It is a well-established fact that by investing in sound dividend-paying shares an investor enjoys greater security at all times than the holder of speculative counters.

By spreading his capital over a considerable number of sound dividend-paying shares an investor is still further protected and is almost immune from the more serious adverse effects of an erratic market.

Such a widely spread investment is now within the reach of every investor.

❖ Firestone Ground Grip Pneumatic Tyres are readily Acclaimed by all Farmers as the Greatest Forward Step in Agricultural Progress Since the Introduction of the Tractor

Here are Fourteen Reasons why you should fit Firestone Pneumatics:-

Increase use and value of tractor

1. Firestone Tractor Tyres make the farm tractor available for many more operations, thus increasing its value to the farmer.

Enable tractor to do more work

2. They reduce the rolling resistance and appreciably increase the drawbar horsepower of the tractor, making it capable of doing more work.

Permit higher speed—save time

3. They permit higher speeds and make it possible to pull the same loads in higher gear. This means an appreciable saving of time in many farming operations.

Save approximately 25 per cent. in fuel

4. They save fuel—experts, after extensive and scientific tests, reported fuel savings of 25 per cent. average.

Do not throw dirt

5. They do not throw dirt over machine and operator. This makes it more healthful and comfortable for the operator and increases the life of the machine. The oil requires changing less frequently.

Reduce vibration—lessen maintenance cost

6. They reduce vibration and depreciation, thereby cutting maintenance costs.

Do not injure roads, or floors in farm buildings

7. They enable the tractor to be used at any time on paved or improved highways. They do not injure the floors in barns and other farm buildings.

Do not pack the ground

8. Their low air pressure limits ground-pressure to 12 pounds per square inch. Thus they do not pack the soil, making the Firestone-equipped tractor ideal for seeding, harrowing, cultivating, and other light, comparatively fast operations.

Do not injure surface roots or turf

9. They can be used in meadows, orchards, citrus groves and on golf courses without injuring the roots or tearing up the turf.

Make turns without injuring adjoining fields

10. During field operations, turns can be made without injury to adjoining fields. They do not tear up the barnyard or farm roads.

Make tractor ride smoothly—with less fatigue

11. They make the tractor ride smoothly, enabling the operator to do more and better work with less fatigue.

Are easily inflated

12. They can be inflated with a hand pump or spark plug pump.

Soon pay for themselves

13. Savings in fuel, time and repairs, plus the added work and greater comfort will soon pay the cost of equipping a tractor with Firestone Tyres.

The best traction tyre made

14. Firestone constructed the original Ground Grip Tyre and so perfect is this tread design that it is patented.

Those unable to attend but had given their votes by proxy were: P. D. West, A. Pirbright, G. Water, R. Mont, J. Barker, G. Jackson, C. Ferguson.

It was decided that membership shall consist of the following: Owners of Mining Rights in Uganda, mine managers, 1000

tons, and proprietors, with proprietary rights in their own mines. The Chamber reserving the right to request applications for membership to be referred to a committee for its opinion for so doing.

The following were elected to form a committee: President and Temporary Treasurer, H. O. Crispin, A.I.M.M.

Vice President, P. D. West. Secretary, P. C. Oulda. Members: A. Shier, G. Jackson, J. A. Amari, and J. Gustafson, with powers in addition to those of the membership of the Chamber increased.

Gold Price

The price of bar gold was quoted in London yesterday at 140 1/2 which is 1/4 more than quoted the previous day.

THE WEATHER

The following note on the weather was received yesterday from the Director of the East African Meteorological Service.

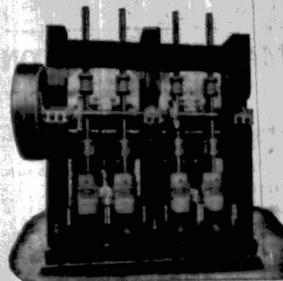

The 24th hour reported by Kenya stations this morning was 84.6 at 100 ft. in Uganda, 82.0 reported at 100 ft. in Kenya, and 82.0 at 100 ft. in East Africa.

Conditions remain steady and no very change is anticipated. Weather will be mainly fair generally with scattered local showers over the Highlands. Local drizzle or rain is to be expected along the coast of the Highlands and on other high ground exposed to the south-east.

Showers were fairly general over the Highlands in Kenya during the week, the highest reported figure being 1.62 in. at Nairobi and reports of over two inches were also received from Highland stations in Kenya, Masai, East Africa, North Africa and West Africa.

A comparatively weak monsoon has favoured the development of these showers over a wide area and there are not yet signs of any real weather change likely to occur until the next few days over Kenya generally, with further local showers over the Highlands. These showers may decrease over the Eastern Highlands, but there will be high level rain or mist over this area and over all high ground exposed to the south-west.

THREE DULL DAYS THAT WERE ANYTHING POLITICS AND STATISTICS

The show is over, and critics have returned to their flows. In one sense we have had a beginning. No one who attended can have failed to have gained some new knowledge and enthusiasm, and there is little doubt that those who spread over to those who could not come to Nairobi.

The attendance amazingly beat the record and the financial result was more than satisfactory. But that is incidental. The show was the best since the opening of the exhibition. No one who saw the exhibition could deny that the show was the best since the opening of the exhibition.

Don't risk failures with doubtful baking powder

It is foolish to take chances with poor-quality baking powder when you need only 2 or 3 teaspoons to make a big cake. Especially when dependable Royal tests so little. This famous baking powder has been the standard of fine quality for over 65 years. Made with Royal, your cakes will always be light, fluffy, cream-colored—unless any houses can serve with pride!

Get a tin of Royal today and try some of the delicious recipes in the Royal Cook Book.

And remember to insist on genuine Royal Baking Powder.

Traffic Town at the Show

Quickest Healer for all Festering Sores and Itching Eruptions

Trade Town? At the Show was a small town in itself, for nearly forty firms, varying from dealers in plant and machinery to representatives of sewing machine manufacturers were exhibited. The variety of exhibits, the well-attended stands and the business which resulted, justified the claim that it was the best trade occasion ever staged.

Those exhibiting heavy machinery and cumbersome items overcame enormous difficulties, in getting their exhibits on show in time, due to the weather which preceded the show.

The staffs worked like Trojans getting these exhibits prepared in time. It is not possible of course to give a full description of every stand but below will be given a description of the salient points of each stand.

DESPERATE PLIGHT OF BASQUE REFUGEES

HARRIED BY INSURGENT BOMBS AND BULLETS

Starving in Santander

WHILE BITTEREST FIGHTING RAGES ROUND BILBAO

East of Bilbao the fiercest battle of the Spanish war raged on Thursday and deadlock resulted.

Women and children, fleeing for refuge to Santander from Bilbao and the country round about, were bombed, shelled and machine-gunned by insurgent aeroplanes and warships.

One refugee ship carrying 300 non-combatants was sunk. Government aeroplanes bombed and machine-gunned an Italian steamer off Oran, without any casualties.

After a hiatus in Spanish news, which, appropriately, was partly filled by the announcement that a new appeal to humanize the war was to be issued to the combatants, there are the contents of some of yesterday's messages.

Italian Ship Attacked

[FRANCOS BUREAU'S AGENCY.]

June 18.
The largest battle of the war was fought on the 18th, east of Bilbao. According to Franco's message, the enemy lost 1,000 men and 10 aeroplanes, besides the use of an immense quantity of explosives, shells and tanks. The Basques have blown up an aerodrome, where they are still working, where they are still working, where they are still working.

Later.
A submarine communique states that insurgent columns on Wednesday occupied a small village on the west bank of the Nervion, south of Bilbao. Between three and four thousand Basques are completely isolated.

Basques

Twenty thousand refugees have fled from Santander. Bilbao is in a serious position in food and clothing.

Passengers from the country steamer "Santander" and Bilbao have been rescued and children travelling on foot and in carts were bombed and machine-gunned from the air.

The insurgent fleet last night shelled ships remaining in Santander. The "Santander" was shelled several times. It is reported that one ship was sunk with 200 wounded and 100 injured.

There was no relation with the 400 entertainers. The party was held at the Grosvenor Gardens, London, on June 17th. It was a very successful party.

WHITEHALL'S RELATIONS WITH GOVERNORS

PERSONAL TOUCH TO BE STRENGTHENED

Interchange of Staffs

There is going to be an increased exchange of personnel between the Colonial Office and the Dependencies in the future and a stronger personal relationship between Whitehall and Governors, according to the latest announcement by the Secretary of State.

Another interesting statement by Mr. Ormsby Gore was that new cruisers for the British Navy will be named after individual colonies.

Rugby, June 18.
Speaking last night, the Secretary for the Colonies, Mr. Ormsby Gore, said the economic situation in British Colonies was improving beyond expectation, production had increased, and prices had risen. The Government's regulation scheme had assisted this, but co-operation with foreign, as well as colonial producers, was also necessary. The international sugar agreement was the latest example of this co-operation. In this, export quotas had been fixed for all producer countries, and for the British colonies the figure was virtually that of the maximum ever recorded in the empire.

MARKETING BOARD

Mr. Ormsby Gore said that the Prime Minister had agreed to a fresh start being made with the Marketing Board for the Colonial Empire. This, he said, should help to stabilise the present economic improvement. British Official Wireless Service.

He looked forward to visits not only by administrative and technical staffs of the Colonial Office to the Colonies, but also to the development of the system of interchange of personnel between Whitehall and the Dependencies in the future.

'TACT' OF EMPIRE BUILDERS

Worked Before League Was Founded

PAFFINER'S VIEW

'STANDARD' (CORRESPONDENT) London, June 9. The chief obstacle to the discussion of a pacific convention, held at Strasbourg on Saturday, states the 'Manchester Guardian' was that the Government should announce a new world conference. At such a conference the 'standard' procedure of nations might be examined, discussed, and settled by definite attention on the part of nations which, like our own, are making a large proportion of the earth's national resources. The position is not, however, the focus of the organization of the world's supply and demand for raw materials and foodstuffs, on the basis of the equal rights of all nations, in place of the present trade restrictions.

Must be Sacrificed

It should be realized that in any conference there must be sacrifices there must be give and take, but while some nations might lose territory that they could not part with on the actual basis they would gain immeasurably by the future peace between the nations.

Right Not to Fight

Another resolution adopted re-echoed the belief that the method of war could never bring lasting peace and security and declared that it was the right of every citizen to renounce all participation in the preparation for war. This point of view was argued vigorously by Canon Stuart Morris.

The Secretary of State for the Colonies has agreed to the recommendation of the Permanent Advisory Committee of Colonial Sugar Producers regarding Empire basic quotas for 1937 and 1938.

KHARTOUM TO NAIROBI DESPITE RAINS

Sporting Trip in Six Year Old Car

WITH NO TROUBLE

Will Stop Broken on
Kenya Roads

Long distance tours to and from South Africa and the southern and western territories are by no means rare nowadays, but to drive from Khartoum to Kenya and thence to Tanganyika and back in the rainy season in a six year old car with many thousands of miles to its credit is a sporting venture of the first class.

This is the report, almost partially accomplished, of Major and Mrs. David Smith, who are spending a week or two in Kenya before going on to Tanganyika and thence returning to Egypt, driving once again to Khartoum and thence taking their car with them aboard the Nile steamer to Cairo.

Major David Smith has returned to the Royal Home at Cairo and his wife is expected to arrive in Khartoum in a few days. They had a most enjoyable journey that has been packed with incidents and pleasures. He and his wife have seen and done some strange people, seen a good deal of shooting, taken some excellent photographs with still and cine camera, (one particularly good one film depicting a herd of wild elephant taken from a range on less than 40 yards) and made their car their home, when necessary, throughout the journey.

Trouble Free Trip

Starting off on April 7 they took the steamer to Khartoum and thence drove to Juba. They were the first people for a long time to be allowed to cross the Sudan river.

THIRTEEN AMERICANS ARRIVING BY AIR

East Africa will be the scene of another "Martin Johnson" film safari next month. The famous explorer and photographer lost his life in an air crash six months ago, but Mrs. Johnson is bravely carrying on alone the tradition which she helped her husband to establish.

Mr. A. J. Knack, the well-known white hunter, has just received news that Mrs. Johnson will leave London by air about June 25 with 13 other Americans, in order to film African scenery for a picture dealing with the adventures of H. M. Stanley in his ventures of 1871-74.

Keys Attractions

Keeney has found a most attractive country and saw several of the chief facilities offered, the other being the beauty of many portions, especially the Nyngala and New District. Of the roads they said little, but were much impressed with what they termed the general air of optimism that pervaded the country.

INSURGENT FORCES ENTER BASQUE CAPITAL

BILBAO INVADIED FROM ALL SIDES

"NATIONALIST" SPAIN JUBILANT

Triumph for "Big Battalions"

MANY DEFENDERS SURROUNDED IN CENTRE OF CITY

According to a message from St. Jean de Luz, the insurgent claim to have entered Bilbao at 4.15 p.m. on Saturday, after earlier messages had indicated that the encirclement of the town had been progressing steadily.

Continuous bombardment and the pressure of what the Basques described as "enormous superiority" in aviation and artillery are the principal factors of the capture of the Basque capital.

The town was apparently entered from all sides and a large number of Basque troops were apprehended in the centre of the city after a bitter resistance.

News of the fall of Bilbao was broadcast throughout insurgent Spain and has caused great rejoicing.

Government Surround Huesca

Antiaircraft batteries, engaging insurgent aeroplanes, were being used and its fall is imminent.

St. Jean de Luz, later named Bilbao at 4.15 p.m.

Berlin, later. The town was invaded from many directions though the Basques were apparently according to reports, not surprised.

The town was the first to be captured and many Basque troops, who surrounded the centre of the city, are expected to be in the streets of all insurgent Spain, which is most likely to be captured.

Features included political prisoners in Bilbao have passed the German lines.

Basques' Repentancy. London, a Basque communiqué issued today states that the Basque people state that Bilbao have been captured continuously by nearly 100 Basque and Italian aeroplanes.

The capture of the city and the capture of the Basque capital, the Basques have been taken extraordinary steps of the Government troops.

OTHER POINTS. Government Claim in Huesca Sector. Huesca, the Government claim that the town in the Huesca sector is being captured by the city on all sides and that the only route through which the insurgents can be captured with the outside aid is the port of the Government troops.

Madrid. Insurgents people have been captured in connection with the capture of the city on all sides and that the only route through which the insurgents can be captured with the outside aid is the port of the Government troops.

["FRANCIS SMITH'S AGENT"] Zanzibar and Mombasa, June 20.

The m.v. "Inchanga" of the Andrew Weir Line grounded at about sunset last night on the south eastern extremity of Green Island in Zanzibar waters after leaving anchorage for Mombasa.

The assistance of the Zanzibar Government steamer "Al Said" was requested, and an attempt to refloat the "Inchanga" at one hour today was unsuccessful.

The "Al Said" is standing by, and the "Inchanga" is being towed to the anchorage at Mombasa.

The steamer will be towed to the anchorage at Mombasa, and the "Inchanga" will be refloated at a later date.

GARDEN PARTY

Government House Event at Nairobi

Despite grey clouds and lowering skies about 1,100 people were present at the Government House Garden Party held last Saturday.

The guests were received by H.E. the Governor, Sir Robert Brooke-Pollock and Lady Brooke-Pollock. In addition to many distinguished members of the Empire and Indian communities five members of the King's African Rifles played selections from Gilbert and Sullivan, and from various national comedies.

Garden party frocks were very popular. Most women preferred light weight coats and a great number of frocks were seen.

The organization was splendid and the police, as usual, saw that long lines of cars went perfectly quickly and easily without inconvenience to any one.

DOBBIE LEAGUE SOCCER MATCH

and railway and Calicut. Draw

LIVELY GAME ENDED WITH NO SCORING

After two abandoned matches, due to lack of spectators, Calicut and Railway met for the first time this season in a Dobbie League match on the latter's ground on Saturday, and there were few present who did not wish a good lively match; result, a goal less draw, much to the surprise of many a Calicut supporter.

The ground was in good condition, when the ball was set going. Both sides attacking the Whitesides.

The opening was strategy on the part of the Whitesides, but the Calicut backs were strong.

Handed, some signs to the Whitesides, with a fine cross to Bell and taking the ball on the run. Bell was a fine goal.

It was a tight end game; a warm attack on the Calicut goal, but the Calicut back, where "Hogg" gave a long range shot, which missed the goal.

There were some signs of play, but Calicut were stuck in defence. A cross for Calicut was a fault, after by Goal, which was closed by the keeper. Back again, Calicut took a shot, which was closed by the keeper. Calicut were playing a steady game, but Bell was a fine little player.

FRENCH PRIME MINISTER RESIGNS

POPULAR FRONT GOVERNMENT LEAVES OFFICE

Senate's Opposition

PLENARY FINANCIAL POWERS BILL CAUSES MINISTERIAL CRISIS

Monsieur Leon Blum, the wealthy, aristocratic Socialist who, at the head of a "Popular Front" government...

The Senate's opposition to the Government's measure giving extended plenary powers in financial matters to the Government has caused the crisis.

The new Prime Minister may be Monsieur Camille Chautemps, who, at a conference of possible Premiers with M. Lebrun, the President, accepted "in principle" the task of forming a Government.

M. Chautemps to Succeed?

[FRANCOIS SMYERS'S SERVICE.]

Paris, June 21. The Senate by 105 votes to 96 has rejected the Chamber's amended Plenary Powers Bill...

Addressing the Senate before the vote, M. Blum said that he regretted the Senate's decision. He said that the feeling of the majority of the Senate was against the Popular Front. The Senate gave the Government neither confidence nor power.

M. Blum's Statement. The retiring Premier, M. Blum, made a statement to the effect that the Senate, by rejecting the Plenary Powers Bill, had refused to Government power...

The Government was proud of its own work. It was supported by the masses of the people and by the vast majority of the nation.

Senate's Reply. M. Chautemps, the rapporteur of the Finance Committee, replying to the Premier said: "Your words have been followed by your acts."

HIMALAYAN DISASTER

German Expedition Overwhelmed

It is officially stated from Gilgit that an avalanche has overwhelmed the German Nanga Parbat expedition. Seven climbers and nine Gurkha porters have been killed.

The expedition, numbering nine, was led by Herr Kurt Wern, Professor of Geography at Munich University. It arrived in Gilgit early in May.

The nine climbers were Prof. Kurt Wern, Herr Peter Maulsberger, Herr Adolf Hartmann, Dr. Guenther Hepp, Professor Theodor U. Ullrich, Herr Martin Pfeifer, Herr Bernhard Hauser and Herr Adolf Grawert.

M. Leon Blum, who has resigned the Premiership of France because of the Senate's rejection of his Plenary Powers Bill, seen addressing the Chamber of Deputies which has consistently supported him against the higher chamber.

"No Reprisals at Bilbao" Says General Franco

SCENES WHEN INSURGENTS ENTER CITY

Less Damage Than Expected

[FRANCOIS SMYERS'S SERVICE.]

Apart from six bridges which had been blown up by Anarchists, the damage in Bilbao is less than was expected, according to a Spanish journalist who entered with the first company of Insurgents.

He declared that General Franco's troops received a great ovation in the centre of the city, many of the crowd giving the Fascist salute. The Ministry of the Interior, the Presidency and the Town Hall were hauled over without bloodshed.

FOOD AND WATER

Requisitioning of the city quickly began and the water supply, which had been cut off for four days, was restored.

The number of prisoners in the city itself is unknown, but it is estimated that 18,000 have been captured since the beginning of the engagement.

General Franco has issued orders to avoid all reprisals.

MUSSOLINI'S CONGRATULATIONS

A message from Rome states that Signor Mussolini, congratulating General Franco on the capture of Bilbao, has expressed by telegram his pleasure at the "noble undertaking which has given back to the Spanish fatherland one of the noblest provinces, and marks a gigantic step towards the triumph of the National cause."

INCHANGA RELOADED

[FRANCOIS SMYERS'S SERVICE.] The Members, Monday "Inchanga," were grounded on Saturday on Dravo Island, Zanzibar, was refueled at 2.30 p.m. to-day, with assistance from the "Incomati," 3.37 a.m. G.M.T. yesterday and reached Singapore about seven hours later. She will sail for Mombasa to-morrow morning, and the "Inchanga" will remain at Zanzibar temporarily.

Governor Appeals for Navy's Help

[FRANCOIS SMYERS'S SERVICE.]

Port of Spain, Trinidad, June 20. A tense situation has arisen owing to a sit-down strike in the English-owned Trinidadian Lumber and Apex Oilfields.

An English police inspector, William Bradburn, and a local corporal have been killed in a fight between the police and the strikers.

Many people have been injured and the Governor has "whinnied" for a British warship, which is expected to arrive at any moment.

VATICAN MEETING

"Of Extraordinary Importance"

[FRANCOIS SMYERS'S SERVICE.]

Rome, June 21. The most important meeting of the century for Extraordinary Ecclesiastical Affairs held at the Pope's villa at Castel Gandolfo, at which it is understood that relations between the Vatican and Germany were discussed.

While no official statement has been made, the ecclesiastical relations between Germany and the Vatican are said to be in a most important position, since it is most important for the Pope to preside at a Congress meeting.

It is expected that the decision will be officially revealed shortly.

SOVIET AIRMEN'S POLAR FLIGHT SUCCESS

FIVE THOUSAND MILES OVER TOP OF WORLD

Moscow-Portland Non-stop

NO TROUBLE ON PIONEER FLIGHT OF ARCTIC ROUTE

[FRANCOIS SMYERS'S SERVICE.]

Portland, Oregon, June 20. The Soviet airmen, attempting the first non-stop Moscow-San Francisco flight across the North Pole, landed at 4.22 p.m. G.M.T. at Vancouver Barracks, Washington State. They had previously sent a radio message stating that they were coming down because of pump trouble.

By the completion of their flight of approximately 5,000 miles over the top of the world the three Soviet airmen Chalkovik, Baydykov and Belyakov, have demonstrated the possibilities of a new air route. Leaving Moscow at 9 p.m. on Friday, they landed at Vancouver Barracks at 4.22 p.m. to-day, a flight of 20 hours 29 minutes.

PILOT'S STATEMENT

Chalkovik, interviewed by Reuters' representative on landing, said that the aeroplane had behaved perfectly and landing went easy. They had landed owing to poor visibility, and had enough petrol for a further 750 miles.

They will carry on to Oakland when the weather clears.

LAMU'S EXPORT TRADE IN MANGROVE POLES

Notable Increase This Season

SURVEYING FORESTS

Appel to Governor for Aid

["STANDARD" CORRESPONDENT.]

Lamu, June 7. The notable increase in the exports of mangrove timbers to Arabians and Persian Gulf ports provides a bright spot in Lamu trade returns. Shipments for the whole of 1936 amounted to 245,000 timbers, while those for the season this year came to 218,000, an increase of nearly 20 per cent. Even more impressive has been the increase in volume which shows an increase for the month of May, the 27,720, as against 111,510, or a little over 48 per cent.

The timber cutters, the khambo engaged in stacking the poles, and the dealers engaged in the trade have all benefited from this notable improvement as they have the local shopkeepers and others from the individual purchases by the towns by the visiting show crews. This latter item alone, for the 1936 season, was calculated to have amounted to no less than Shs. 20,000.

Government's Share

Government, also, gets its check out of the trade and, not merely from the improved quality of cargoes to meet their obligations but also from the revenues from towage fees, harbour dues, medical officers' fees, and Customs duties on goods landed from the show, but also from the very important item of royalties from the timber harvested which, in the case of khambo this year, cannot have been less than Shs. 20,000.

The prospect for the future are viewed with much confidence by the...

Unless you take better care of your teeth you will lose most of them

Don't be lured into a false sense of security because apparently no harm is done to your teeth if you neglect to clean them for a while. All the time tiny particles of food are lodging themselves between your teeth. They decay and breed bacteria. Then one day you feel a stabbing twinge, rush in alarm to your dentist and find that some of your teeth have to come out and others have to be stopped. Clean your teeth twice a day with Odol, the world-famous toothpaste recommended by doctors and dentists because it is thorough and antiseptic. It not only removes the stain without damaging the enamel, but also protects every crevice. Odol helps to massage the gums and keeps them firm and healthy, and polishes your teeth to a pearly whiteness.

Quota System

EFFECT ON COLONIAL DEVELOPMENT

To the Editor, "E.A. Standard." Sir,—You have given prominence in your issue of relations with "Governments," but on reading the very brief summary of some remarks made by the Secretary of State for the Colonies, I am struck by the fact that in your book "Gleanings of the Hour" written by the late Lord Milner in 1928, you had said...

"It needs the imagination and the driving power of a Chamberlain to impose the British people on the native peoples, by their own free consent and their own volition, as we did in the case of India." These words were written by the late Lord Milner in his book "Gleanings of the Hour" in 1928, and they are as true today as they were then.

As Lord Milner said: "It is not a sufficient discharge of duty to keep the peace and prevent the rights of the natives from being interfered with. It is to give them as much as they can get, and to give them as much as they can get, and to give them as much as they can get." These words were written by the late Lord Milner in his book "Gleanings of the Hour" in 1928, and they are as true today as they were then.

The latest International Sugar Agreement is hailed by the present Secretary of State for the Colonies as an example of what he calls "Co-operation with Foreign as well as Colonial Producers," and it takes great pride in having the present Secretary of State for the Colonies as its champion.

Where is all this leading to? Take sugar as an example. The present Colonial production apparently to be regarded as a maximum. Just as the East African producers are getting into their stride we are told that the quota allowed for export during 1937 to 1938 is to be 27,000 tons only 12,000 had arrived.

It will be within the recollection of your readers that the British Produce Commission has been established during the past few years in order to coordinate the production of various commodities. We already have an International Agreement regarding the export of tea and if these provisions...

Six admissions are to be extended to other commodities, which in the past have been put forward regarding sugar, but have not been accepted by the East African producers. Here in East Africa Railway lines have been built, a fine road of deep water tanks constructed at Kilindi and filled with the most up-to-date equipment. All in anticipation of steadily increased production and exports. It looks very much as if the Crown Colonies are now becoming the Cinderellas of the Empire.

Sir,—In order to curtail the heavy expenses of process involved by the Municipal Board, it would be more economical if the water and sewerage charges were combined in one bill. Meters should be adjusted to give the water and sewerage charges a very good thing if the meters were allowed in the town as it is now in certain areas of the township. Alternately I would suggest that the 150 per 1,000 gallons of water or a flat rate with a maximum of 150, including one sewerage should be introduced.

It is not a sufficient discharge of duty to keep the peace and prevent the rights of the natives from being interfered with. It is to give them as much as they can get, and to give them as much as they can get, and to give them as much as they can get.

European White Stock passed north over the Murrumbidgee last night about 8 A.M. It is a long column travelling, it is estimated, four hundred to six hundred cattle. Many stragglers passed during the following half hour. At 6.30 May 1937, a small stock of European White Stock passed north over the Murrumbidgee at about 4.15 p.m.

In addition to the above, some white stock were confined only on the estate during March and April. The last date of African trials regard the stocks in the Borewa it will be in all probability alternate.

Uganda sugar producers, submitted to H. Honorable the Governor on the subject of the sugar quota. At the Conference of East African Governors, in discussing the sugar question, my delegate present, Mr. J. J. S. M. I do not wish to touch the question of the present quota, but I wish to touch the question of the future of the sugar industry. OUR LONDON TURF LETTER Miss Dorothy Page's Bad Luck

NEWTON FORD FOR THE NORTHUMBERLAND PLATE

LONDON, June 14. (By Air Mail.) The week's racing has been most interesting, and the turf approach of the August Festival, the Golden Hair race, Miss Page's experience in her chase on a yearling will not be forgotten.

There was a record attendance at Parklands Sports Club, given on Sunday afternoon by the staff of the "Enterprise" Hotel (Edwards the holder). Both sections showed changes from those which have been the previous day.

That both lions were of their own sex is evident when they took the field, and such reserves were withdrawn from the rest as to give the field a more interesting character.

Edwards went first to get going and took play in the "Nondescripts" which was a fine affair. Kerr did not touch, under the impression that he was to be ridden by Kotzenberg.

Other Sports News will be found on page 25.

The Opening Score Once again play went to the victor and when Colonel Bink drove before passing to Robertson, who had a fine race, Sir Calidus, the last named galloping ever for a try. The main play followed.

Newbury Stop As I anticipated, Colman was very quiet, and well ridden by H. Wiggan. The morning's play missed this place, and this was his best performance of the season.

Edwards' Fight for Supremacy The new season to do Ed Edwards' fight for supremacy in the "Enterprise" 25, but will not be removed with a good double to be made.

The Northumberland Plate The week's racing has been most interesting, and the turf approach of the August Festival, the Golden Hair race, Miss Page's experience in her chase on a yearling will not be forgotten.

Conditions-The race must be given away again to the person who has won the Plate and provided that he is a resident in the district.

FINAL OF THE "ENTERPRISE" CUP NONDESCRIPTS: GLORIOUS WIN OVER THE HOLDERS

Kerr's Brilliant Kicking ELDORET'S MAGNIFICENCE IN BATTLE AND DEFEAT

Later Kerr performed a similar exploit, following a kick ahead by Edwards. It was now a question of time before Kerr's brilliant kicking would be rewarded by a victory over the holders.
