## NEW CONSTITUTIONAL PLAN FOR KENYA

### 12 selected seats under electoral college system

### MORE AFRICAN MEMBERS

WITHIN a few hours of the resignation of the five Elected Members, the Colonial Secretary, Mr. Lennox-Boyd, yesterday announced details of new constitutional arrangements in Kenya which replace the Lyttelton Plan of 1954.

At a meeting at Government House, Mr. Lennox-Boyd told Unofficial Members that the resignations had made the Constitution unworkable and that the British Government was therefore, free to take such action as it and anxieties of the people of Kenya as a whole.

### Protection of communities

The Colonial Secretary has decided — he said his intention were "clear and definite" — that there will be a Council of State with powers of delay, revision and reference to protect any one community against discriminatory legislation harmful to its interests. The size of the Council will be determined later.

Six additional Africans were in Legislative Council, the Members to be elected on a communal basis from constituencies to be decided later. The African population was under-represented in relation to the other groups.

Twelve seats to be filled by the whole Legislative Council sitting as an electoral college and voting by free and secret ballot. Four African and four Asian (one Arab, one Hindu, one Muslim and one European) Members. The other 12 seats were to be filled by the other 12 Members. The other 12 Members were to be elected by the other 12 Members.

### Posts of Assistant Minister

The European and Asian Ministers without Portfolio will be given additional representation without the Ministerial rank. The posts of Assistant Ministers will be abolished. The size of the Council of Ministers remains at 12. Of the remaining 12 Members four will be appointed to the posts of Assistant Ministers. The other eight will be appointed to the posts of Assistant Ministers. The other eight will be appointed to the posts of Assistant Ministers.

### Hope of African acceptance

MR. LENNOX-BOYD made a statement known to the Elected Members of all races in a discussion which he held in the House of Commons. A few hours later he left for London.

Asked by the East African Standard later if he had any indication that his plan would be accepted by the Africans he said he very much hoped that it would. They will certainly find worthwhile jobs to do, he went on.

### 'WORTHWHILE JOBS'

"One of my problems in the past fortnight has been to find ways in which complete settlement could reach a point where it would be wide of people, but we have not got down to a procedure."

He hoped the African Members would be able to find a way to settle the situation.

### Lebanon President visits Greece

President Chamoun of Lebanon has visited Greece with wide approval. He is expected to return to Lebanon in a few days.

### FULL CONFIDENCE IN BRITANNIA

A B.O.A.C. passenger arriving in London from Nairobi said that there was no loss of confidence in the British Government.

**End INDIGESTION pain this fast way!**

The doctor who has discovered modern stomach medicine says it is to take a spoonful of Maclean's Stomach Powder. You can quickly dispense, and you will feel the relief that lasts. This means you can enjoy your meals and a night's rest can sleep without fear of indigestion and stomach pain.

It is a good idea to carry your Maclean's Stomach Powder in your pocket in case pain starts when you are away from home.

**New slant on the old problem of houseboys**

**H**e has been with us for nearly four months now, and he has been with us from the first day he was put in the house. He is really part of the family.

But it seems to me, as I write this, that he has been making a mistake. From the first day he was put in the house, he should have been treated as a member of the family. He should have been given the same respect and consideration that we give to our own children. He should have been given the same love and care that we give to our own children. He should have been given the same respect and consideration that we give to our own children.

**NO BREAKAGES**

A recent article mentioned the fact that the houseboy who is sent to the shop to buy a few things, often comes back with a broken bottle or a broken jar. This is a very common occurrence. It is a very common occurrence. It is a very common occurrence.

Don't miss getting a set of shorts "Jumbo" made by this manufacturer for persons to whom they are deplorable.

**NIGHTWEAR STYLES FOR SMALL FOLK**

**I**n the Women's Tuesday Evening page today we are starting the first of a fortnightly series entitled "Daily Talk" news of interesting and up-to-the-minute conditions of every kind that are obtainable in the Nairobi shops.

To our first item, we found it quite impossible to buy a pair of shorts for a small child in a shop that was not a specialist in children's wear. The only place that we found that was a specialist in children's wear was the "Jumbo" store. They have a large stock of children's shorts, and they are very well made. They are very well made. They are very well made.

**A keep-cool notion for hot weather**

**ALTHOUGH** we have a possible very good carry-cool bag, we have been writing to London for some time. We have been writing to London for some time. We have been writing to London for some time.

**OUR TEST.** At 7.45 a.m. we packed the "Carry-cool" bag with 6 ice-cold bottles of a famous soft drink, all the contents for a picnic and a tin of frozen butter. The bag was left in a car all day and opened at 4.30 p.m. The contents of the bottles were still too cold to drink with comfort, while the butter was still so hard on it.

The "Carry-cool" Bag is available not only from us in Nairobi, but also from Rowland Ward in Piccadilly, from where it can be dispatched to any address in the world on our airmailing your order.

## HARDSHIP FEARS UNDER PERSONAL TAX BILL

### New low-income group suggested COUNCIL DEBATE

PROPOSALS that the provisions of the new Personal Tax Bill would impose hardship on people in the lower-income groups were put forward by several Members of Kenya Legislative Council when the Bill was introduced in the House for a second reading yesterday.

It was suggested that a special category should be included in the Bill to cater for those who are prevented by the Minister for African Affairs, Mr. Wanjau, who said the objective was to introduce a general, graduated process for all rates. It would come into force on January 1, 1963.

The Minister who asked to consider several amendments to the Bill, which included extension of the grant for late payment from 50 per cent to 60 per cent, and proposals to ensure that no person in the country practically without paying the tax.

One of those who introduced the Bill, Mr. A. J. Phelan, said he would not be surprised if the Bill was described as the most in the district in Kenya.

# TWO CLASSES OF NAIROBI TAXICABS

There are two classes of taxicabs in Nairobi. The first class is made up of the old-fashioned motor cars which are licensed for public hire. The second class is made up of the motor cycles which are licensed for public hire.

The other kind of taxicab is the motor cycle. This is a much smaller vehicle and is much more manoeuvrable than the motor car. It is also much cheaper to run and is therefore much more popular with the public.

It is interesting to note that the motor cycle taxicabs are much more numerous than the motor car taxicabs. This is due to the fact that the motor cycle is much cheaper to buy and to run than the motor car.

## South African Show attracts traders MOVE TO WIN NEW MARKETS

A few hours of the opening of the South African Trade Show, in the Montefiore Hall, Nairobi, on Tuesday, has convinced organizers that traders are showing keen interest in taking up the importation and distribution of a wide range of products on the continent.

The show, which will be open for two weeks, is the first of its kind in the East African region. It is being organized by the East African Trade Show Association, which is based in the Central African Republic. The show will feature a wide range of products, including textiles, hardware, and general merchandise. It is expected to attract a large number of traders from all over the continent.

**For beautiful women who are ahead of their time**

**SELFWINDING ON A BALLBEARING**

In former times, ladies' watches — as the ladies themselves — had merely to be beautiful. But modern woman is called upon to meet more exacting requirements, and modern woman therefore demands more of her watch. You have long since learned to be efficient and independent while still remaining attractively feminine, and you will therefore select a watch that has the same features — a watch that is elegant, incorporates the latest technical advances and need no longer be wound by hand. You will select an Eterna-Matic with the most scientifically advanced ballbearing rotor.

As early as eighteen years ago, Eterna of Grenchen (Switzerland) launched their first automatic watch for ladies. Timeless pioneer work has now enabled the world-famous ballbearing rotor, which had given outstanding service in thousands of men's watches, to be fitted into dainty little cases. Models 1401 and 1402 for everyday use and sport. «Golden Heart» with a solid gold oscillating weight, the smallest automatic watch human genius has ever invented, is the model that meets the most exacting standards.

# CONCERN OVER QUALITY OF WHEAT IN KENYA

## NEED FOR IMPORTS

### Seeds step road to non-racial system

Kenya's wheat production has been declining for several seasons. This is due to the fact that the wheat seed available in Kenya is of a very poor quality. It is estimated that only 10 per cent of the wheat seed available in Kenya is of a good quality. The remainder is of a very poor quality and is unsuitable for use. The Government has taken steps to improve the quality of the wheat seed available in Kenya. It has established a wheat seed bank and has begun to import wheat seed from other countries. It is hoped that these steps will result in an improvement in the quality of the wheat seed available in Kenya.

### INSTITUTE PLANS TO KEEP OPEN

The Institute of Education, Nairobi, has decided to keep its doors open for the present. The Institute had previously announced that it would be closed for a period of three months. However, the Government has agreed to provide the necessary funds to keep the Institute open. The Institute will continue to operate until further notice.

### INCREASE IN NAIROBI CRIME FIGURES

#### SUCCESSES BY POLICE

North police Commissioner in Nairobi, Nairobi Area, has reported a steady increase in crime figures in Nairobi. The number of crimes reported in Nairobi has increased by 20 per cent over the last year. However, the police have had some successes in their fight against crime. They have recovered a large number of stolen goods and have arrested many criminals. The police are continuing to work hard to reduce the crime rate in Nairobi.

### £300 TAKEN FROM CLUB WALL-SAFE

A sum of £300 has been stolen from a wall safe at a club in Nairobi. The safe was located in a room at the club. The money was hidden in the safe and was discovered by the club's manager. The police have been alerted and are investigating the case. They are trying to trace the thief and recover the money.

### No signs of force

There are no signs of force in the recent election in Kenya. The election was held in a peaceful atmosphere and was conducted in accordance with the law. The results of the election were accepted by all sides. The Government and the opposition are both satisfied with the outcome of the election.

### Police are investigating the disappearance of a car.

Police are investigating the disappearance of a car in Nairobi. The car was last seen on the 20th of November. The car was a dark-colored sedan and was registered in Nairobi. The police are trying to trace the car and identify the driver. They are also trying to identify any witnesses who may have seen the car.

### Mr. Mbatia, candidate for the Nairobi City Council.

Mr. Mbatia, a candidate for the Nairobi City Council, has announced his intention to stand for election. He is a well-known figure in Nairobi and is expected to attract a large number of votes. He is running as an independent candidate.

## PLANES CARRYING H-BOMBS READY ON RUNWAYS

**U.S. move in reply to missile threat**  
**OCTOBER 'ALERT'**

SINCE October 1 American planes in Europe, the Mediterranean and on the North African coast have been standing by the edge of runways, loaded with hydrogen bombs, and ready to take off in less than 15 minutes.

This was revealed by the commander of the United States Strategic Air Command, Gen. Thomas S. Power, at a Press conference in Paris, where a conference of parliamentarians of the 13 member-nations of Nato is being held this week.

**Sputnik effect on Nato**

Gen. Power had been asked what effect the Soviet Sputnik and intercontinental ballistic missile would have on the deterrent power of the Atlantic alliance. He replied: "We are always on edge to ensure the enemy that he will not be able to launch his aggression and that defeat is inevitable."

Gen. Power gave details of his command's plans to move any aggression. He said that on October 2 the United States Strategic Air Force was on alert and we intend to increase this until one-third of the total force is on alert.

## TRADE GAP WIDENS AGAIN

### \$70,300,000 imports EXCEED exports

**BRITAIN'S** gap between imports and exports last month, as declared by the Board of Trade, London, was £70,300,000, or 2.9 per cent, compared with £69,600,000, or 2.8 per cent, in the last month available for comparison in October 1956.

The 1956-57 financial year, which began on April 1, is the first in which the value of imports has exceeded the value of exports. The value of exports in the first four months of the year has been £2,800,000,000, compared with £2,840,000,000 for imports.

The value of exports in the first four months of the year has been £2,800,000,000, compared with £2,840,000,000 for imports.

### DIAMONDS DISPUTE

#### S. W. Africa action

**THE** highest court action in the history of Southern Rhodesia has begun in the Windhoek, Namibia Court.

The Constitutional Tribunal of South-West Africa is being asked to rule on the legality of the law which imposed mining restrictions on the region, along the border with South Africa.

The action arose from the fact that the mining rights in the region are held by the Government of South-West Africa, which is administered by the United Kingdom.

The law in question, which was passed in 1956, restricted mining rights to certain areas and imposed conditions on the miners.

The action was brought by the South-West African Mining Association, which claims that the law is unconstitutional and invalid.

The court is expected to deliver its verdict in the near future.

# 'RESULTS' OF PROGRESS IN SCIENCE

## Letters to the Editor

There are many people today who think that the only way to make a better world is to have a better government. They are wrong. The only way to make a better world is to have a better man.

... (text continues) ...

The progress in science is not only in the physical sciences but also in the social sciences. The progress in the social sciences is more important than the progress in the physical sciences.

**American Bank rate move arouses interest in London**

**Cable Transfer (C.A.) Ltd.**

NEWS that several American Federal Reserve Banks had increased their interest rates aroused great interest in the London Stock Market yesterday, leading to a suspension of the British Bank rate. A few days ago London had been told that the Federal Reserve Bank of New York had raised its discount rate to 5 1/2 per cent from 5 per cent. The other Federal Reserve Banks had also raised their rates to 5 1/2 per cent.

It is believed that the Federal Reserve Bank of New York had raised its rate to 5 1/2 per cent in order to prevent a speculative rise in the market for the new 5 1/2 per cent Treasury bonds. The rate was raised to 5 1/2 per cent in order to prevent a speculative rise in the market for the new 5 1/2 per cent Treasury bonds.

The London Stock Market reacted sharply to the news. The market was closed for a day. The London Stock Exchange was closed for a day. The London Stock Exchange was closed for a day.

**M**ICHAEL SMITH, who has been selected to play for the British Isles against the touring South African team, may lose his international status if he fails to play for the national side.

Mr. Smith, who is a member of the Gloucestershire team, is one of the players who are being considered for the national side. He is a very fast and powerful player, and is expected to play a leading role in the team.

However, it is understood that Mr. Smith's position is not yet secure. He must first play for the Gloucestershire team in the coming season, and then be selected for the national side. If he fails to do either of these things, he may lose his international status.

## ROBOT FOREMEN TO RUN

### America's Snark on target

## FACTORY IN SIBERIA Scientists' city open next year MOSCOW CLAIMS

ROBOTS will be the factory workers—and even foremen—as a "scientific" city will be built to "float" according to a world-wide broadcast from Moscow by a Soviet scientist, Prof. Mikhail Lavrentsev.

He said the city, at Nura-Sibirsk, would house 20,000 professors and students engaged on research in nuclear energy, automation and rocket techniques. Part of it would be ready next year.

### Moon in few seconds

The whole city, covering 1,500 acres, would take three years to build, and would consist of 100,000 scientists. They planned to produce "robots" to take the place of factory workers, foremen and even city engineers. The robots had conventional steel brains, 1,500 miles farther apart.

His very first one of the starting machines was one of Soviet "atomic" type, the scientist. The official news agency Tass quoted a technical report which said that the robots were being built to build a quantum rocket which could reach beyond the Moon in five seconds, something through the outer space than the speed of light.

Other scientists at a Moscow Press conference, said that they are now engaged in calculating rocket flights to the Moon, but added that there was still work to be done on this project. Prof. Stanislavsky, of the Soviet Academy of Sciences, stated in Warsaw that it was hoped to send a robot with humans to the Moon in five years.

## NO PLAN TO SAVE DOG

Prof. Stanislavsky's statement was that the robots would be built to take the place of factory workers, foremen and even city engineers. The robots had conventional steel brains, 1,500 miles farther apart.

**Standard Bank opens its new branch**  
**IMPOSING BUILDING!**

A NEW branch of the Standard Bank of South Africa opens at Hardinge Street, Nairobi, today to take over all the banking business formerly conducted at the old bank's Main Street premises.

The imposing building occupies a prime position in the city and reflects the high degree of attention with which the bank has approached the new venture.

Although the architect, Bruce and McCallum, had to overcome difficulties imposed by an unusually restricted site which made the building of a property on the north side of the site impossible, the result is a well-balanced design which makes the best use of the available space.

Business street fronts and the building's facade are of a modern style, but the interior is a masterpiece of classical design. The rooms are well-lit and a large scale of materials has been used for the construction of the bank's imposing structure.

A large banking hall covers almost the entire ground floor of the building and is paved with Italian marble. The building is finished with a high standard of workmanship and is a credit to the architect and the contractor.

The new building is a landmark in the city and will be a source of pride to the Standard Bank of South Africa.

High standard  
 The architectural style, open plan in colour, has been used in the external finish of the building. The windows are of a modern design and are set in a concrete frame. The building is finished with a high standard of workmanship and is a credit to the architect and the contractor.

Particularly striking is the use of the high quality of brick, which is used for the general structure of the building. The Standard Bank's building will be a landmark in the city and will be a source of pride to the Standard Bank of South Africa.

**Bank rate tribunal named**

A party of the cabinet has been named to investigate the alleged bank of Treasury control. The tribunal will consist of Lord Justice Parker, Mr. Edward Mowbray, Mr. G. C. and Mr. Geoffrey Voss, Q.C.

It will seek to establish whether there is any justification for the Government's raising of the Bank rate to seven per cent last September was improperly disclosed to any person and whether, if there was any such disclosure, any use was made of such information for the purpose of private gain.

Tripartite inquiry are not required to pronounce judgments or punishments. The tribunal reaches conclusions which it embodies in a report for the Home Secretary, who lays it before Parliament.

**442B. SHARK CAUGHT OFF PANGANI**

'Standard' Correspondent  
 Tanga

A herring-like shark weighing 442 lb and measuring 5 ft. 6 in. was caught recently off Pangani, south of Tanga. It was a female, and contained 61 young sharks, all about 8 in. long.

The shark was caught in a boat near the shore where one being used by the Marine Fisheries vessel 'Mushaba', under the direction of the Marine Fisheries Officer, Mr. C. T. Hinde.

Mr. Hinde said that herring-like shark is common in the area and is much valued for its meat, but that it is being caught in large numbers by the shark fishery which is being carried on by the fishery department.

## Outsiders in winning form at Nairobi races

ALTHOUGH there was a "big" race on the programme on Saturday, the second leg of the Nairobi programme meeting started with a disappointing and justified larger crowd than that which attended the first. The weather remained fine, the going was perfect and the race was well timed. The first race was a reasonably heavy handicap for maidens and the favourites were that and that in two races.

As might be expected, prices were high for the first race, but in the second, the crowd was smaller and the race was well timed. The first race was a reasonably heavy handicap for maidens and the favourites were that and that in two races.

**Big repeating handicap**  
The first race of the day was a big repeating handicap for maidens and the favourites were that and that in two races.

**Equally easy win**  
The second race was an equally easy win for the favourite, who was well timed and the crowd was smaller than in the first race.

**London Counties hold wallabies to a draw**  
The London Counties held the Australian Wallabies to a draw in their first test match at Twickenham on Saturday. The match was a closely fought affair, with both sides scoring a try and two penalties each.

**Recent results at Muthiga C.C.**  
The Muthiga Cricket Club held their recent matches with a record of 10 wins and 2 draws. The club was represented by a strong team of players.

### CITY EQUIPMENT FIRM MOVES

## New showrooms designed for trade expansion

NEW premises constructed in Salford Street, Nairobi, for Equipment Ltd. will be formally opened by the Minister of Commerce and Industry, Mr. Togo-Jones, at 11 o'clock on Monday. The new staff will carry on a progressive campaign. During the day, the staff will carry out the showrooms from their present quarters, which are also in Salford Street.

The layout of the new building—where goods are seen and stored—the arranging of floor space and the design of the fittings—will be the definite new state of affairs. The new showrooms will be equipped with a complete range of modern lighting and heating equipment. The building is a fine example of modern architecture. The main storey is a concrete structure. The roof is a flat concrete slab. The building is a fine example of modern architecture.

#### More storage

Equipment Ltd. will do more for the future, additional facilities considerably stronger than those provided. This will enable additional storage to be added to keep pace with further orders to expand. The new building will be equipped with a complete range of modern lighting and heating equipment.

Now that visitors over the globe are flocking to the new showrooms, it is to be expected that the firm's business will be considerably increased. The firm's business will be considerably increased. The firm's business will be considerably increased.
