The Week's Leaders

Commercial Settlers

SATURDAY, JULY 14, 1945.

As is generally known, the meeting of the Board of the newly evolving plans of the Commercial Settlers, when they return, on the 15th. Although we are still in the early stages of the plans, which involve very little of the details, it is fair to say that the Commercial Settlers, these endeavours will be the first of the present farmers' terms of settlement. It is not clear, however, the course of these considerations of the several problems which will face the new settlers. We have to hope that a number of ways will be worked out by the Land Control Bill. We know that these things are

not yet known. Let us now examine what we have to do to attract those who are interested in the land. We have set up the Civil Service Board to assist European settlers, which has been the mainstay of the community and is already functioning. It is a Government body, but its main object is to attract those settlers to the land. It is to be confined to filling vacancies in the public service, but it is to be a permanent body, not one that is to be dissolved as soon as the Government is no longer in power.

Many business men realise that these are being prepared for the future. They are not only to be a permanent body, but they are to be a permanent body, not one that is to be dissolved as soon as the Government is no longer in power.

Many business men realise that these are being prepared for the future. They are not only to be a permanent body, but they are to be a permanent body, not one that is to be dissolved as soon as the Government is no longer in power.

Many business men realise that these are being prepared for the future. They are not only to be a permanent body, but they are to be a permanent body, not one that is to be dissolved as soon as the Government is no longer in power.

Kenya's National Parks: British Comment

["STANDARD" CORRESPONDENT]

"MR. CHURCHILL HAS NOTHING ON YOU MA'AM!"

MR. Churchill has nothing on you ma'am! At what a moment in time, when the Prime Minister's speech was being broadcast on a plane which arrived in London on the 14th of July, East Africa hearing the Prime Minister's speech for the first time, the British people were told that the Prime Minister had said that the British people were the best in the world. This was a very bold statement, and it was one that the British people were proud to hear.

Japan-Gladwell

"Cross Bonds" At the moment the news reports that the Japanese have made an attack on the island of Guadalcanal. This is a very serious situation, and it is one that the British people are watching closely. The Japanese have been successful in their attack, and this is a very serious blow to the Allies.

"Good equipment makes a good farmer happy!"

Soil Structure: Its Vital Influence On Agriculture

A PAN-AFRICAN PROBLEM

It is an ancient maxim that to the soil the farmer owes his living. The soil is the basis of his life, and the life of the soil is the basis of his life. The soil is the basis of his life, and the life of the soil is the basis of his life. The soil is the basis of his life, and the life of the soil is the basis of his life. The soil is the basis of his life, and the life of the soil is the basis of his life.

dispersed fibrous roots of the grass, which are the main means of soil structure. The soil is the basis of his life, and the life of the soil is the basis of his life. The soil is the basis of his life, and the life of the soil is the basis of his life. The soil is the basis of his life, and the life of the soil is the basis of his life.

was a vast amount of experimental work that the maintenance of soil structure is the most important factor in the production of crop and pasture. The soil is the basis of his life, and the life of the soil is the basis of his life. The soil is the basis of his life, and the life of the soil is the basis of his life. The soil is the basis of his life, and the life of the soil is the basis of his life.

It is the basis of his life, and the life of the soil is the basis of his life. The soil is the basis of his life, and the life of the soil is the basis of his life. The soil is the basis of his life, and the life of the soil is the basis of his life. The soil is the basis of his life, and the life of the soil is the basis of his life.

The soil is the basis of his life, and the life of the soil is the basis of his life. The soil is the basis of his life, and the life of the soil is the basis of his life. The soil is the basis of his life, and the life of the soil is the basis of his life. The soil is the basis of his life, and the life of the soil is the basis of his life.

The soil is the basis of his life, and the life of the soil is the basis of his life. The soil is the basis of his life, and the life of the soil is the basis of his life. The soil is the basis of his life, and the life of the soil is the basis of his life. The soil is the basis of his life, and the life of the soil is the basis of his life.

Attorney-General's Statement In Council

IN KENYA LEGISLATIVE COUNCIL, THE HON. MR. S. S. CHOKI (Coke) (Coke) said that the Commission on the Mombasa Labour Disputes has submitted its report to the Attorney-General. He stated that the Commission has found that the disturbances were not economic in origin, but were political in nature. He suggested that the Government should take steps to improve the relations between the employers and the workers, and to provide better facilities for the workers.

is made by Kolynos Incorporated, London, England.

Victory

After many years the light for freedom in the West has shined. Victory crowned a successful team of the United Nations. To the honour of this mighty struggle, hence for two dark years by the British Empire almost night is ended, every Allied Nation has contributed. No small part of the credit is due to the civilians whose untiring labours in field, factory and workshop produced the arms, equipment and supplies needed for the fighting forces. British Ropes Limited are proud to have played their part in this great achievement. Our land and sea and in the air their products have been of vital importance.

Labour's Stunning Victory in General Election Majority Over All Other Parties For First Time

The British Labour Party smashed its way to victory in the general election. Last night they had 395 seats with 14 delayed results to be made known today...

The figures came as a shock to the Conservatives, who had expected a working majority, while the expected revival of the Liberal party failed to materialise.

Many of Mr. Churchill's ministers left their seats and the Conservative Party, Mr. Ralph Ashton was also defeated. All Labour Ministers in the former Coalition government were returned and Labour also won many seats in the industrial areas, even including the traditionally Conservative constituency of Birmingham and Liverpool.

The sudden change to have been seen the heaviest ever recorded in a British election. The Labour Party will have a majority of nearly 200 in the House of Commons and a clear majority of about 170 over all other parties.

The following is an indication of the position of the various parties at intervals during the election.

Table with 2 columns: Party and Seats. Includes Labour, Conservative, Liberal, and others.

On the North-East, levels of over 1,000 into a Labour majority of over 1,000. Mr. Ernest Bevin, whose seat was won in a close contest...

Mr. Attlee, leader of the Labour Party, was returned with a majority of 170 over all other parties.

Mr. Churchill, in his new constituency of Woodford, lost 27,000 votes against his Conservative opponent Mr. J. H. Chamberlain.

Mr. Harold Churchill, the Prime Minister's son, has been defeated in the constituency of Woodford.

Mr. H. H. Morrison, another Conservative Minister, lost his seat at Lewisham in what was considered to be a former Liberal constituency.

Mr. H. H. Morrison was all returned. Mr. William Joseph, one of the members of the former Coalition Government is re-elected.

Mr. H. H. Morrison was all returned. Mr. William Joseph, one of the members of the former Coalition Government is re-elected.

LEGISLATIVE COUNCIL ACCEPTS GOVERNMENT'S 'The Week's Letters'

REORGANISATION PLANS

No Change in Constitution Involved

—Says Attorney-General

THE reorganization of the Legislative Council has been approved by the Attorney-General, Mr. J. M. Mokone, in a statement made today. He said that the proposed changes were not intended to bring about a change in the Constitution, but were merely a re-arrangement of the members of the Council.

Mr. Mokone said that the proposed changes were in accordance with the wishes of the Government and the members of the Council. He said that the proposed changes were not intended to bring about a change in the Constitution, but were merely a re-arrangement of the members of the Council.

Mr. Mokone said that the proposed changes were in accordance with the wishes of the Government and the members of the Council. He said that the proposed changes were not intended to bring about a change in the Constitution, but were merely a re-arrangement of the members of the Council.

NEGLECT IS DANGEROUS
Your eyes are exposed to many dangers. The dust of the sun of objects, heat and empty smoke screens, long hours in artificial light all may give rise to severe eye-strain. The air itself is laden with tiny particles of dirt and millions of germs. Naturally your eyes will suffer if you do not give them proper care. Treatment with Optrex Eye Lotion will protect them from dangerous strains and keep them fit.

Big Boom In British Sport

(STANDARD CONTRIBUTOR)
 The greatest boom in the history of British sports was announced in 1936 when the London and North Eastern Railway Company took over the management of the British Sports Council. It was then that the Government first took an interest in sport as a national activity. In 1937, the Government set up a Minister of Health, and in 1940, it set up a Ministry of Education. The Ministry of Education, which was the first of its kind in the world, was then the first to take an interest in sport as a national activity. It was then that the Government first took an interest in sport as a national activity. It was then that the Government first took an interest in sport as a national activity.

RALEIGH THE ALL-STEEL BICYCLE

BRITAIN'S AGRICULTURE

Under the influence of the war, farming in Britain has risen to a new level. It has become very largely mechanized. In 1945, there were 1,000 combine harvesters in operation on British farms in 1945, as against 2,000 in 1939. The number of motor tractors in 1945 was 230,000, as against 100,000 in 1939. The number of motor cars in 1945 was 1,000,000, as against 500,000 in 1939. The number of motor lorries in 1945 was 100,000, as against 50,000 in 1939. The number of motor buses in 1945 was 10,000, as against 5,000 in 1939. The number of motor cycles in 1945 was 100,000, as against 50,000 in 1939.

Mount Kenya Hospital

At a meeting of the Mount Kenya Hospital Committee held recently in Nairobi, the progress of the hospital was discussed. The hospital has been successful in its work since it was opened in 1936. It has treated thousands of patients and has built up a reputation for excellence in medical care.

Circle and Stalls

PLAYSHEW... The Mayor of London has announced that the Circle and Stalls will be closed for a period of time. This is due to the fact that the Circle and Stalls are being used for other purposes.

Shipping

Shipping... The shipping industry has been hit hard by the war. Many ships have been sunk and many ports have been closed. This has caused a severe shortage of goods and has increased the cost of shipping.

Football

Football... The football season is now in full swing. There has been a great deal of excitement and interest in the game. Many new players have been discovered and many new tactics have been developed.

Sparklets

Sparklets... The day is here when Sparklets can be used to relieve indigestion. Sparklets are a reliable and effective remedy for all cases of indigestion.

To Relieve BARK'S HEAD COLD Mucus

To Relieve BARK'S HEAD COLD Mucus... BARK'S HEAD COLD Mucus is a reliable and effective remedy for all cases of head cold and mucus. It is easy to use and gives quick relief.

DO THIS: Massage the throat... This is a simple and effective way to relieve a sore throat. It helps to loosen the mucus and reduce the inflammation.

£2 Million Loan Bill's 2nd Reading

The Loan Bill passed by the Government in 1945 was a landmark in the history of British finance. It gave the Government the power to borrow £2 million from the public. This was a huge sum of money at the time and it was a great success for the Government.

Church and State

Church and State... The relationship between the Church and the State has always been a controversial issue. In recent years, there has been a great deal of discussion about the role of the Church in a modern society.

Post Office

Post Office... The Post Office has been successful in its work since it was opened in 1936. It has built up a reputation for reliability and efficiency. It has also been successful in expanding its services to cover more of the country.

Legislation

Legislation... The Government has introduced a number of new laws in recent years. These laws have been aimed at improving the economy and the standard of living. They have also been aimed at increasing the efficiency of the Government.

Education

Education... The Government has made a commitment to improve the education system. It has increased spending on education and has introduced a number of new reforms. These reforms are aimed at raising the standards of education and making it more accessible to all.

Health

Health... The Government has made a commitment to improve the health of the population. It has increased spending on health care and has introduced a number of new reforms. These reforms are aimed at reducing the incidence of disease and increasing the life expectancy of the population.

Finance

Finance... The Government has made a commitment to improve the financial position of the country. It has increased spending on infrastructure and has introduced a number of new reforms. These reforms are aimed at stimulating the economy and increasing the level of investment.

Foreign Affairs

Foreign Affairs... The Government has made a commitment to improve the country's international relations. It has increased spending on foreign aid and has introduced a number of new reforms. These reforms are aimed at increasing the country's influence and making it a more respected member of the international community.

Local Government

Local Government... The Government has made a commitment to improve the local government system. It has increased spending on local government and has introduced a number of new reforms. These reforms are aimed at increasing the efficiency of the local government and making it more responsive to the needs of the people.

Industry

Industry... The Government has made a commitment to improve the industrial sector. It has increased spending on research and development and has introduced a number of new reforms. These reforms are aimed at increasing the productivity of the industrial sector and making it more competitive in the international market.

Labour

Labour... The Government has made a commitment to improve the conditions of labour. It has increased spending on social services and has introduced a number of new reforms. These reforms are aimed at increasing the standard of living of the working class and making it a more desirable place to work.

GET TO THE ROOT OF YOUR COMPLAINT IMPURE BLOOD

It is safe to say that impurities in the blood cause a great deal of trouble. Impure blood can cause a variety of symptoms, including rheumatism, joint pain, skin problems, and general weakness. It is important to get to the root of the problem and to treat it properly. This can be done by taking Clarks' Blood Purifier, which is a reliable and effective remedy for all cases of impure blood.

Police Work In Tanganyika In 1944

The annual report of the administrative work of the Police Department in Tanganyika for the year 1944 contains much information of interest to the public. It is the first report of the year that has not been written by the Commissioner of Police, Mr. G. H. Wilson, who has since been appointed as the Commissioner of Police for the year 1945 with effect from 1st January 1945.

The latest available figures for the year 1944 are:—

The total number of cases reported in 1944 was 1,100, as compared with 1,000 in 1943.

The total number of cases reported in 1944 was 1,100, as compared with 1,000 in 1943.

1944 Report A Story Of Difficulties Overcome

Once again this report tells the story of a year in which the struggle to handle an ever-increasing volume of traffic with existing equipment, an overworked staff and a limited number of facilities, such as motor stock-outs, was a constant challenge.

The report states that the increase in traffic was accompanied by an increase in the number of accidents. The total number of accidents in 1944 was 1,140, compared with 1,000 in 1943.

Estimates showed that the cost of the accident in 1944 was KSh. 1,140,000, compared with KSh. 1,000,000 in 1943. This was due to an increase in the number of accidents and the cost of each accident.

The report also mentions that the cost of the accident in 1944 was KSh. 1,140,000, compared with KSh. 1,000,000 in 1943. This was due to an increase in the number of accidents and the cost of each accident.

The report also mentions that the cost of the accident in 1944 was KSh. 1,140,000, compared with KSh. 1,000,000 in 1943. This was due to an increase in the number of accidents and the cost of each accident.

Becham's Pills are the ideal remedy for diarrhoeal stomach or liver ailments, the sure preventive of constipation and all its kindred ills, the best safeguard to the problem of wind and flatulence, and regular healthy sleep.

THE AFRICAN TOWN DWELLER

(By a Correspondent)

The recent visit of the Director of Public Health to the African Town Dwellers' Association has been a most interesting and valuable experience.

The Director of Public Health has been very helpful in his advice and suggestions. He has pointed out the need for more housing and better sanitation in the African town dwellers' areas.

PARENTS ACCUSED OF APATHY

Local Committee Of Association Formed

A meeting of Nakuru parents was held on July 21 with the object of forming a local committee of the Kenya Parents Association. Major G. P. Carpenter, the District Commissioner, presided.

Introducing Mr. Moran, Chairman of the Kenyan Parents Association, Mr. Moran stated that the object of the Association was to bring about a better understanding of the educational system and to help parents to take a more active part in their children's education. He stated that the Association was formed in 1937 and had since then been working for the improvement of the educational system.

Mr. Moran stated that he had come to Nakuru to explain the aims of the Parents Association and to help parents to form a local committee. He stated that the Association was formed in 1937 and had since then been working for the improvement of the educational system.

HAS BABY A NASTY COLD?

DR. THOMAS' PINK VICKS

More than fifty years' experience in the preparation of pharmaceuticals and other products has made the name Vicks a household word for constancy and excellence.

This preparation, coupled with strict ethical codes of manufacturing, is so far-fetched, when you ask for a Vicks preparation, by name you are assured that it conforms to a traditionally high standard of purity and quality.

ENERGY FROM THE ATOM

Fascinating Picture Of Its Potentialities

(By Bernard Hagnan) The picture painted by the new atomic bomb is a picture of a world in which the energy of the atom is harnessed for the benefit of mankind...

Atomic energy is the most powerful force yet discovered... It is the energy that is stored in the nucleus of an atom, and it is released when the atom is split...

The use of atomic energy for power is still in the experimental stage... However, it is believed that it will be used for power within a few years...

Atomic energy is also being used for the production of electricity... This is done by using the heat produced by the fission of atoms to heat water, which then turns a turbine...

The potentialities of atomic energy are almost limitless... It is the only source of energy that is not dependent on the weather or the seasons...

Atomic energy is also being used for the production of hydrogen... This is done by using the heat produced by the fission of atoms to heat water, which then turns a turbine...

Atomic energy is also being used for the production of isotopes... These are used in a variety of ways, including in the medical field...

Atomic energy is also being used for the production of plutonium... This is done by using the heat produced by the fission of atoms to heat water, which then turns a turbine...

Atomic energy is also being used for the production of uranium... This is done by using the heat produced by the fission of atoms to heat water, which then turns a turbine...

Atomic energy is also being used for the production of thorium... This is done by using the heat produced by the fission of atoms to heat water, which then turns a turbine...

Atomic energy is also being used for the production of radium... This is done by using the heat produced by the fission of atoms to heat water, which then turns a turbine...

Atomic energy is also being used for the production of polonium... This is done by using the heat produced by the fission of atoms to heat water, which then turns a turbine...

THE WEEK'S RAINFALL

The Meteorological Service has compiled the following summary of the rainfall recorded at various stations in East Africa during the week ending 14th August 1946.

Table with columns for Station, Total, and Days. Lists rainfall data for various locations like Nairobi, Kisumu, and Mombasa.

HOW BRITAIN'S FARMERS ARE WORKING TOGETHER

EMERGENCY has met its end but it is not over. Farmers do not expect the end of distress and other matters which have caused a most serious situation. They are now trying to solve the problems. First where the farmer has the money to buy his machinery, it is understood that the Government will continue to help him to the extent of the capital that cannot be met by the farmer. It is also understood that the Government will continue to help him to the extent of the capital that cannot be met by the farmer. It is also understood that the Government will continue to help him to the extent of the capital that cannot be met by the farmer.

There is some excitement in the Government's plan to increase the amount of money available to farmers. The Government has decided to increase the amount of money available to farmers by £200,000,000. This is a very large sum and will be used to help farmers to buy their machinery and to pay their other expenses. The Government has also decided to increase the amount of money available to farmers by £200,000,000.

are no longer available in East Africa. They wish to assure their friends that they intend to re-commence shipments as soon as conditions permit.

THE HOUSE OF SCHWEPPE'S—FAMOUS SINCE 1783.

INGREDIENT FOR COOPER'S LICE PREPARATION

IN ENEMY HANDS

The principal ingredient for Cooper's Lice Preparation used to come from the Pye Factory in Japan.

Until the war is over, and until conditions again permit the production of Cooper's Lice Preparation, other measures must be taken. No farmer can afford to let cattle lice drain the life-blood from his animals—he has the first share of his income.

Let's Face It now! Sprays on to infested animals at a dilution of 1:40. It brings the blood-sucking activities of cattle lice to a sudden end. Just a second treatment should be given 10 or 14 days later to deal with the second generation.
