## RALEIGH

THE ALL-STEEL BICYCLE

**BOMBING IS A TRUCKING PROBLEM**

Complicated the problem by the factors of total darkness, unknown territory a score of hundreds of miles an hour plus the effect of intense cold and the destructive endeavors of a determined and powerful enemy - and such a fact becomes the more astounding.

Yet such conditions as these apply to the finest concerted actions in engineering history - the wholesale "trucking" of bombs right after night from Royal Air Force bases.

Continuously since 1915 the British Aircraft Industry has built big aircraft to handle the manifold problems of efficient trucking. The industry produced the world's first four-engined airplanes - many of them in uninterrupted service for ten years.

Today British four-engined bombers carry a destructive load far in excess of any other aircraft in service in the world, with proportionately a minimum of crew.

In good time the British aircraft industry will apply this wealth of experience in design, manufacture, and operation of big aircraft to the problems of world transport in peace.

### Excellent Work By Kenya's Flying Squad

Eight members of a gang of thieves have been imprisoned in Nairobi, following the arrest of the Kenya Flying Squad. The gang had been active in the Nairobi area for some time.

The Flying Squad, which was formed in Nairobi in 1938, has since that time been successful in many of its operations. It has arrested many criminals and recovered a large amount of property.

# Model Gowns From British Lace

British women always very fond of lace, and have used it more extensively during the war owing to the shortage of other fabrics. The manufacturers of British lace were in a position to supply the needs of the war, and to produce a wide variety of lace for the home market.

These lace gowns have been designed by the designers of the British Lace Manufacturers' Association. The gowns are made of the finest lace, and are designed to be worn over a simple dress or a pair of trousers.

Founded the College of Arts in their importance of design in their lace. The designers of the British Lace Manufacturers' Association have produced a wide variety of lace for the home market, and are now producing a wide variety of lace for the home market.

## Creator Of The "Gibson Girl"

CHARLES CORREY (Continued) London  
 The artist Charles Gibson, who created the famous "Gibson Girl" in illustration, died of an American neurotic disease which had died at the age of 77 in New York. A picture of a Gibson Girl was once an essential part of every young woman's wardrobe. The type was modeled from the drawing made by Mrs. C. D. Diney Langhorne of Virginia, one of whom is Lady (Nancy) Astor, Gibson's mother-in-law.

Red Cross Comforts

For S.E.A.C. Sick And Wounded

A SPECIAL APPEAL TO EAST AFRICA

To the Editor, "E.A. Standard"

The Editor, "E.A. Standard"

By Sir - A special appeal for the Red Cross and St. John (1945) S.E.A.C. Fund has been opened to provide Red Cross comforts for East African sick and wounded in Kenya, Uganda, and Tanganyika.

A report from our Representative who recently visited the hospitals caring for East Africans in Kenya and Burma, it was decided to make a great effort to provide those things which are so urgently needed and which the sick and wounded have a right to expect from us.

I am writing this letter appealing to all your readers for their help. Contributions and gifts in kind may be sent to The Secretary, Civil Red Cross and St. John War Organisation, Box 712, Nairobi, or to any branch of either organisation throughout the Colony.

It is hoped that all East African territories will join in this effort.

Mr. Harrold will broadcast a description of how well overworked from the Nairobi Station on February 3, when he will explain how great and how urgent are the needs of the patients. Already this year the Red Cross Service has been able to dispatch three cases of comforts and has sent £2,000 to buy them, but this is a very long time and a big response to this appeal will be forthcoming if you are to fulfil our obligations, I am writing this letter in complete confidence that those who have helped in the past will reply to our aid again.

Yours faithfully, Director J. GREGORY, Publicity Joint Committee, District R.C.S.C., Kenya.

CIVIL SERVICE INQUIRY

Major T. P. Robeson

**New Native Market Wanted**  
 The annual report for the year 1940, compiled by the Ministry of Agriculture and Fisheries, shows that the total value of exports from the Colony for the year 1940 was £1,200,000, a decrease of 10 per cent on the year 1939. The principal items of export were hides and skins, wool, and agricultural products. The report also shows that the total value of imports for the year 1940 was £1,100,000, a decrease of 10 per cent on the year 1939. The principal items of import were foodstuffs, clothing, and household goods. The report concludes that the Colony is a net exporter of goods, and that the value of exports exceeds the value of imports by £100,000.

**Work Done in Wardens**  
 The Warden's Department has been very busy during the year 1940. The total number of cases dealt with was 1,200, a decrease of 10 per cent on the year 1939. The principal items of work done were the disposal of refuse, the removal of obstructions, and the maintenance of public places. The report also shows that the total number of offences committed during the year 1940 was 1,100, a decrease of 10 per cent on the year 1939. The principal items of offences were drunkenness, disorderly conduct, and breach of the bye-laws. The report concludes that the Warden's Department has done a good deal of work during the year 1940, and that the value of work done exceeds the value of expenses incurred by the Department.

**Stolen Car Tyre Made Into Sandals**  
 A car tyre stolen from a motorist in the Colony has been made into a pair of sandals. The motorist, who was driving to the office, discovered that one of his tyres was missing. He reported the matter to the police, and the tyre was recovered from a small shop in the town. The shopkeeper admitted that he had made a pair of sandals out of the tyre. The motorist was very angry, and the shopkeeper was fined for the offence.

### South Africans Urged To Redouble Effort

[From a special correspondent.]  
 Pretoria, February 1.—The Minister of Finance, Mr. J. H. Hofmeyr, called for a redoubled effort from South African business men in Africa in a speech at the Capetown City Hall yesterday. His remarks in Italy and Malta, he said, had been on the whole, but he said he was most anxious that they should not come easily to his mind. He stated that it had enabled him to understand better and appreciate more fully the nature and quality of the services rendered by South African firms and their subsidiaries and branches, particularly where they rendered.

It is not going to be easy, he stated. Mr. Hofmeyr, "that a large part of Europe, and other countries outside too, are bleeding to death today." He stated, however, that we are not so much concerned with our own affairs, but we must make a tremendous effort in our own territories. He stated that he did all that he could to do to help the South African cause. He stated that he was most anxious that they should not come easily to his mind. He stated that it had enabled him to understand better and appreciate more fully the nature and quality of the services rendered by South African firms and their subsidiaries and branches, particularly where they rendered.

## FOOD RATIONING

The Central Cinnamon Distribution Board which is responsible for the rationing of foodstuffs to the Civil population of Kenya, is naturally anxious to receive the fullest possible co-operation from the public in its work. The Board has recently undertaken certain publicity in the press with the object of keeping the public informed on this complicated but very important matter.

The Board wishes to appeal to the public for comments and suggestions regarding improvements which it possibly might introduce in the present system of food distribution and any constructive suggestions which are received will be given the most careful consideration.

In Great Britain a very great deal of publicity under the heading of "What about Food?" undertaken by the Ministry of Food and this has proved extremely helpful, particularly as at times rationing is much stricter than in Kenya. Here the possibility for fortune in this regard is a considerable number of foodstuffs is unrationed. Nevertheless it would be of assistance to the Cinnamon Board if it knew whether the public would prefer an existing one, or the manner in which this has been given publicity during the past few months.

MEMBER THIS is Rationing Period No. 52, 16th February to 4th March.

Inserted by the Central Cinnamon Distribution Board, Nairobi.

# Education Department's Reply To Mombasa Parents

It will be recalled that, mainly as a result of the failure of the local local-branch school to pass the entrance examination for the Prince of Wales School, before Christmas decided to apply for certain admissions to the school for the following year. The Education Department has now replied to the letter from the Mombasa parents, and in doing so has made the greater part of the letter which is published here. It is to be noted that the Department is not to give the names of those who are to be selected for admission to the school.

# Compulsory Military Training For European Youth of Kenya

Many of us have lived through the war and we are on the ground now. We know that the war was not won by the sword, but by the spirit. There was no need for our fighting men to be killed, for the spirit of the fighting men was what counted.

Curia of the starting qualities of the youth of Kenya, we have held from others we pulled through the war, and we are pulling through the present war as at a glacial pace. It is the youth of the South African Republic in the "Year of the Soldier" that we are looking for. It is the youth of the United Kingdom, and it is the youth of the Commonwealth.

## A BATTALION OF KETTLES WON'T STOP A TANK

—that is a job for guns, shells, mines and bombs. So that industry can concentrate its energies on the support and supply of war, so that stopping equipment is used to carry them, the manufacture and export of most of the "household goods" is ceasing to be considered a luxury. Winning the war is Britain's first duty. What is more there will be less and better goods.

## Rubber for your tyres

The shortage is serious, and the United Nations leave no stones unturned, and the United Nations leave no stones unturned, and the United Nations leave no stones unturned...

### MICHELIN TYRES

Do take care of them. Distributors in Kenya and Uganda: TWENTSCHE OVERSEAS TRADING CO. LTD.

## ATTENTION OF FARMERS

Have you finished your wheat harvest? If so, we suggest you check over your Harvester Thresher or Grain Separator NOW! Not until you start harvesting next season, will you have in mind as clear a picture of the various items which need attention...

If your machine is to give efficient and carefree service when put to work again next season it will need to be carefully gone over for repair and adjustment, and well protected against deterioration from rust, varnishing, and decay.

By ordering your spares now, you will avoid the risk of not being able to obtain them when you wish to start harvesting next season.

## Soil Conservation Progress

The intensively cultivated Olanjero Reserve on the border of the Olanjero Reserve area indicates that the different types of soil, which contained a good layer of humus, have been protected by the Tavya River Scheme during October and supported the work done there in company with the Olanjero Reserve.

The Report records a total of nearly six thousand yards of drainage channels made in the Nairobi District. Farm roads totaling close on 2,000 yards were constructed in the district, while 200 yards of drainage channels were made in the Trans Nzoia and LERA yards in the same district.

## Solai Favours Cattle Cleansing

A satisfactory number of members were present at the meeting of the Solai Association on February 5. The meeting had previously been approved, and a sub-committee had met to discuss the matter in the District under the promised heading.

That this Meeting of the Solai Association was held in the Nairobi District is a matter of record, and further fact in entire agreement with the fact that the Solai Association is a body of members who are interested in the welfare of the cattle industry in the District.

## Soldiers Into Farmers

The Department of Agriculture in South Africa has made a valuable contribution to the war effort by the provision of setting ex-soldiers on their feet. The all-very agricultural colonies are to be recruited, and the ex-soldiers, while the other three will give preference to people who have been in the Army.

It is good to note that, in addition, these colonies will provide courses for ex-soldiers who wish to take up Government posts as agricultural instructors, farm foremen, anti-rabies supervisors, and so on.

The meeting has also advocated the institution of some organization for the purpose of providing a training course for the ex-soldiers in the District. There is certainly scope for such a body in this country.

## Kenya Solves A Meat Problem

Kenya District Council's proposed order empowering it to bring the facilities and further fact in entire agreement with the fact that the Solai Association is a body of members who are interested in the welfare of the cattle industry in the District.

# CLEAN OUTSIDE

There is a special general meeting held at the Club on Friday Feb. 25 at 8 o'clock. Mr. J. H. Sharpe will be in the Chair, and 12 others were present.

The Chairman introduced Major O'Brien, saying he had come on the day after to get their views on the present position. The subject had been sent out by the Colonial Office with the object of obtaining the views of the members of the Labour Party.

Major O'Brien, who had been allowed this type of labour and was based on lower wages and working hours from the point of view of the labour party, was most satisfactory and he hoped it would be done early with his own possible assistance.

Major O'Brien, he said, was a land planter as well as a labour planter and he thought it was a wrong to land tenure. His idea was, that a thorough investigation by a competent Commission should be made, so that the views of everyone concerned should be gone into most carefully and with prompt review.

After the return of Africans from the front by the British and Indian Army, the Commission should be made, so that the views of everyone concerned should be gone into most carefully and with prompt review.

In answer to Mrs. Trent, Major O'Brien said that the question of the supervision of forest reserves must be done by the Government. He was expecting to know of the squatters. As for the labour party, he was not sure if the Government was returning to the reserves. Major O'Brien said that the Government was returning to the reserves.
