A. R. P.

On December 29 we wrote "In the opinion of the appropriate Service authorities who advise Government, there is still a case for the maintenance of A.R.P. in Kenya, except at Mombasa, we believe this is the time when that case should be stated clearly. Having approached the Civil and Military Authorities we published their opinion this week. The Military authorities, as far as the Army is concerned, A.R.P. is entirely a Civil responsibility. The Civil Authority, elaborating the position, summarises its official view by saying: "The present position is that A.R.P. is not at the present standard, but not to exceed it. Nairobi will reinforce Mombasa if necessary. The object of continuing A.R.P. training in the Colony outside Mombasa (where it is obviously still important to maintain Air Raid Protection) is to ensure that the personnel to be trained are of a high standard of efficiency." It was explained in these words that the Government take our advice from will not agree that the unexpected could not happen in Kenya, and that security we refuse to run any risk of losing our lives.

Lord Woolton is having considerable success in his efforts to bring about a change in the attitude of the Government towards the unemployed. We are sure that his efforts will be successful in the long run. We do not wish to be just transcribing his words without trying to explain the reasons in the fourth year of the present war.

It is inevitable and very commendable that there should be changes in the attitude of the Government towards the unemployed. We are sure that his efforts will be successful in the long run. KENYA EXPECTING FURTHER LOCUST INVASION

HOW THE PUBLIC CAN HELP

THE following statement on locusts has been issued by the Kenya Information Office:

Information regarding the present locust invasion of Kenya was first received in the Lower Province on the 12th of December, 1942. It was stated that the present locust invasion was the most serious to be recorded since 1937, and would be expected to continue to the middle of December to date. It is anticipated that invasion of the Territory may take place during the next few months of the year, both from the north and from the south.

It is well known that locust swarms do not respect political or geographical boundaries and that the middle of December to date is the best time to expect locust swarms to be present. It is therefore suggested that the public should be prepared to meet any locust invasion which may occur during this period. It is suggested that the public should be prepared to meet any locust invasion which may occur during this period.

The importance of immediate action on the locust invasion is fully realized by the Allied Government, and the Kenya Government is fully co-operating with the Allied Government in the fight against locusts. It is suggested that the public should be prepared to meet any locust invasion which may occur during this period.

ALLEGED ATTEMPTED FRAUD Court Martial Hearing

The hearing was continued in the War Court Building, Nairobi, on the 14th of January, 1943. The military Court is presided over by Col. C. M. Maclean, A.M.S. On the previous day evidence was led that Major B. Adams, in August, 1941, in Adis Ababa was induced by a hoodlum by Captain Henry Hudson, who obtained the necessary authority for the purchase of goods from the 1st Battalion, King's African Rifles, in Nairobi, on the 14th of January, 1943.

How Kenya is Doing

Personally Speaking...

HAVING spent the past week (mostly) in the hands of the oculist, I haven't very much to tell you about people and nothing that is new.

Marching round in hospital these days, and even with a shoulder cast which is difficult to get into trousers, I find that my eyes are still in the same state. I am not fit to do anything but sit in a chair and wait for the oculist to come and see me. I have been told that I should have had my eyes examined by a specialist, but I am afraid that the oculist has not had time to do so.

While I have been in the hospital, I have had a lot of time to think about my eyes and the importance of having them examined regularly.
