RUSSIAN ATTACKS INCREASE VIOLENCE Deep Wedges Driven Into German Defences

February 20. Moscow broadcast. A detachment of Russian gipsies operating in the newly occupied region of the Ukraine has blown up a regimental staff headquarters and killed many officers and gipsies. The gipsies returned back many important communications when they returned to the Red Army lines.

An army report says that the Germans are showing in further readiness to sign with the new Russian offensive in the Crimea. The report admitted that the Soviet forces have broken through the Tsimli-Melch road, although Tsimli is again found to be strongly held.

Reports from both Russian and enemy sources suggest that the Allies are now engaged in what may prove to be decisive operations in the Crimea. The Russian radio gave definite news of a three-mile advance by the Soviet army units to which Russian tanks were quickly followed by the German forces.

The Soviet Army newspaper, Red Star, today reports further progress of the battle with the Germans who are being repulsed in all parts of the front.

It is said that a number of German prisoners have been captured by the Russians. They say that they have been taken to German factories, but immediately ordered to the front as labour volunteers in the German army.

Blitz, states the newspaper, is being forced to use what would be hoped to keep in reserve until the end of the war.

Latvia Guerrillas. A correspondent of Pravda on the northwest front reports that Latvian guerrillas troops have received headquarters of the German army.

It is said that this is the first time that the German army has been established. A week ago Russian units were reported to have crossed the border to White Russia, part of the German territory.

Pravda says that some of the Latvian guerrillas units are remaining at Russian headquarters for liaison purposes. (Reuter.)

Japanese Expeditionary Force in Bali HEAVY ASSAULT ON AXIS SUBMARINES ACTIVE OFF TRINIDAD

February 20. The Middle East communique from Cairo states: "Throughout yesterday a severe and sustained wind raised the land and air activities. In conditions of very poor visibility our fighting forces were engaged in a series of operations."

The Japanese, probably in the hope of obtaining information, have put out extravagant claims about the attack on Darwin. A full account of the raid was given by Sir D. Drakeford, Australian Air Minister.

He said that the raid was made by about 27 two-engine bombers concentrated on the town, and that the other five were used to attack the air base.

Today's Baliwa adds: "The Japanese air attack directed against Bali, with the aim of destroying the island's main air base, was a surprise move."

The Baliwa adds, referring to Japanese air raids on Java: "On the 19th a major damage was inflicted on the island."

A Netherlands Indies naval communique says that the Japanese have used their lighted surface forces and submarines to attack the island of Java.

On the 19th, the Japanese used their lighted surface forces and submarines to attack the island of Java. Five of our machines were lost, but three pilots are safe.

On the 19th, the Japanese used their lighted surface forces and submarines to attack the island of Java. Five of our machines were lost, but three pilots are safe.

Another Air Raid On Darwin DEPUTY LEADER OF DAIL RESIGNS Lease of Air Bases to America

Following their recent attack on Darwin, 15 people were killed and 34 wounded. An agency message from Canberra says that service and civilian planes were damaged and 100 miles of the coast were shelled.

Mr. Stimson's Warning. In Washington yesterday, Mr. Stimson, United States Secretary for War, declared: "We must be prepared for attack, not only on the Philippines, but also on the United States."

Lord Beaverbrook's Task. Lord Beaverbrook was invited to join the war cabinet and to take the portfolio of the Ministry of Aircraft Production.

First Time Lucky. The commander of an anti-aircraft detachment in Britain has just told the story of how his gun crew saved the first time they were attacked.

War Guilt Trial. The French army was almost completely destroyed in the last week of the war.

Italian Minister Leaves Saudi Arabia. The Italian Minister for Saudi Arabia has left the country.

Less Bread in Eire. The consumption of food in Eire is being cut down today by one-third.

R.A.F. Over Germany. British bombers were active over Germany last night.

British Forces Are Pulling Their Weight. The British forces are pulling their weight in the war.

Brazilian Ships to Sail in Convoy. Brazilian ships are to sail in a convoy.

Destroyer Sunk. A destroyer was sunk in the North Atlantic.

News Results to China. The news results to China are as follows.

Huns Plan Big-Gas War
"Singapore "Brass Hats" Accused

[*STANDARD CORRESPONDENT] London (By Mail).
Severe criticism of the conduct of the War (East campaign, already in London, Australia, and Singapore was expressed by Sir Charles Vyner Brooke, Governor of Sarawak, who is more than half, old school, and is the familiar position in Malaysia and should be looked on as a declared in London. He used such terms as "brass hats" and "accused" and "moral criminal negligence."
In a Singapore broadcast last night, Sir Charles Brooke said that the British of the Columbia Broadcasting System, said it was in Singapore for four months before war broke out. On all sides there was a general feeling of confidence that war would not come to disturb the peace of Sarawak and other States and games on the playing field.

Most of the criticism had been directed against Chief Minister Sir Robert Brooke-Popham, but Sir Charles Brooke-Chief, he said who had been in Sarawak for some time in making preparations. Another speaker who never thought people in Singapore who we did not see, described the earth policy in Malaya. When we moved our own military equipment and shipping from Penang the factories are said to have been left intact for the Japanese to occupy and utilize at their will. It is being said that if this were not so, we should have been in a position to have destroyed the Japanese. Sir Charles Brooke's vested interests under any circumstances. It was a matter that high authorities say had they thought of applying the embargoed earth policy to Malaya or that they had not done so, they would have had time to organize it.

KAVIRONDO GOLD MINES
Improved Results

[*STANDARD CORRESPONDENT] London, February 19.
At the annual meeting of the Kavirondo Gold Mines, the chairman, Mr. F. J. Mackenzie, said that the year under review was the best year since the mines were started. The total production for the year was 2,124 tons, an increase of 75 per cent over the previous year. The total expenditure was £2,124 less than the previous year and the balance of the revenue account showed a profit of £214 in 1941-42. The results of the year show that the mines are a profitable investment. It is expected that the mines will continue to show a profit in 1942.

Caught Red-Handed
Kachwa of a Nungwa, a Kikuyu, was charged in the Resident Magistrate's Court with the theft of a bicycle valued at £20, on January 26, the property of Githambo's Motor, from Hassan Road, Nairobi. Mr. Collinge, who is employed by the Air Ministry, says a native chasing another native who was on a bicycle. He followed the bicyclist down Swamp Road, beyond the bridge, till the man turned up a track to the left—dropped the bicycle, and ran off towards some buildings, where the car could not follow. Mr. Collinge then drove into Chamberlain Road in the hope of catching the native there and finally saw him go into the driver of a house. He then jumped from his car and caught the bicyclist, and him into the car and drove back to where the bicycle was dropped. At the conclusion of Mr. Collinge's evidence he was thanked for his helpful efforts in recovering the bicycle, by the Resident Magistrate, and the Public Prosecutor. The accused was sentenced to six months' imprisonment, the bicycle returned to its owner.

Eldoret Doctor Charged

ALLEGED TO HAVE IMPORTED OPIUM

Dr. Francis Peter Andrews, of Eldoret, was charged yesterday with importing opium from the Dutch East Indies against the Dangerous Drugs Ordinance.

Mr. A. C. Patel appears for accused and Mr. Griffin is prosecuting in the District Magistrate's Court.

Letters Proliferated
The first witness for the prosecution, Lattai Aminchand Shah, a clerk in the District Magistrate's department of Mombasa, British documents. The second was Dr. Andrews, giving certain instructions to the firm regarding imported goods.

Mr. Griffin then produced a clearing card for the firm, description of how after the usual procedure the package, a wooden box, five cubed, about three feet by two by two, close up in a sturdy bag and addressed to Dr. P. P. Andrews, was taken to the sailing department.

Miss Bottom
Then Mr. Sandall ordered the bag to be turned over and the bottom to be opened. The bottom was held together with wires, the whole bottom was removed and a false bottom disclosed. Between the real bottom and the false bottom a strip of paper was revealed.

American Securities Case

APPEAL CONTINUED

The hearing of the appeal of John Ernest Payne Carbery against a sentence of two years' imprisonment with hard labour passed on him in the Resident Magistrate's Court, Nairobi, last week by Mr. P. W. Finlay, District Magistrate, continued in the Supreme Court, Nairobi, yesterday before Mr. Justice Hayden and Mr. Justice Barclay.

Mr. Justice Hayden: The appellant who was not present in court is represented by Mr. Shapley, and the Crown by the Solicitor-General, Mr. J. Brown.

Mr. Shapley, in pleading the case for the appellant, read out extracts from the accused's evidence at the Resident Magistrate's Court, in which he admitted that he had been in possession of the opium in the judgment which appeared in the press, which he said, "contrary to a completely honest impression of the fact."

He characterized a message in the judgment referring to the accused's "honest impression" and his ultimate action in meeting his needs as "unfortunate," but "thought safer" as "inevitable." Mr. Carbery, he said, moved out one single penny piece from the British Empire to America. He merely sold his English stamps, converted them into gold in Johannesburg and directed that his South African securities in London be sent to Johannesburg.

Mr. Justice Barclay: He has that appearing to do with the appeal? Mr. Shapley replied that this was a very complicated appeal but he would deal with the plan of his argument and would subsequently cover the points.

Continuing he said that it might well be that people who made very largely or wholly in the British Empire would be very susceptible of anyone who did not voluntarily make their call, wherever called upon or required, in favour of their own country.

Collector of Customs: Mr. Blythe, Collector of Customs of Capetown, said he thought it was on or about April 24 or 25 that Mr. Sandall wrote him a black envelope, which, except for a small sample which he had taken for analysis, was kept in his possession. Witness could not remember whether he had seen the sample, after consideration he thought he must have seen them together, neither could he remember whether he had ever had an answer, though he believed a test pipe had been returned.

All cross-examination was reviewed by Mr. Pain and the case finally adjourned.

"Completed" Appeals
The Solicitor-General then addressed the court on behalf of the Crown. They had heard on two or three occasions from Mr. Shapley during the hearing, that these appeals were complicated. He thought that if the Crown appeared to be complex, it was due to the fact that they had dealt with the charges altogether instead of dealing with each in a water-tight compartment.

The Solicitor-General proposed to deal with each of the three charges by itself, ascertain quite clearly what the Crown had to prove on each charge, refer to the evidence and see if the Crown had succeeded in proving it.

The first charge in order of time was the currency charge of November 1, 1939. The Crown had to prove: (a) that the accused was resident in Kenya; (b) that he was entitled to deal in the currency; (c) that he failed to do all things necessary for the purpose of assuming it.

The Crown had to prove residence. They submitted two immigration forms on one of which the accused described his period of residence in Kenya as five years, and the other as one year. The Crown had not forward in evidence an entry form in which Mr. Carbery described his previous residence as the Merchant Club, Nairobi, and the conditions under which he was leaving East Africa as "business temporarily." On account of this evidence he was the owner of the business at Nairobi. He had also a house at Nairobi at which the owner of the said house was... (Continued on page 6)

AGRICULTURAL PRODUCTION BOARD

A Successful Tour

The tour of the agricultural districts of the Colony by Major P. W. Greenfield, Director of the Chairman and Capt. P. O'Brien, without the Deputy Chairman of the Agricultural Production and Settlement Board has been most successful.

At these meetings much matter of agricultural interest was discussed, and attention was drawn to the problems confronting the agricultural production of the Colony.

TODAY'S CAUSE LIST

Before the Chief Justice in Court No. 1 at 9.30 am.
For Judgment, D.C.-L. Col. The Hon. George Fitzgerald vs. Miss Lucy Fitzwood. Before Mr. Justice Hayden and Mr. Justice Barclay: In Court No. 2 at 10 am.
For Hearing: C.A.-Muharbi Karambi vs. The Municipal Board of Eldoret. C.A.-Box 91. Baharathai M. Jumrahath. C.A.-Box vs. Hansi bin Faraj. C.A.-Box vs. A. H. Edwards. C.O.-Bat vs. Rajahad Berrai Shih. C.O.-Bat vs. Shama v. Lafand. C.A.-Box vs. Salim bin Said. C.O.-C. Box vs. Kipkaha Jamp. C.O.-C. Box vs. Marfa Muhomina. Before the Magistrate: For Examinations: C. of App.-Jwan. Suth vs. Rungthi Jernan.

EAST ANGLIA BOMBED

An agency manager reported that a German plane dropped bombs on East Anglian town last night. Night damage was done, but there were no casualties. One enemy plane was destroyed off the East Coast.

Prisoner's Story

It was true that the prisoner had been provided for a fine or imprisonment, or both but that was the practice in court was definitely not the case where a crime was created by a statute, framed under law measures, and where a fine or imprisonment, was invariably the punishment.

Prisoner's Story

For these reasons I ask that the appeal be dismissed on every single one of the grounds, and in appeal there is also my submission, an absolutely vital basis of the whole of these consolidated appeals that the learned Magistrate based his judgment on the provisions of the Evidence Act which has been reviewed.

Prisoner's Story

The Crown had to prove residence. They submitted two immigration forms on one of which the accused described his period of residence in Kenya as five years, and the other as one year. The Crown had not forward in evidence an entry form in which Mr. Carbery described his previous residence as the Merchant Club, Nairobi, and the conditions under which he was leaving East Africa as "business temporarily." On account of this evidence he was the owner of the business at Nairobi. He had also a house at Nairobi at which the owner of the said house was... (Continued on page 6)

SERVICES SPORT

U.S. Tennis
The United States Tennis Organization have informed us that at least six of the tennis courts at the Railway Club ground, or the Nairobi Army League ground, or the Kenya Police ground on Sunday for the permission of the Kenya Police. The ground is situated at the back of the Equatorial Hotel, on the corner of the main road. The tennis courts are close to the St. Andrew's (Catholic) School. The tennis courts are to be used for tomorrow afternoon between South Africa and East Africa and the match is at 4.30.

This dign. will be a match for points on which Africa need them to keep in form of the R.A.F. and East Africa also need them to keep them away from the hands of the League table. Those who attend at the Police ground tomorrow should see some good soccer.

U.S. Tennis Soccer League
In establishing the Inter-Unit Soccer League table below, I must thank all those who took note of my report to send their results and through whose cooperation the United States Tennis Organization has been able to compile it.

Club	Goals
P.W. D. L. A. F. P.	1 2 0 1 1 1
Kenya Police	2 2 0 1 1 1

BEELIN RIVER
Firmly Held

General Approval
The reconstruction of the War Cabinet has unquestionably met with general approval in the Press. Although there are some critics who, however, have welcomed the change, they are in the smaller numbers, the provision of Mr Churchill as the new Prime Minister of constant attention in Parliament, the impressions created by personal qualities other than Party affiliations, are commingled in the introduction of the new Cabinet and Mr Chamberlain as Deputy Prime Minister. The appointment, as the Times said, of Mr Chamberlain as Deputy Prime Minister is the most important, as the Times said, of the new Cabinet. The new Cabinet is a personal and political revolution. It is a personal and political revolution. It is a personal and political revolution.

FOR ADULTS AND CHILDREN LECIFERRIN (LEOCHIN AND IRON) A tonic of proved value - particularly suitable for use in hot climates 5/6 per bottle

African Standard MONDAY, FEBRUARY 23, 1945 AFRICAN MANPOWER During the past two years a great deal has been heard in the East African Territory, and particularly in Kenya, about "European manpower".

The institution of a Paper Control in the immediate future and the possibility that one would be established to control paper and that all exports from the Union had been being sold up pending a final decision in this connection.

Unanimous approval was given at Friday's meeting of the Nairobi Finance Committee to a resolution which urged that the Government should be taken up with a resolution urging the matter of compulsory third party insurance (for motorists) should be taken up with the Association of Chambers of Commerce and Industry of Kenya.

Mr. J. H. Boyce stated that he was pleased to note that the Association had a resolution regarding the institution of a paper control in the immediate future.

Mr. P. J. P. Foster made a statement that the scheme was already being considered by the Government and that it would be taken up with the Government.

proportion and it can only be justified by the war emergency. In Nairobi (where conditions are different) the native labour force in 1938, including Government, railways, agriculture, plantation, mining, industrial and commercial was only 182,000 out of a total population of more than 2,000,000.

The obvious alternative source of manpower are the neighbouring Territories. Official figures disclose that Kenya has provided military service and military labour units at approximately half the whole East African total, including Nyasaland. The Colony is now facing the problem of providing, by compulsory means if necessary, the civil manpower needed for an urgent and important war production undertaking.

It is reasonable to suppose that it will be more than ordinarily difficult to do so as at the same time the military authorities are making still further drafts on the Colony's manpower from the normal reinforcements for Kenya units, the Government of the Colony (which has promised the 15,000 this year) has a very good case for telling the military authorities that until this problem of civil manpower is solved the weight of recruiting should be better distributed.

control of paper supplies Shortage Calls For Utmost Economy The institution of a Paper Control in the immediate future and the possibility that one would be established to control paper and that all exports from the Union had been being sold up pending a final decision in this connection.

Insurance Third Party "Years Overdue" Unanimous approval was given at Friday's meeting of the Nairobi Finance Committee to a resolution which urged that the Government should be taken up with a resolution urging the matter of compulsory third party insurance (for motorists) should be taken up with the Association of Chambers of Commerce and Industry of Kenya.

Mr. J. H. Boyce stated that he was pleased to note that the Association had a resolution regarding the institution of a paper control in the immediate future.

Mr. P. J. P. Foster made a statement that the scheme was already being considered by the Government and that it would be taken up with the Government.

PRINCIPAL POST-WAR PROBLEMS IN E.A.

Territorial Union And Greater Economic Control locally

A report by the Development Subcommittee of the Legislative Council, on post-war problems, was approved at Friday's meeting of the Council. It had been prepared in response to an urgent request received by the Association of Chambers of Commerce in a cable from the Joint East African Board, in London.

The report which dealt with many pressing post-war problems in a somewhat "broad" recommendation, rather than the "sharp" and "direct" approach of the Tanganyika Committee, also mentioned the East African Board, its composition, and the Council's aims and objectives.

During the discussion preceding the report, Mr. H. F. Langford, deputy chairman of the Council, stressed the need for its report to be approved at Friday's meeting of the Council.

There was some discussion regarding the recommendation that there should be a sixteen feet wide, first-class highway road, by way of Nairobi from the Tanganyika to the East African Board.

The report also stated that a statement defining issues likely to arise in post-war problems in East Africa and requested that the Council should be kept advised of any developments.

The report also stated that the Council should be kept advised of any developments in East Africa and requested that the Council should be kept advised of any developments.

A Flask of Brandy is always handy, but one that you can't do without.

"APOSTLE"

It's so much better and costs no more because we are the actual producers.

E. K. GREEN & Co. Ltd., CAPETOWN.

All these schemes involve heavy capital expenditure. No development can be undertaken unless it is profitable. A sum of ten million pounds was mentioned in Legislative Council Reports in 1940 as a proper figure for the Colony. This is of course not a realistic figure, but the main point is to make it that it is so far as possible, this capital expenditure must be a generous and not a cheeping one.

Constructing Contour Furrows like Dipping with COOPER'S—it's another sound investment.

When contour furrowing is undertaken by the modern farmer, he gives no thought to immediate return, but it is a source of increased capital value of the operation. It protects his ground from erosion.

So also is dipping with Cooper's Sheep Dipping Powder a paying investment. It rid's the sheep of parasites when they are dipped and continues to protect them from further attacks by ticks, keds, lice and blowflies.

The peaceful period following a dipping with Cooper's permits the sheep to graze freely on growing crops in the paddocks. But the dip does more—it stimulates wool growth.

Use Cooper's "Quick-Acting" Powder to destroy keds and their pupae at a single dipping. It is the original Cooper's Dip with added proteoglycins.

COOPER'S SHEEP DIPPING POWDER

THE ONLY ORIGINAL POWDER

THE DIP THAT GOES ON DIPPING AFTER DIPPING. Sold in the familiar yellow packets by all good stores.

Bench Comments Smart Police Work

In the Nairobi District Magistrate's Court last week a heavy charge against a man named Kariuki was dismissed. A sum of ten million pounds was mentioned in Legislative Council Reports in 1940 as a proper figure for the Colony. This is of course not a realistic figure, but the main point is to make it that it is so far as possible, this capital expenditure must be a generous and not a cheeping one.

RAIDS ON MALTA

Malta had seven alerts on Friday. It was during this time that the island had 200 aircraft and 1,200 troops. The island was under attack for the first time since the war. The island was under attack for the first time since the war.

Illness Of The Duke of Aosta

It is officially announced that His Royal Highness the Duke of Aosta has recently been admitted to a Nairobi nursing home, where he is receiving expert medical attention. He is suffering from a severe attack of influenza, and some anxiety is felt regarding his present condition. He has previously suffered from influenza of a similar nature during the past twenty-two years.

Price Of Chickens Case Dismissed

A case of interest in Kibungwe District Magistrate's Court last week when a Nairobi citizen, Mr. Gligo, was charged with selling chickens at a price lower than the maximum in the Nairobi Municipal Council's bye-law, where he had taken a chicken for sale.

P.W.D. Road Programme

Added to the minutes of the General Purposes and Finance Committee, when a Nairobi citizen, Mr. Gligo, was charged with selling chickens at a price lower than the maximum in the Nairobi Municipal Council's bye-law, where he had taken a chicken for sale.

HOME FRONT LETTER: RETIRING ARCHBISHOP'S PLEA FOR EDUCATION

**Thousands Of London Women
To Work In Midlands Factories**
PRICE OF WHEAT, OATS AND
BARLEY RAISED

Income Tax Reductions
Two major issues in regard to income tax are at present being considered by Sir Kinley Wood, the Chancellor of the Exchequer. They are what to do about the earnings of married women engaged on war work, and how to even out the tax on wages. The Chancellor's chief problem is to work out a plan which will make war work more attractive from the taxation point of view. One suggestion is that married women, engaged on war work, should be temporarily assessed and pay their income tax upon their husband's assessment. Another proposal is to allow the Government to solve its how to set the public house account of their "next door" Post Office credits are asked. After April 1, tax payers will be given a certificate, as card showing how much has been paid to their credit. Tax payers will be given a right to be shown after the war.

Increased Agricultural Prices
The Ministry of Agriculture has announced new agricultural prices to cover the increased cost of wages which were raised last December from a minimum of 8p to a minimum price of 9p, per week. The new prices have been set by the National Farmers' Union of England, Wales and Scotland and they are in full support of the Government's pledge to farmers and subject to a satisfactory price for their produce, probably early next month. The main increases concern wheat, oats and barley.

Intelligence Tests for the Army
The General Service Corps, announced on February 20, is the War Office's answer to criticism contained in the Beveridge Report. All new recruits to the Army will now have to be in the new Corps, which has separate Record and Pay Office and staff officers, before being posted to other corps or regiments. This is an extension of the testing of intelligence which has been going on since 1941. All every recruit in the centre concepts will be given tests to demonstrate their "military wit" before they are medically examined.

Recruiting for Industry
A call to London women to make the most effort to win the war was launched at Leytonstone in the industry campaign of the war began. Leytonstone is the first of London boroughs which will each be asked to provide several thousand women for vital war work in the Midlands. One of the organizers of this campaign, which is being run by the Ministry of Labour and Industrial Supply Ministries remarked—"We are putting our trust in the rugged women of London to pull us through. Thousands of miles are already waiting for them. They will start work almost immediately on arrival and a steady stream of hundreds of women each day is expected to flow towards the Midlands."

ROYAL AIR FORCE AWARDS For Gallantry In The Middle East

A Royal Air Force communique issued by Middle-East Headquarters and received through Air Headquarters East Africa reveals a remarkable story of heroism in the course of two air battles from near and inside a blazing aircraft, with the disregard of bombs exploding in the wreck, which were the George Medal for the Royal Air Force. After an expedition and five in a bomber aircraft set a 360-foot landing-ground. Corporal Durant led the expedition party to the scene and with the help of one of his colleagues, a leading air-crewman, dragged an injured airman out of the wreck by carrying the man to safety. After landing over the injured airman to the ambulance medical officer, Corporal Durant again led his party to the successful rescue of another airman in the blazing aircraft. Throughout these hazardous rescue operations, Corporal Durant displayed conspicuous gallantry and led his men in a fearless manner.

Radio Messages To Troops
In the weekly Forces Broadcasts from Nairobi a feature will be started March 7 a feature will be made of messages to military personnel serving in the East Africa Command outside the Nairobi area from near relatives living in and around Nairobi. The messages will be sent at the time being only apply to the families of European personnel within the local station, messages may be sent later on from military personnel themselves to relatives outside the Command.

Five Killed in Welsh Colliery Accident
Five miners were killed and 20 injured, 20 seriously, when a runaway trolley (a line of trolleys taking men down to the pit) crashed at a Welsh colliery. The crash took place in the 300-yards long drift which runs down to the Aberystwyth pit at Blaencolwyn in the Rhondda Valley. Ninety men were in the shaft, which consisted of ten trolleys, held by a wire hauler; the hauler, which is controlled by a surface engine, did not break.

Rescue From Sunderland
Ernest Durant was a member of the crew of a Sunderland flying boat which had to be ditched in the North Atlantic coast in December after being attacked by two German fighters. The two crew members subsequently experienced one of the most remarkable adventures which came to an end with their arrival in the United States. After being rescued by a large number of fishermen who had been journeying through severe weather, Ernest Durant was rescued from the sea by the British ship the "H.M.S. Porpoise" which was last seen with smoke pouring from the funnel.

Uganda Cotton Position

No announcement has yet been made by the Uganda Government as to the resumption of cotton buying, which was suspended in February 1941. The expected supply of cotton is expected to be very little because of being stuck in the East. Substantial price was offered for cotton in the East (best quality lint), but there were some buyers for cotton at this figure. The Government has said that up to date \$5,000 to \$10,000 bales have been sold. The Government has said that cotton is not turning out satisfactory and movement is satisfactory.

Clever Girls Smooth Their Skin for Soft, Lasting Make-up
"Everyone has to wait for her Make-Up Repairs"
People—especially men—get sick and tired of waiting on the perennial make-up "repairer"—the otherwise attractive woman who is constantly disappearing.
Be clever—give yourself confidence that you're looking fresh all evening by using Pond's Vanishing Cream—the foundation smart society beauties prefer.
After cleansing, mask your whole face with an silky white coat of Pond's Vanishing Cream. In about a minute it will help dissolve those catchy little roughnesses and chippings. Then just wipe off the excess and your skin has a lovely mat finish. This helps it take make-up smoothly—hold its charm the evening through. As a plus, Pond's Vanishing Cream helps protect your skin from sun and wind!

Nairobi Chamber And A Letter From Government

String criticism of the tone of a letter received from the Secretariat was voiced at Friday's meeting of the Nairobi Chamber of Commerce...

To this communication a further reply was received from the Secretariat stating, inter alia, that the object of the Regulations was to control the sale of drinks...

Mr. T. A. Wood also criticized the reply. He pointed out that the Chamber's resolution had not solely suggested an extension of the mid-day hours for the sale of liquor...

Mr. P. Phillips endorsed Mr. Wood's remarks and referred to Government's policy of repressing in their behalf over the road and treating others who think for themselves as though they were school-children...

Mr. G. A. Tyson also supported the views expressed by previous speakers and added, 'Personally, I am sick and tired of this method of treating us. It is no matter...

Business Brevities

The question of Land Tenure, discussed at Friday's meeting of the Nairobi Chamber of Commerce...

Apologies for absence were received from the President, Mr. A. A. Lawrie and Major P. W. Cavendish...

The question of Non-Resident-Registration of the Nairobi Chamber of Commerce's management committee...

Kiara After-Treatment Home

Kiara After-Treatment Home opened on March 11, 1941, and during the past year 280 patients have been accommodated at the Home...

Mr. T. A. Wood also criticized the reply. He pointed out that the Chamber's resolution had not solely suggested an extension of the mid-day hours for the sale of liquor...

Mr. P. Phillips endorsed Mr. Wood's remarks and referred to Government's policy of repressing in their behalf over the road and treating others who think for themselves as though they were school-children...

Mr. G. A. Tyson also supported the views expressed by previous speakers and added, 'Personally, I am sick and tired of this method of treating us. It is no matter...

Price 25 cents.

PRESIDENT ROOSEVELT'S REASONS FOR HOPE AND CONFIDENCE
LOSSES AT PEARL HARBOUR GROSSLY EXAGGERATED

February 24. PRESIDENT Roosevelt last night gave one of his freest talks to date in the White House, in which he revealed his beliefs as to why he was so confident that the United States would win the war. He said that the losses at Pearl Harbor were grossly exaggerated and that the United States was in a position to win the war.

Britain To Buy E.A. Wild Rubber
By a notice (No. 173) in the Official Gazette of the Kenya Administration, the Government has fixed the maximum price at 45 cents per pound for wild rubber.

Divide and Conquer
Bringing the need for confidence and unity to the President said that the United States was in a position to win the war. He said that the losses at Pearl Harbor were grossly exaggerated and that the United States was in a position to win the war.

At Vesp Test Job
References to supply lines, the President said there were now four routes for communication between the United States and the South Pacific. He said that the losses at Pearl Harbor were grossly exaggerated and that the United States was in a position to win the war.

Gen. Chiang Kai-Shek's Statement

February 24. Opening the war debate in the House of Commons this afternoon, Mr. Churchill stated that the nation must be prepared to fight a long and bitter struggle. He said that the losses at Pearl Harbor were grossly exaggerated and that the United States was in a position to win the war.

German's "Beautiful" Task
February 24. Dr. Goebbels' speech in the Reichstag last night was a masterpiece of propaganda. He said that the German people were in a position to win the war and that the losses at Pearl Harbor were grossly exaggerated.

Second Battle Of Britain Imminent
February 24. A warning that a second battle of Britain was imminent was given by the new Minister of Aircraft Production, Mr. Chamberlain. He said that the losses at Pearl Harbor were grossly exaggerated and that the United States was in a position to win the war.

Germany's Plunder
February 24. Further particulars of the degree to which Germany has plundered the occupied areas of France have been disclosed in London. It is estimated that industrial equipment to the value of not less than two hundred million pounds has been removed to Germany.

INGRAM & CO. LTD. THE TOOL HOUSE NAIROBI

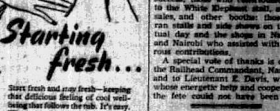

Leopard's Early Morning Call

A remarkable story of a leopard jumping into a house at Kariakoo has been reported by Mrs. Macfarlane ...

A leopard, presumably attracted by the prospect of a breakfast, jumped down through a broken window, creating havoc in the sitting room, and then—distributed by Mrs. Macfarlane running to the terrace's assistance—jumped out again. The apex of the leopard's dash nearly struck outside the house being the verandah and he left three clear marks on the wooden floor of the sitting room.

Nanyuki Fete Raises £403

The fete held at Greytown, Nanyuki on December 29, 1941, in aid of the British Prisoners of War Committee Fund, was most successful. The total amount collected on the day of the fete and through subsequent sales was Sh. 2881.-(£403) and this sum will be sent through the bank to the headquarters of the fund in England.

New Industries

SOME USES FOR COTTON

To the Editor, "E.K. Standard"—

I am writing to you because I am a cotton grower and I am interested in the new uses of cotton.

Research engineers are travelling fast these days. It might be said that they are not, but they are. An engineer at Cairo, for instance, has found that cotton is a better reinforcing for concrete than steel. It has 20 per cent greater tensile strength and 200 per cent greater elongation. This steel is needed in concrete for reinforcement in an enormous variety of structures. It is highly important now to have a material which is as strong as steel and as cheap as cotton. This is the time when we should be making the change.

"Cotton—Closest Ideal Plastic for Defense"

"When a plan to use the hundreds of thousands of tons of cotton which are grown throughout the South is under way, the cotton industry is needed war materials has been suggested. The Office of Production Management by Representative W. C. Clegg, has been set up to study the possibilities of cotton in the field of defense. The proposal is to have been made and is being favorably considered by the C.O.P.M. There is cotton in the South. From 1938 to 1941, the total production of cotton in the United States was 11,000,000 bales. This is a record for any one crop in any one country. The cotton industry has been producing more than 100,000,000 yards of cotton cloth each year. This is a record for any one industry in any one country. The cotton industry has been producing more than 100,000,000 yards of cotton cloth each year. This is a record for any one industry in any one country.

"Cotton Fibers used low grade fibers for making fine paper. The paper-making industry has been seeking a practical method of making paper from cotton. This is a record for any one industry in any one country. The cotton industry has been producing more than 100,000,000 yards of cotton cloth each year. This is a record for any one industry in any one country.

"The problem has now been solved by research carried out by the Massachusetts Agricultural Experiment Station. The cotton fibers have been treated with a special process which makes them more pliable and more resistant to wear. This is a record for any one industry in any one country. The cotton industry has been producing more than 100,000,000 yards of cotton cloth each year. This is a record for any one industry in any one country.

"The new process will make possible a wide use of high-grade cotton. Mr. Reed said, and will also open up a new market for certain cotton-by-products now of little value."

As East Africa, and especially Uganda, produce cotton the variety of uses made of which will interest the cotton grower. The cotton industry has been producing more than 100,000,000 yards of cotton cloth each year. This is a record for any one industry in any one country.

Alternative Treatments

To the Editor, "E.K. Standard"—

I am writing to you because I am a doctor and I am interested in alternative treatments. I have been practicing medicine for many years and I have seen many cases of disease which have been cured by alternative treatments. I am interested in the new uses of medicine.

"I am writing to you because I am a doctor and I am interested in alternative treatments. I have been practicing medicine for many years and I have seen many cases of disease which have been cured by alternative treatments. I am interested in the new uses of medicine."

It's up to you!

IT'S UP TO YOU!

The fact that the United States of America are now in the war as an active combatant makes the paper shortage in Great Britain still more acute.

For many months we have carried on a campaign appealing to everyone to save, collect and despatch their waste paper to the Paper Recycling Centre for re-employment.

In the national interest and to ensure an unlimited supply of munitions to the Forces it's up to you to use less paper in the future.

IT CAN BE DONE!
IT MUST BE DONE!!

In normal times we are large manufacturers and exporters of Paper to the East African market—our business—our bread and butter—but during the War period it is unpractical to ship supplies from British Mills consequently we are out of the market.

Your minimum requirements can with some difficulty be supplied by our connections in the United States of America, but please reduce your orders to one-half of your pre-war requirements and eliminate all but standard sizes and order bulk items only.

USE EVERY ENVELOPE AND EVERY SHEET OF PAPER TWICE or THrice

THANK YOU!

SPLICERS (EXPORT) LTD. Paper Makers, New Bridge Street, London, E.C.4.

S. AFRICANS BEAT EAST AFRICANS

Lost Chances In A Scruppy Exhibition

Last Sunday's Inter-Arms Soccer match between South Africa and East Africa by four goals to three, it was a scruppy exhibition of football by the teams.

The game commenced against goal play and East Africa missed many opportunities of going ahead in the second half. Neither side was at full strength, East Africans having to complete their XI from among the few spectators.

Exciting, Last Second Win

A most exciting inter-club cricket match was played on Saturday last, the Kiunga XI winning one wicket—in the moment!

The position of the ball at the death wicket was that there was one ball in an ace which the Kiunga team had to get, to win. The ball was bowled by M. L. T. Malpas and down the pitch, missed the ball and continued to run, the other batsman making good his ground before the wicket was broken. The match was thus won by one run!

BETTER AND BRIGHTER MEALS FOR MINERS

The new published catering arrangements which have been approved as a wartime measure at most of the principal collieries in Britain, are proving so successful that they are likely to be taken over by the Ministry of the Industry.

At one of the mines the new-invented 'welfare' system is supplying meals at a rate of one thousand a day. The appropriate meals are served at a quarter of five, with a stalling, while for breakfast, tea, and supper the dining is a convenience.

Reorganisation Of Nairobi's Refuse Removal

When the minutes of the Public Health Committee were before the Council at Tuesday's meeting of Nairobi Municipal Council, Councilor J. Truesdell's motion to a resolution in the minutes to the effect that the Contracting Superintendent be instructed to submit a scheme for the reorganisation of the refuse removal service...

Native Cycle Tax Suggestion

At Tuesday's meeting of Nairobi Municipal Council, Councilor Balthasar gave notice of motion that he intended to bring forward a resolution for the purpose of enabling the Government to levy a tax on native bicycles. The decision has been taken with full appreciation of the difficulties of obtaining passage by law, but is necessary owing to the supply position in respect of special bicycles. Bicycles of this nature are available, and advertisement in this connection is available. It is also the policy of the Government to encourage the use of bicycles where it is possible for the Government to subsidize the journey by organised transport services, particularly in the case of the Government, where part of a journey can be done by rail, a person should not be expected to pay for that portion of the journey.

CAR TRAVEL RESTRICTIONS

It has been decided that petrol permits will not be issued for the purpose of enabling persons procuring an holiday from Kenya to the British Islands to travel by motor vehicle. This decision has been taken with full appreciation of the difficulties of obtaining passage by sea, but is necessary owing to the supply position in respect of special bicycles. Bicycles of this nature are available, and advertisement in this connection is available. It is also the policy of the Government to encourage the use of bicycles where it is possible for the Government to subsidize the journey by organised transport services, particularly in the case of the Government, where part of a journey can be done by rail, a person should not be expected to pay for that portion of the journey.

Trial Committal On Attempted Murder Charge

It was held that the evidence had established a prima facie case against the accused, and that the case should be committed to the trial in the Supreme Court. The case arose, it is alleged, over a quarrel about money and the accused, Mohamed Amin, a contractor, was charged with a attempted murder in that he attempted to kill the deceased with a knife at the residence of the deceased in the town of Nairobi. The deceased was a man of the name of the deceased. The case arose, it is alleged, over a quarrel about money and the accused, Mohamed Amin, a contractor, was charged with a attempted murder in that he attempted to kill the deceased with a knife at the residence of the deceased in the town of Nairobi.

Conciliator Paul gave his support to the proposal on the removal of the revenue accruing from the tax was approved.

On February 25, before the Resident Magistrate, Mombasa, a case of inspection of these licences. The Deputy Mayor, Councilor C. Udell, who presided, pointed out that the licences were issued to the bicycles was 1/2, but outside the Municipality it was 3/4, which was the better thing to do, he asked, say 1/2 in Mombasa and 1/4 outside. The motion was referred back for consideration.

No Seats For Council On S. & P. Board

At the January meeting of Nairobi Municipal Council it was resolved to send Government a letter to say that Council should not be represented on the S. & P. Board. The letter stated that the Government had been invited to send a representative to the Board, but Council had declined to do so.

Mombasa Price Control Prosecutions

On February 25, before the Resident Magistrate, Mombasa, a case of inspection of these licences. The Deputy Mayor, Councilor C. Udell, who presided, pointed out that the licences were issued to the bicycles was 1/2, but outside the Municipality it was 3/4, which was the better thing to do, he asked, say 1/2 in Mombasa and 1/4 outside. The motion was referred back for consideration.

Old Kentonians And The War

The Kenton Club Magazine covering the Christmas Term 1941, is now available. An interesting and most readable periodical, this issue is of particular interest, showing as it does what Old Kentonians are doing towards the war effort. The magazine is being sold by the Old Boys' Committee, and is being sold at 1/6 per copy. The magazine is being sold by the Old Boys' Committee, and is being sold at 1/6 per copy.

IT'S UP TO YOU!

The fact that the United States of America are now in the war as an active combatant makes the paper shortage in Great Britain still more acute. For many months we have carried on a campaign appealing to everyone to save, collect and dispatch their waste paper of all descriptions to be recycled for munitions.

IT CAN BE DONE! IT MUST BE DONE!!

In normal times we are large manufacturers and exporters of Paper to the East African market - it's our business - our bread and butter - but during the war period it is impossible to ship supplies from British Mills consequently we are out of the market. Your minimum requirements can with some difficulty be supplied by our connections in the United States of America, but please reduce your orders to one half of your pre-war requirements and eliminate all but standard sizes and order bulk lots only.

USE EVERY ENVELOPE AND EVERY SHEET OF PAPER TWICE or THREE THANK YOU!

ESCAPE FROM BENGHAZI

Troops' Tennis: An Appeal to Nairobi Ladies

Walking Back To Gazala

A remarkable story, issued by R.A.F. Headquarters Middle East and received from Air Headquarters, East Africa, tells of twenty men and a Royal Air Force officer, who have just come into our own lines at Gazala, after having travelled 200 miles from the desert front in Benghazi. The trip took them nearly 50 days. During the last stages of the evacuation from Benghazi a small group of R.A.F. ground staff and a few army men were cut off, with their trucks along the Benha road which was being shelled by our own tanks and anti-aircraft guns. They turned back through the desert and ran into a barrier of armoured cars which were firing upon them.

Derive His

The men returned to the roadside and firing was kept up for an hour. Then, just at dusk, one of the armoured cars drove slowly to within 100 yards of them and one of the men stepped out to try to surrender. The only answer for the British troops was to make their own way back to the front. They had to walk a short distance away from the line of the German tanks.

Along the Desert Front

Then they started the long walk back to our own lines, destined to return here, to the front, in the morning. They were to be met by our own tanks and anti-aircraft guns. They were to be met by our own tanks and anti-aircraft guns. They were to be met by our own tanks and anti-aircraft guns.

It was raining and bitterly cold

as they decided to risk sleeping in an empty house by the roadside. It grew so cold, even inside the house, that they also risked lighting a fire at about four o'clock in the morning. Before doing this they prepared to leave. As they stepped out of their house they were surprised to see outside the house a number of German tanks and anti-aircraft guns. They were to be met by our own tanks and anti-aircraft guns.

They had to skirt all the towns

on the route which was being held by the Germans. When they got to an Italian occupied town, however, the police was much easier. All 21 of them marched boldly through the town in the evening. A few Italian soldiers looked out from their posts and lighted houses but made no attempt to stop them.

The party consisted some terribly

rough mountainous country on the track. At night they had suffered

HOW MUCH DOES SLEEP REFRESH YOU?

KRUSCHEN

Do you jump up in the morning eager and refreshed—or wear through your dressing feeling heavy and "sloopy" and slack? Do you not feel, and feel with other medicine, that it would be just as well to sleep? Why not put yourself right and enjoy better health? All these little signs point to one thing. You may be "sloopy", but it is not because it is not complete, because you are not getting enough sleep. And if your blood isn't clean how can you be well? There is a simple, honest prescription for this condition. It is—Kruschen. The medicine is in the bottle. It isn't the label that counts. It is an institution. It doesn't need to be coloured or have its flavour changed. It's almost tasteless. It's not a drug. It's a simple combination of natural salts. And the dosage is so small it is never, even a habit. Doctors have prescribed it three fifty years past, for their medical knowledge tells them that Kruschen Salt is a prescription which is unquestionably and undeniably right.

Now feel all the better for a piece of Kruschen.

CHINA—IRAQ PACT

FOOD FOR GREECE

China—Iraq Pact

Dr. P. C. Chang, Chinese Minister to Ankara, has left Baghdad to conclude a treaty of friendship between China and Iraq. An exchange of ratifiers between the two countries will follow. The conclusion of a treaty of friendship between Iraq and Persia, revealed the latest step in anti-axis collaboration. (Times.)

Food for Greece

The largest of the Turkish supplies also Damascus which asked for money for Athens with food for Greece. The British Government has agreed to supply the United Kingdom with food for Greece. The British Government has agreed to supply the United Kingdom with food for Greece.

700 Jews Drowned

An Israeli newspaper says that a German U-boat in the Black Sea following an explosion had sunk about 700 Jews all of whom are thought to have perished. The vessel, named the "Struma", was bound for Palestine.

Belgian Youths' Escape

(From a Correspondent)

The Daily Mirror publishes today big headlines the story of the escape of two young Belgian youths who just arrived in Great Britain, having evaded the German U-boat patrol.

Question on Credit Balance

A further question was asked in the House of Commons regarding the balance in the credit balance of the possible evacuation from that country.

German Police

Once they were nearly found by a German patrol but they managed to hide and once they spent a couple of hours hiding in the night they were unable to do so but after they had a very clear in the morning. During the morning night they were phoning on when the officer suddenly checked them and listened. They were within 18 paces of a German patrol when they had contact for the night. They knew they had to be on their feet in the morning. They were on their feet in the morning. They were on their feet in the morning.

REGISTRATION AND LABOUR

To the Editor, "E.A. Standard"—
Your feature article of 22nd February 1942, regarding the registration of native labour, is most interesting. It is a pity that the Government has not taken more steps to ensure that the registration process is carried out in a fair and equitable manner. The Government should ensure that the registration process is carried out in a fair and equitable manner. The Government should ensure that the registration process is carried out in a fair and equitable manner.

...desirable facilities in getting contracts made out. It is a pity that the Government has not taken more steps to ensure that the registration process is carried out in a fair and equitable manner. The Government should ensure that the registration process is carried out in a fair and equitable manner.

MIXED FARMING

To the Editor, "E.A. Standard"—
I congratulate you on your issue of February 19, on the Native Mixed Farming. It is a pity that the Government has not taken more steps to ensure that the registration process is carried out in a fair and equitable manner. The Government should ensure that the registration process is carried out in a fair and equitable manner.

...and in the second place are they in the country to be harshed? There are however in Africa a large number of tractors, and probably some of them are being used by the Africans. It is a pity that the Government has not taken more steps to ensure that the registration process is carried out in a fair and equitable manner.

RAILWAY AND PETROL RESTRICTIONS

To the Editor, "E.A. Standard"—
I am sorry to hear that the Railway Administration is imposing restrictions on the use of petrol. It is a pity that the Government has not taken more steps to ensure that the registration process is carried out in a fair and equitable manner. The Government should ensure that the registration process is carried out in a fair and equitable manner.

...Every able-bodied man should have a job. It is a pity that the Government has not taken more steps to ensure that the registration process is carried out in a fair and equitable manner. The Government should ensure that the registration process is carried out in a fair and equitable manner.

JOHN BOYER

To the Editor, "E.A. Standard"—
I am sorry to hear that the Government has not taken more steps to ensure that the registration process is carried out in a fair and equitable manner. The Government should ensure that the registration process is carried out in a fair and equitable manner.

...I am sorry to hear that the Government has not taken more steps to ensure that the registration process is carried out in a fair and equitable manner. The Government should ensure that the registration process is carried out in a fair and equitable manner.

KENYA AND THE WAR

Training A Shooting Companion

On previous notes it was pointed out that the main object in training a dog as a shooting companion, is to make him give you the extra time to spare, by doing very much more difficult than him up to field trials in his own way. It must be pointed (penned) and taken care of exercise-lessons at several hours, and then put on his pen. His early work lessons should take place away from the house—preferably in the country away from the house. If some of the dog's instincts are to be worked on looking on, he should remain at least 90 yards behind and promise not to "bark" at. Questions as to any such-and-such, may come but be sent afterwards.

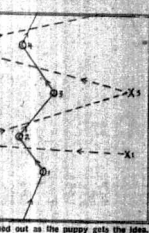

Don't continue trying to lead him till he is thoroughly disheartened. It is not actually training, but a punishment that you intend. After several times, maybe several days, if he is amenable and leads without straining, try to get some right-handing little to one side, so that he has an unobstructed view of the bird. This is the correct position for "lead". As you walk near other birds, or forward, say "Hold Good dog, hold!" holding him (with the least strain) level with your nose. The other side, say "Always to lead" when walking backward. Even on the first lesson of the week, he has been trained carefully on how to shoot on. Before you have him lead, put the lead on him and lead him home. Make him sit for a minute, then release him to romp for a few minutes before he is sent.

It is very important to have a dog that is not only obedient but also intelligent. A dog that is obedient but not intelligent will not be able to handle the situation. A dog that is intelligent but not obedient will not be able to follow the commands. A dog that is both obedient and intelligent will be a great asset to any shooter.

Even on the first lesson of the week, he has been trained carefully on how to shoot on. Before you have him lead, put the lead on him and lead him home. Make him sit for a minute, then release him to romp for a few minutes before he is sent.

TEAGUE A DOG TO QUARTER

When the dog is sent to the ground in front of the trap, he should be sent to the ground in front of the trap. The dog should be sent to the ground in front of the trap. The dog should be sent to the ground in front of the trap.

When the dog is sent to the ground in front of the trap, he should be sent to the ground in front of the trap. The dog should be sent to the ground in front of the trap. The dog should be sent to the ground in front of the trap.

In the field, and he is disgruntled or thinks he has been cheated unfairly—just "cut" and leave you alone, except you may have nobody but yourself to blame.

"DOMIE"
The sign to "Come" and "Come in" in the same track as previously mentioned, a definite movement of the whole arm, extended towards him and brought down to the side by the hand, with the words, "Come" and "Come in". The signal of one long sharp clasp of the whistle over short sharp barks meaning "Sit" or "Drop". No voice allowed, no lip, just make sure by smiling at the dog, so that he knows that he is being called. This is the best method. One who reports that he had success with this method, transmitted other news of news which may open up a new way to get him ready now.

"DISTANCE"
A Springer's primary job is to provide game for the gun. His job is not only to be thoroughly acquainted with the ground, but to be able to find it. This is the main object of the training. The dog should be able to find the ground, and then to be able to find the game. This is the main object of the training.

Cardida's Comments

★ ON THE SCREEN:

BEFORE I start on LOVE CRAZY (Capitol), which is really outstanding in my list, I must say that you see George Formby's film at the Capitol which, it is only on for two more days.

Turned Out Nice Again shows George really as an actor. Originally this was a stage play, and it gives him his first chance in straight character comedy. There is still a good deal of the old George and he sings four LOVE CRAZY (Capitol) **Players:** William Powell, Myrna Loy, Jack Palance, Florence Blinn **Love Crazy** is the latest U.S. comedy and it is a play of laughs, though I feel it is rather overdone. William Powell favors our country (very expert) second-act. Bill Powell has been seen in all sorts of trouble but nothing like the movie he is in here. It all starts on his celebrating his wedding anniversary by getting trapped in a lift with his old friend (Jack Palance). The lift is the night when his real spouse of a mother-in-law is very funny scene to begin with, but, anyway, main and rather heavy are followed by scenes on the home-land, and I think I must say that the director, Mr. Powell, has persuaded us that chemistry has been discovered. He gets away with it, and we have a really good comedy that remains a lot of it, very funny, with a good support for his every act. Bill—best man after dinner. It is a comedy of a really high class. **DR. CYCLOPS (Playhouse)** I got "Dr. Cyclops" out on my list, because though I'm not altogether partial to scientific fiction, I think it is extremely interesting and it is extremely absorbing from the photographic angle. It is in fact, a real study for the track. The story is of the curious events of a mad scientist, whose life-work consists in reducing human beings to midget proportions in the lab domain of the Technicolor temple.

THE KING'S MUSKETEERS (Playhouse) **Players:** Dan Amiel, the Rita Hayworth, Anne Baxter. This film assumes itself as a musical comedy edition of Dumas' famous novel, and it is a real success in that. After four titles and getting into a Gessen here, the film is a real success in that. After four titles and getting into a Gessen here, the film is a real success in that. After four titles and getting into a Gessen here, the film is a real success in that.

Ann Sothern and John Carroll in "Congo Manse" songs which do not seem to fit very neatly into this comedy about mothers-in-law, undergarments and a poor fool on whom fortune shines eventually, the delightful feature is Peggy Bryan, a Birmingham girl, and do watch for the unemployed Uebel and his letters to "The Feathered World" about the pigeons. But what is George going to do such that he has shown to be in a good actor?

THE BRIDGE TABLE

(BY GRAND LAM.)
I HAVE been asked to give the East-West combined spade holdings to fulfill each specified condition. In each case I must have been there are ample entries to both hands.

- 1) To Limit the Loss to One Trick**
S: 7 4 3 W: E S A Q 10 9 8 7 6 5 4 3 2
The correct play with this combination is the ace. The five cards in the dummy are the key. Remember that jack ten nine eight. Repetitive of the above, as the ace may be lost, the ace must be lost. If you play the ace on the first round, you must return to West's hand, lead a small card to the queen, you have not returned the opportunity to play the queen, should North play the ace.

- 2) SQ 10 9 8 W: E S A Q 10 9 8 7 6 5 4 3 2**
Here the correct play is to take two honors. Lead the queen first. If not covered, lift the queen first. If not covered, lift the queen first. If not covered, lift the queen first.
- 3) SQ 10 9 8 W: E S A Q 10 9 8 7 6 5 4 3 2**
The best line of play to lose is to lead the queen on the first round, if the queen is held by the other hand, there are only two ways to win. If the queen is held by the other hand, there are only two ways to win.
- 4) SQ 10 9 8 W: E S A Q 10 9 8 7 6 5 4 3 2**
The best line of play to lose is to lead the queen on the first round, if the queen is held by the other hand, there are only two ways to win. If the queen is held by the other hand, there are only two ways to win.

Very funny scenes to begin with, but, anyway, main and rather heavy are followed by scenes on the home-land, and I think I must say that the director, Mr. Powell, has persuaded us that chemistry has been discovered. He gets away with it, and we have a really good comedy that remains a lot of it, very funny, with a good support for his every act. Bill—best man after dinner. It is a comedy of a really high class.

PHYLOSAN
PREPARED ACCORDING TO
THE SPECIFICATIONS OF
E. BUEGLI, M.D.
Germans and their agents
have known for years that
the Phyllosan is the best
remedy for all ailments of the
throat and nose.
It is also the best remedy
for all ailments of the
throat and nose.
It is also the best remedy
for all ailments of the
throat and nose.

Revitalize yourself!

Put off your tired, depleted self, and put on a new, revitalized, rejuvenated self!

Start taking "Phyllosan" tablets today!

Especially to those who live under debilitating climatic conditions, "Phyllosan" tablets come as one of the most important results of modern medical research.

The revitalizing, rejuvenating power of "Phyllosan" tablets is due to the fact that their principal ingredient is an essential substance of all the cells, *every*, all the life in our world.

The revitalizing, rejuvenating power of "Phyllosan" tablets is due to the fact that their principal ingredient is an essential substance of all the cells, *every*, all the life in our world.

Start taking "Phyllosan" tablets today! It is so simple. Just two tiny tablets three times a day will make you feel like a new man.

PHYLOSAN

(Prescribed FILL-O-SAN) Of all Chemists & Druggists

After losing Singapore we were to lose our heads, but that has been by no means the case. In fact, it has been by no means the case.

It is after losing Singapore we were to lose our heads, but that has been by no means the case. In fact, it has been by no means the case.

The present strategic temper of the people of the British Empire there will be no disposition to derive false optimism from historical precedents, but there is a positive value in noting the sort of behavior which checked and held them back.

What are needed now are precisely those qualities which our British people most formidable in Britain since 1939 in the Battle of Britain, the Battle of the Atlantic, and in the hold operation of the Second World War.

JAVA

The enemy is in possession of all the Java archipelago, and the Japanese are in possession of all the Java archipelago, and the Japanese are in possession of all the Java archipelago.

staining every nerve to push the Dutch island which is their base.

The Japanese are in possession of all the Java archipelago, and the Japanese are in possession of all the Java archipelago.

A REVIEW BY "VERITAS" on the position in the Far East since the fall of Singapore

Somatra will be barred to the Allies as a sea lane into the Southwest Pacific. This means that the consequences must be squarely faced.

It is a necessary result of the establishment of an Allied battle fleet in the Indian Ocean.

A century and a half ago Napoleon tried to establish a battle fleet in the Indian Ocean by occupying Java and Sumatra, but he failed.

THE INDIAN OCEAN AND THE ATLANTIC

HAVING achieved the Austro-Burmese front, the Japanese are now in a position to threaten the Indian Ocean and the Atlantic.

FARMING NOTES

By J. K. HILL

PRINCIPALLY ABOUT PIGS, POTATOES AND PRODUCTION.

THE correspondence and inquiries that I have on sundry agricultural problems are indications of what represent uncertainties amongst those who are not fully versed in the intricacies of Kenya farming, or possibly even any farming at all.

POTATOES

In order to garner a full crop one bag of seed, 200 lbs. of seed are required for planting.

PIGS

Pigs in Kenya thrive equally well at the higher altitudes as they do in the lowlands.

BRITAIN IS RE-BORN

(Continued from page nine)

Britain will be barred to the Allies as a sea lane into the Southwest Pacific. This means that the consequences must be squarely faced.

It shows in the faces of people and in all their acts and words. A very great presence in England and we will go down in a great way now.

What is America doing? Look about you. Do you like what you see? What do you think of the United States?

keep open a line of supplies to Britain. It is a necessary result of the establishment of an Allied battle fleet in the Indian Ocean.

What are we going to do? We must make up our minds. And we must make up our minds.

What are we going to do? We must make up our minds. And we must make up our minds.

ing, throw the potatoes for some increasingly great in the making progressively worse and more irresponsible.

As the need for farm labour becomes increasingly great in the making progressively worse and more irresponsible.

E.W.A.L. ANNUAL MEETING

The annual general meeting of the East Africa Women's League will be held at the Victoria Hotel, Nairobi.

PICTURES FOR KENYA CLUB

Pictures of Kenya scenery, as well as other subjects, are needed for the Kenyan Club.

Even when he's in your arms...

ARE YOU SURE HE'S SAFE?

"YES" says every mother who uses the new-type, far more effective and far less expensive antibiotic.

HOW TO GET INFECTIONS FROM THE NEW-BORN CHILD

1. Add a few drops of...
2. Wash the hands...
3. Sterilize the bottles...

ONLY THE SAFE ANTIBIOTIC

Only the safe antibiotic. Only the safe antibiotic.

WHITE HORSE WHISKY

There's no concealing the obvious good qualities of White Horse. From the first hint given by its subtle aroma to the rare heather and peat flavour and ripe mellowness, White Horse Whisky leaves no one in doubt as to its identity.

Men who previously asked just for a "Scotch," daily insist on having this "Real Old Scotch, Equal to any in the world."

There are millions and millions of gallons matured and maturing to meet the demands of particular people.

ALISON SETTLE (formerly of "Vogue") says that Cotton's in Clover

A "UNIVERSITY" FOR ARTISTS ON LEAVE

BRITISH COTTON is creating for itself something like a "university" in Manchester. It is called the "Colour Design and Style Centre" and it exists to keep up the creative spirit of the high heart of an industry which has given up open everything that total war can demand of it.

Alison Settle, who is in charge of the design department at the Manchester Design Centre, says that the designers still preserve their freedom of expression, but they are not free to do as they please. They are working within a framework of restrictions. She says that the designers are not free to do as they please, but they are working within a framework of restrictions. She says that the designers are not free to do as they please, but they are working within a framework of restrictions.

Can a Girl be too Popular?

Follow the Beauty Ritual of Society Favorites

NO GIRL ever complained about having too many kisses. It's her feminine ritual which does the grunting. "Why should she have so many more fun than I do? I'm just as attractive as she is!" But are you? Perhaps your features are so good... your complexion as pretty... but your complexion... does it have the soft, fresh-looking charm that men love? Don't let a drab, faded-out complexion... despoil your popularity—bring light into your eyes for your skin with Pond's Cold Cream. The Pond's ritual has been chosen by society women all over the world as their way to skin beauty.

PHILLIPS' MILK OF MAGNESIA TOOTH PASTE

CONTAINS OVER 75% BISMUTH PHILLIPS' MILK OF MAGNESIA

— the most effective neutralizer of excess acids known. The PHILLIPS' tooth paste counteracts the mouth acid that does away — gives complete protection to clean and polished.

Mr. John Jacob Astor

Member of one of America's wealthiest and most distinguished families. A lifetime user of Pond's Cold Cream in the form of his favorite beauty product.

Standard
SHORTAGE OF SUPPLIES

KEENYA, FEBRUARY 27, 1942
 Shoppers are employing quick tactics to overcome the shortage of supplies.

Businesses are employing quick tactics to overcome the shortage of supplies. The Government has issued orders that no business should be closed until the end of the war.

we have, make things wear longer, have them repaired instead of replaced. The articles with imported articles so that the diminishing supplies may be available for those who really need the goods.

... the Government has issued orders that no business should be closed until the end of the war.

East African total, including Nyasaland, the Colony is now being the problem of providing by compulsory means if necessary, the civil manpower needed for an urgent and important work production ordinarily will be more than ordinarily difficult to do so if at the same time the military authorities are making still further drafts on the Colony's manpower.

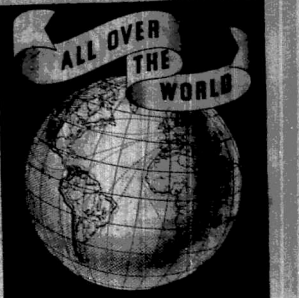

... the Government has issued orders that no business should be closed until the end of the war.

Uganda Cotton
 THURSDAY, FEBRUARY 26, 1942.
 The Secretary of State for the Colonies has been set another problem to solve—the disposal of the Uganda cotton crop.

... the Government has issued orders that no business should be closed until the end of the war.

Beer and Business
 WEDNESDAY, FEBRUARY 25, 1942.
 The Nairobi Chamber of Commerce is conducting correspondence with the Government regarding the liquor licensing board.

... the Government has issued orders that no business should be closed until the end of the war.

PHOSFERRIN THE GREATEST... It is a powerful tonic and restorative.

Silvinkin the natural... It is a natural skin treatment.

PARADE HOTEL Night on the Beach... It is a popular resort for the holidays.

The East African Standard

Continued from page 10

reasonable risks and there seems to be no reason why the Uganda Government which has large surplus balances piled up for so long should not be permitted to guaranteed rice—if it is not clearly established that the crop is being produced by the Imperial Government as a war essential.

On January 12 the East African Standard said: "Within the Empire there is an immense range and quantity of primary production and immense markets of huge consuming capacity. There exist the basic essentials for the successful carrying out of an Imperial Agricultural Policy."

The conception of the employment of the resources of the Commonwealth, and their planned production, is even more imperative now than ever before. It is the duty of the Empire to produce and export goods to meet the needs of its people and to support its war effort.

THE OUTLOOK IN LONDON

Singapore "Free-Mair" London (By Mail).... The situation in the East is becoming increasingly serious.

The outlook in London is becoming increasingly gloomy... The Government is taking more and more drastic measures.

The news from the front is also disappointing... The Japanese are making significant gains in the Pacific.

The situation in the West is also tense... The American war effort is being stepped up.

THE LIBYAN FRONT

Libya a patrol of the Italian Dragoons... The British are making gains in the desert.

The fighting in the desert is becoming more and more intense... The British are determined to push the Italians back.

The Italian position is becoming increasingly precarious... They are running short of supplies and reinforcements.

The British are making significant gains in the desert... The Italian position is becoming increasingly precarious.
