attention from both local and foreign sources. This attention has been used to build new political and social structures, and it has led to the creation of many new opportunities for development and progress.

The year has been a year of great change and development, and it has also been a year of great challenges and difficulties. The East African continent has made significant progress in the development of its infrastructure, particularly in the areas of transport and communication. The construction of roads, bridges, and railways has been a major achievement, and it has opened up new opportunities for trade and commerce.
