3. Keds and other External Parasites of Sheep.—The sheep farmer needs always to be on the watch for Keds and other External Parasites of Sheep. Many farmers have been fortunate enough to get their requirements for the season, but those who have not obtained Cooper's Quick-acting Powder will be able to eradicate Keds by dipping twice with the standard Cooper's Sheep Dipping Powder. In this case, an interval of 21 days is necessary and both dippings should be carried out at full strength.

4. Worms (Tapeworm Bankrupt)—Sheep, Cattle and Goats may be treated with Cooper's N.C.A. Worm Drench. It not only eradicates the above-mentioned worms, but is also invaluable in the animals instead of drenching them. Even in lambs could be drenched up to a month before lambing, and lambs from the age of one month upwards. This measure will enable young sheep to grow out fully at an earlier age.

"Good equipment makes a good farmer better"

**Fire And Water**

By Lieutenant W. Delap

AS I write the country's greatest spot of forest are being swept by unprecedented fires. From Thika, I am told the Aberdares can be seen blazing as though lines of beacons signalled the approach of a new Armageddon. From the mountains from Mount Kenya and from all parts of the Colony come the reports of disastrous fires. The failure of the long rains have dried the pretty lowlands and dwindling mountains and coniferous forests to a tinder-dry condition.

Most of these fires, however, are of drought, food shortage, and consequent starvation of the animals, or of the burning of the forest for the purpose of clearing land for agriculture. The burning of the forest for the purpose of clearing land for agriculture is a serious problem, and one which is being dealt with by the Government.

Fire can never be entirely prevented, but a rational change of attitude is needed to reduce the losses caused by the burning of the forest. It is necessary to reduce the losses caused by the burning of the forest.

**WATER** What particularly worries us is our water supply in this country. The water supply is a serious problem, and one which is being dealt with by the Government.

**Some Notes On The Poultry Industry In Kenya**

A RECENT editorial article in the East African Standard on the poultry industry in Kenya, in which reference was made to the need for the Government to take steps to improve the industry, has prompted the following reflections on the industry in Kenya.

The standard of poultry-keeping is not high. This is accounted for by the fact that the majority of the poultry in Kenya are of the low-grade breeds. In many cases nothing better than the native types, and recently there has been a marked increase in the number of chickens of the low-grade breeds.

It is suggested that the Government should take steps to improve the industry by providing the necessary facilities for the production of high-grade breeds. It is suggested that the Government should take steps to improve the industry by providing the necessary facilities for the production of high-grade breeds.

The Member for the Coast (Mr. N. V. Cooke) asked in Legislative Council:

(a) What facilities, if any, has been incurred in respect of guaranteed minimum returns under section 4 of the Increased Production of Crops Ordinance up till the end of 1941?

(b) The total amount paid in grants under the same ordinance up till the end of 1941?

(c) The total amount of the advances under the ordinance made by the Land and Agricultural Bank of Kenya to the same date?

(d) The total number of prosecutions and convictions under the ordinance?

The Director of Agriculture replied:

(a) The contingent liability incurred in respect of guaranteed minimum returns under section 4 of the Increased Production of Crops Ordinance for the crop season 1941 has not exceeded £1,000.

(b) The total amount paid in grants under the same ordinance up till the end of 1941 is £1,000.

(c) The total amount of the advances under the ordinance made by the Land and Agricultural Bank of Kenya to the same date is £1,000.

(d) The total number of prosecutions and convictions under the ordinance is 10.

£5,733 Middle East Air Chief Thanks East Africa

Thanks and encouragement to the people of East Africa for their generous contribution to the appeal on behalf of the Royal Air Force Benevolent Fund...

The message, which is addressed to Air Marshal H. S. Kirby, D.S.C., A.F.C., Air Officer Commanding the Royal Air Force East Africa, is as follows:

"The East African Territories have provided the Royal Air Force with some of its finest pilots and have been proud supporters of aviation since its pioneer days...

"On this auspicious 24th birthday of our Service there could be no better object for our gratitude than the families of those men who in peace and war have given their lives for the Royal Air Force."

"It is therefore with special pleasure that I note the generous contribution made by all East African Territories towards the Royal Air Force Benevolent Fund...

Today's new list adds another Nine Hundred Pounds to the total which has now passed the first One Hundred Thousand Shillings.

Cheques should be made payable to R.A.F. Benevolent Fund and addressed to:
