EVERY POINTS TAKES ECONOMY DESPITE DENIALS

The Federal Reserve Board today announced that it will raise the discount rate to 4 1/2 percent, the highest since 1951. The move is expected to be a major step in the fight against inflation. The board also announced that it will raise the reserve requirements for banks to 10 percent, up from 9 percent. The board said that it was concerned about the inflationary pressure in the economy and that it was taking these steps to help bring it under control.

BY STANDARD TV AND RADIO CRITICS

The new television season is being greeted with a mixture of enthusiasm and criticism. Many critics are praising the quality of the programming, particularly the new variety shows and the more sophisticated dramas. However, some are expressing concern about the commercialism of the networks and the perceived decline in the quality of the news and public affairs programs.

THE ONLY GUY

It would be difficult to find a more popular television personality than Dick Cavett. His show, "The Dick Cavett Show," has become a cultural phenomenon, attracting a large and diverse audience. Cavett's unique style of interviewing and his willingness to tackle controversial topics have made him a household name. Critics have praised his intelligence and his ability to engage in meaningful conversations with his guests.

PUT THEM BACK

There is a growing concern among television viewers about the quality of the programming on the major networks. Many are calling for a return to the standards of the 1950s and 1960s, when television was seen as a more serious and educational medium. Some are also expressing concern about the impact of television on society and the role of the networks in shaping public opinion.

Women's film are large on box office

Another week without outstanding new releases but a good many of what are called "women's films" — dramas with good titles and intelligent, sophisticated, and truly lively on their merits — are making money. In addition, colorful and beautiful films, fortunate by they way, have a fair amount of appeal for husbands too.

LOVE AND LABYRINTH

"Labyrinth" is a film that is a combination of a love story and a thriller. It features a young woman who is kidnapped and taken to a mysterious island. The film is well-paced and features a strong performance by the lead actress.

ELIZABETH TAYLOR

Elizabeth Taylor's performance in "Love and Labyrinth" is a tour de force. She brings a depth and complexity to her character that is rare in Hollywood. Her chemistry with the male lead is palpable, and her emotional journey is both heartbreaking and inspiring.

lovely teeth but how will they look when she's twenty?

Lovely SMILES. With lovely teeth. But will she have the same lovely smile in twenty years' time? Sugar-soured, like all children's, hardens teeth which attract the destructive enamel. This causes tooth decay. Rounding youth. Ample ideas means wisdom teeth decay. You see, Ambrident— and only Ambrident— contains Ion of Ammonium which is specially designed to counteract the harmful acids in Bona's mouth. So keep smiling. Bona. And keep brushing with Ambrident.

Teaching the soldiers to think

By IAN RAFT

The Story of Army Education, 1942-1952, by COL. WHITE, VC, BA, DSO

AN unknown legend has it that the first of the 100,000 soldiers of the British Army to be sent to the front in 1914 were sent to the front with a certain amount of education. STANDARDS TO BE PRESERVED

Mr. J. D. O'Connell and his wife, who are the proprietors of the law firm of O'Connell & Co., Nairobi, at the Ministry of Education, are the first to have qualified as a barrister at law in Kenya. Mr. O'Connell has been admitted to the bar of Kenya and is now practising as a barrister at law in Nairobi.

The Kenya Law School, which is the first of its kind in Kenya, is now in its second year. The school is located at the Law Faculty of the University of Nairobi. The school is run by the Kenya Law School Board, which is headed by Mr. J. D. O'Connell.

The school has a very high standard of education and is well equipped with all the necessary facilities. The students are given a thorough grounding in the law and are also given practical training in the courts.

The school is a very important institution in Kenya and is doing much to raise the standard of legal education in the country.

A 'Stalin' could be Tribe Priests Attacked

Kenya had a Stalin to remove the El Molo tribe from Lake Rudolf and since then in the Parliament of Kenya their representatives, he would be a great asset to the Parliamentary Secretary to the Treasury, Mr. Kibaki, said on Wednesday.

Mr. Kibaki said the present Government believed in democratic principles of social development and that the Government would not consider the desirability of attacking the El Molo tribe as it would be a great asset to the Parliamentary Secretary to the Treasury, Mr. Kibaki, said on Wednesday.

UNITY IN WELFARE WORK

A suggestion that tribal welfare activities might be fused together under the name of the Kenya National Welfare Association was made by the Parliamentary Secretary to the Ministry of Labour and Social Services, Mr. Kibaki.

Mr. Kibaki said that the welfare activities of the various tribes should be coordinated under the name of the Kenya National Welfare Association. He said that the Government was interested in the welfare of all its citizens and that it was necessary to have a central body to coordinate these activities.

WHY CAN WE UNDERSTAND THE TRACTOR-NAME FACTORY?
 We did you better to design the tractor and make the bases for our being able to understand as thoroughly the tractor-name factory is that although our parts may not be, and in some cases we believe actually are, made in the same way and to the same specifications as the parts made by other tractor maker's name, including, nevertheless, not only "original", we believe do not make a tractor. The significance of this is to be sure that the parts that the greater number of parts is applied, repeat the tractor name, not necessarily, but the maker or the name is significant to take the parts on the tractor's engine of spare parts.

REVOLUTION IN AGRICULTURE

KENYA is going through a period of change in many aspects but the agricultural industry is undergoing such changes that they can almost be described as a revolution.

What production?
We reported last time that the production of coffee in 1962 was 2,200,000 cwt. This year, however, it is expected to be increased to the 2,500,000 cwt. level. The increase is due to the fact that the coffee crop is being harvested in the usual manner, but the weather is being better than in the previous year.

Sale of farms
The basis of the economy of the country will change and the sale of farms will be reflected in the long run in the general economic, sub-structure of the area we call it the Kenyan Highlands.

Dilly problems
In the case of the production of the coffee crop, the government has been very active in the past few years. It has been successful in the past few years in the production of coffee, but it has not been successful in the production of other crops.

A world habit
Governments have a habit all over the world of interfering in the farming community and it is Kenya's Government that has done the same in the case of the Kenyan Highlands. The government has been successful in the past few years in the production of coffee, but it has not been successful in the production of other crops.

Exhibition serves to demystify trade in Kenya

AS an extension of their efforts to demystify the Kenyan Government in the eyes of Scandinavian exporters, representatives of the three Scandinavian Governments, together with the Kenyan Government, have arranged a Scandinavian Exhibition at the Royal Show.

It is their hope that the exhibition — the manifestation of their faith in the country — will lead to closer connections between Kenya on one hand and Denmark, Norway and Sweden on the other, and to a strengthening of the existing trade relations between the countries.

Close links

Denmark, Norway and Sweden — which together have a population of 16,000,000 — are closely linked together in political and economic life, and among their industries there are virtually identical or almost identical.

Denmark: 15,170 in 1950-51; 16,350 in 1951-52.

The country with annual income below that of Kenya, other countries in 1950 (13,892,000) and 1951 (13,892,000).

Trade important

The importance of trade with the Scandinavian countries is emphasized by the fact that they account for more than half the total exports of the three Scandinavian countries.

The Scandinavian market as a whole is an important factor in the world economy. In 1951 the combined exports of the three Scandinavian countries to the United States amounted to \$2,718,000,000. Britain to \$2,019,000,000; West Germany

to \$1,918,000,000; France to \$1,818,000,000; Italy to \$1,718,000,000; and the Netherlands to \$1,618,000,000.

It is also worth noting that the Scandinavian countries export to the United States more than they import from the United States.

Expert view

The Scandinavian countries are well equipped to supply the world with a wide range of goods and services.

Roller bearings — one of the products that engineering industry has made the Swedish firm SKF plant at Gothenburg.

The manufacturing power for the United States is a little over 200,000,000 roller bearings a year. SKF is the world leader in roller bearings.

Growing market

Imports of roller bearings from the United States to the Scandinavian countries rose 20 per cent in 1951 over 1950.

In view of the fact that the Scandinavian countries are well equipped to supply the world with a wide range of goods and services, it is not surprising that they are well represented in the world market.

Visit the 'Viking' for typical dishes

IN connection with the Scandinavian exhibition at this year's Royal Show, a Scandinavian restaurant, the 'Viking' has been set up.

It gives an idea of the typical dishes of the Scandinavian countries. The restaurant will be open during the exhibition.

VETERINARIAN'S MIGHTY SNACK

Beef with green peas and a slice of liverwurst with most help and salted walnuts.

Just imagine how these dishes would taste and appear.

A wonderful menu, an attractive and healthy one, is served at the exhibition in one of the buildings which were built for the exhibition. The menu is a luxury affair, with the dishes being served with great care and flavor, and with a fine and elegant service.

Employer-labour relations are unusually peaceful

A FEATURE of the Scandinavian countries is that the relations between management and labour are unusually peaceful.

It is hardly ever interrupted by strikes or lock-outs.

This peacefulness is due to the fact that the Scandinavian countries have a long and successful experience of collective bargaining.
