WILSON'S APPEAL ON CANE FAILS

Wilson's appeal for cane growers to support the Government's scheme for the production of cane for the manufacture of sugar failed to attract the support of the cane growers in the Western Districts.

The appeal was made at a meeting of the cane growers in the Western Districts on Monday evening.

The speaker, Mr. Wilson, said that the Government's scheme for the production of cane for the manufacture of sugar was a very important one and that the cane growers should support it.

He said that the Government was offering a subsidy of 100 shillings per acre for the cane growers who planted cane for the manufacture of sugar.

Wilson said that the cane growers should support the Government's scheme because it would enable them to produce cane for the manufacture of sugar and to receive a subsidy for doing so.

Alliance plans for a great future

ALLIANCE FOR AGRICULTURE, the Alliance High School, with a view to building a new school building, was organized in 1937. It has since then been active in various ways, including the purchase of land for a new school building, the purchase of a building for a school, and the purchase of a building for a school.

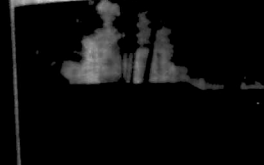

It is the intention of the Alliance for Agriculture to build a new school building, which will be a permanent structure, and will be a credit to the community. The Alliance for Agriculture has been successful in securing a site for a new school building, and has been successful in securing a building for a school.

Right around the world... CRAVEN FILTER KING SIZE

MADE IN ENGLAND

the perfect balance between filter and fine virginia tobacco for that smoother cleaner taste

NOW! A DOUBLE GLAZING UNIT WITH AN ALL GLASS SEAL PILKINGTONS 'INSULIGHT' GLASTOGLAS

Now you can specify double glazing units with the certainty that the seal is permanent—permanent because it is all glass. The new units, now available in Great Britain are Pilkingtons' "Insulight" Glastoglas units. Just check on these reasons why they must be your first choice from any one:

CONSTRUCTION Two panes of 3/16 in. (5mm) sheet glass separated by 1/2 in. (12mm) air space and the edges are fused together to make a permanent seal. The seal is, in effect, one continuous piece of glass.

READY FITTING Specially selected frames are not needed for Glastoglas units. They fit into most standard single-pane type frames (minimum required depth 3/8 in. (11mm)). No elaborate glazing techniques are needed.

STOCK SIZES Pilkingtons' Glastoglas units are being made in a range of stock sizes, and will be available for delivery as stock. The sizes are in two ranges:

- 18 in. x 18 in. (45.7 cm. x 45.7 cm.) to 24 in. x 24 in. (60.9 cm. x 60.9 cm.) and
- 18 in. x 24 in. (45.7 cm. x 60.9 cm.) to 30 in. x 30 in. (76.2 cm. x 76.2 cm.)

PURPOSE-MADE SEALS Glass outside the stock list but within these ranges can be made to special order, providing a sufficient quantity of units of one size is ordered at the one time (normally 200). For larger units, or units using float or any special glass (e.g. heat-absorbing) specify Pilkingtons' "Insulight" Mk. IV metal-edge unit.

GLASTOGLAS CHARACTERISTICS

- Nominal "U" value: 0.8 B.T.U. per sq. ft. per deg. F. (0.0 kcal/m² per deg. C)
- Single glass "U" value is 1.00 B.T.U. (0.263 kcal/m²)
- Weight 5 lb. per sq. ft. (147 kg. per sq. m.)
- Sound insulation: Approximately equivalent to 1 in. (25mm) glass manufacturing tolerances: ± 1/16 in. (1.6mm) on length and width, and ± 1 in. (1.6mm) on thickness.

"Insulight" Glastoglas double glazing units may be placed or transported up to 1,200 inches above sea level. Where higher altitudes are involved, the uses must be submitted for consideration.

TULA LEAVES THE TOWN

By SUSAN CARROLL

"I'm not going," shouted Tula, stamping her feet.

"Don't be rude," said Mama. "You must come with Baba and me. We must go to the country as the Baba said."

"I'll have to go," said Tula. "I know I will, and so will you and the other boys."

It was a perfect day. The sun was shining, and the birds were singing. Tula and her friends were sitting on the grass, talking and laughing. They were all excited about the trip to the country.

Children excel in art

THERE was an excellent response to the special children's painting competition last week, when by the time entries were closed yesterday afternoon nearly 60 pictures had been coloured and sent in.

The pictures were judged by representatives of the East African Standard, Messrs. Theaters Ltd, who presented the prizes of five prizes for the best drawings, which is to be shown in Nairobi next month.

The judges had a difficult task and the standard of entries was unusually high. The prize for the best drawing was given to a girl of 10 years, and the runner-up was a boy of 9 years. The other prizes were given to girls of 8, 7, and 6 years.

When it was all over, the winners were given their prizes and the pictures were displayed in a gallery.

PLAIN FRUIT JUICE
IS NOT ENOUGH

As every mother knows, there are certain food supplements that all babies must have to help them grow strong and healthy. Many do not realize, however, that the Vitamin C that appears in fruit juices—important as it is for firm flesh and clean skin—is not enough by itself. Every baby must also have Vitamin A for growth and good energy. Vitamin D for strong bones and teeth. Doctors recommend the number of babies who are getting only Vitamin C supplements, and there have even been reports in the medical press of cases of rickets—a bone disease caused by lack of Vitamin D.

You can't afford to risk the health of the little ones you love. Make sure they have Haliborange every day. Haliborange gives babies all three vital vitamins A, D, and C—in a taste sweeter than ordinary fruit juice, and babies and young children simply love it!

The Elegance of Hartnell

Designed with full elegance and precision, the new Hartnell designs for Spring, Summer, Autumn.

Coming to you after the beauty and grace of the Paris Fashion Week, they remind us that the age of dress is not yet dead.

On the left, Baroque Plume is the silk of this new white silk dress which is worn with a coat of jade green silk.

Reminiscent reminiscent of the Baroque, shades of white and soft pastel hues have become the basis of both dress and coat.

In contrast Hartnell has created a more modern dress in a straight line with a beautiful-shaped neckline and accented with diamonds which he calls Diamond Shower. He also uses silver and crystal on the dress for dazzling highlights.

John Gurnagay steps into the spotlight (far right) with his evening tunic dress in pair blue crepe. The heavily embroidered bodice is in black and white.

This is the typical youth London has become wearing this year.

SOMETIMES I FEEL LIKE SWIMMING

SOMETIMES I DON'T... (but I use Tampax anyway)

You play it the way you want it on the beach. But you always play it cool... clean... fresh... with Tampax. Tampax can't show. No chafing, no irritation, no odors. But extra protection against the menstrual problem. Why be a take-all the problem out of your life? Why be a take-all-home when you could be in the water? Use Tampax instead. Satisfying protection and be sure, secure, confident, comfortable.

THE RIGHT TOOL?

Highlights of the Facit Calculator CA1-13

- Constant verification — 3 high-visibility indicators.
- Time-saving — Quantum fully automatic. Short-cut multiplication gives an extra time saving of 40 per cent.
- Quiet running — Won't disturb your telephone calls — sound level lower than 60 phos.
- Easy to learn and use — ten-key system — you master the simple technique in 15 minutes.
- Space-saving — Takes less desk space than a sheet of typing paper.

Highlights of the Facit Electric Typewriter

- Beautiful lettering — you'll be proud to sign your letters.
- Low, leveling key-board — comfortable even without a special desk.
- Key-set or decimal halphabet — together with the exclusive "mechanical memory".
- Balder tested for 18 years of service.

Today factories and workshops the world over have rationalised and mechanised for fast, efficient production, but how about the office? Have you the right tools at your office?

A letter you sign should make as good an impression as you in person. Crisp, handsome letters are a matter of routine when typed on a Facit typewriter.

Do you know how much time you save when using a Facit calculator? Find out for yourself by ringing, or writing, asking our Representative for a free demonstration. Facit is always at your service!

ETHIOPIANS AGREE TO CHANGE

Africa Cup date problem now resolved

ETHIOPIANS have agreed to change the date of their 1962 Africa Cup match against Kenya to April 7, following agreement to be announced later. The new date was made a result of a "breakthrough" after the match against Senegal was postponed on April 1 to Addis Ababa and back to Nairobi. A further agreement was the match with Uganda to be played in Kampala, early in April instead of March 15, which would have been a "double date" for the Africans.

Kenya's agreement to the change to Kampala was announced by the Ethiopian F.A. who arrived in Nairobi with the Ethiopian team to meet Kenya's coach, Mr. A. J. C. Brown, at the Kenya Football Club headquarters in Nairobi.

PRESIDENT NYERERE FETED

TANZANIA President Dr. Nyerere and his wife left for London on Wednesday afternoon for a visit to the People's Republic of China. Mr. Liu Shao-chi, Premier of the People's Republic of China, is expected to meet the President in Beijing.

Overall production

Among food products which showed a marked increase in output were sugar, palm kernels and groundnuts. The increase in output was due to a combination of factors, including improved weather conditions and better farming techniques.

Happy after the rains in cereals

Even so, export commodity prices were still a good deal below the levels of last year. This was due to a combination of factors, including improved weather conditions and better farming techniques.

QUEEN ELIZABETH II IN THE SUDAN

'You'll like it'
J & F WATSON'S
SCOTCH WHISKY

With the permission of the Supreme Council of the Sudan, Queen Elizabeth II drives from the airport to Khartoum at the beginning of her four-day visit to Sudan.

With the Duke of Edinburgh in the background, the Queen is escorted by girls shortly after leaving her aircraft.

Why are 90 out of every 100 Land-Rovers in East Africa fitted with AVON tyres?

Because AVON tyres are recognised by Land-Rover users—as indeed by all experienced motorists—as the toughest and most rugged range on the market. Tyres that are ideal for East African conditions. Tyres for every kind of vehicle. Tyres that are long-lasting and consistently reliable.

Here's what AVON has to offer you:

- AVON NEW SAFETY**
up to 38 per cent more grip on wet roads—no more skids. These ordinary tyres spaced with safety for every motorist.
- AVON RADIAL**
cool road truck tyres with tread tread, which give significantly higher mileage and economy under all conditions.
- AVON TRACTION**
all-terrain tyres for long-lasting on- and off-the-road use. Same like on loose surfaces.
- AVON TRACTOR**
heavy-duty for self-cleaning. Multi-ply, ground contact, for maximum traction.

A WIDE RANGE OF TYRES FOR CARS, TRUCKS, TRACTORS, MOTOR CYCLES, SCOOTERS AND BICYCLES
AVON for greater safety!

The Queen visited Kandaria, a cattle producing area in Western Sudan. Here she is seen driving through part of the large saved which turned out to great her.

Each in London, the Queen graciously holds into a far seat as she looks the interest between Edward's visit and Sudan's situation.

The Supreme Council gave a dinner for the Queen of the Republic of Sudan. Here she is seen with the chairman. Below, the Queen addresses the dinner party.

EXCELLENT CHOICE FOR HOUSEWIVES

My colleague John Elgin has already commended favourably on the introduction of a "Housewives' Choice" regular programme on the V.O.K. General Service, but I should like to emphasize his remarks by pointing out that the programme is a most valuable one for the housewife.

for the little ones you love PLAIN FRUIT JUICE IS NOT ENOUGH

As every mother knows, there are certain food supplements that all babies must have to help them grow strong and healthy. Many do not realize, however, that the Vitamins C that appear in fruit juices—important as it is in the first book and other vitamins—do not contain enough Vitamin C. Every baby must have Vitamins A, B, C, D, E and K. These vitamins are essential for the growth and development of the baby. You can't afford to risk the health of the little ones you love. Make sure they have Haliborange every day. Haliborange gives babies all three vitamins A, D, and C. It's even better than ordinary orange juice, and babies and young children simply love it!

Rival Tongueless hear President open peace talks

REPRESENTATIVES of both the European and African wings of the O.A.U. met at the meeting of the O.A.U. ad hoc commission which met in Nairobi yesterday under the chairmanship of President Kenyatta.

Opening the meeting, Mr. Kenyatta said that a political solution may be found to the Congo's unrest, if the existence in the area of a battlefield for power politics.

Kenya's delegation represented at the meeting include Ethelberg, Nigeria, Ghana, U.A.R., Tunisia and Somalia. Three absentees were Cameroon, Upper Volta and Guinea.

Also attending the meeting are Kenya's Minister for External Affairs, Mr. Mumbaka and the Minister for Information, Broadcasting and Tourist, Mr. Achene Oloo.

Mr. Mumbaka, speaking as Chairman of the Commission, said: "For the fourth time in five months it is again my duty to welcome you to Nairobi."

We were requested to help and encourage efforts about national reconciliation. Invitations have gone to the opposing groups in the Congo to send representatives to help us arrive at this very important task. The President, Ministers and the Commission calling by the Council of Ministers in the Congo to help their hostilities had so far not been successful.

"I myself," the President said, "made a broadcast appeal as early as September last year addressed to all combatants in the Congo to stop fighting and to start the preliminary background for national reconciliation to be explained."

CONGO ALSO HUMAN PROBLEM

ZAMBIA'S Foreign Minister, Mr. M. S. Kappey, said today that the Zambian Mission was no longer at stake while there is a loss of life among our people in the Congo.

The Zambian Mission was the special of the Zambian Mission to the Congo. Mr. Kappey said he was particularly interested in the Congo because it was a human problem.

He stated that Zambia's interests in the Congo were being protected as well as the interests of the Zambian people. He said that the Zambian Mission was not at stake as long as there was a loss of life among our people in the Congo.

4000 Dockers warn of take-over strike

UNLESS their demands are met, the 4000 dockers at the Port of Mombasa will go on strike tomorrow, the general secretary of the Dockworkers' Union, Mr. Dennis Akumu, said yesterday.

An emergency meeting of the union's executive committee yesterday had decided to go ahead with the strike.

A statement said to be issued on behalf of the strike committee members of East African Seafarers' Union, Mombasa, dockworkers will come out on strike tomorrow, the general secretary of the Dockworkers' Union, Mr. Dennis Akumu, said yesterday.

They again are anxious to have freedom, and in fact the union's executive committee has decided to go ahead with the strike.

Runaway shot

Head Keeper Leonard Warner (left) and Keeper William Lilly are pictured at Whip-moor Park Zoo, near Doncaster, England, with the carcass of Walter, a two-year old Canadian timber wolf which had been on the run for several days. The animal was first wounded by a shot from a 12-bore shotgun and quickly killed at point-blank range with a shot in the head from a 22 rifle. The shooting was done by Mr. Warner and Mr. Lilly at Ickleford, near Huddersfield — 20 miles from the zoo. The end of the hunt for the wolf came after an all-night search by torchlight.

LOSIVE' SQUATTER SITUATION IN MALINDI

Absentee landlords part of problem

The squatter situation in Malindi has become notorious for its extent. It is estimated that there are about 10,000 squatters in the town and its vicinity. The problem is caused by absentee landlords who do not care for their tenants and who do not pay taxes. The Government has been unable to do much about it because of the large number of absentee landlords. Many of them have abandoned their properties and have left them to the squatters. PLAIN FRUIT JUICE
IS NOT ENOUGH

An every essential feature, there are certain food combinations that all babies must have to help them grow strong and healthy. Many do not realize, however, that the vitamins that appear in fruit juices—important as it is for their health and clear skin—are not enough by itself. Every baby must also have Vitamin A for growth and good vision, also have Vitamin B for strong bones and teeth. Doctors are alarmed about the number of babies who are getting only Vitamin C supplements, and there have been reports in the medical press of cases of rickets—a bone disease caused by lack of Vitamin D.

GROWTH

Food for the people
Plant research, settlement schemes, land development projects, fertilizer industries... all represent the massive efforts of government and private enterprise throughout East Africa to improve the quality and quantity of the vital maize crop. With a population steadily increasing, the need to step up the efficiency of maize production has become essential. Barclays, through their long association with the farming community and wide experience of the economics of agriculture, are proud to play a part in the complex task of providing food for the people.

Work starts on game fence

WORKMEN lived under the Government's scrutiny for the relief of employment here started building the game fence for which the West African Government last year gave 20 miles of wire mesh fencing.

The gift of fencing is worth over £2,000,000 and the West African Government has granted £10,000, spread over two years, for its construction. Work is under way at the north end of the game fence near Ngora, Senegal, but some 100 miles of the fence have been completed.

The Chief Game Warden, D. W. J. Brown, said that the fence would extend 200 miles north to the Senegal hills and across the Kauri forest to the east. He said that the fence would help to control the spread of malaria and other diseases, and would also help to control the spread of malaria and other diseases, and would also help to control the spread of malaria and other diseases.

The story of Johnny's dog

By SUSAN CARROLL

When Johnny was walking near the river, he heard a sobbing sound. It was a "pup" — a little white pup.

"What's that?" he wondered, and he ran to the river's edge to see what it was. "Oh, but look! It's a little pup," he said. "I can get it!"

Johnny went and took the pup home with him. He named it "Tom".

The dog at the police station was Tom but oh, what a different Tom he was. Once again he was thin and straggly and dirty, and there was a sad look hanging from his eyes.

"What am I going to do with you?" said Johnny looking at the pup. "I'll take you to the police station and see what they say."

Johnny went to the police station and then he said to Johnny: "I'll take you to the police station and see what they say."

But then was Tom. Johnny ran all the way home with Tom. "I'll take you to the police station and see what they say."

m industry in very healthy position

The agricultural industry is in an extremely healthy position, according to the Agricultural Survey for Kenya at Jamhuri Park yesterday.

Nothing of quality was being produced, which is a situation which could not be found, he said. Kenya was selling all the coffee and cotton produce. Prices for beef, dairy products and pyrethrum were as high as could be expected.

Production from the present area had also increased considerably in the last two years. Present farmers were working harder today than they ever had before. There could be seen where the land was being used by the amount of production that came out.

The Government was having a good success. The technical and expert help from friendly nations and the people who had left Kenya were very high. Many people were coming back to help in the work.

Strong roots of the police

ONE OF THE most important factors in the development of the police is the training of the officers. This is the primary reason why the police are so effective in their work. The police are the backbone of the community and their training is the key to their success.

The police are the backbone of the community and their training is the key to their success. They are the ones who protect the people and maintain the law. Without them, society would be in chaos. Therefore, it is essential that they receive the best possible training.

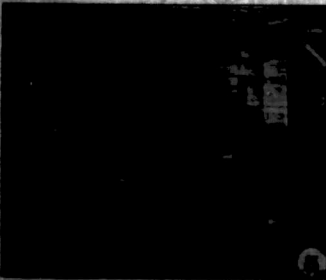

TO CATCH A THIEF...

It would appear that an opportunity does not always exist for the police to catch a thief. However, with the right training and techniques, they can be successful in their pursuit of criminals.

The police are the backbone of the community and their training is the key to their success. They are the ones who protect the people and maintain the law. Without them, society would be in chaos.

Officers at parade outside the new block of the Police Training Wing at the Police Training School, Kisumu. Daily sessions of drill incorporate the theoretical study and practical work of their six-month course.

Harambee - Kenya na Amerika

Next week the United States welcomes you to the U.S. National Exhibition to be held in Nairobi. You will be able to see for yourself how American equipment and technology can help in the development of Kenyan agriculture and industry.

For the benefit of the farmer exhibits featuring irrigation equipment, seed handling machinery and modern techniques will be on show. In addition, a complete food processing line will be operating. Of particular interest to the ladies will be a show of current American fashions which will illustrate how African and European influences affect American fashion designers. You are cordially invited to visit the many interesting stands at the United States National Exhibition, Harambee Avenue.

AFRICAN POLICE

It is clear that the police in Africa are facing a new era of responsibility. The old methods of law enforcement are being replaced by a more modern and efficient system. This is necessary to maintain law and order in a continent that is rapidly developing.

The new police forces are being trained in modern techniques of law enforcement. This includes the use of modern weapons and equipment, as well as the development of a more professional attitude towards their duties.

It is hoped that these new police forces will be able to maintain law and order in Africa, and to provide a more efficient and effective system of law enforcement.

Explanation of profits requested

RECENTLY I was in the United States and saw a sign that read 'Explanation of profits requested'. This was a common sight in many parts of the country.

The sign was a reflection of the economic conditions in the United States at that time. It was a sign that many people were looking for an explanation of the high prices and profits that were being charged for goods and services.

English language

English is the most widely spoken language in the world. It is a language that is used in many different contexts, from business to education.

Learning English can be a challenging task, but it is also a rewarding one. It opens up a world of opportunities and allows you to communicate with people from all over the world.

It is important to note that learning English is not just about learning the words and grammar. It is also about understanding the culture and context in which the language is used.

GRIP ALONE IS NOT ENOUGH!

NEW Firestone F07

gives you the strength behind the grip!

Grip is important but grip alone is not enough: It's the strength behind the grip that counts. The world's finest grip is of little use if the tire won't stand up to the strain or if the tread wears out too quickly. There's more to a tire than grip alone: you need grip plus strength.

Firestone Development engineers have spent years of intensive research and study to produce the F7, the perfect tire, tread, shoulder, ply and casing. Double a standard in safety: a tire by which to judge all others. Perhaps some day all tires will be as good — today the F7 is guaranteed.

STRONGER TYRE BODY
F7 cord body is built to stand up to the toughest of everyday motoring conditions.

GREATER STABILITY
F7 tread profile gives a smooth, true ride, even over cuts, ruts and ripples which cause other tires to shimmy.

BETTER CORNERING
F7's extra stability when cornering means corners, safer cornering than ever before.

HIGHER MILEAGE
F7 has special built-in tread stabilizers to give extra miles.

ADVANCED TREAD PATTERN
F7 tread has seven ribs — one main rib, plus two levels of sipes — to give non-slip safety.

REMARKABLE WET WEATHER GRIP
F7 wet pavement is significantly different in stability when cornering from the point of road contact.

NEW RUBBER
F7 is made with the latest Firestone rubber plus SUP-8-TUF for safety and long life.

President to inaugurate £37m Seven Forks Project

MONEY AT KINDARUA TODAY

Mr. KENYATTA will inaugurate the first stage of the Tana River Development project, a £37,000,000 hydro-electric development at Seven Forks on the Tana River at Kindarua. The installation of the main transmission lines from the dam to Nairobi will cost more than £10 million. The project is the largest of its kind in Africa and will produce electricity for the whole of Kenya.

MESSAGES

His Excellency the President,
The Hon. Jomo Kenyatta, M.P.

The President writes—

The inauguration of this scheme gives me the opportunity to express my sincere appreciation to the Government and the people of Kenya for their support and co-operation in the development of this project. It is a landmark in the history of Kenya and will provide a steady and reliable source of power for the country. The project will also create many jobs and improve the living standards of the people. I am confident that the project will be completed on time and within budget.

The inauguration of the Seven Forks scheme will be completed in a period of 10 to 12 years, but construction work will be planned to anticipate expansion in the demands for electricity and other needs during the process.

Lessening economic significance

The economic significance of the Seven Forks scheme will be lessened if the project is not completed on time. This is because the project will be a major source of power for the country and will be essential for the development of the country. If the project is delayed, it will have a negative impact on the economy.

LEADERS OF YESTERDAY

MR CHARLES UGILL started his association with the electricity industry in East Africa in 1908. He was appointed managing director of the Nairobi power undertaking in 1909 and led it through the First World War. When the East African Power and Lighting Co. was formed in 1922 he became its first managing director. Mr. Ugill was four times Mayor of Nairobi and now in his 90th year is still taking an active interest in the city's affairs. He plans to attend today's ceremony of Kanda's name.

Mr. Charles Taylor (far right) was chairman of the East African Power and Lighting Co. from 1946 to 1955. Those years were difficult for the company due to the unprecedented expansion of the economy which resulted in 25 per cent increases in the demand for electricity for several years. Major Taylor's leadership saw the company through this critical period.

Despite variable conditions of base load, the Kenya and Uganda Railway at Nairobi and through the latter's main works, progress was slow in the past. The formation of the company on the part of Mr. Harold O'Connell, B.E.E., in 1946 and a later re-formation in 1948, led to the formation of the Kenya Power and Lighting Co. Ltd. in 1946. The company was the first to supply electricity to the Kenya Colony.

The company has since then made a major break from debt, and the expansion of the Kenya Power and Lighting Co. Ltd. has been a major factor in the development of the Kenya Colony. The company has since then made a major break from debt, and the expansion of the Kenya Power and Lighting Co. Ltd. has been a major factor in the development of the Kenya Colony.

The development of East Africa as a Centre of progress, strain, improvement and peace necessitates in supplies. Staff were reduced and some were dismissed. In Nairobi, for instance, some 500 engineers, the secretary and his staff were dismissed. These men held positions with the company.

The company has since then made a major break from debt, and the expansion of the Kenya Power and Lighting Co. Ltd. has been a major factor in the development of the Kenya Colony. Uganda Electricity Board's measurements from time to time. The agreement, valid for a year, entitles the U.E.B. to use the many existing thermal back-up available to the Kenya Power Co. Ltd. The company has a further agreement with the East African Power and Lighting Co. Ltd. for the operation of the Kenya Power Co. Ltd. installations. The arrangement results in considerable administrative economies.

During 1964 the Kenya Power Co. Ltd. to the East African Power and Lighting Co. a total of 22,000,000 units of which approximately half were purchased from Uganda and half were generated at its Thika and Warihi power stations.
