Good breeders would improve Kenya stock

Improving present breeding stock is the first step towards the improvement of Kenya's stock, according to a report by the Government of Kenya. The report, which was published in Nairobi, states that the present stock is of a low standard and that the only way to improve it is by introducing good breeding stock from other countries. It also states that the Government should encourage good breeders and provide them with the necessary facilities and information.

PROTOCOL OUT AS PRINCESS DEPARTS

Princess Elizabeth's departure from Kenya has been a landmark event, and the protocol surrounding her visit has been a subject of much interest. The princess, who is the daughter of King George VI and Queen Elizabeth, visited Kenya from October 1952 to January 1953. During her visit, she was accompanied by her husband, Prince Philip, and they were both well-received by the Kenyan people. The princess's departure was marked by a large crowd of people who gathered to see her off at the airport.

DISPLAY NEARLY READY

More than 300 industrial display panels for the forthcoming Australian Exhibition are nearly ready for completion in Nairobi. The exhibition, which is to be held in Melbourne, Australia, in 1954, will be the largest ever held in that country. The Kenyan Government is participating in the exhibition, and the display panels will showcase the country's industrial and agricultural products. The panels are being prepared by the Kenyan Industrial Development Corporation, and they are expected to be completed by the end of the year.

Return of Pokot land urged

ALLEGATIONS that Africans had been forced to leave their land to make room for European settlers during the colonial days were made by Sen. E. K. Purcell (West Pokot) in the Senate yesterday. He was speaking at a meeting of the Senate in Nairobi, and he stated that the Government should consider the return of Pokot land to the Africans. He said that the land had been taken away from the Africans during the colonial era, and that the Government should now return it to them. He also stated that the Government should provide the necessary facilities and information to the Africans to enable them to return to their land.

AFRICANS 'MUST BE TRADING AGENTS'

It was the policy of the Government that African trade agents must be employed by an Assistant Minister in the Ministry of Commerce, according to a statement made by the Senate yesterday. The statement was made by the Minister of Commerce, and it stated that the Government was committed to the policy of employing African trade agents. This was done to ensure that the interests of the African people were protected in trade transactions. The statement also stated that the Government would provide the necessary training and facilities to the African trade agents.

DISCUSSING THE PROBLEM OF OVERCROWDING

Members of the Kenya Municipal Council have expressed concern over the problem of overcrowding in Nairobi. The council, which is the governing body of the city, has held several meetings to discuss the problem, and it has agreed to take certain steps to address it. These steps include the construction of new housing, the improvement of public transport, and the provision of more public facilities. The council also agreed to set up a committee to study the problem of overcrowding in more detail.

RIGHTFUL OWNERS

Sen. Mbatia assured the House that the Government would investigate the claims of the rightful owners of land in Kenya. He was speaking in the House of Representatives in Nairobi, and he stated that the Government was committed to the policy of returning land to its rightful owners. He said that the Government would provide the necessary facilities and information to the rightful owners to enable them to return to their land. He also stated that the Government would provide compensation to the rightful owners for any loss of land.

FUND SHORTAGE

Sen. Mbatia stated that the Government was facing a shortage of funds to carry out its development program. He was speaking in the House of Representatives in Nairobi, and he stated that the Government was committed to the policy of developing Kenya. He said that the Government would provide the necessary facilities and information to the Kenyan people to enable them to participate in the development program. He also stated that the Government would provide compensation to the Kenyan people for any loss of land.

BUY GOODS DIRECT

Sen. O. O. Mbatia (East Pokot) and Sen. J. H. Mbatia (North) both urged the Government to encourage the Kenyan people to buy goods direct from manufacturers. They were speaking in the House of Representatives in Nairobi, and they stated that this would help to reduce the cost of goods and to support the Kenyan economy. They also stated that the Government should provide the necessary facilities and information to the Kenyan people to enable them to buy goods direct from manufacturers.

Common sight-seeing in the new VW 1200

Common sight-seeing in the new VW 1200

The first thing you notice about the new 1965 VW 1200 is that the windows are larger all round. 15% more glass area than before adds in open a new view of the road and sky ahead inside. The view of the road has always been good in the VW. Now it's even better with the new deeper, wider, windscreen. There's a bigger view from the side too now that the corner pillars have been slanted down. Out on the road, you'll appreciate the large rear-view vision given by adding 18.5% extra glass area to the rear window. For fun, Even when you drive it to work, you feel you're on holiday.

For the last engine! Wind-up windows. The new VW 1200 has huge spring-loaded windows to give you a sweeping line of vision all round in rain. The new VW 1200 has huge spring-loaded windows to give you a sweeping line of vision all round in rain. The new VW 1200 has huge spring-loaded windows to give you a sweeping line of vision all round in rain.

And there are never important invisible events in a VW 1200. You get the full technical and power train working superbly. Backing every VW in East Africa. And the proved knowledge that a VW holds its price well longer than any other car in its class.

WILDLIFE IN KENYA'S FUTURE

In this article, the first of a series on natural resources, MR. A. P. ACHONG, the Permanent Secretary to the Ministry of Natural Resources and Wildlife, states the case for "Wildlife in Kenya's Future". Mr. Achong, himself a scientist, also gives a reply to an earlier article by Aaron Segal which suggested that game and many other animals in areas outside national parks and game reserves.

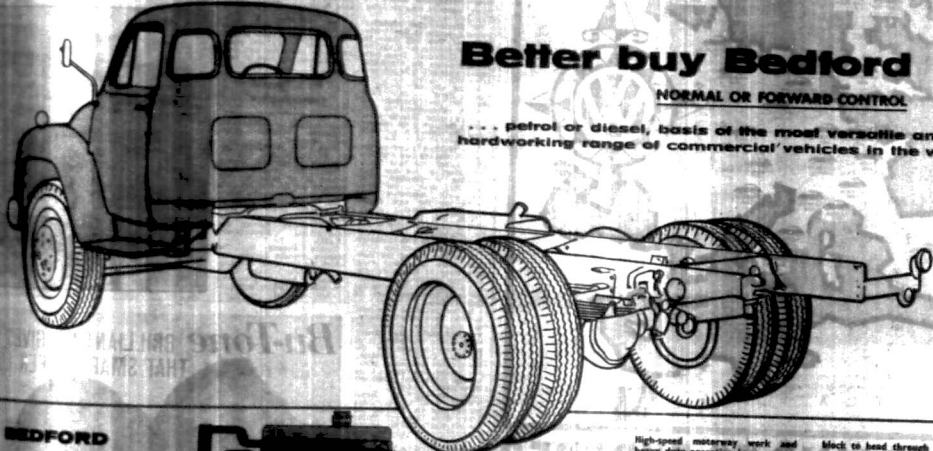

It is the protection of wildlife, in the opinion of game officials, that is the key to the development of Kenya as a tourist country. The country's natural resources, particularly its game, are its main attraction. The game reserves, which are the backbone of the country's tourism industry, are the main source of foreign exchange. The game reserves are also the main source of employment for the local population.

As every mother knows, there are certain fruit juices that contain more vitamins than any other. Many do not realize, however, that the Vitamins C that appears in fruit juices—generally as it is the Ascorbic Acid—does not come enough by itself. Fresh fruit and other sources of Vitamins C do not contain enough Ascorbic Acid for the growing and growing child.

What has the kangaroo to do with Eastern markets?

When business in the Far East beckons—connecting services from Africa enable you to join the famous Qantas Kangaroo route, and jet speedily to the Middle East, across Asia to Hong Kong and the Orient. Across Australia's intrinsically famous airline, the rich markets of the east are mere flight hours away. And if you're either Qantas or a chookie, you can wing your way eastwards via Mauritius and Australia—in an 11 to 12 million baht market on route. Qantas flies you—north, south, west or east, in fact around the World.

For bookings, consult your nearest travel agent, or East African Airways.

Exide Services (Kenya) Ltd is Nairobi is one of the world's leading battery manufacturers. They provide sales and service facilities throughout Kenya for a range of batteries for every purpose. These are Exide Lead-Acid batteries for cars, buses, trucks, agricultural equipment and Exide Chloride stationary batteries for fork-lift trucks and Chloride stationary batteries for auxiliary and standby power. Whatever the need—Exide supply it.

Many of the largest undertakings in Kenya depend upon Exide and Chloride batteries. For example, the East African Cargo Handling Services Ltd use Exide-flooded traction batteries for a large fleet of fork-lift trucks and the East African Post & Telecommunications Administration use Exide Chloride stationary batteries. Thousands of other people use the new Exide Auto-Fl battery car batteries for one-shot topping up in only 30 seconds. How about you?

WHY when you think of steam you always
SAY STEAMBOILER...
Because no less than 82 per cent of the fuel value results in steam and less than 10 per cent goes up in smoke.
Because it is built by Babcock & Wilcox - the world's greatest boiler makers.

WHY THE BLANK ?
W 1200
We meant to show you a USED 1200 in this space
But we have none left in stock. They're all sold. On the road and staying there for a long time by the look of things. So to fill this space we are offering very favourable terms to anyone trading in their VW 1200 Saloon for a 1965 model. How favourable?
Come and see for yourself at **CMC** You'll be agreeably surprised!

Going Overseas?

THE AUSTIN OR YOUR CHOICE WILL MEET YOU THERE

If you're leaving East Africa, G & R Motor Personal Report Delivery Scheme can save you money in the U.K. or Europe, whether on lease or hire, but permanently you can have any car from the wonderful Austin range delivered wherever you wish.

If you accept U.K. delivery, and plan to leave the U.K. within twelve months, there is no Portability Tax to pay. It's for the ease and option to your motorist problems when you leave.

If it's principals in the U.K. will make certain that your delivery request is honoured to the letter, and that the Austin of your choice is delivered where and when you want it.

For details of the Personal Report Delivery Plan that will save you money, contact G & R Motors, Mrs. W. C. Collins at Dur or Balam, Tel. 22601 Mr. M. K. Purrier at Kampala, Tel. 22422, or any branch of G & R Motors throughout East Africa.

GRIP ALONE IS NOT ENOUGH!

NEW Firestone F07
gives you the strength behind the grip!

Grip is important but grip alone is not enough: It's the strength behind the grip that counts. The world's finest grip is of little use if the carcass won't stand up to the steels or if the tread wears out too quickly. There's more to a tire than grip alone; you need grip that's strong.

Firestone development engineers have spent years of intensive research and testing to produce the F7, the perfect, true, round, shouldered, strong, correct running, flexible, a new standard in safety; a tire by which to judge all others. Perhaps never before all tires will be as good as the F7 in one way.

There are a number of new Firestone development engineers have spent years of intensive research and testing to produce the F7, the perfect, true, round, shouldered, strong, correct running, flexible, a new standard in safety; a tire by which to judge all others. Perhaps never before all tires will be as good as the F7 in one way.

There are a number of new

STRONGER TYRE BODY
F7 core body is built to stand up to the toughest of everyday running conditions.

GREATER STABILITY
F7 build profile gives a smooth, firm ride, even over cuts, ruts and rough surfaces.

BETTER CORNERING
F7 give excellent cornering support—on corners, better cornering than ever before.

HIGHER MILEAGE
F7 has special built-in tread stabilizers to give more miles.

ADVANCED TREAD PATTERN
F7 tread has three ribs—five main ribs, plus two round the shoulders to give maximum safety.

REMARKABLE WET WEATHER GRIP
F7 tread pattern is scientifically designed to give you extra safety from the point of road contact.

NEW RUBBER
F7 is made with the finest Firestone grade rubber SBR-R-717 for extra grip and long life.

STAGE OF MAIZE NOW SERIOUS

on Danger of starvation

A WARNING that Kenya was in danger of starvation because of the shortage of maize was issued by the Government of the East African Community on Monday.

COURSE DUE TO OPEN ON MONDAY

The East African Community's course of action in the event of a serious shortage of maize was outlined by the Government on Monday. It was stated that the Government would be prepared to take any steps necessary to ensure that the population was supplied with sufficient maize for its basic needs.

APPROCIATION Mrs. Florence Annie Waterman

Mrs. Florence Annie Waterman, who has just returned from a tour of the East African Community, has expressed her appreciation for the hospitality and assistance she received during her visit.

Further talks on Agency

The East African Community is continuing its discussions with the United Kingdom regarding the proposed agency for the development of the region. It is hoped that a final agreement will be reached in the near future.

NEW DISCOVERY NOW MAKES IT POSSIBLE TO SHRINK AND SEAL PILES WITHOUT SURGERY
 STOPS ITCH—RELIEVES PAIN IN MINUTES
 London, (South). A world-famous discovery has been made which makes it possible to shrink and seal piles without surgery. The discovery is the result of a new chemical compound which has been developed by the British Medical Research Council. It is a simple, painless procedure which can be performed in the comfort of the patient's own home. The treatment is effective in the treatment of all types of piles, including internal and external piles. It is a revolutionary advance in the treatment of this common ailment.

PILKINGTONS lead the world in glassmaking

With the invention of Float glass

In the most searching light of a glass—a mirror—Float shows itself as the world's finest glass

There's no more searching light of a glass than to make it like a mirror, and reflect an object in it again and again. There's no doubt about that. Pilkingtons' Float glass is the world's finest glass. It is Float glass, invented and developed by Pilkingtons.

Pilkingtons Glass is made by a process known as the float glass process. The molten glass is fed onto a bath of molten tin, which gives it a perfectly flat surface. This process is carried out in a most efficient manner, and the results are being made known to the public in a most interesting manner.

Rick and Sandy in line for a hit

KENYA Two talented new singing stars (Rick and Sandy) who are expected to be the leading force in the "Rock" movement in Kenya with their first record, "Rock", which was released in March, 1964, were in Nairobi on Monday, July 22, for their first week's recording session.

The two young men, who are both from Nairobi, were accompanied by their manager, Mr. J. M. Mwangi, who is a former member of the R.F.C. band.

Kenya's youth

A growing number of young people in Kenya are turning to the R.F.C. for their musical needs. This is particularly true of the Nairobi youth who are flocking to the club for their weekly dances.

The club has a large and well-stocked record collection and a professional band of young musicians who play a variety of styles including rock, pop, and jazz.

Chess

By G. Mansfield

Chess is a game of strategy and skill. It is a game that has been played for centuries and is still popular today. The game is played on a board with pieces that represent different units of an army. The goal is to capture the king of the other side.

Kenya Bridge

The Kenya Bridge is a new bridge that has been built in Nairobi. It is a long and narrow bridge that spans a wide river. The bridge is a beautiful and modern structure that has become a landmark in the city.

More employed
 Once again in 1961, 18,200 jobs of various kinds were manufactured, higher than the 1951 figure of 17,700. The jobs have been taken by the men and women who are employed in the manufacturing industry. This year, the number of jobs has risen to 18,200, a 2.8 per cent increase on the 17,700 of 1951. The increase is due to the fact that the manufacturing industry has been able to absorb more workers than in the past. This is due to the fact that the manufacturing industry has been able to absorb more workers than in the past. This is due to the fact that the manufacturing industry has been able to absorb more workers than in the past.

No residue
 For example, in London, such companies as Shell, Esso, and others have been able to absorb more workers than in the past. This is due to the fact that the manufacturing industry has been able to absorb more workers than in the past. This is due to the fact that the manufacturing industry has been able to absorb more workers than in the past.

The 1961 Outlook for Industry and Commerce, Prof. Giovanni Stabile, presents the 10th Annual Outlook for Industry and Commerce in the development of Italian Industry.

The 1961 outlook for industry and commerce is optimistic. The manufacturing industry is expected to continue its growth, with a focus on modernization and expansion. The services sector is also expected to show strong growth, particularly in the areas of finance and retail. The overall economic environment is expected to be favorable, with low inflation and stable growth.

YEARLY

The services sector is also expected to show strong growth, particularly in the areas of finance and retail. The overall economic environment is expected to be favorable, with low inflation and stable growth.

Output doubled
 Output of pig iron in 1961 was 87 per cent above the 1953 figure, and about 30 per cent above the 1958 level. The increase is due to the fact that the manufacturing industry has been able to absorb more workers than in the past. This is due to the fact that the manufacturing industry has been able to absorb more workers than in the past.

Exported
 Exports have also increased, with a focus on modernization and expansion. The services sector is also expected to show strong growth, particularly in the areas of finance and retail. The overall economic environment is expected to be favorable, with low inflation and stable growth.

Modernization
 Modernization of the manufacturing industry is a key priority. This involves the adoption of new technologies and the expansion of production facilities. The services sector is also expected to show strong growth, particularly in the areas of finance and retail. The overall economic environment is expected to be favorable, with low inflation and stable growth.

QUEENSWAY AUTOSILO, NAIROBI

IT'S MOWLEM AGAIN!

THE Mowlem Construction Company are first in the field again with their building of the Queensway Autosilo. This project is the very first of its kind in East Africa, and comprises a main autosilo building of seven-story floors — three in the basement and fourteen above ground level with office blocks nine stories high on three sides.

Among the many other building projects completed in Nairobi by Mowlem are these notable examples: The Roman Catholic Cathedral, East African Common Services Building, V.O.K. Television Studios, National & Grindlays Bank extensions, Shell House, Standard Bank Kimathi Street, New Stanley Hotel extension, Gasley and Roberts Head Office and numerous other buildings that have helped to change Nairobi's skyline in the past fifteen years.

MEMORIAL TRUST FUNDS

There are many ways in which you can contribute to the welfare of your country. One of the most effective is by setting up a Memorial Trust Fund. These funds are established in memory of a person who has died, and they provide a source of income for the support of educational, scientific, or other public purposes. They are often set up by families, friends, or colleagues of the deceased, and they can be managed by a trustee or a committee of trustees. The funds are typically used to fund scholarships, bursaries, or other forms of financial assistance for students or researchers. They can also be used to fund research into diseases or other areas of scientific interest. Memorial Trust Funds are a valuable way of ensuring that the memory of a person who has died is kept alive, and that their contributions to society are continued.

THE UNIVERSITY OF THE CAPE PROVINCE
The University of the Cape Province is pleased to announce that it has received a grant from the Government of the Cape Province for the purpose of establishing a fund to support research into the history and culture of the Cape. Tradition linked to progress

The struggle of old and new and the differences of viewpoint have been the subject of many discussions in the past. It is often said that tradition is a burden, and that progress can only be achieved by breaking free of its constraints. However, there is another way of looking at it. Tradition is not just a collection of customs and practices; it is a way of life, a set of values and beliefs that have been passed down from generation to generation. It is a source of strength and identity, and it can provide a sense of direction and purpose. Progress is not the rejection of tradition, but the evolution of it. It is the process of taking what is good in our traditions and adapting it to the needs of the present and the future. Tradition and progress are not mutually exclusive; they are two sides of the same coin. We can only move forward if we understand where we have come from and what we have learned from our ancestors.

SCENES FROM THE SOUL

What is the meaning of life? This is a question that has puzzled humanity for centuries. It is a question that has led to the development of many different religions and philosophies. Each of these has offered a different answer to the question, and each has provided a different way of looking at the world. However, there is one thing that all of these have in common: they all seek to provide a sense of purpose and meaning to our lives. They all seek to help us understand our place in the universe and our relationship to others. They all seek to provide us with a sense of direction and a path to follow. This is the essence of religion and philosophy: to help us understand ourselves and the world around us, and to provide us with a sense of purpose and meaning. It is a journey that is never-ending, and it is one that we must all undertake if we are to truly live our lives.

Philosophy no substitute for religion

FROM the content of his letter, Mr. Vredé wants us to believe that lack of a so-called philosophy makes a man unfit to commit the crime of the "green card". But let us not forget that the philosophical ideas that more than any other have been responsible for the crime of the "green card" are those of the "green card" itself. It is a crime that is committed in the name of a philosophy, and it is a crime that is committed in the name of a religion. It is a crime that is committed in the name of a philosophy that is based on the idea of the "green card", and it is a crime that is committed in the name of a religion that is based on the idea of the "green card". Form taken over

IT is now a matter of time before the Government of the Cape Province will take over the form of the National Party. This is a move that has been long in the making, and it is one that is expected to have a significant impact on the political landscape of the Cape. The National Party has been a dominant force in the Cape's politics for many years, and it has played a key role in the development of the Cape's infrastructure and economy. However, there have been many criticisms of the party's policies and actions, and it is now facing a challenge to its leadership. The Government of the Cape Province has announced that it will take over the form of the National Party, and it is expected that this will lead to a new era of political leadership in the Cape. This is a move that is expected to have a significant impact on the political landscape of the Cape, and it is one that is expected to be watched closely by all who are interested in the future of the Cape.

FLAG-WAVING WELCOME FOR BRITISH ROYAL VISITORS

Standard Staff Reporter

At the airport here Saturday they were met by the President, Sir Robert B. Heppner, and the Prime Minister and Mrs. Heppner, and a 21-gun salute sounded across the tarmac as their plane arrived.

MAKING HEADWAY

According to President Heppner's statement at the time of the interview as reported by Mr. Heppner, it seems clear that a better job is being done by the Government.

The last of the two parties, Mrs. Heppner, was accompanied by the President of the United Kingdom, King George VI, and the Queen, Elizabeth II.

The Prime Minister, Sir Robert B. Heppner, and the Deputy Prime Minister, Sir James D. Mackenzie, were seen in the company of their wives and children in the garden of their home at 11, St. James' Place, London.

10 DAYS' SITTING IN KISUMU

Back to normal after job intimidation

Standard Staff Reporter

Days of rioting in which police used tear gas to break up a group of workers in Kisumu was returning to normal last night. Two policemen were injured in the riots and a number of African domestic workers were beaten up by the mobs who burnt into Asian and European houses to drag their owners there. Work resumed yesterday as the strike was called off. The police were ordered to return to their normal duties and the strike was called off. The police were ordered to return to their normal duties and the strike was called off.

Youth wingers disappear

But the gangs of youth wingers who tormented Kisumu earlier on Wednesday had disappeared and slowly the town was coming back to normal. Shopkeepers were seeing their regular customers at the bank door and outside on the main road of the town were walking around in their normal attire. In the evening, the police were ordered to return to their normal duties and the strike was called off.

How scientific adventure shapes the tools of everyday management

It may well be that in your lifetime there will be a man on the moon. Meanwhile U.S. space machines Ranger VII has been up to take a look at photographs the new frontier at distances ranging from 470 miles to 8 miles. This was the first straight successful launching operation by the Burroughs computer at Cape Kennedy. This time it not only put the launching vehicle into orbit; it also made additional complex decisions which took the Atlas Agena second stage out of orbit and sent the payload on its way to the target. From these highly scientific operations Burroughs learn much — and apply much of it to everyday business equipment. It has resulted in such Burroughs triumphs as the first desk-size computer. It has in fact left its hall-mark on everything Burroughs make right through to new faster adding machines. Behind this technical perfection is a vast storehouse of practical knowledge — a corporate experience gained through the 70 years Burroughs have studied, analyzed and perfected systems for every known accounting need in every corner of the world. All this is yours in your Burroughs representative. Why not ask him to call? You'll be surprised how many business problems can be solved by a machine because they are understood by a man.

BEDFORD LEADS IN DIESEL ENGINE DESIGN

End-to-end water flow design solves all diesel coolant problems

High-speed, heavy-duty operation, proven extra stress on the gas side of piston rings. End-to-end computer design solves this by eliminating wearage between cylinder head and piston. Instead, the cooling water pump

locks to head through two special ports at the rear of the engine, inside the gasket area. Now the cylinder head gasket has only one function: to serve as a gas seal to the cylinder bore. This means that gas leaks are absolutely positive; post-combustion blowby is impossible.

WHY when you think of steam must you always SAY STEAMBLOC...

Because no less than 82 per cent of the fuel value results in steam and less than 16 per cent goes up in smoke.

Because it is built to Babcock & Wilcox - the world's greatest boiler makers.

Country visits team to baffle V.O.K. programme planners

Problems which seem to have frustrated programme planners here as they try to handle the new wave of opportunity visits by the President and other senior Ministers.

There is a new Western team to visit the United States. The team is made up of several Ministers and is expected to arrive in Washington in the next few days. The team's visit is expected to be a success, but there are some problems which seem to have frustrated the programme planners.

PUT AN END TO Summer Chills and headaches

ASPRO

—the quick, safe, effective way!

This is why there is no better medicine for Summer Chills and headaches than ASPRO.

When Summer Chills and headaches attack you are right to feel ASPRO. Because ASPRO acts in so many important ways to bring about quick, safe relief.

Relieves Pain—ASPRO has a pure analgesic action. This means that the action and pain which often accompany Summer ailments are lifted away almost instantaneously.

ASPRO is a high-speed anti-inflammatory. That is to say, it will usually relieve the temperature and reduce inflammation and swelling.

Calms Nerves—ASPRO is a well sedative. By relaxing your nerves it helps you to sleep. And, cooling sleep is vital for the rapid cure of Summer Chills and headaches.

Safe for Children—Because ASPRO is an overwhelmingly pure it is safe even for children. On every packet of ASPRO you will find the correct dosage for both children and adults.

Non-narcotic Formula—Millions of military men and many thousands continue to prove that the pure ASPRO formula is unsurpassed in its effectiveness. In hospitals all over the world in the ASPRO laboratories this active ingredient in ASPRO is constantly being tested. Time and again it has been proved that ASPRO is the best medicine for the quick, safe relief of pain.

When U.S. Government tests prove ASPRO safe, approved by the U.S. Government, compared the ASPRO formula with the active ingredients of other anti-inflammatory drugs. In all tests ASPRO has the American equivalent of *Aspirin* for speed of action, strength or duration of relief, and none has had a greater track record.

For quick, safe relief from Summer Chills and headaches, pain, colds and flu... YOU ARE RIGHT TO TRUST **ASPRO!**

Always buy your ASPRO medicine in its distinctive family packaging in America.

...for professional football in Kenya

Kenya Football Federation (KFF) has announced that it is considering the possibility of introducing professional football in Kenya. The KFF secretary, Mr. J. M. Njiru, said that the introduction of professional football would be a big step forward for the game in Kenya. He said that the KFF had received offers from several foreign clubs to sign players from Kenya. However, the KFF had to be satisfied with the standards of the players before making any decision.

West Indies rely on awesome speed

THE West Indies again look to the overseas speed of their batting line-up to bring an early victory to their second Test against Australia at Port of Spain. It will be a make-or-buy decision for the West Indies as today's game would leave Australia little chance of another win, even assuming a victory by even a narrow margin.
