**TANGANYIKA AND PRODUCTION**

To the Editor, "E.A. Standard"  
Sir, The writers of Tanganyika correspondents have been very generous in their coverage of potatoes, tomatoes and other vegetables in the past. However, it is in this province, Kinyasi and Matete are made a division of the province.

A camp for refugees was opened some months ago. Prior to this farmers were asked to plant potatoes, pumpkins, as they could, as well as other vegetables. The Government has been very generous in its assistance. However, it is in this province, Kinyasi and Matete are made a division of the province.

 the principle of agricultural  
 control over the use of agricultural  
 land in the various districts.  
 It is true that it is a natural  
 land in water, in the agricultural  
 principle which should be—and  
 probably is—widely accepted  
 throughout the Colony. It now  
 over the control which is ad-  
 vanced by the principle of  
 general public acceptance be-

 The Better Car Finish

The objective behind these schools is to provide training for future Kenya farmers. It is the first practical step towards re-arranging better treatment for the land and the only possible method that can be expected is that of the land. The Kenya Training School, in particular, may prove insufficient for the needs of the time when returning soldiers are seeking a future on the land. But the expenditure in the importance of providing some training in the process of the land.

Only the most meagre detail is yet available of the recommendation of the Land Commission which was issued in its report in England. But the report indicates that the State will be called upon to accept a greater responsibility for the land. The whole way towards the nationalization of land but the tenor of its recommendations would appear to foresee such a development.

There has not been much more than the usual tribulation in our record of settlement that the Government is in the future. The things that are essential to the land are well known. The farmer should be emancipated from the present, and the Government should be able to afford good conditions of life for those employed in it without lessening the value of the asset for the State. The Government of the State lies in ensuring that the land is well managed. The State matter and its ownership a direct concern of the State.

We commend the resolution of the Thika District Association in principle to other farmers' organizations in East Africa.

AFRICA AND EUROPE SOUTH-EASTERN EUROPE

She has expressed no territorial ambitions and her foreign policy has been directed to preserving friendly relations with all neighbours. As against this, she has certainly been benefiting from the facilities granted by the United States and it is difficult to believe that this arrangement was arrived at without reciprocal obligations.

What then will be the position now that an offensive upon a veritable scale threatens the Axis Powers through their more vulnerable rear flank? The gathering might of the United Nations and the pressure upon the Axis Powers for the second time of Germany's Russian campaign and their adoption, within a northern ring of facts, of a defensive strategy. To the conquered nations the realisation that support is at hand will be a relief. It will also mean their internal resistance, whereas the Axis Powers will be left with their satellite partners who have the added embarrassment of having to cope with progressive forces in their own countries which was already giving them grave anxiety.

**The importance of export quality**

Throughout East Africa an appreciation is growing that South Africa produces good Brandy. This is largely because Pyramid Brandy, now sold in this territory, has been blended from the largest and finest stocks in South Africa, especially for the export trade and to meet the demand for a Brandy of Old-World standards.

You are invited to test Pyramid Brandy and prove for yourself the excellence of its Bouquet and Flavour.

Pyramid Brandy is a noted product of the FEDERAL WINE & BRANDY CO., (PTY) LTD. CAPE TOWN

**Rubber From The Sea**

**['EARTH'S CONSERVATION']**

You have heard of Lamin rubber, but I don't suppose that you have ever considered the old laws with alpenstocks of plastic rubber. I don't suppose you have ever processed real thing. Property of plastic rubber pressed and packed into tanks of square over 200 lbs. weight. The rubber is very soft and pliable. It is now upon rows of bags awaiting shipment. It is a shining and, at the same time, a seaworthy material.

Cheering, because you so badly need every ounce of rubber that we can scrape up. Had because it was formed an important part of the cargo of some fine steamer that the energy has sent to the bottom most have taken. The sinking to the bottom of the steamer, the current that runs up our coast from south to north. The rubber may have been partly blown up into the stream and, finally, were cast up on our shores. They began to arrive nearly two months ago. Simply, at first, then in lots and three and, lately, in great quantities.

**Government Property**

Now, the message that you can come up and take a stroll along the beach, looking at what you regard them as your own property that Government has got there first and then destroyed them. The Government may decide to take over the goods, or they may sell them. What you will get out of it for way of reward for your entered honesty and trouble is a percentage of the value of the goods.

Still, there is good money in it. It is not monthly turnover, for example, but it is a valuable asset. It is a much more valuable asset than the goods you would have shipped from here in October. That is about 700 tons, each, for the recovery of this quantity the rubber dealers were awarded at the rate of 15 cents per pound, which works out at 30-7 per 200 lb. bale. 22/11/42. In all, and that is the best price that has been offered. It is obvious from their appearance that the bales have been dry a long time in the water. All of

**THE WORK OF AMANI**

The work at the Amari Agricultural Research Station last year was very busy. Reports on these have been issued from time to time, but the ordinary work of research continued on a reduced basis and the report of 1941 has now been issued.

Canara, Java, coffee, rice crops and other crops were planted and experiment. Investigations in the field were carried out. The work was done in the following order: (1) Cereals, (2) Cereals, (3) Cereals, (4) Cereals, (5) Cereals, (6) Cereals, (7) Cereals, (8) Cereals, (9) Cereals, (10) Cereals, (11) Cereals, (12) Cereals, WHY SPAIN IS MOBILISING

November 19. A Madrid message today... Why Spain is mobilising... Why Spain is mobilising...

Hardly had he occupied the seat at the Aerial Club when the lights came on and in from the sea to take the air. The pilot was a successful cannon fire. They were a large number of ground crew and many lined up along the line of ground crew. They were all carrying out this part of the preparation of the army men establishing air superiority over the bombers. They were launching the landing groups of the Royal Air Force. They were blowing up substantial stores of bombs which were to be replaced, demolishing the air base. They were repairing and maintaining of the air base. They were being employed. The Axis is getting the air power which the little island is destined to win in the battle of the Mediterranean zone.

## "Incident" Which Proved A Most Valuable Exercise

**By Our Special Correspondent C. K. MERRILL**

Antananarivo, Nov. 19.—The "Incident" which proved a most valuable exercise in the Madagascar campaign, was the capture of the island of Nosy Be. This was achieved by the British forces under the command of General Sir Philip S. M. ...

The capture of Nosy Be was a significant victory for the British forces. It demonstrated the effectiveness of the amphibious assault tactics used by the British. The island was captured after a fierce battle with the enemy forces. The British forces were well-prepared and executed the operation flawlessly.

The success of the operation was due to the excellent planning and coordination of the British forces. The use of air power and the support of the Royal Navy were crucial in the success of the operation. The British forces were able to overcome the enemy's defenses and capture the island.

## Problem Of Increased House Rents

**By Our Special Correspondent C. K. MERRILL**

Antananarivo, Nov. 19.—The problem of increased house rents in the Asian family is a significant issue. The rising cost of living has led to a sharp increase in rents, which is causing financial hardship for many families.

The government is taking steps to address the problem of increased house rents. It has introduced measures to control rents and provide financial assistance to families in need. These measures are expected to help alleviate the financial burden on families.

The problem of increased house rents is a complex issue that requires a comprehensive solution. The government needs to continue to work on finding effective ways to control rents and support families. This is essential for maintaining social stability and economic growth.
