Nazi Atrocity Film For Germany

An exhibition of films showing conditions at Bucharest concentration camps was the subject of a question put to the Minister of Education in the Commons yesterday. Mr. Lloyd George said that he had been asked whether the Government had considered making a film that would show the conditions at Bucharest. He replied that there were various reasons why the Government had not done so. He said that the Government had to consider the expense of making a film and that it had to consider the possibility of the film being used for propaganda purposes. He said that he had received a report from a German official that a film had been made showing the conditions at Bucharest and that it had been shown to a large number of people in Germany. He said that he had not seen the film and that he did not know whether it was true or not. He said that he had not considered making a film of his own because of the expense and the possibility of it being used for propaganda purposes.

German Said To Be Capitulating To Italian Partisans

(Continued from page 1.)
...on several occasions, some of their troops and most useful equipment. On top of that they were the occupation of the U.S. II Army were called on to spend large sums in an unproductive holding operation in the winter and summer months. It is a pity that the public attention was concentrated on the Italian front, but it is clear that the German situation is becoming more and more desperate. The German High Command is now in a position where it must either capitulate to the Italian Partisans or risk a final and decisive battle. The German situation is becoming more and more desperate. Day And Night Operations In The Congo

During the last day or two, in months of thanksgiving, reports and administrative reports are being tried to realize that the most terrible war that even the most aged battle-hardened veterans have never seen so now really a day and night operation.

It is an attempt to look back upon the last days and hours of the war. It is an attempt to get a view of them and to see how they have been seen by those who were there. It is an attempt to see how they have been seen by those who were there. It is an attempt to see how they have been seen by those who were there.

Plan For Pig Industry In Kenya

(Continued from page 14)

On December 21, 1914, after consulting with the government, the following plan for the pig industry in Kenya was approved:

The first step will be to establish a pig-breeding station at the Government Farm, Nairobi, where the best of the pig-breeding stock of the P.C.A. and the P.C.C. will be maintained. It is estimated that a nucleus herd of 100 pigs will be required for this purpose.

It is also proposed to establish a pig-breeding station at the Government Farm, Nairobi, where the best of the pig-breeding stock of the P.C.A. and the P.C.C. will be maintained. It is estimated that a nucleus herd of 100 pigs will be required for this purpose.

EAST AFRICA'S CONTRIBUTION TO ALLIED VICTORY

THE COMMANDERS

Important Part In A Great Plan

General D. P. Hillman

General Sir Alex Cunningham

General Sir K. A. M. Anderson

Two of the three Axis partners have now been brought down and final victory over the third is in sight, but the end of the war for East Africa is not yet. Great tasks still lie ahead of the men from these territories who, after playing their gallant part in the defeat of Italian ambitions in Africa and the liberation of Malaya from Dutch domination, have for more than a year fought a death grip with the Japanese armies in Burma.

Japan's leaders already announced the scheme of maintaining the Eastern seaboard of Africa, West Africa, and India, and the British Empire, by force of arms. It was their intention to have the East African continent, from the Cape to the Nile, under their control. They were to have the Nile valley, the Red Sea, and the Indian Ocean, and the East African continent, from the Cape to the Nile, under their control. They were to have the Nile valley, the Red Sea, and the Indian Ocean, and the East African continent, from the Cape to the Nile, under their control.

Through the smiting cooperation of East Africa, India, and the British Empire, the East African continent, from the Cape to the Nile, under their control. They were to have the Nile valley, the Red Sea, and the Indian Ocean, and the East African continent, from the Cape to the Nile, under their control.

The campaign was fought in the East African continent, from the Cape to the Nile, under their control. They were to have the Nile valley, the Red Sea, and the Indian Ocean, and the East African continent, from the Cape to the Nile, under their control.

The next tactical step was to move the main force of the East African continent, from the Cape to the Nile, under their control. They were to have the Nile valley, the Red Sea, and the Indian Ocean, and the East African continent, from the Cape to the Nile, under their control.

V-E DAY MESSAGES

H. E. The Governor

His Excellency Sir Philip Mitchell has given the following special message for the V-E Day edition of the East African Standard.

years ahead, not only to gain a similar overwhelming victory over the evil power of Japan, but even more in the task of building the world's peace and justice.

War has been not and a moment, but let us remember that this historic achievement has been possible by the faith, courage and sacrifice of the warrior, by the toil and sweat of men and women in factories, on the land and in many other spheres, and by the crucial aid and support of the citizens of London and other cities. Let our rejoicing therefore find their echo in the East African continent.

General Anderson

With both hands clasped behind me, I have been thinking of the many years of bitter struggle and heavy loss. I have been thinking of the many years of bitter struggle and heavy loss.

The Bishop of Mombasa

Heard by the Lord God! for the last and best of all His people, to give light to the world, to be a blessing to all men, to be a blessing to all men.

The Moderator of the Provincial of Kenya

This is a day of rejoicing and thanksgiving, but it is also a day of prayer and reflection. It is a day of prayer and reflection.

PROTECTED AGAINST SMUT AND OTHER DEAD-BORNE DISEASES
The fungi or spores of Smut, and other seed-borne diseases, cannot attack protected seed in storage. When seed has been properly treated with Agronon "C" every grain is virtually sealed in a germ-protective coat. This fine invisible coat not only protects and destroys spores already on the seed, it also affords protection against the possibility of their being introduced into the seed in the process of planting or sowing—and it still gives protection when fungi in the soil try to invade new crops.

Agonon "C" is obtainable from the N.Y.A. **ODDIER & NEPHEW, S.A. (Pty.) Ltd., Box 106, Nairobi.**

How Scientists Solve Farm Problems

American's Work in Increasing Crop Yields

Under the supervision of the Agricultural Research Administration, the United States has been working to increase crop yields in Africa. The work has been done in the form of technical assistance, training, and the establishment of agricultural stations. The United States Department of Agriculture has sent a number of experts to Africa to study the soil, climate, and agricultural conditions. They have also sent a number of agricultural machines and tools to Africa to help the farmers. The work has been done in a number of countries, including Egypt, Sudan, and Ethiopia. The results have been very successful, and the crop yields have increased significantly.

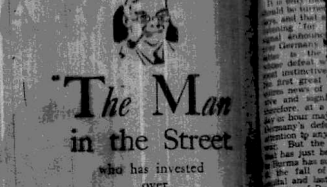

Controlled Fertilizer Experiment

[Special Correspondent] The results of a fertilizer experiment conducted in the East African region have shown that the use of controlled fertilizers can significantly increase crop yields. The experiment was conducted in a number of different soil types and climates, and the results were very consistent. The use of controlled fertilizers was found to be particularly beneficial in areas where the soil is poor and the climate is arid. The results of the experiment have been used to develop a number of fertilizer recommendations for different crops and soil types in the region.

Maize Planting in Anticipation of Rains

[Special Correspondent] The planting of maize in the East African region is well advanced, and farmers are hopeful that the rains will be plentiful. The planting has been done in a number of different areas, and the results have been very good. The farmers have been using a number of different planting techniques, and they have been using a number of different types of maize. The results of the planting have been very encouraging, and the farmers are looking forward to a good harvest. The rains are expected to be plentiful, and this will help to ensure a successful harvest.

U.S. Progress in Pyrethrum Research

The United States has made significant progress in pyrethrum research, particularly in the area of pest control. The research has been done in a number of different areas, including the development of new pyrethrum products, the study of the effects of pyrethrum on insects, and the development of new methods of pyrethrum application. The results of the research have been very successful, and they have led to the development of a number of new pyrethrum products that are more effective and more economical than those that are currently available.

Why Send Money?

[Special Correspondent] The East African region is a rapidly growing economy, and there is a need for more money. The government is encouraging citizens to send money to the region, and this is helping to stimulate economic growth. The money is being used to build roads, schools, and hospitals, and it is helping to create jobs. The government is also providing a number of incentives to encourage citizens to send money to the region, and this is helping to increase the flow of money into the region.

Problem Borne

The United States is facing a number of problems, particularly in the area of agriculture. The problems are caused by a number of factors, including drought, soil erosion, and the depletion of natural resources. The government is taking a number of steps to address these problems, and it is working to ensure that the agricultural industry is able to continue to produce food and fiber. The government is also providing a number of incentives to encourage farmers to adopt more sustainable farming practices, and this is helping to reduce the impact of the problems.

The Week's Leaders

RANGOON

SINCE MAY 5, 1948, the Burmese people have not known any other kind of freedom than that of the struggle for independence. It is a struggle which has been a success story in every respect. The Burmese people have shown a capacity for self-sacrifice and a determination to free themselves from the yoke of foreign rule. This is a remarkable achievement, and it is a tribute to the leadership of U. Nu and the other members of the National Government.

This is a remarkable achievement, and it is a tribute to the leadership of U. Nu and the other members of the National Government.

Our Continuing Task

MONDAY, MAY 16, 1948.

We need no reminder of the fact that our task is far from complete. We have won our independence, but we have not yet won our freedom. We must continue to work for the well-being of our people and the development of our country.

Learning From The Union

MONDAY, MAY 16, 1948.

It is a pleasure to learn that the Union of Burma is making progress in its development. We can learn from the experience of other countries and apply it to our own situation.

IMPORTANT DECISIONS BY GOVERNORS' CONFERENCE

Demobilisation Plans

THE Governors of Kenya, Uganda, Tanganyika and Zanzibar met in conference in Nairobi last week to discuss the demobilisation of troops returning from the war. The conference was held from May 10 to 14, and was attended by the Governors of the four territories, the British High Commissioner for East Africa, and the British High Commissioner for Kenya.

The conference considered the demobilisation of troops returning from the war, and agreed on a number of proposals. These proposals included the provision of land to returning soldiers, the creation of a demobilisation fund, and the establishment of a demobilisation committee. The conference also discussed the need for training and employment opportunities for returning soldiers.

Victory Greetings

THE British High Commissioner for East Africa and the Governors of Kenya, Uganda, Tanganyika and Zanzibar have issued a joint statement congratulating the British forces on their victory in the European theatre of the war. They expressed their confidence in the British forces and their faith in the success of the Allied forces.

New Governor Assumes Office

MR WILSON RUSSELL has assumed office as the new Governor of Kenya. He was sworn in on Monday, May 16, 1948, at a ceremony held in Nairobi. Mr. Russell is a member of the British aristocracy and has extensive experience in colonial administration.

COTTON-PRICE CROSS AND THE AFRICAN TRADER

THE cotton price cross in London has been a cause of concern to African traders. The price of cotton has risen sharply, and this has led to a shortage of cotton for African traders. This has caused a great deal of trouble for African traders, who have been unable to obtain the cotton they need for their businesses.

Tanganyika Sisal EAST AFRICA'S FINANCIAL WAR EFFORT

THE East African Sisal Corporation has announced that it will contribute to the war effort by providing sisal for the manufacture of ropes and cables. This is a significant contribution, as sisal is a vital material for the war effort. The Corporation has been successful in increasing its production and in securing a steady supply of sisal.

East African Ex-P.W. In London

A group of East African ex-prisoners of war (Ex-P.W.) has been in London. They are the only East African Ex-P.W. group to visit London. They have been in London for a short time, and they have been well-received. They have been able to see the sights of London and to meet with other Ex-P.W.

Arabs Celebrate

THE Arabs in East Africa have celebrated the anniversary of the founding of the Arab League. They have held a number of meetings and discussions, and they have expressed their support for the League. They have also discussed the role of the Arab League in the Middle East.

MR. CRECH JONES ON LABOUR AND THE COLONIES

MR CRECH JONES, Minister of Labour, has made a statement on Labour and the Colonies. He has said that Labour is committed to the development of the Colonies and to the well-being of the people of the Colonies. He has also said that Labour will continue to work for the independence of the Colonies.

Public Opinion

A survey of public opinion in East Africa has been conducted. The survey has found that the majority of people in East Africa are in favour of independence. They believe that their people should be able to govern themselves and to make their own decisions.

Disappearance of Empire

THE disappearance of the British Empire has been a subject of discussion. Some people believe that the Empire should be maintained, while others believe that it should be dismantled. This is a complex issue, and it is one that will continue to be debated for many years.

Supplies Marketing

THE marketing of supplies in East Africa has become a major issue. The price of supplies has risen sharply, and this has caused a great deal of trouble for African traders. This has caused a great deal of trouble for African traders, who have been unable to obtain the supplies they need for their businesses.

CORRESPONDENCE....

To patients on a tight diet, **BUNLIERS** is doubly welcome

WITNESS the effect on the stomach of a patient who has been on a tight diet for several days. He is suffering from indigestion, flatulence, and a general feeling of discomfort. He has been unable to eat any solid food, and his only nourishment has been in the form of liquid. He is now taking **BUNLIERS**, and in a few days he is able to eat solid food again, and his general health is greatly improved.

YOU WON'T GET STOMACH UPSETS IF YOU DO THIS

Wind, heartburn, acid, after-dinner digestive trouble, etc., were made by the use of "MAGNOLIA." A dose will quickly correct an acid stomach, and restore the normal action of the stomach.

MILK OF MAGNESIA

Milk of Magnesia is the most natural of all cathartics. It is gentle, and does not irritate the bowels. It is the only cathartic that is pleasant to take, and is suitable for all ages.

TO THE EDITOR, "E.A. Standard"

I have read your article on the subject of the "E.A. Standard" and I am glad to see that you are interested in the welfare of the East African people.

I am a native of the East African continent, and I have lived in the East African continent for many years. I have seen the East African continent grow from a small, remote area to a large, developed country. I am proud of the progress that has been made, and I hope that the East African continent will continue to grow and develop.
