MORE MONEY FOR COFFEE SCHEME

AN ALLOCATED sum of £100,000 raised to £396,000.

"Messrs" Bankers Report.

While the prevailing high world prices have had much to do with the re-consideration of the scheme, the increased international price of coffee in the past few years is also a factor in the decision.

The scheme is to be financed by the sale of £100,000 of Government bonds, and the balance of £296,000 is to be raised by the sale of coffee.

New roads

A total of 1,000 miles has been allocated for special development areas, and the Government is expected to announce the details of the scheme in the next few weeks.

The roads are to be built in the form of a network, and will be financed by the sale of Government bonds.

Chemp tools

All of the money will be handed over to the British Africa Fund, which will be responsible for the distribution of the tools.

Plan may mean more settlers for Kenya

WEDNESDAY, January 21, 1942

Kenya's plan to attract more settlers from the East Indies and other parts of the British Empire is being considered by the Government. The plan is to offer land and other facilities to settlers from these areas. The Government is also considering the possibility of offering land to settlers from other parts of the Empire.

Many apply

The plan has attracted a large number of applicants. The Government is currently reviewing the applications and will be making a decision in the near future. The plan is expected to result in a significant increase in the number of settlers in Kenya.

There was once a man named Mr. Charles and Mr. Cook. Both of them were planning a business trip overseas. Now Mr. Charles didn't know whether to take a boat or a plane, so first he asked a shipping office, but then it didn't make up his mind. Next he asked a travel agent, but he still didn't know what to do. Finally, he asked Mr. Cook, and Mr. Cook told him to take a plane. Mr. Charles was relieved and happy to go.

SISAL ESTATES MOVE TO TANGANYIKA: BRITISH CAN QUOTA CUT

The transfer of sisal estates from Tanganyika to Kenya will have a far-reaching effect on the sisal industry in Kenya, it is expected that the transfer of sisal estates from Tanganyika to Kenya will result in a sharp decline in the sisal production in Kenya, and a corresponding increase in the sisal production in Tanganyika.

The sisal industry in Kenya has been suffering from a long period of depression, and the transfer of sisal estates to Tanganyika will further exacerbate the situation. The sisal estates in Tanganyika are much larger and more fertile than those in Kenya, and they will be able to produce a much larger quantity of sisal than the estates in Kenya.

The British Government has agreed to cut the sisal quota for Kenya, and this will result in a further decline in the sisal production in Kenya. The sisal industry in Kenya is now in a very difficult position, and it is expected that it will continue to decline in the future.
