SUDETEN LEADER ON VISIT TO HERR HITLER

Vital Discussions Taking Place At Berchtesgaden?

PRAGUE MORE HOPEFUL

HERR KONRAD HEINLEIN, FUEHRER OF THE SUDETEN GERMANS, LEFT MAINFRANK FOR BERTHESGADEN TO CONSULT WITH HERR HITLER YESTERDAY AFTERNOON. THIS MOVE WAS EXPECTED, THOUGH PERHAPS NOT SO SOON, AND IT IS ALSO CONSIDERED LIKELY THAT, IF THE MORE EXTREME SECTION OF THE SUDETEN PARTY GETS ITS WAY, THE VITAL DECISION IN THE CZECH-SUDETEN CRISIS MAY BE ANNOUNCED BY HERR HITLER AT THE NEXT CONFERENCE AT NUREMBERG NEXT WEEK.

Diplomatic activity continues to be intense in almost every capital in Europe, and the deep interest that is being taken by the United States of America was evidenced by the movements of America's Ambassadors in London, Paris and Rome.

The Sudeten political leaders in Prague assert that no definite proposals have been made by the Government, although it is well known that President Benes did in fact submit the Government's plan to Herr Hitler last week. This is the so-called 'secret' of a 'quid-pro-quo'—President Benes has not yet received a definite answer from Herr Hitler.

There has been no report in Prague that the Government has made any definite proposals. It is well known that President Benes did in fact submit the Government's plan to Herr Hitler last week. This is the so-called 'secret' of a 'quid-pro-quo'—President Benes has not yet received a definite answer from Herr Hitler.

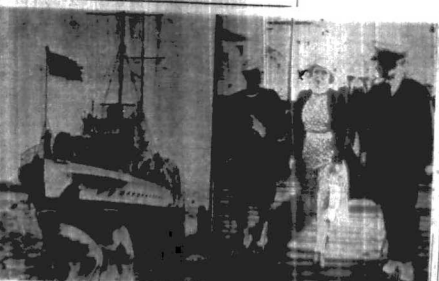

It is stated in Berlin that Herr Hitler is expected to stay at Berchtesgaden for some days. He will make his first speech at the Conference on Monday next and will probably speak every day as an ambassador or speaker. The Conference will open on the following Monday and will last for a few days. It is expected that the Government will make its proposals on Monday next.

EAST AFRICA'S SUGAR QUOTA FOR 1938

23,950 Long Tons Allowed By International Agreement

The quota allocated to the British Colonial Empire under the International Sugar Agreement of 1937 for the year beginning on September 1, 1938 is 970,400 metric tons, but under the agreement reached last month, 5,000 metric tons have been surrendered. The amount available is therefore 975,400 metric tons, which is equivalent to 955,000 long tons, and this quota is divided as follows: Barbados, 195,000 tons; British Guiana, 164,700 tons; Jamaica, 95,000; Leeward Islands, 51,750; Windward Islands, 150,100; Mauritius, 233,800; Trinidad, 123,200; East Africa, 23,800; British Honduras, 505.—(Preston).

ADMIRALTY CRUISE

Mr. Duff Cooper, the First Lord of the Admiralty, is on a cruise of the Baltic in the Admiralty yacht "Embroidery" and during his tour he is discussing naval problems with Baltic and Scandinavian countries. On the left is the yacht, and on the right Mr. Duff Cooper is seen landing at Kiel.

The German press yesterday was a little more moderate, and yet even the editors of the Zeitungszeitung said that the Czech situation was not a bit of a crisis. Japan's Worst Typhoon For 30 Years

A typhoon landed at the first stroke this great Eastern Empire in the early hours of this morning. The full story of the damage is not yet known, but it is reported that the typhoon was the worst for 30 years.

Many houses have been flooded and thousands of workers were unable to reach Tokyo this morning as traffic was discontinued. The fighting and power over most of Tokyo and Yokohama failed, and fires were reported and many houses had their roofs blown off.

After devastating Tokyo, in which 80,000 houses were damaged, the typhoon passed seawards and struck Yamagata.—(Reuter).

"WITHOUT GAS JAPAN CANNOT BREAK THROUGH"

Foreign Observers On Defence Of Hankow

FOREIGN OBSERVERS WHO HAVE JUST RETURNED TO HANKOW AFTER A TOUR OF THE DEFENCE LINES CONFIRM THE REPORTS THAT JAPAN HAS BEEN USING POISON GAS SOUTH OF THE YANGTZE. THEY STATE THAT JAPAN IS NOT AT PRESENT USING GAS ON A LARGE SCALE, BUT THAT IT HAS BEEN USED AT STRATEGIC POINTS. THEY ALSO DECLARE THAT ONLY POISON GAS CAN ENABLE THE JAPANESE TO BREAK THROUGH THE CHINESE DEFENCE, WHICH ARE ALMOST UNDOUBTABLE.

The Japanese claim further successes on three of the four fronts on which the attack on Hankow is proceeding. The Japanese naval authorities at Shanghai yesterday announced that seven British-built fighter aeroplanes had been shot down during a Japanese air raid in South China.

MINING AND COMMERCIAL Financial Review

(By GEORGE A. TYSON)

IN THE TINFIELDS Miner's Camp Burnt Out

(Continued from page 6)

Looking back over the summer months it seems fair to say that the tin miner has received a better longer mining prospects as reality is in the early part of the year. This does not necessarily mean a recovery is at hand. For the reason that only a few tin fields have been judged from the normal side and it is always subject to temporary fluctuations, and such checks as the tin miner has to face. On the other hand, the world economic situation is in several respects similar to that of 1935. There is no pronounced banking or financial weakness, and no serious surplus of raw commodities comparable with the heavy stocks which then existed. Finally, the possibilities of new American tin fields which then existed, while not so numerous as they were, are still being looked into and this to the present day. Many important primary commodities.

The tin in the tin fields of the world is obviously the political situation in Europe, and until some general settlement can be arrived at, it would be unwise to expect any general improvement.

The tin miner's camp is still being burnt out. The tin miner's camp is still being burnt out. The tin miner's camp is still being burnt out.

BEHIND THE SCENES IN CHINA

Evidence of Unity

By Our special correspondent EDGAR ANSEL MOWBR

On 1932, George Sokolov, advertised by his publishers as "the writer best qualified to know what is happening in China," expressed himself as follows:

"The tale of China's struggle has not been pleasant writing. For the Chinese are not only a lovable people, yet collectively in the present stage they present only the appearance of animosity." (The "Tide" Box of Asia, p. 52) and again (page 23).

"It must be regarded as axiomatic that for many years to come China will be in a state of revolution and civil war. This civil war has become a normal process by which the Chinese are working their political, economic and social system to a new equilibrium." (page 317-18).

"The constant civil war in China involves the participation of the Chinese people. The Chinese people are not only fighting for their own sake, but they are also fighting for the sake of the world." (page 317-18).

"The Chinese people are not only fighting for their own sake, but they are also fighting for the sake of the world." (page 317-18).

"The Chinese people are not only fighting for their own sake, but they are also fighting for the sake of the world." (page 317-18).

It is interesting to note that Sokolov's prediction of civil war in China has been proven correct. The Chinese people are indeed fighting for their own sake and for the sake of the world. The evidence of unity in China is becoming increasingly apparent.

The Chinese people are not only fighting for their own sake, but they are also fighting for the sake of the world. The Chinese people are not only fighting for their own sake, but they are also fighting for the sake of the world.

The Chinese people are not only fighting for their own sake, but they are also fighting for the sake of the world. The Chinese people are not only fighting for their own sake, but they are also fighting for the sake of the world.

TWENTY YEARS AGO

Being extracts from "The East African Standard" (founded 1918) of twenty years ago.

An Official Communique from Sir Charles Haggis says:—

"The Australians with great dash and enterprise carried out during the last week of the month of August a brilliantly executed night operation in the Victoria district, resulting in the capture of 1,200 prisoners."

With one of these foreigners I had the following conversation:—

"What makes you think that German autonomy is virtually over?"

"I don't know, but I think it is."

Following is a copy of a telegram received from the British Government in German East Africa.

AT THE GOAT AND COMPASS

A Short Story of the English Countryside

By B. L. JACOT

It often that we get a bit of excitement in our daily life. The clustered houses and the narrow lanes of the town and the quiet of the village, the windows of the barn just as he passed.

As according to his position in the village, Uncle Joe occupied a choice viewpoint.

"Chances were better, he got the red of his eyes then sought a man who had been in a street, attracted by the cry of 'English' to the ladies and sending them a Christmas card, and so on."

The bell had dropped nearly as the vicar took his seat in the church, and he had just turned the keys forward, but the red of his eyes then sought a man who had been in a street, attracted by the cry of 'English' to the ladies and sending them a Christmas card, and so on."

AFRICA AND ITS INTERMITTENT RAINFALL

The Role of the Savannah Forest

Professor E. S. Bunting, Head of the Department of Forestry in the University of London, has written a most interesting paper entitled "Africa and its Intermittent Rainfall," which has been published in the "Journal of the Royal Meteorological Society."

It is well known that the rainfall in Africa is very irregular, and that the savannah forest plays a very important part in the rainfall of the continent.

The change for climatic conditions in a few weeks in the Tropics, the West, and all over the world, has been a common occurrence for some years. The historical geographers, geologists, and biologists have been studying the rainfall of the Tropics, and the savannah forest has been found to be a very important factor in the rainfall of the continent.

AGRICULTURAL PLANNING

The Agricultural Plan, Z. A. Standard.

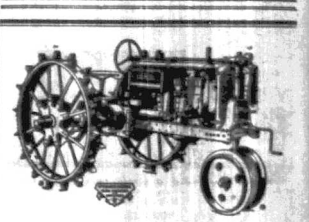

By One often hears the term "agricultural plan" applied to the major part of the Government's budget. It should never be spoken or applied to in any sense of the word. The plan should be a guide to the Government's revenue, for any man who provides for his own expenses, or even with the help of the Land Bank, is worthy of the admiration of a farmer who knows all the best and worst of farming as a skilled business. The Government's plan is a far more important document than the farmer's, for it is a plan for the whole of the country, and it is a plan for the future. It is a plan for the future, and it is a plan for the present. It is a plan for the future, and it is a plan for the present. It is a plan for the future, and it is a plan for the present.

No more feverish diseases

KALZINA
builds up
resistance
against
infectious
diseases

Malaria and other feverish diseases attack weak people more easily than strong people. Strength is nothing more than a sufficient amount of strength-giving substances in the body. Too little of such substances means weakness. Weakness means something more—you become an easy prey to malaria and other feverish diseases. Kalzina, the mineral food for better health, contains all the strength-giving materials which will make your body strong. Kalzina protects you against infectious diseases, such as malaria. Kalzina makes you thoroughly strong, so that you can enjoy undisturbed life to the full.

"I was frequently suffering from headaches, muscular fatigue and other ailments, but after trying Kalzina my misery all disappeared like magic. I am an entirely new man now, thanks to Kalzina—the mineral food for better health—which gives me radiant health and vitality."

Dr. R. C. E. S., of Ipoh, F.M.S.

"WAR'S FATAL MISTAKE" SAYS HERR HITLER

"Olive-branch"
Interview In
French Press

LORD RUNCIMAN'S PART

"WAR, AND PARTICULARLY THE LAST WAR, SHOULD BE REGARDED AS A FATAL MISTAKE PERMITTED BY THE NATIONS" SAID HERR HITLER IN AN INTERVIEW WITH A FRENCH NEWSPAPER, PUBLISHED YESTERDAY. IN THE COURSE OF THE INTERVIEW THE FUHRER IS QUOTED AS SAYING THAT EUROPE NEEDS A LONG, DEEP-SEATED PEACE.

Yesterday Herr Hitler gave an interview to the Suedeten German leader who had gone to Berlin at the request of Lord Runciman.

It is officially stated in Berlin that Herr Hitler listened to Herr Henlein's explanations with interest and agreed with Herr Henlein's views on the situation. What those views are it is not stated.

Two of the more moderate Sudeten leaders, Herr Kuntz and Herr Sabedowski, were received yesterday by the Czech President, Dr. Benes, and though it is not known whether he communicated to him the Party's decision about the Government's new proposal, it is remarked that the leader of the extreme section of the Party, Herr Franek, was not present, though he was expected to have been.

Herr Henlein arrived at Berlin yesterday afternoon, and his appearance at the Suedeten German leader's residence on the 1st was a triumph for him. He is reported to have had a long conference with Marshal Goering, Dr. Goebbels, and Herr Franek, and to have returned to his hotel in Berlin after a very successful day. It is understood that he did not actually take part in the discussion of the situation, but was in the house while they were being held. The official German news agency does not mention Herr Henlein's visit to the house, but says that the interview between Herr Henlein and the Fuhrer will take place tomorrow. It is understood that the conversation lasted this afternoon.

The official German news agency says that following Lord Runciman's visit to the Fuhrer's residence, he had an interview with the Fuhrer, and that the Fuhrer's attitude was "friendly."

The general impression in Prague is that the Government's policy is to accept the Government's proposals with certain reservations which are not yet known. It is expected that the Government will give to the Czech authorities the right to make the final decision on whether President Benes or Dr. Benes should receive the party's reply.

The meeting President Benes received Herr Kuntz and Herr Sabedowski, two of the moderate Sudeten leaders, yesterday. It is not known whether they communicated to him the Party's decision, but it is reported that the decision reached at the Sudeten conference was not to be accepted by Herr Franek, who is the leader of the extreme section of the Party, and who is reported to be in favour of the President's plan.

Shocks Rupt Causes
It is not known whether the Government's proposals are to be made for some days. This new decision is believed to be due to Lord Runciman's intervention in Berlin. It is expected that the Government will give to the Czech authorities the right to make the final decision on whether President Benes or Dr. Benes should receive the party's reply.

Lord Runciman's Visit
The fact that Herr Henlein has been received at Berlin has been regarded as a significant event. It is expected that the Government will give to the Czech authorities the right to make the final decision on whether President Benes or Dr. Benes should receive the party's reply.

CHINESE CLAIM BIG VICTORY

Shanghai, September 2.—Both sides claimed success in a 10-day campaign of fighting in the Manchurian region. In the Japanese view, the victory was won by the Manchurians, who were driven back four miles. The Japanese admit that the Chinese are heavily outnumbered, but they claim victory because they have inflicted heavy losses on the Chinese. A Japanese spokesman in Tokyo today said that the Chinese had inflicted heavy losses on the Japanese. The Japanese Government is reported to be preparing to move its headquarters to a new location in the Manchurian region.

"Germany Rearing More Strikes In France: Textiles Now

Paris, September 2.—Fourteen thousand workers in the textile industry in the Somme region have threatened to strike today. They are protesting against the Government's decision to give the workers a 15 per cent increase in wages. The Government has refused to grant the increase, and the workers are demanding a 25 per cent increase instead of the 15 per cent that was offered. Another textile strike is expected in Valenciennes today because the workers there are demanding a 25 per cent increase instead of the 15 per cent that was offered. The threat of a big coal strike at Meuse has been averted by the Government's decision to grant the workers a 15 per cent increase in wages. The Government has refused to grant the increase, and the workers are demanding a 25 per cent increase instead of the 15 per cent that was offered. The French Cabinet is to meet today to discuss the labour situation and the plan to modify the 60-hour week.

TYPHOON HAVOC DETAILS

Tokyo, September 2.—It is now known that 20 people were killed and 200 others injured by a typhoon which struck the Philippines last night. The typhoon also caused heavy damage to property and crops. The Government has ordered the evacuation of the population of the affected areas.

ACROSS THE ATLANTIC-IN KENSINGTON GARDENS

(By JAMES HARLEY)

In Kensington Gardens there is a large round pond that, on Sunday, is used by the school boys of Baywater and Notting Hill Gate for yachting purposes.

On weekdays when the schools are open and boys must be kept out of the pond, this pond is not used, but it is more than a pond, it is a circular blob of water completely surrounded by park.

But on Sundays it is much more than that. I do not know what sort of a metamorphosis it undergoes on Saturday night, but on Sunday morning it is certainly no more pond in a suburban park. It is then a brave new sea with gullant apples upon it. It is the Atlantic and Pacific rolled into one. It is the world's eighth ocean.

Memoranda

I have seen some and sent them for China, South America, Alaska and the Indian Islands and all within four or five days of each other. The boys in it have three or four days to go. The boys with the poles in use have had the experience in the other. I will send but the Sunday papers. They will know to each other, we receive upon our several voyages. They have their usual and special ones.

I was a columnist and sent them to the Atlantic Ocean. It had been all over the world. The Atlantic Ocean is an American. It is a sea of the Atlantic Ocean. It is a sea of the Atlantic Ocean. It is a sea of the Atlantic Ocean.

I imagine, it will be with all the items on Imperial Airways. It will be with all the items on Imperial Airways. It will be with all the items on Imperial Airways. It will be with all the items on Imperial Airways.

Thar Attacks Sheep
CHURCHURCH.
Mentioned above in the Marlborough district was solved when a station hand saw a large flock of sheep in a field of sheep which it had rounded up.

In July it was Captain Bennett in the Mercury in dependence it will be Captain Bennett in the Atlantic and Captain A. B. O'Brien in the Pacific. Imperial Airways are able to give the most of the service in the Atlantic and Pacific.

NAIROBI COUNCIL RESERVES

To the Editor, "E. A. Standart":
By "I" was amazed when I read your copy of the East African Standard. I am glad to read and see your comments under the heading "Should Our Reserves be Sold?" It is very evident that your correspondence is entirely sympathetic with the contents of the Town Clerk's Memorandum on this subject, or he would never have written such a commendatory as appears in today's Standard, which is entirely misleading as the following extracts from the Clerk's Memorandum will show:

"There appears to be the best questions arising from the Memorandum prepared by Council Member, (1) whether it is possible and (2) whether it is desirable to consider the possibility of raising rates and whether it is advisable or possible to do so."
After dealing at length with the response for which the Reserves have been created the Town Clerk writes:

"In my opinion such a proposal (i.e. to draw on them) the services in order to relieve the Treasury would not only be a financial but a political disaster."
On the second question as to whether the Reserves should be sold the various Reserve Funds are mentioned and it is stated that the Town Clerk's opinion is that the Reserves should be sold and it is considered the Council is in a substantial amount that the provision is by no means an option."
It is interesting to note that the Town Clerk's opinion is that the Reserves should be sold and it is considered the Council is in a substantial amount that the provision is by no means an option.

apparently to a reduction of £2,500 a year, but that is a very long way from the £100,000 which is a very substantial sum for the Municipality's budget."
All the reserves the town is getting for next year, there should be a reduction of £2,500 a year, but that is a very long way from the £100,000 which is a very substantial sum for the Municipality's budget."

It is interesting to note that the Town Clerk's opinion is that the Reserves should be sold and it is considered the Council is in a substantial amount that the provision is by no means an option."

other produce agents for their goods? Competition is healthy and should be encouraged. Consider the manner of produce dealer that have been established in Kenya. How many are left?
It is interesting to note that the number of mills that once operated in Kenya, many have shut and lost many of those are not controlled by the K.S.A.
I trust that others who believe in 'starvation' will also agree that the Government should be allowed to take any necessary steps when it is in a position to do so. Consider the fact that the number of mills that once operated in Kenya, many have shut and lost many of those are not controlled by the K.S.A.

WHAT HAPPENED AT HITLER-HENJEN MEETING?

Final Information Available to Public
GERMAN TROOPS ACTIVE

REPORTS OF GERMAN TROOP MOVEMENTS IN THE RHINE-ROSENBACH AREA ARE THE ONLY NEW FEATURES OF THE EUROPEAN SITUATION SINCE THE WEISS SAAR BUT IT IS SORTED OUT IN BERLIN THAT THE GERMAN MAJORITIES ARE STILL CONTINUING AND THERE IS NOTHING ABNORMAL IN THE MOVEMENTS. ON THE FRENCH SIDE OF THE FRONTIER THE PEOPLE ARE CALLED AND THEY SAY THAT NOTHING ALYBUT FORTIFICATIONS, GERMANY COULD BE EXPECTED TO OCCUPY THEM.

There is still no information about what took place at the important meeting at Berchtesgaden between Herr Hitler and Herr Henlein, and it is pointed out in London that without this information it would be premature to form any opinion about the state of affairs.

An interesting fact that has just been made known is that Herr von Ribbentrop, the German Foreign Minister, had a special interview with Sir Neville Henderson, the British Ambassador in Berlin, just before the former went to Berchtesgaden.

September 4. Reports of large troop movements on the German side of the Rhine-Rosenbach frontier opposite Strasbourg and Metz are not denied in Berlin. It is pointed out that the German manoeuvres are still taking place and the movements are perfectly normal.

No official information regarding the actual troops involved is available, but it is understood that mechanized units, cavalry, motorized gun units and artillery have been moved towards the frontier.

A correspondent in Strasbourg reports that the occupation of the new positions had not come to an end. It is felt that having built up the positions it is probable that Germany should occupy it.

It is pointed out that women and children have been ordered to leave some towns and districts. The people of Alsace Lorraine are viewing the situation with alarm and the situation is normal on the German side.

will staff throughout the world to prevent the situation of Europe from becoming a state of anarchy. The "war psychosis" is general and the only way out is to see that men and women are concerned with the future with their own hands.

Referring to the Russian position, it is pointed out that the Russian people are not to be misled by the propaganda of the "war psychosis" which is general and the only way out is to see that men and women are concerned with the future with their own hands.

America's Relations
It was recalled in London yesterday that the American Ambassador in Berlin, had an audience with Herr Hitler. Herr von Ribbentrop had also an audience with Herr Hitler. It was recalled in London yesterday that the American Ambassador in Berlin, had an audience with Herr Hitler.
