NAIROBI ADDRESS

The many advantages which would result if "Universal Fingerprinting" were adopted, were stressed by Mr. G. Wedderburn, Assistant Inspector-Natives, in the course of an address on that subject to the twenty business meeting of the Nairobi Rotary Club on Friday, June 28.

Remembering Innocent

Unfortunately, said Mr. Wedderburn, fingerprinting still appeared to be associated with crime, but there was a lighter side to the business which was in which finger prints had led to the exonerating of innocent persons.

DEFENCE OF RAILWAYS' RATES POLICY

RISK OF INCREASES AT WRONG TIME

Costs Necessitate Caution

GENERAL MANAGER'S VIEW IN 1936 REPORT

"Nothing could be more harmful to business generally than to evade rates reductions during a period where they are not really required, only to find that rates must be put up later, at a time when great hardship may be caused thereby."

Tariff Structure Difficulty

Previous articles dealing with the report of the Railways and Harbours Administration, have given a very fair summary of the details of the whole report, and dealt more fully with the details of the working of the railways and harbours systems.

There remains the section dealing with "Railways and Harbours, miscellaneous and general" under which the General Manager discusses the points of major policy.

In the year under review, states the General Manager, "it was found possible, owing to the restoration of the finances of the Administration, to revert to a more liberal standard of maintenance and to carry on a programme of work to take the areas that had been allowed to accumulate during the period of financial depression. This programme was steadily carried out during the year under review."

"The closest possible approximation to the cost of the railway and harbours systems for the year under review has been estimated at £11,600,000, an increase of 10 per cent on the estimate for 1936."

Increasing Costs

"There are, however, indications that costs are now going up more rapidly than in previous years. The cost of fuel alone has increased by 20 per cent, 30 per cent or even 40 per cent, with further increases in the near future, while delivery rates have been completely disrupted, and signs of a general rise of building, ... and there is every reason to believe that generally in 1937 and 1938 will be substantially higher than in 1936."

"It will be clear that it will not be possible, without very large increases in traffic, to show such a satisfactory figure this year. In fact, the time has come when it is advisable to consider the possibility of the less urgent projects of new works and betterments until the supply of stone and materials becomes steadier and less expensive. The position in this respect is being closely watched."

Rates Policy

Discussing rates policy, Mr. Geoffrey Blodgett points out that the various reports had drawn attention to certain defects, and that the existing policy and tariff structure, which provided a reference to the higher charges on imports and the very low charges on agricultural products.

"One of the Railways' states Mr. Blodgett, "who deal chiefly in the high-rate commodities, some very noticeably important, such as high railway freight rates, which means whose business involves the carriage of bulk goods and other commodities are inclined to be more liberal in their views on rates."

"It is, however, not to be overlooked, however, that the general rate level is very satisfactory, and compares favorably with other railway systems. This can be best judged by the average revenue per ton-mile."

General Hayashi, who according to a former message from Tokyo yesterday has been found with a hostile majority in the Diet and has tendered his resignation to the Emperor.

ANGLING COMMITTEE

Made for May Meeting Under Show Period

The Angling Committee, secretary of the Angling Committee, met on June 1st, 1937, at the office of the District Commissioner, Nairobi, at 5 p.m. on June 1st. As the Agricultural Show will be taking place at that time, a considerable number of the committee members will probably be unable to attend. There will be taken the opportunity of appearing before the Government if they should be able to do so.

Native Commissions

Mr. Gifford denies the allegation that the Native Commissions are making reductions and a table is set out showing the various Native Commissions in the various provinces, such as the Nairobi, Kiambu, Meru, and other provinces, and other persons have been appointed to various Native Commissions in the various provinces.

SURPRISED ASKARI

RATES OF EXCHANGE

The following rates of exchange were notified by the Bank of England on June 1, 1937: Gold 100 = 148 1/2; Sterling 100 = 148 1/2; Indian 100 = 148 1/2.

THE KENYA REGIMENT ENROLMENT BEGINS IN NAIROBI TO-DAY

Railway Restriction

Recruiting will begin for the Kenya Regiment at 10 o'clock this morning in the Municipal Hall, Nairobi. The enlistment will be open until 6 o'clock this evening and will open again to-morrow and succeeding days until Saturday at two o'clock.

Government is placing no obstacle in the way of its own officers who wish to volunteer, but in the case of the Railway and Harbours Department the employees are to be formed into a special section of the Kenya Defence Force in view of their special duties in time of emergency. The question of peace-time training for the Railway and Harbours staff is to be considered at an early date.

But Freedom for Civil Service

Time will be required for the filling of vacancies before the Government can be asked to consider any special measures in connection with the selection of the 125 new members of the first members of the Kenya Defence Force. The Government will be asked to consider any special measures in connection with the selection of the 125 new members of the first members of the Kenya Defence Force.

Members of the Railway Administration are also to be considered for the Kenya Defence Force. The Government will be asked to consider any special measures in connection with the selection of the 125 new members of the first members of the Kenya Defence Force.

NEW
POND'S Liquefying Cream
In answer to a growing demand on the part of the public Pond's have added a new cream to their line—Pond's Liquefying Cream. This cream is specially deep cleansing—the oils are equally as rich as Pond's Cold Cream. The only difference is in its quicker melting quality of this new liquefying cream.

Therefore, it is to be used in exactly the same way as the Cold Cream.
This cream is made from a special formula and contains absolutely nothing that is drying. It is especially recommended whenever a rapid cleansing is desired and for women who prefer this quick-melting type of cream.

Briefly it is also essential to ensure consideration.

Export of Game

To the Editor, "E.A. Standard," Sir—Last Thursday week, May 18, I witnessed a pathetic spectacle taking place at Mombasa L.S. The birds were being taken by train from the coast and the subsequent loading on board ship of a large consignment of African fauna for a foreign shore. It was with increasing feelings of anger and disgust that I commented among others, the following remarks in the Standard: "Ginifer, eleven Chobras, six or seven Grey Zebras, various Crested Terns and other birds, etc. and also last but not least several crates containing hundreds of beautiful little wild birds."

I was able to establish the fact that these animals and birds had been collected and were being dispatched to America by an American visitor now in Kenya and with the full consent of the Government. They were being sent to various zoological gardens in America and I do not doubt but that the Government are making a good thing out of it.

The great majority of these animals which taken from North Kenya and the N.P.D. and were taken on Crown Land.
Now, Sir, it seems to me a very strange thing that in these days when everything should be done to preserve our own animals and

birds, from extinction that these animals should be exported to America.

With the game, one of the Colony's greatest assets, rapidly diminishing it is worth trying to do something to preserve the remnants of some of your readers.

Yours etc.

Kenya & Uganda Railways & Harbours SALE OF WHITE METAL INGOTS.

Tenders are invited for the sale of approximately 7 1/2 tons of white metal ingots lying in the Railway Stores Depot at Nairobi.

- The material can be viewed on application to the Stores Superintendent, Kenya and Uganda Railways and Harbours, Nairobi, and samples are available for intending tenderers.
- Representative samples of the metal have been analysed with the undetermined result, but no guarantee is given as to uniformity of quality, either in respect of the composition of the metal or the quality of the metal.
- The successful tenderer will be required to pay the purchase price before delivery of the material is given and the material must be removed within two months of the acceptance of tender.
- Sealed tenders marked "TENDERS FOR WHITE METAL" should reach the Chairman of Railway Tender Board, Post Office Box 370, Nairobi, on or before 12 noon on the 8th July, 1937.
- The highest or any tender will not necessarily be accepted.

STONE AGE AFRICA

To the Editor, "E.A. Standard," Sir—Dr. Lesley's book "Stone Age Africa" published last year in a valuable addition to the literature of prehistoric Africa. It is a book that I have written of the Kaffan culture that I have found in Kenya. Although Dr. Lesley was not aware of it I found it in my early plateau gravels near Naivasha in 1921. Since then I have found specimens in other parts of Kenya. The gravels are widespread especially along the Naivasha river and its tributaries. The Naivasha river says "Unfortunately there is no direct evidence in East Africa which will show the relationship of the early Neolithic cultures." He writes of the Naivasha material: "It is the only early plateau gravels in East Africa which is not evidence of the relationship of the early Neolithic cultures." He writes of the Naivasha material: "It is the only early plateau gravels in East Africa which is not evidence of the relationship of the early Neolithic cultures."

I am glad to be able to throw light on the industry and to contribute to the knowledge of the Naivasha material. It is a valuable addition to the literature of prehistoric Africa.

KENYA'S BAD ROADS

To the Editor, "E.A. Standard," Sir—Max J. your column in the Standard of 26th May 1937, dealing with the road conditions in Kenya, has been most interesting to read and I am glad to see that you have been able to bring to the attention of the public the state of the roads in Kenya.

It is a pity that you have not been able to bring to the attention of the public the state of the roads in Kenya. It is a pity that you have not been able to bring to the attention of the public the state of the roads in Kenya.

YEARLY PLAN FOR KENYA ROADS

(Continued from page 5.)

At a recent session of Legislative Council, the following question was asked by the Hon. Captain Harcourt--

With reference to para 1194 of the Report on the Kenya Road Survey, 1936, what is the present position in regard to the proposed road scheme?

The Minister replied, just modified as follows--

The Road Commission's proposals in regard to the proposed road scheme are as follows--

(i) 1,000 acres of land to be acquired from the Government and the following modifications have now been approved--

(ii) 600 acres of land to be acquired from the Government and the following modifications have now been approved--

(iii) 1,000 acres of land to be acquired from the Government and the following modifications have now been approved--

The survey of Classed Township will be commenced as soon as practicable.

A further question by the Hon. Captain Harcourt was--

With reference to para 1178, page 107 of the Report of the Kenya Road Commission 1936, what steps are being taken to prevent occupation by squatters of the 10,000 acres of the township which is to be allocated by the administrative authorities in consultation with the local European community?

The reply is--

As explained in the answer to Question No. 14, the area in the Classed Township will be surveyed and the 10,000 acres of the township which is to be allocated by the administrative authorities in consultation with the local European community.

The survey of Classed Township will be commenced as soon as practicable.

CHEERFUL, THOUGH CUT OFF

Mechanics Celebrations of Coronation

[From a correspondent.]

At Coronation time Mechanics were cut from Nairobi by different roads, including Cora Rogers, who was to take the Service, but not to be cut, but the latter of former had been reported by someone else and they cheerfully drove over muddy roads to the Club House and Nairobi Ground. There were about thirty European and thousands of native present and the atmosphere of the event was the subject of favorable comments on all sides.

After lunch, sports were the order of the day and soccer, football and games of various description were played. The sports were given to those who had made marvellous headway from mechanical difficulties all-afloat. Soccer, basketball and a pack basketball or used by one Mchakali binaka.

The Kichen band led to the house of the afternoon after a long journey via Thika and Nairobi and a visit at 4.15. There for a friendly hour to pick them up.

The most brilliant aspect of the event was the Twilight procession and the fireworks.

The King's speech was a fitting and a great day.

THE WEATHER

The British East African Meteorological Service reported yesterday (Tuesday) as follows:

Mombasa this morning reported 6.60 in and temperature 84.50; while slight showers were reported from Nyari, Embaka, Bulbale, Manda, Mambi, Diani and Zanzibar.

The "temp" which continues to show steadily and there has been a further slight increase in humidity. Weather is likely to be rather cloudy over Kenya, with occasional rain at the coast. There will be local showers in the Lake area and over Uganda side also on the coastal zone of Tanganyika.

RORKE'S DRIFT VETERAN

One of the few remaining holders of Rorke's Drift-awards of the Zulu War in which two regiments of British troops were practically wiped out by the savage forces of King Cetshwayo's Zulu army in 1838.

He was Mr. Joseph Venn, aged 70 of Mombasa Road, Nairobi.

An old soldier of the "Red-Headed" type, dressed in a blue "Vestee" suit, the Queen's shilling on a watch of 15 and a watch in his pocket and a pair of boots in his hand.

"When we reached Rorke's Drift we found it a small town, with a few houses and a few shops. It was a very quiet place, and we were the only Europeans there. We were very well received by the natives, and we stayed there for about three months. It was a very interesting experience, and I have many memories of that time."

SEVEN-A-SIDE RUGBY TOURNAMENT

NEW
POND'S
POND'S Liquefying Cream
In answer to a growing demand on the part of the public Mrs. Pond has added a new cream to their line—Pond's Liquefying Cream. This cream is equally good cleansing—in oils are equally as soft as Pond's Cold Cream. The only difference is in the quicker melting quality of this new Liquefying Cream. Therefore, it is to be used in exactly the same way as the Cold Cream. This cream is made from a special formula and contains absolutely nothing that is drying. It is especially recommended because a rapid cleansing is desired and for women who prefer this quick-melting type of cream.

THE DEBILITY AND FAMINE CYCLE
To the Editor, "E.A. Standard," Sir.—The other day we were informed by the manager of the Windosa of heavy rains not only in Nairobi but almost everywhere. I have my fellow Planters and Farmers as well as all the three East African Governments all taking heed of this "writing on the wall," for what does it all indicate—famine or plenty?

GERMAN COLONIAL CLAIMS: LORD ROTHMERE'S PEACE PLAN
To the Editor, "E.A. Standard," Sir.—Lord Rothermere has either the wind up good and proper or else his article on the German colonial claims is designed to increase the circulation of his papers in the countries of those fellows and condescending dictators. Maybe he is anxious to simulate them in England.

MEMBERS OF THE OLD GUARD
Does he imagine that the Government at home dare not fully signify but the fear of the people of all races in the congested lands without reference to the rest of the Empire, and further does he vainly dream that the great Dominions India and we find in the Colonial Empire can or will forget the price that was paid in blood in order that Liberty and Equality should survive in all the world?

DEFENCE THE NATIONAL SPIRIT
To the Editor, "E.A. Standard," Sir.—One hopes that no number of our day to the Empire should be necessary, but at the same time one feels that to attain the national national unity and enthusiasm, some initiative should be taken by the Government in order that the cessation of any shield be not a mere formality, but that the people of the Empire should be forgotten than remembered in these days.

Bride's Preparations

["STANLEY'S CORRESPONDENT"]

London, May 24. A woman member of the staff of the "Daily Express" described how Mrs. Warfield spent three and a half hours in having her hair permanently waved by Antonio, her hairdresser, and two assistants, in preparation for the wedding.

"It was 8 a.m." writes Miss Marchant, from Tours, "when she received the 'Opera' hair dressers in her pale blue boules in the left wing of the Chateau de Candeau. A cool room, lit with music, in a combined bathroom and bedroom, furnished with four armchairs and a chaise longue with comfortable deep chairs...

"Her hair will be perfect for that. The permanent will have settled down by then, and will be in perfect condition. I shall be there early, very early!"

CHICAGO CARDINAL ANGERS BERLIN

HITLER DESCRIBED AS "ALIEN PAPERHANGER"

Protest to Pope

RUPTURE OF RELATIONS UNLESS REPRIMAND IS ISSUED

Berlin, June 1.

The Government has despatched a strongly worded note to the Holy See protesting against the Pope's refusal publicly to reprimand Cardinal Mundelein, Archbishop of Chicago, who bitterly attacked the German Government's attitude to the Catholic Church in the course of an address to Chicagoans.

Cardinal Mundelein incidentally referred to Herr Hitler as an "alien Austrian paperhanger" and his address has greatly incensed Germany.

Political quarters say that the note to the Holy See can be interpreted as an ultimatum forewarning a rupture of diplomatic relations unless His Holiness reprimands the Cardinal.

UGANDA WEATHER

["STANLEY'S CORRESPONDENT"]

Kampala, May 20. The weather has been bright and sunny during the last week, but it looks as though the sun will be out for the most part of the next week. The temperature is expected to be in the range of 60 to 80 degrees Fahrenheit.

NYANZA DISTRICT COUNCIL

Election of Officers for Year ROADS POLICY

The 48th Meeting of the Nyanza District Council was held at the Council's Office, at Kariakoo on Friday May 21. Councillor DeJodet was elected as chairman for the coming year and Councillor Lattimer Standen acted as vice chairman.

The various committees elected at their chairman as follows: Finance, Councillor Lattimer Standen; Public Works, Councillor Albert Easton; Agriculture, Councillor Albert Easton; Education, Councillor Albert Easton; Health, Councillor Albert Easton; Roads, Councillor Albert Easton; and Councillor Mordant.

On a motion by Councillor DeJodet, seconded by Councillor Standen, it was resolved that the Council should audit the amount of £13,000 the sum already voted for 1937 for the maintenance of the Mokolani Road.

On a motion by Councillor DeJodet, seconded by Councillor Mordant, it was decided that the Finance Committee should deal with all matters of finance relative to the main trunk road and that the General Purposes Committee should regularly go into the Supervisor's work programme for this road.

On a motion by Councillor DeJodet, seconded by Councillor Mordant, it was decided that the Government was forcing private traffic in the Kibera Trading Centre to vacate their present plots, which were held on Temporary Occupancy Licences and which were unsuitable and insanitary and transferring them to other newly surveyed plots on which proper buildings had to be erected.

On a motion by Councillor DeJodet, seconded by Councillor Mordant, it was decided that the Government was forcing private traffic in the Kibera Trading Centre to vacate their present plots, which were held on Temporary Occupancy Licences and which were unsuitable and insanitary and transferring them to other newly surveyed plots on which proper buildings had to be erected.

Veterinary Officer Describes New Ordinance

A number of interesting matters were brought in for discussion at a General Meeting of the Nyanza District Council held at the Nyanza Country Club on Saturday, May 29.

Mr. E. H. Wright, Chief Veterinary Officer, gave an address on the Cattle Cleaning Ordinance. Mr. E. H. Wright was in the chair. Captain E. J. B. Cowling opened the discussion on the Nyanza District Water Supply by presenting the following resolution: "That the meeting of the Nyanza District Council, in recognizing the necessity of a better distribution of water in the Nyanza area, do hereby recommend that the Nyanza District Council should be empowered to acquire the rights of the Nyanza River for the purpose of providing water for the Nyanza area."

On a motion by Councillor DeJodet, seconded by Councillor Standen, it was decided that the Council should audit the amount of £13,000 the sum already voted for 1937 for the maintenance of the Mokolani Road.

"Friday - Year Far From Droughtly"

"Foreman's" commentaries: The weather, with its foreboding aspects, has been a source of anxiety to the public with whom attention is drawn to the fact that the weather is a factor in the success of the long-stemmed crop and the regulated output of the industry...

"Dry" Years

The record in the so-called year of drought which is the one with which we are now concerned. It would appear to have been a year of drought in the sense that the weather was not so good as it was in the year immediately preceding it...

It is 300 days in duration. It has no months, but it is a period of 300 days in duration. It is called "manager" and five days after called by the Foreman "Friday" which are announced by them as being the days of the weather. The Foreman, however, knew that they were not and so he is not surprised to find that the weather is not so good as it was in the year immediately preceding it...

Nerve-health means PERSONALITY

That force of character which we call personality is the result of rich nutrition passing from one or more of the ductless glands into the nervous system.

That just right food - the reason for the recognized success of PHOSFERINE, the vital nerve food, is just the right form. Unquestionably PHOSFERINE nourishes the nerves, restores vitality, does for more than anything else on human personality. Remember the long list of famous personalities who acknowledge their indebtedness to PHOSFERINE.

PHOSFERINE

The Greatest of all Tonics

FOR ALL DISORDERS CAUSED BY EXHAUSTION OF THE NERVOUS SYSTEM. Obtainable from all chemists and stores, in liquid and tablet form, such as these. The better you use PHOSFERINE, the more you will enjoy life.

RUMURU MEETING ON SQUATTERS' BILL

Large Attendance and Keen Discussion

GOVERNMENT POWERS

"Should be Subject to Local Wishes"

[STANDARD] GOVERNMENT...
A public meeting was held in the Club on Saturday to discuss the Draft Bill to regulate the residence of Native labourers on farms. There was a large attendance and the debate was keen and full of interest.
Mr. H. M. (Governor) president of the Labour Farmers Association, was elected to the chair. The following resolutions were discussed and carried:
(1) Proposed by Captain Beckett and seconded by Mr. Mills: "That the last sentence of section 18 be deleted. The paragraph now commences with the words 'and the Magistrate may determine'."
The meeting agreed that it was undesirable to have squatters on a farm on which there was no resident European or European manager.
(2) Proposed by Mr. Dijkster and seconded by Mr. Curry: "That this public meeting is of the opinion that no Native or no descendant should lose his tribal rights on his mere possession because he resides on a European-owned farm and that the Veterinary Department should be asked to give support to the Native claimants."
A long discussion concerning the medical facilities at Mbururi followed, and it was proposed and seconded:
"That this Association requests its Executive to draw up a memorandum embodying the history of the district in relation to the Medical Department and describing the existing facilities in the District on paper, and that a delegation be appointed to submit it direct to His Excellency the Governor."
This was carried unanimously.
The chairman thanked Mr. Sheppard, the District Commissioner and Mr. Beckett, the District Veterinary Officer, for attending the meeting.
The meeting felt that the powers granted to the Local Authority in this Bill were too large and arbitrary, but that a referendum in this district would serve adequately to control them.
(3) Proposed by Captain Beckett and seconded by Mr. Ostrich: "That all Government estates and lands must conform to the ratings of the Local Authority in which they are situated."
This resolution furnishes an attempt to control the numbers of huts and squatters and other squatters on Government land and to control the wide powers granted to the Government Council in this respect.
The meeting also constituted a committee to be appointed by a general meeting of the Labour Farmers Association.
The question of stock raising and crops was discussed at considerable length as it was deemed...

NEW

POND'S Liquefying Cream

to answer to a growing demand on the part of the public she has added a new cream to her line—Pond's Liquefying Cream.
This cream is equally deep cleansing—in oils equally as soft as Pond's Cold Cream. The only difference is in the quicker melting quality of this new Liquefying Cream, which is to be used in exactly the same way as the Cold Cream.
This cream is made from a special formula and contains absolutely nothing that is drying. It is especially recommended whenever a rapid cleansing is desired and for women who prefer this quick-melting type of cream.

DUKE'S FIRM "OUI" MAKES MRS. WARFIELD DUCHESS

DUAL WEDDING SERVICE AT CHATEAU DE CANDE

12-Minute Civil Ceremony

ANGLICAN MARRIAGE UNDER PROTEST FROM BISHOP

The civil ceremony of the marriage of the Duke of Windsor to Mrs. Wallis Warfield began at 11:35 this morning when the Mayor of Monte, Dr. Charles Mouton, read out the names of the parties and the Duke's titles. He then acted as the witness—Major Metcalfe for the Duke, and Mr. Herman Roggen for Mrs. Warfield, and read out the more relevant articles of the civil code.

The Duke replied "Oui" in a firm voice to the Mayor's final question, asking "Do you consent to take Mrs. Wallis Warfield as your wife?"

Mrs. Warfield's voice was inaudible as she replied to the corresponding question.

The civil marriage ceremony concluded at 11:47, and the Duke and his bride then went to the music room of the chateau, which had been converted into a temporary chapel, where the Anglican religious service was conducted by the Reverend Anderson Jardine.

BISHOP'S PROTEST

The Bishop of Freetown, who has jurisdiction over the Anglican Church in France, has telegraphed to Mr. Tardieu, protesting at his conducting an Anglican service at the wedding without permission.

"Most Moving Idyll"

The Mayor of Monte. It was assigned for Mrs. Warfield by Caroline Reboux, wedding presents for Mrs. Warfield are more on the way to her. Mr. Dudley Edwards, the Duke of Windsor's D.O.C., is going to Paris to-morrow to pick up several parcels, and it is understood that a present for Mrs. Warfield is among them.

Count Paul Mariani's estate in Cornwall has been taken by the Government but he will go there with his bride immediately after the wedding on June 3.

The Guests

Included in the list of guests invited to attend are—Mr. Lloyd Thomas, British Minister in Paris; Lady Selby, wife of the British Minister in Vienna; Sir Walter Monckton, K.C., Attorney-General to the Duke; of Cornwall; Lady Alexandra Metcalfe and Major R. D. Higgins, who is the Duke's aide-de-camp; Dr. Robert de Roehschild, the Duke's house at Biarritz; Mrs. Maryman Mann, Warfield's aunt; Mr. W. C. Graham, British Consul.

Wedding Dress

A woman correspondent of the "Paris News" writing from Paris before the wedding, states—"Mrs. Wallis Warfield will be dressed all in blue when she marries the Duke of Windsor. Details of the dress and jewelry, especially the tiara and brooch, were left to the Duke before the wedding luncheon, which followed.

The Duke wore a black tuxedo, not with very dark red velvet waistcoat. He had a double-breasted suit and a grey tunic. In his hand he carried a white bouquet.

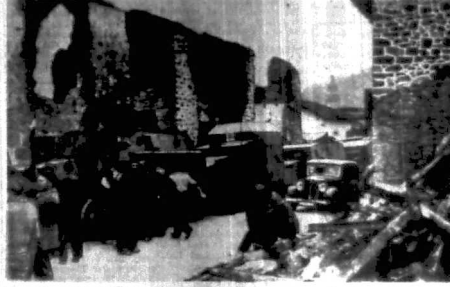

After the wedding reception a banquet was given by the French Premier, M. Linn, and was presided to the table and to bed.

ON THE BASQUE FRONT

Some of General Franco's armoured cars amid the ruins of a town in the Basque area, where, it is claimed, the Government forces are counter-attacking strongly.

COUNTER ATTACK BY BASQUE FORCES

INSURGENTS PUSHED BACK FROM BILBAO

Loyalists' Claim

(FRANCIS SMITH'S AGENCY) June 3. A three-hour conference with the Duke of Windsor at the Chateau de Candé, France.

Mr. Walter arrived from London to private plane piloted by Wing-Commander Fielden, captain of the King's flight. They landed on the military aerodrome at Tours, where the Duke's car was waiting. Sir Walter and Wing-Commander Fielden drove straight to the chateau, where they were entertained as luncheon by the Duke. Shortly after five a check they left the chateau to take off on their return flight to London.

The plane landed on the permission accordance with special permission.

The Basque forces claim to have repelled the Insurgents from the Lezama ridge, and state that their advance guard is pursuing General Franco's forces in the direction of Arrabida.

The bathepship "Deutschland" is remaining in Spanish waters in compliance with the request of the commander and crew of the vessel that it should not be recalled prematurely for repair.

LADY BROOKE-POPHAM

X-Rayed as Result of a Fall

The "East African Standard" reports to announce that Lady Brooke-Popham was involved in an accident on Wednesday evening which has necessitated medical attention. While walking down the main staircase in Government House, Nairobi, she slipped and fell, hurting her face.

There is no externally apparent evidence of injury but it was decided to refer her to make an x-ray examination, the results of which are awaited.

VOLUNTEER NOW!

Plenty of Room for Everybody

This is the last recruiting day for men in the Naitika Programme for the Kenya Regiment. The authorities are still wanting as many young men to volunteer as possible. The number of volunteers already in excess of what would actually be required for one company. Men are more jobs in the Signals, Stokes gun, machine gun, and all sorts of interesting attractions if the men are available.

BELGIAN AMNESTY BILL

For War Treason Prisoners

(FRANCIS SMITH'S AGENCY) Brussels, June 2. The Chamber of Representatives, 95 votes to 75, with 16 abstentions, passed a political amnesty Bill, granting an amnesty to persons condemned for acts of treason during the Great War.

The Government intends the bill will be passed.

NEW TAXATION

Chancellor to Consult Industry? (FRANCIS SMITH'S AGENCY) Brno, June 3. The Government's new proposals for the tax on profits in 1937, £25,000,000 in a full financial year, in maintaining for the National Defence Contribution scheme which has been withdrawn, will be introduced, as provided by submission to the House of Commons of a financial resolution, the terms of which are as present, engaging the attention of the Chancellor of the Exchequer.

PROTECTION AGAINST GAS ATTACKS

The proposals that should be granted that he will at once begin observations on the new form of profits tax with representatives of trade and industry, and in particular with the special committee of representatives of the Associations of the Chambers of Commerce, the Federation of British Industries, the Corporation of Liverpool, the Chamber of Shipping, the Iron and Steel Federation, the Public and other important groups. It is stated he will be advised by the members of the new proposal—British Official Wireless Service.

IMPRESSIONS OF SPITHEAD NAVAL REVIEW

SIR ALBERT COOK'S VISIT ACCOUNT

"Overwhelming Power"

A graphic and detailed description of the Coronation Naval Review at Spithead was given to the "East African Standard's" London correspondent, by Sir Albert Cook, who, as one of Uganda's representatives at the Coronation, attended the review as a guest of the Admiralty.

Guests of Admiralty

London, May 24. Sir Albert Cook, representative of Uganda, gave the following impressions of the Naval Review: "As in all other functions connected with the Coronation, the overseas representatives were made to feel that they were invited by the Admiralty to go down to Spithead in a special train."

Royal Yacht

"At 2.30 p.m. the 'Victoria and Albert' with Her Majesty and the little Princess on the Bridge, entered the harbour, escorted by a fleet of 200 gunboats with 10,000 men. The Royal Yacht was preceded by the 'Hibernia' and followed by the five liners of the 'Queen Mary' line."

Foreign Warships

"Not the least interesting part of the fine collection of foreign warships which had come to do honour to the occasion was the German 'Seydlitz', which was the largest and most powerful submarine cruiser, but time fails to tell of all the wonderful types shown."

Thrilling Moments

"Lunch over the great attraction of the day began. To take up our allotted position at the head of this long table was a most interesting sight."

Illuminations

"At 10 p.m. the illuminations began. It was then that dark but brilliant lights, added to those discharged from the 'Victoria and Albert', instantaneously lit up the harbour."

Ferocious Dog

"In circumstances whatsoever it is possible to lose a fine side car pass on the days of the Show."

Indian to Pay Shs. 30/- Compensation

Charged with allowing a ferocious dog to be at large at Balthrop, a dog owner has been ordered to pay Shs. 30/- compensation to a person who was bitten by the animal, by the Resident Magistrate at Kisumu.

NEW AIRWAYS SCHEDULES

VIGOROUSLY HEALTHY NOW

Little Bobby was always strong and healthy. Never had the health and vigor of other children.

Then one day doctor told his mother the reason. You may have guessed. Poor working Bobby's system. Prescribed Phillips' Milk of Magnesia instead.

Phillips' Milk of Magnesia is the only laxative that is absolutely safe for children's delicate systems. It is mild, yet extremely effective. Sweetens the stomach, promotes digestion, tones up the entire system.

K. F. A. MARKET REPORT

British Business Curtailed WHEAT CHANGES

Main Reports from U. S. and Outside

The Kenya Farmers Association (Kenya F.A.) Nairobi, reports that June 3...

Due to the continuation and Whitehouse holidays, business here in the United Kingdom has been a very quiet character.

Large quantities of wheat are being shipped from the Argentine in millions quarters shipped last week over 600,000 quarters were despatched to the United States and Canada.

The United Kingdom demand continues unsteady and the high price of food stuffs is undoubtedly curtailing orders.

Prospects for the coming crop in South Africa continue bright and the third official estimate issued by the Government shows a surplus of about 25 million bags.

It is evident that the large premium obtainable for White maize is very profitable for such a long time as it is possible to buy in the open market before the start of the September shipment, at about 1/6 to 1/8 per bush.

Plata Maize in the same port, the following are the approximate values: May Plate, 35/9; East Africa Plate, 35/9; West Africa Plate, 35/9; East Africa Plate, 35/9; West Africa Plate, 35/9.

Wheat The market revealed considerable firmness on further Continental buying, and further crop reports from the United Kingdom and Canada.

Other Products Butley: Both the mulling and feeding trades are quiet here, the quality being quiet at 36/.

Local Markets Lupin Seed, 12/ per 200 lb. Barley, 10/ per 100 lb.

IN DESPAIR WITH RHEUMATISM

Felt There Was Nothing to Live For

Can Run upstairs Now—Thanks to Kruschen

Whether you have rheumatism or badly on the wrong hand, or whether you merely get a occasional attack, you will certainly be interested to know that a severe case of rheumatism can be cured.

I feel I should like to tell you before I am asked these things. I have been suffering from rheumatism for many years, and I have tried every remedy known to me, but I have never been cured.

It was only a few days ago that I was able to run upstairs, and I feel that I have been cured.

Africa Gold Mining

Tanganyika Mining Dispute

CLAIM FOR £55,000

Gold Reefs of E.A. Ltd.

REMARKS ON DEFENDANT'S ANSWER

Plaintiff's Counsel, Mr. J. H. Morrison, in his opening address to the High Court on the 21st inst., stated that the Anglo-African Mining Corporation, Ltd., was the plaintiff in the action against the defendant, E.A. Ltd., for the recovery of the costs of prosecuting the claim for £55,000.

Reply to Property

Mr. T. H. Baydon was asked by the plaintiff to submit a statement of development work to cover the two years. The defendant's counsel, Mr. J. H. Morrison, submitted a statement of development work to cover the two years. The defendant's counsel, Mr. J. H. Morrison, submitted a statement of development work to cover the two years.

There was a mill capable of doing 100 tons per day already on the ground, belonging to Mr. T. H. Baydon. New machinery, erected by Mr. Baydon, consisted of a plant which would cost £7,500, and which had not yet been installed.

Whether the company was a Gold Reefs Ltd. or not, was a matter which was not to be determined by the court. The defendant's counsel, Mr. J. H. Morrison, submitted a statement of development work to cover the two years.

Whether the defendant was entitled under the agreement to the mine, was a matter which was not to be determined by the court. The defendant's counsel, Mr. J. H. Morrison, submitted a statement of development work to cover the two years.

It would be not unreasonable, in view of the knowledge of other alluvial deposits, e.g. the Chungu (Gladstone) fields, to expect that the plaintiffs as workers would have made a minimum profit on the transactions. The 200,000 of the issued capital of the company would be at least on a basis of £200,000 of capital would have had a reasonable likelihood of being taken up by the public on the terms of the public company on the figures before the Court, so a profit to the plaintiffs of £20,000 would not be surprising.

It was contended that the length of the plaintiffs had never paid nor were they ever called upon to pay the balance of the £50,000 working capital of Gold Reefs Ltd. It is agreed that on May 20, 1926, the balance of Gold Reefs Ltd. was £5,000 in cash and an undertaking by plaintiffs to find another sum of £45,000. That was the date of the option of the plaintiffs to the directors of the plaintiff company, which included the option with the plaintiff company to sell the mine for Gold Reefs Ltd. shares.

They were all wealthy men. The £2,000 mentioned in clause 1 of the agreement was not the plaintiffs. They paid this sum one-fourth during the period of the defendants could not all the plaintiffs to accept the mine. Witness did not know whether the plaintiffs had paid the £2,000 had the negotiation been brought to an end at the end of the six months.

Option Extended. At the conclusion of the six months the plaintiffs obtained an option to purchase the mine. The plaintiffs obtained a new option by extending the original option. The representatives of Bowdler Mining and Co. were only on Mr. Baydon's property to examine the mine on behalf of the plaintiffs. There were no other to do any thing, etc.

Development Programme at Bulwa. On May 19, 1928, was a satisfactory one over a lengthy period with large scale development going ahead. Witness had no objection to the programme of work as such, but he did not think it was a satisfactory programme financially. It was proposed to spend £200,000 per month, i.e. £24,000, which was more than the original contract the plaintiffs had bargained for.

Protective Work. He proposed to have been speaking expert and witness, when he calculated £500 per month as sufficient for protective work. In fact, as far as witness knew, no money at all was sent to the defendants to carry on the protective work.

Film Fare At the Week-end. An extremely good thriller, "The Mystery of the Blue Room," was offered in the Playhouse for the week-end. The plot is a most tantalizing mystery; it is also really wonderful. Most members of the audience seem to feel that there is a flaw somewhere, and arguments fall all round the theatre, Philip Holland plays the part of the man who plans the crime. Alton Moran is the centre of all the trouble, and Theo Shall, the villain, was played by Jack Hubert, and his death for a job, was the highlight of the play.

Examined by Mr. A. Morrison, witness said that the £45,000 balance to be paid to Gold Reefs Ltd., if necessary, would have been raised by plaintiffs by the issue of further shares in the company. The present shareholders, that was the directors. Their authority was not in question.

Members of the film the English Theatre will be "Papa Miss (Clay), all about a small town who is to be passed off as a woman, extreme beauty contest winner. Jack Hubert and Theo Shall, the villain in the play. On Thursday at the same theatre a Laurel and Hardy comedy will be presented. "The House of the Living Dead," a horror play, will be presented at the playhouse. The play is a most tantalizing mystery; it is also really wonderful. During the six months before the option was exercised the plaintiffs were paying Mr. Baydon £200 per month for protective work in respect of one of the Bulwa properties (but not the other). They thought that £50 was sufficient to protect Bulwa. Condemnation because they had protective measures showing the protective work actually done in January and February.

The case is proceeding.

Midas Mining Co.

The well-known firm of the Midas and Whitmore is being formed in London and is intended to be known as Midas Gold Mines Ltd. The company will include the old Midas Mine and another property recently acquired nearby. The property is situated in the district of the old Midas Mine and is now in operation, and is a splendidly equipped with modern machinery and a grinding plant.

The Lesser Peaks of Mount Kenya

Offer a Remarkable Variety of Rock Climbing

(By Edward C. Staden.)

MOUNTAIN CLUB OF EAST AFRICA

KENYA SECTION.

hair-raising state of affairs, as the only possible route up lies directly above a drop of some 100 feet.

LOOKING IN

From the summit of the main peak, the view is magnificent. The mountain is a vast, rugged mass of granite, with a few small peaks and ridges. The surrounding landscape is a mix of scrubland and open grassland. The weather is clear, and the sun is shining brightly. The view is truly spectacular and well worth the effort of climbing.

The Three Sisters (Shades)

The Three Sisters are a group of three peaks that are closely grouped together. They are known for their unique rock formations and the challenges they present to climbers. The views from the top are also excellent, offering a different perspective of the surrounding area.

THE LARGE SQUARE PEAK

The Large Square Peak is a prominent feature of the mountain range. It is characterized by its flat top and steep sides, making it a popular destination for climbers. The views from the summit are panoramic and include the surrounding valleys and ridges.

CONVERSATION PIECE

It matters not how newly elected a writer is, if he has literary and conversational friends—GARDNER.

GERMANY SPILLS THE CALDWON

Germany's position in the world is becoming increasingly uncertain. The recent developments in the Balkans and the Middle East have created a complex and volatile situation. The German Government's actions in response to these events have been widely criticized and have led to a loss of confidence in the leadership.

INSURANCE AGAINST WAR

The idea of insurance against war is a novel one, but it is one that is being seriously considered by many people. The potential for global conflict is a real and present danger, and the ability to protect one's assets and family in the event of such a crisis is a top priority for many.

CARNEY RE-SUFFLES

The resignation of Mr. Stanley Baldwin as Prime Minister of Great Britain has led to a period of uncertainty in the government. The search for a new leader has been a complex process, and the current situation is one of political instability.

COUNTRY GAMES AND COMMENT

The recent country games have been a success, with many interesting matches and a high level of play. The commentary has been excellent, providing a detailed and engaging account of the events. The overall atmosphere was one of excitement and sportsmanship.

Anglo-German Relations

The View of a Famous British Statesman

(By the Rt. Hon. the Marquis of Londonderry, K.G., P.C., M.V.O.)

THE treatment of Germany by the victorious Powers since the war has been largely fair and will receive commendation from all those who have the sense to look at the situation as it really is. It is a pity that the British Government has not been able to do this in the past, and that it has been misled by the propaganda of the other Powers. The Marquis of Londonderry offers a clear and objective view of the situation, highlighting the need for a more balanced and just approach to the reconstruction of Germany.

HERBIE HILFER proposed a fair hearing within the Council of Europe. He called for a more balanced and just approach to the reconstruction of Germany, one that would take into account the needs and interests of the German people. His proposals were met with skepticism and opposition from the other Powers, but they have provided a valuable voice for those who believe in a more peaceful and equitable world.

Butler's great fast bowling at Trent Bridge - Notable athletic performances at the White City

Parkehead retain the Glasgow Charity Cup - The Moles beat the South African Golfers - Cash Book ran on and on with the utmost bravery - The Kar is not considered a colt of outstanding class.

Cricket

It was not supposed to be a very good day for the young cricketers. The weather was not what it should have been. The rain was not what it should have been. The sun was not what it should have been.

Butler's great fast bowling at Trent Bridge was a real treat for the spectators. He was in the best of his form and he was in the best of his luck.

Reached the limit of your energy?

If you feel like nothing at all, if you suffer from irritability, heart trouble, fatigue and lowered resisting power, you ought not to wait! All these complaints are danger signals, for they are symptoms of a serious weakness caused by a lack of minerals.

Take Kazana—the mineral food for better health—which furnishes you with the minerals you need to regain your former strength and energy. It builds a new reserve strength and enables you to enjoy youthful energy again.

An enthusiastic English writer of Kazana writes from Ootacamund, British India:

"For a long time I was on a strict diet. As a result of using Kazana I found me able to eat almost anything."

Asthma Germs Killed in 3 Minutes

Several London papers are set to take the late Mr. T. D. Galton, F.R.S., to B.R.E., The Times writes in its issue.

Mr. T. D. Galton, F.R.S., President of the Royal Society, died of asthma at the age of 84. The medical cause of his death was found to be the bacteria germ which is the leading cause of the Asthma Association. The bacteria germ is the cause of the asthma attack.

HOLIDAY SNAPS

The following extracts from the "Times" of London, which would appear in the "Times" of this Colony as a highly readable item, are taken by the people of Kenya.

A FAVORITE... A "famous" picture-book is being issued for the children of the Empire. The book which the Progressives find so fascinating in the album contains all the photographs which the people of Kenya take during their holidays in East Africa and the Dominions.

The King and Queen, too, after a long absence from the Empire, are to be seen at the only holiday the King has had since he returned to the United Kingdom in a motor car. The King and Queen are to be seen at the only holiday the King has had since he returned to the United Kingdom in a motor car.

NATURAL CAUSES

As it is supposed that active warfare is not so frequent as it is thought from the reports of the "Times" and the "Lancet," the same work is being done.

A VALUABLE... A valuable property of the Empire is the fact that the Empire is a land of natural causes.

Coronation Gift To The K.A.R.

GOVERNMENT GIFT. The handsome piece of plate presented by the Government of Uganda to the 4th K.A.R. on the occasion of the Coronation. The gift was handed over to the Officer Commanding by H. E. Sir Philip Mitchell, K.C.M.G., M.C., who recalled the fact that he served throughout the war with the King's African Rifles and was almost commended during his service with the 4th Battalion. The plate is a fine example of the work of the Goldsmiths and Silversmiths Company Ltd., of London.

Deutz Diesel Engine advertisement with logo and contact information for Deutz World Wide Service.

A NEW DIESEL TRACTOR

Features of the I. H. C. Model

Model of new I. H. C. Diesel engine shown in photo. The crankshaft, connecting rods, pistons, etc., are shown below.

The International Harvester Corporation of North America has added an interesting addition to their already large range of power machines for the farm, and for industrial purposes. We refer to the Model T.D. 40 Tractor, and the Model W.D. 40 wheel tractor, each powered with a 4 cylinder full diesel engine of modern design.

The unique method of starting the Diesel—exclusively International Harvester—makes starting as easy as with a petrol engine of equal capacity, and eliminates the use of auxiliary engines or electric starters with heavy duty batteries. Moreover, the engine becomes warmed up before its commences Diesel operation.

FUEL INJECTION PUMP. The fuel injection pump is an independent unit mounted on the side of the engine block, readily replaceable should occasion demand. Each cylinder has an individual injection pump mechanism causing uniform and accurate fuel delivery to every cylinder, passing through a pre-combustion chamber.

REPLACEABLE CYLINDERS. The cylinders are cast individually of aluminum alloy forming one piece. This construction makes it a simple matter to replace cylinders should they become scored through neglect or wear through long use. They are heat treated to 500 Tensile and hardened on the outside and polished on the inside, and then assembled in the engine.

BEARINGS. The five main-bearing, main-crank-type, steel ball-bearing ball-bushings, steel roller bearings are precision-type with a copper-lead lining.

CRANKSHAFT. The heavy-duty crankshaft is of special chrome-nickel alloy steel. It is deep-forged and electrically heat-treated to ensure uniform strength. The crankshafts are modified and

hardened to Harvester accuracy standards. Lubrication crankshaft bearings is provided through drilled passages in the crankshaft. The crankshafts are dynamically balanced before they are assembled in the engine.

PISTONS, PINNONS. Aluminum alloy pistons with aluminum inserts on top—especially developed for Diesel Harvester machinery for Diesel performance—are used. The insert develops a portion of the heat to assist in the cooling medium. This results in cooler operating temperatures at the piston ring and prevents excessive wear from sticking and gumming due to oxidation of the lubricant.

TRUCK CONSTRUCTION. Tractor Tractors are built to work in dirt, loose sand, soft ground, mud and water. The shaft bearings are protected with triple dust seals. The suspension is of the torsion bar type.

ROUND-THE-BIDGE TABLE WHEELS. FOUND ON PAGE 28.

shafts of the tiller and track rollers operate in a bath of oil. The track frames are built of heavy steel aluminum alloy, together with a steel structure that provides an unswayed rigid base. The chain is one piece of link language connected by ball-bearing bushings and pins forced into place under heat. The D.D. 40, weighing only 6 tons, is only 12 feet long, and turns within a circle having a 7-foot radius.

STEERING LEVER. An outstanding example of the accessibility of the McCormick-Deering Tractor, is found in the steering handle and steering levers. These important members can be inspected, adjusted and replaced without disturbing tracks. The steering levers are specially designed to provide a wide range of movement, and are electrically heat-treated to ensure uniform strength. The crankshafts are modified and

MARKET REPORT

The following market report has been compiled from Messrs. Dalgety and Co. Ltd., dated May 31st—1930.

Wool. We have received a cable from the Head Office in London giving the following quotations:—Sisal No. 1, 128/10; per ton. Sisal No. 2, 127/5; per ton. White Peruvian No. 1, 127/10; per ton. White Peruvian No. 2, 126/10; per ton. The wool market is very steady.

In a letter dated 26th May from our Head Office in London, they state that all was going well with the commodity in general all the commodities were a firm foundation. The price of wool is not only steady but the selling work of the wool is being done in a very satisfactory manner. The price of wool is not only steady but the selling work of the wool is being done in a very satisfactory manner.

Coffee. The following are the prices given in our cable from London of the 26th May—

Kava Coffee A grade highest price, 4/6 per cwt.
Kava Coffee B grade average price, 3/6 per cwt.
Kava Coffee C grade not quoted.

600 bags were offered, of which 250 were sold, at an average price of 6/6 per cwt.

Maize. The price of Maize has risen, being now quoted at 28/6 per 400 lb. cwt. for East African Plant, White No. 2.

Butter. Quotations for Butter are as follows—New Zealand 16s 6d per 100 lb. per cwt. Australian 15s 6d per cwt.

A NEW ADDITION TO A FAMOUS FAMILY

Built to meet the demand of Contractors, High-way Officials, Farmers and others for a Diesel-powered Tractor running on pneumatic tyres, the I.D. 40 will pull the larger grades, 2 maintainers, scrapers, heavy ploughs, and other machines needing plenty of power. It is ready for any power job, whether on drawbar, belt, or rear and side power take-off. Easy steering, convenient controls, and many other features appeal to operators in all those countries where the I.D. 40 Tractors are used.

The International I.D. 40 Power Plant is a remarkable achievement in Diesel design and engine construction. The unique method of starting this Diesel—exclusively International—makes starting as easy as with a petrol engine. This method is not only easy but positive, regardless of weather conditions. It simplifies construction and eliminates use of auxiliary engines, batteries, or compressed air.

The McCormick-Deering W.D. 40 brings to agriculture diesel performance and diesel economy in a heavy-duty wheel tractor. The power in it is identical to that used in the popular T.D. 40 and the I.D. 40. Generous use of ball and roller bearings, special spring-loaded rawhide oil seals, and high-quality alloy steels assure minimum wear and unusually low maintenance cost.

The W.D. 40 is the Farmers' Tractor for large-scale farming where the soil conditions will permit the use of a wheel tractor; it costs less both to buy and to maintain than a Crawler.

Rated a 4 to 6 Plough Tractor, the W.D. 40 has ample reserve power for all similar heavy-duty work on drawbar, belt, and power take-off.

Investigate the International Harvester W.D. 40 diesel and see how it will lower your farm power costs.

International Tractor Tractors bring to the users of Crawler Tractors the same engineering ability, the same manufacturing refinement, and the same after-sale service facilities that have enabled International Harvester to maintain the position of the World's Largest Tractor Builders. They embody every desired track-type tractor feature, are distinctive in appearance, compact in design, rugged in construction, and have universal application. In addition, they provide a large number of valuable features new to Crawler Tractor construction. Combined with the unique feature of easy starting are the outstanding features of unit construction and accessibility.

International Harvester Tractor Tractors are the most accessible Crawler Tractors built.

See the T.D. 40 Tractor Tractor at the Nairobi Show, or write for full particulars:—

Round The Bridge Table

(By Grand Haven.)

Elimination Play
 This round was played after a wonderful example of elimination, or as the Americans call it "knock play". The number of tricks to be taken by the declarer was 10, and the lead of the club suit was the only one that was not a trump. This was the only way to make the contract. The lead of the club suit was the only one that was not a trump. This was the only way to make the contract. The lead of the club suit was the only one that was not a trump. COMPETITIVE CRICKET IN KENYA

KENYA KONGONIS TO FATHER A NEW TOURNAMENT

Memorandum to All Clubs

An effort is to be made to revive the Kenya competitive cricket in Kenya. For some time there has been a feeling among a section of the cricketing community in Kenya that the only way to develop the game in this country was to have a series of matches between the various clubs. This matter was brought up at a committee meeting of the Kenya Kongonis C.C. which a memorandum was presented to look into the possibility of such a competition, and it was decided to set up a committee to look into the matter. This memorandum has now been passed, and it is proposed to hold the first match in the Victoria Hotel grounds in Nairobi, on the 15th inst. The committee is composed of the following members: Mr. J. H. B. (Chairman), Mr. J. H. B. (Secretary), Mr. J. H. B. (Treasurer), Mr. J. H. B. (Members).

Selection of Teams

Dealing with the selection of teams it is suggested that the Kenya Kongonis representative be selected. It is suggested that the Kenya Kongonis representative be selected. It is suggested that the Kenya Kongonis representative be selected.

UGANDA DISMAY AT SUGAR AGREEMENT

SPECIAL CLAIMS AGAIN PRESSED IN LONDON

Provision Inadequate

“STANDARD” CORRESPONDENT

LONDON, May 31. — Uganda sugar producers, headed by the Uganda Sugar Association, are dismayed at the terms of the agreement reached in London on May 29. The agreement, which provides for a 10 per cent increase in the price of sugar, is considered inadequate by the producers. They claim that the agreement does not take into account the special circumstances of Uganda, which is a developing country with a high population density and a need for foreign exchange. They also claim that the agreement does not provide for a sufficient increase in the price of sugar to cover the cost of production. The producers are now demanding a further increase in the price of sugar, and are threatening to withdraw from the agreement unless their demands are met.

DETAILS OF NEW AIR SERVICE

Two Days from Inauguration to Kisumu

The last meeting of the conference...

The last meeting of the conference was held in Nairobi on May 29. The conference was held to discuss the details of the new air service between Kenya and Uganda. The conference was attended by representatives from both countries, and it was agreed that the new air service would be inaugurated on June 1. The new air service will be operated by the Kenya Airways Corporation, and it will provide a direct service between Nairobi and Kampala. The flight will take about two hours, and it will be operated twice a week. The new air service is expected to be very popular, as it will provide a convenient and quick way of traveling between the two cities.

FUND STRIKE

SETTLEMENT REACHED

Nairobi Disturbance

The strike of the Nairobi fund has been settled. The fund is a public corporation which is responsible for the management of the Nairobi Municipal Council's finances. The strike was called by the fund's employees, who were protesting against the council's decision to reduce their salaries. The council had decided to reduce the salaries of the fund's employees by 10 per cent. The employees had threatened to go on strike unless their salaries were restored. The council has now agreed to restore the salaries of the fund's employees to their original level. The strike is now over, and the fund is back to work.

CLIMATE OF LANU CHANGING

Rainfall Steadily Increasing

“STANDARD” CORRESPONDENT

The climate of Lanu is changing. The rainfall is steadily increasing, and this is causing a lot of trouble for the people of Lanu. The people of Lanu are used to a dry climate, and they are not used to the heavy rain that is now falling. The heavy rain is causing a lot of flooding, and it is making it difficult for the people of Lanu to grow their crops. The people of Lanu are now complaining that the climate is too wet for them. They are asking for a way to deal with the heavy rain. The government is now trying to help the people of Lanu by providing them with flood relief. The government is also trying to help the people of Lanu by providing them with better drainage systems. The government is hoping that these measures will help the people of Lanu to deal with the heavy rain.

STRIKING RESPONSE TO RECRUITING APPEAL

VOLUNTEERS THROUG OFFICE AT NAIROBI

Recruiting for the Kenya Regiment in Nairobi...

The response to the recruiting appeal for the Kenya Regiment in Nairobi has been striking. A large number of volunteers have come forward to join the regiment. The volunteers are of various ages and backgrounds, and they are all enthusiastic about joining the regiment. The volunteers have come to the recruiting office in Nairobi, and they have been interviewed by the recruiting officers. The recruiting officers are very pleased with the response to the recruiting appeal. They are hoping that the volunteers will be accepted into the regiment, and that they will be able to serve their country with honor and distinction. The volunteers are now waiting for the results of the interviews. They are all very nervous, and they are all hoping that they will be accepted into the regiment.

“No Chance for Uganda”

If the cooperation of the special circumstances of Uganda is not forthcoming, the Secretary of State for the Colonies, is likely to recommend that the Uganda sugar industry be nationalized. The Secretary of State is concerned that the current agreement is not in the best interests of Uganda, and he is considering the possibility of nationalizing the industry. Nationalization would mean that the government would own and operate the sugar industry. This would give the government more control over the industry, and it would allow the government to set the price of sugar. The government is now considering the pros and cons of nationalization, and it is hoping to make a decision in the near future.

Colours at Landing Stage

Also topics of appreciable concern, because of the fact that the new air service is not yet operational. The new air service is expected to be inaugurated on June 1, but it is still not clear when it will be fully operational. There are a number of problems that need to be solved before the new air service can be started. These problems include the need for more aircraft, the need for more pilots, and the need for more ground crew. The Kenya Airways Corporation is working hard to solve these problems, and it is hoping to have the new air service up and running by June 1.

Refer End of Month

In the course of a brief interview with the “East African Standard” Mr. Leventon, who is the new Minister for the Colonies, said that the new air service is expected to be inaugurated on June 1. He also said that the new air service will be operated by the Kenya Airways Corporation, and that it will provide a direct service between Nairobi and Kampala. Mr. Leventon is very pleased with the new air service, and he is hoping that it will be very popular with the people of Kenya and Uganda. He is also hoping that the new air service will help to improve the relations between the two countries.

Bevee Bikes in Court

Later in the morning, seven of the bikes were taken to court. The bikes were found to be stolen, and the owner of the bikes is now suing the manufacturer. The manufacturer is denying the charges, and the case is now being heard in court. The case is expected to be heard in the next few days. The manufacturer is hoping to win the case, and the owner is hoping to win the case. The case is a very important one, as it will determine whether the manufacturer is liable for the theft of the bikes.

CELEBRATION DELAYED

The celebration for the independence of Kenya was delayed. The celebration was originally planned for May 29, but it was postponed to June 1. The reason for the delay was the fact that the new air service was not yet operational. The celebration was held on June 1, and it was a very successful one. The people of Kenya were very happy to celebrate their independence, and they were all very proud of their country. The celebration was a very important one, and it will be remembered for many years to come.

PEARLIES FREED

Uganda deserves this special consideration as being a just and fair country. The people of Uganda are very hardworking and very honest, and they are all very proud of their country. The people of Uganda are also very friendly and very helpful, and they are all very kind to the people of other countries. The people of Uganda are a very special people, and they are a very important part of the world. The people of Uganda are a very proud people, and they are a very happy people.
